Glossary/ Abbreviations

AM Peak	The four hour period between 6.00am to 10.00am Monday to Friday
AS	Australian Standard
AustRoads	AustRoads is the collective of the Australian and New Zealand transport agencies, representing all levels of government. AustRoads publishes a range of guides which cover the design, construction, maintenance and operation of the road network in Australia and New Zealand
BC	Bayside Council
CEMP	Construction Environmental Management Plan
CGU JV	CPB Contractors, Ghella and UGL Joint Venture
CPAS	Construction Parking and Access Strategy (this document)
CMP	Construction Management Plan
CSSI	Critical State Significant Infrastructure (SSI-8931)
Heavy Vehicle	Defined in the Heavy Vehicle National Law (HVNL) as a vehicle that has a gross vehicle mass 9GVM) or aggregate trailer mass (ATM) or more than 4.5 tonnes. The GVM of a vehicle is the maximum it can weigh when fully loaded, as specified by the manufacturer
DPHI	Department of Planning, Housing and Infrastructure
EIS	Environmental Impact Statement
EP&A Act	Environmental Planning and Assessment Act, 1979
GRC	Georges River Council
Local Road	Local Roads comprise those roads not classified under the Roads Act 1993. These roads are the responsibility of Local Government authorities
PM Peak	The four hour period between 3.00pm and 7.00pm Monday to Friday
PMP	Pedestrian Movement Plan
Project	The M6 Stage 1 tunnel and surface works
REMM	Revised Environmental Management Measures
RMS	TfNSW formerly Roads and Maritime Service
ROL	Road Occupancy License
RPS	Resident Parking Scheme
PIR	Preferred Infrastructure Report
School Zone times	1.5 hour periods between 8.00am-9.30am and 2.30pm to 4.00pm school days
SGT	Soft Ground Tunnelling
TfNSW	Transport for New South Wales
TTAMP	Traffic, Transport and Access Management Plan (sub plan of the CEMP)
TTLG	Traffic and Transport Liaison Group

1. Executive Summary

To conduct construction works associated with the M6 Stage 1 Project (including roadworks, tunnelling and active transport corridor), various compounds and workzones need to be established. These areas must be connected to the road network for access and operation. In some cases, the formation of these compounds, workzones and access points will require impacts to existing parking arrangements. Where parking is removed for the construction phase of the project over an extended period, the impacts will be identified in this document. To report on the impact, quarterly reports are generated to report the results of surveys across the impacted network and provided to the Planning Secretary and relevant councils at three monthly intervals.

2. Parking Impact Summary

Parking impacts can be either permanent or temporary. Permanent impacts include circumstances where the parking is removed during construction, but can not be reinstated due to design and safety requirements (e.g. where new signals are required to be installed to facilitate road crossing associated with the ATC). Temporary impacts are generally for construction purposes, after which parking may be re-instated entirely. A summary of the parking loss associated with the construction and operational phases and end state of the project are provided in Table 1 and available parking spaces through the workzone surrounding the Project worksites are provided in Table 2.

For more detail relating to the parking removal, reasoning and impacts refer to Section 8.3 and its sub-sections.

Table 1: Summary of parking impacts

Location	Parking loss	Timing of parking removed	Reinstatement?	Where addressed
President Avenue between Princes Highway and O'Connell Street	157	Apr-22	No – AM and PM clearways with full time No Stopping to be introduced upon construction completion	Section 8 & 9.1
West Botany Street at the C2 construction compound	Approximately 14	Apr-22	Yes – at the completion of the construction phase of the project	Section 8 & 9.3
West Botany Street at the C3 construction compound	Approximately 17-20	Apr-22	Yes – at the completion of the construction phase of the project	Section 8 & 9.3
O'Neill Street	8	Aug-22	No- cul-de-sac works will remove this parking permanently	Section 8 & 9.2
Bicentennial northern car park	28	Mar-22	No – as noted in the approved M6 Stage 1 Recreational Facilities Replacement Plan v1	Section 8 & 8.1
Bicentennial southern car park	118	Mar-22	Yes – every evening and weekend, however, as noted in the approved	Section 8 & 8.1

Location	Parking loss	Timing of parking removed	Reinstatement?	Where addressed
			M6 Stage 1 Recreational Facilities Replacement Plan v1 these facilities do not exist in the end state	
West Botany Street at Muddy Creek	5	May-24	Yes – 20m of parking is replaced at end of construction works	Section 8 & 9.6
Bay Street	6	Apr-22	Yes – Partly for end state	Section 8 & 9.1
West Botany Street SGT	30	Mar-25	Yes – AM and PM tidal Clearways with unrestricted parking outside clearway hours.	Section 8 & 9.2
President Avenue between O'Connell Street and Crawford Road	10	Mar-25	No – removal is part of the end state alignment implementation	Section 8 & 9.1
West Botany Street	3	Mar-25	No – removal is part of the end state alignment implementation	Section 8 & 9.4

3. Parking Impact Strategy

3.1. Context

This Construction Parking and Access Strategy (CPAS or Strategy) has been prepared for the M6 Stage 1 (the Project) to address the requirements of the Minister's Conditions of Approval (MCoA), the M6 Stage 1 Environmental Impact Statement (EIS), the Revised Environmental Management Measures (REMMs) and all applicable legislation.

3.2. Project scope

The scope of works for the design and construction of the Project will include:

- Mainline tunnels approximately 3.0km in length, sized for three lanes of traffic and line marked for two lanes on opening of the motorway
- Entry and exit ramp tunnels approximately 1.5km in length and a tunnel portal connecting the tunnels to a surface intersection with President Avenue
- Provision of a new intersection at President Avenue including the widening and raising of President Avenue at this location
- Upgrade of the President Avenue and Princes Highway intersection to improve capacity and network integration
- Provision of a new shared cycle and pedestrian pathways
- Mainline tunnel stubs for a future connection to extend the Project to the south
- Two motorway operation complexes (MOCs) as follows:
 - ▶ Arncliffe: including mechanical and electrical fit-out of the ventilation facility built by the M8 Motorway project, and provision of a new water treatment plant and substation
 - ▶ Rockdale (south): including a ventilation building, Disaster Recover Site (DRS), substation and power supply.

- A tunnel ventilation system, including ventilation facilities located at Marsh Street, Arncliffe and West Botany Street, Rockdale, and in-tunnel ventilation systems, including jet fans and ventilation ducts
- New Utility Services, and modifications and connections to existing Utility Services
- A permanent power supply connection to the Rockdale Ventilation Facility Site MOC from Ausgrid's Canterbury Sub-Transmission Substation
- Emergency access and evacuation facilities, including pedestrian and vehicular cross, long passages, fire and safety life systems
- Ancillary infrastructure for motorway operations including operations management and control systems, permanent power supply, communications, lighting, electronic toll collection system, toll gantries and traffic control and signage (both fixed and variable signage)
- Drainage infrastructure to collect surface water and groundwater inflows for treatment
- Reinstatement of Bicentennial Park and recreation facilities
- Reinstatement and rehabilitation of construction leased areas within the Arncliffe Site
- Minor adjustments to local roads in the Project area
- Development and implementation of systems integration and operating procedures with WestConnex Motorways to ensure safe operation of the interfaces between the Project and the WestConnex Motorways
- Any other works as required under the D&C Deed and the SWTC.

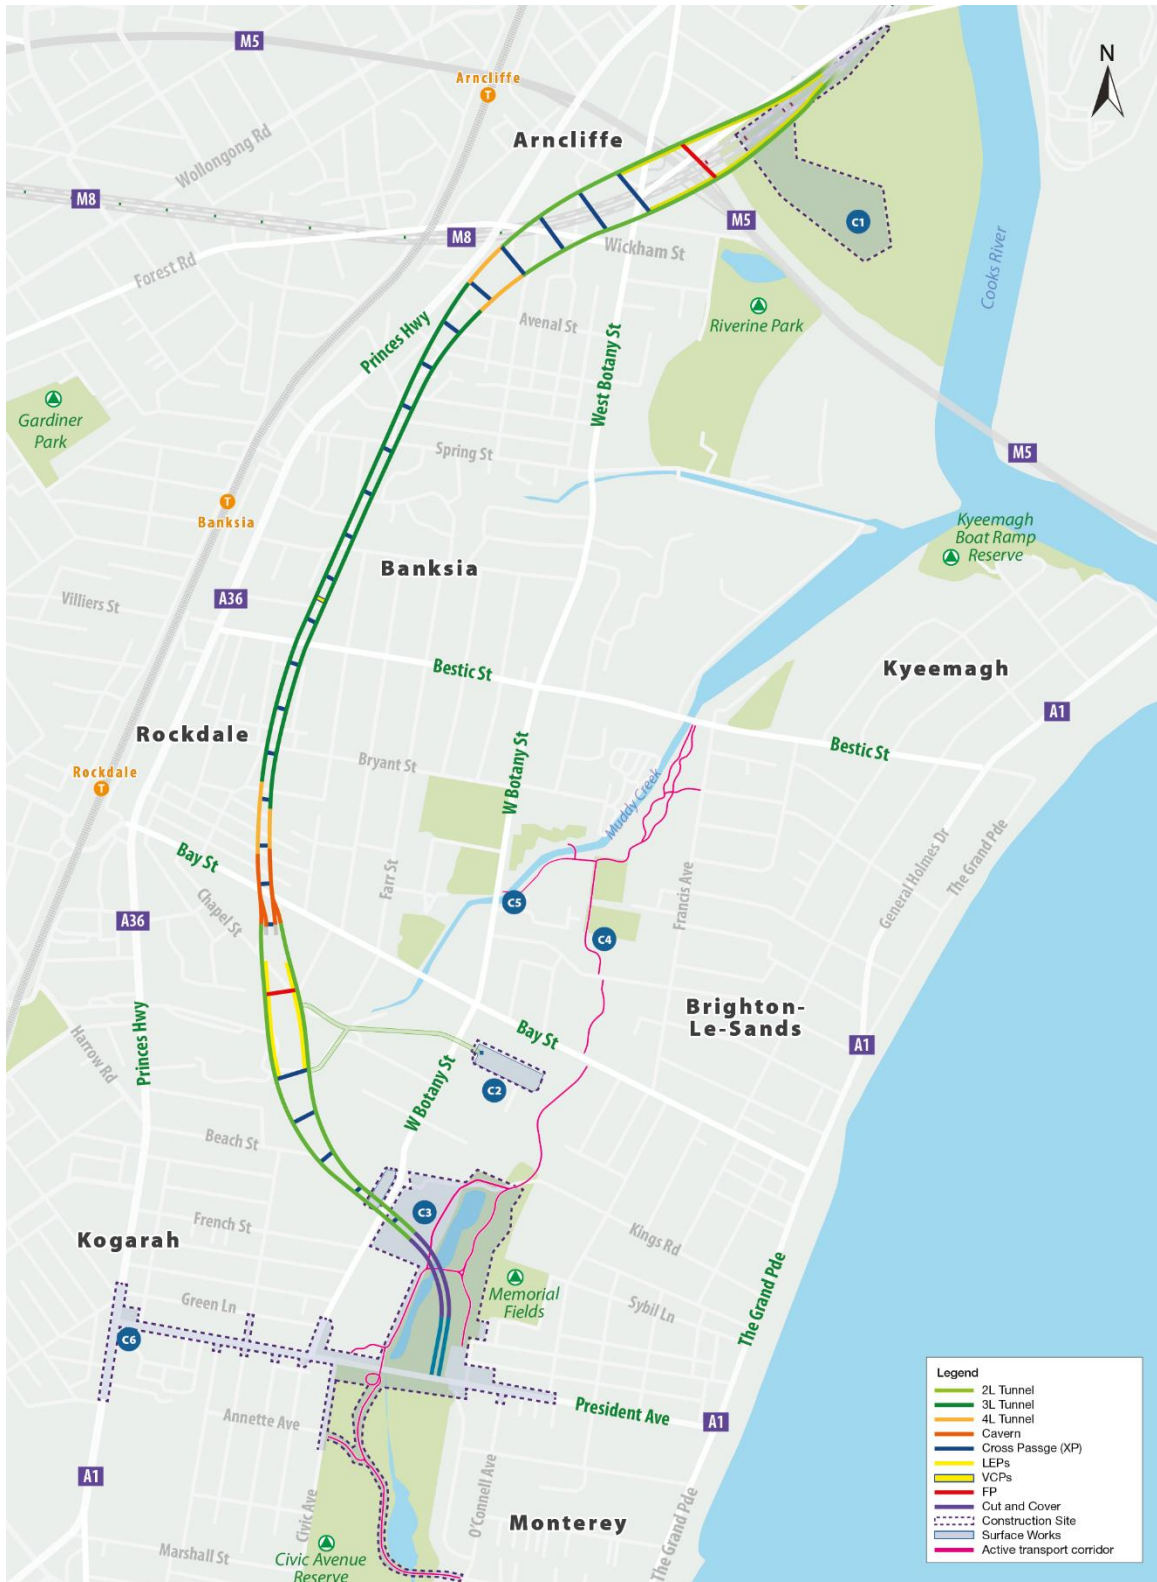

Figure 1: Project location and alignment

3.3. Scope of the Strategy

The scope of this Strategy is to describe how CPB Contractors, Ghella and United Group Limited Joint Venture (CGU JV) will mitigate impacts resulting from removal of on and off-street parking changes during the construction phase of the works. The scope of this Strategy is prescribed by the Minister's Conditions of Approval (MCoA), the M6 Stage 1 Environmental Impact Statement (EIS), the Revised Environmental Management Measures (REMMs) and the Project Plan requirements for the Construction Management Plan.

3.4. Purpose

The purpose of this Strategy is to identify and mitigate impacts resulting from parking changes during the construction phase of the Project. A Construction Parking and Access Strategy for the Preliminary Construction works was provided in the 2nd half of 2021, and has been updated progressively.

3.5. Objectives

The objectives of this strategy are to:

- Determine the existing on and off-street parking capacity in the area surrounding the Project's compounds and work area required for the construction works,
- Identify on and off-street parking required to be removed as part of the construction phase of the Project (long term temporary and permanent)
- Identify the demand for construction and workforce parking, and how this demand could be met to minimise impacts to the surrounding community,
- Outline measures to reduce the demand for workforce parking by encouraging the uptake of public transport, carpooling and active transport, and
- Describe how monitoring and any corrective actions would be implemented to assess the effectiveness of management measures.

3.6. Review and distribution

This Strategy was provided to Bayside Council for review for the construction phase of the Project. The Construction Parking and Access Strategy was submitted to the Secretary of the Department of Planning, Housing and Infrastructure (DPHI) for information prior to the commencement of construction phase works that impact parking.

Any revisions to this Strategy will be in accordance with the process outlined in section 3.1.3 of the CEMP and as required, be provided to TfNSW and other relevant stakeholders for review and comment and forwarded to the Secretary and relevant councils for information.

A

4. Requirements

4.1. Minister's Condition of Approval

The Minister's Conditions of Approval (MCoA) relevant to this Strategy are listed in Table 2 . A cross reference is also included to indicate where the condition is addressed in this Strategy.

Table 2: Relevant Ministerial Conditions of Approval

MCoA	Requirement	How addressed	Strategy reference
E130	A Construction Parking and Access Strategy must be prepared and implemented to identify and mitigate impacts resulting from on and off street parking changes during construction. The Strategy must include, but not necessarily be limited to	This Strategy has been prepared in accordance with this condition and describes how CGU JV will mitigate impacts resulting from on and off street parking changes	This document
E130(a)	Confirmation and timing of the removal of on and off street parking associated with construction (including during site establishment when access to off street parking at construction ancillary facilities has yet to be established)	Current program of works included	Sections 1, Table 1
E130(b)	Parking accumulation surveys (consistent with AustRoads requirements) of parking spaces to be removed to determine current demand during peak, off peak, school drop off and pickup and weekend periods	Parking accumulation surveys were undertaken at the times nominated	Section 8
E130(c)	Consultation with affected stakeholders including property occupants with driveway access along President Avenue between Civic Avenue and Princes Highway, utilising existing on and off street parking stock which will be impacted as a result of construction and impacted by the introduction of temporary clearways on President Avenue	Consultation undertaken has been included in MCoA A5 document	MCoA A5 document
E130(d)	Review of the impacts of changes to and on off street parking stock taking into consideration outcomes of consultation with affected stakeholders	Consultation undertaken has been included in MCoA A5 document	MCoA A5 document
E130(e)	identification of mitigation measures to manage impacts to stakeholders as a result of on- and off-street parking changes including, but not necessarily limited to, staged removal and replacement of parking and provision of alternative parking arrangements	Mitigation measures included	Section 10
E130(f)	Strategies to address shortfalls in car parking spaces at individual construction ancillary facilities and disincentivising construction personnel from parking on the street near work sites instead of further afield at a different construction ancillary facilities where car spaces are available including managed staff parking	Strategies included	Section 10

MCoA	Requirement	How addressed	Strategy reference
	arrangements and working with relevant council(s) to introduce parking restrictions adjacent to work sites and compounds		
E130(g)	Provision of a shuttle bus service(s) to transport workers to site(s) and details of the shuttle bus service(s) including service timing and frequency	Shuttle bus service	Section 10.4.3
E130(h)	Mechanisms for monitoring, over appropriate intervals, to determine the effectiveness of implemented mitigation measures	Monitoring and reporting requirements detailed in this plan	Section 11.1
E130(i)	Provision of contingency measures should the results of mitigation monitoring indicate implemented measures are ineffective and	Contingency measures detailed in this plan	Section 11.3
E130(j)	Provision of reporting of monitoring results to the Planning Secretary and relevant council(s) at three (3) monthly intervals	Monitoring and reporting requirements detailed in this Strategy	Section 11.2
E130(k)	The Construction Parking and Access Strategy must be submitted to the Planning Secretary for information prior to the commencement of any works that impact parking	Distribution requirements included in the relevant section	Section 3.6

4.2. Revised Environmental Management Measures

The Revised Environmental Management Measures (REMMs) relevant to this Strategy are listed in Table 3. A cross reference is also included to indicate where the requirement is addressed in this Strategy.

Table 3: REMMs requirements

REMM#	Requirement	How addressed	Strategy Reference
TT1	A Construction Traffic and Access Management Plan (CTAMP) will be prepared as part of the Construction Environmental Management Plan. The CTAMP will detail processes to minimise delays and disruptions and identify and respond to changes in road safety as a result of project	Traffic and Access CEMP Sub-plan (M6S1-CGU-NWW-ENPE-PLN-000402)	NA
	Propose a car parking strategy for construction staff at the various worksites, prepared in consultation with local council stakeholders associated with any facilities adjacent to the project site		
	The CTAMP will Minimise the loss of on road parking for local residents		

Construction Management Plan

The Construction Management Plan (CMP) also requires the development of a Construction Parking and Access Strategy as an appendix.

Project Plan #	Requirement	How addressed	Strategy Reference
6k)	The Construction Management Plan must include: A Construction Parking and Access Strategy including the measures to minimise impacts on local roads, minimise impacts of on street parking around construction compounds, strategies to address workforce parking and transport to and between construction sites	This Strategy	This Strategy

4.3. Consultation

Consultation on this Strategy was undertaken with the following stakeholders.

4.3.1. Local Council

Consultation was undertaken with Bayside Council (BC) in accordance with MCoA E130(d) and REMM TT1. The consultation included providing an overview of the outcomes of the parking surveys undertaken for the construction compounds and M6 Project works and a discussion of the proposed management and mitigation measures to reduce impacts to stakeholders from on and off street parking changes.

4.3.2. Traffic Control Group

Consultation was undertaken with the Traffic Control Group (TCG), which continues to meet regularly (fortnightly) providing details on the outcomes of the parking surveys and to discuss management and mitigation measures. The TCG group consists of CJP, TMC, TfNSW and emergency services.

4.3.3. Other stakeholders

Initial consultation has been undertaken with residents and businesses as shown on Figure 2 during the development of this Strategy. This consultation was undertaken on the dates listed below. Additional consultation will be undertaken in accordance with the Communication Strategy as the Project Progresses, and through the regular TCG and TTLG meetings:

- 30 November 2021
- 2 December 2021
- 8 December 2021
- 15 December 2021
- 16 December 2021
- 20 December 2021
- 12 January 2022
- 21 January 2022

Figure 2: Residents and businesses consultation undertaken

Other stakeholders through which CGU have ongoing consultation include:

- Linden Sports Centre
- Tafe NSW Kogarah
- Moorefield Girls High School
- James Cook High School
- Brighton Le Sands public school

4.3.4. Communicating changes

CGU JV acknowledges that impacts on parking availability are a concern to the community surrounding the Project. Changes to parking associated with construction of the Project will be communicated to affected stakeholders, (eg: residents and business owners) as outlined in the Communication Strategy. Communication tools include, but not be limited to:

- Letter box drops regarding permanent/ long term temporary and parking removal, construction updates/ newsletters
- Door knocking
- Community information sessions
- Email updates and provision of information on the project website and
- Variable Message Signage (VMS) and/ or static signage

5. Previous arrangements

5.1. Bicentennial Park north carpark

CGU, Bayside Council and TfNSW have agreed on the provision of 28 parking spaces to be made available to the community in the existing northern car park. These spaces are proposed to be timed restricted as noted on Figure 3 - 7 spots as 30-minute parking between 7AM and 6PM and then revert to 2P to 10PM All days. The other remaining spots to be 2P 7AM-10PM all days.

Bicentennial Park north carpark

Figure 3: Bicentennial Northern Car park changes

5.2. Bicentennial Park south car park

CGU, Bayside Council and TfNSW have agreed that CGU will occupy available spaces within the Bicentennial Park south car park, during the hours of 0700-1800 Monday to Friday. Parking surveys of this parking area and the results of this show that there is little to no occupation of the car park area at all times

5.3. President Avenue timed parking between Oakdale and Moorefield avenues

As part of the construction works, all parking on President Avenue between Princes Highway and O'Connell Street will be removed for the duration of the works. This parking is typically unrestricted with three (3) small sections of timed restricted parking available at the following locations:

- President Avenue south side between Oakdale Avenue and Moorefield Avenue – 1PM 930AM-3PM Monday to Friday (7 spaces)
- President Avenue south side between Oakdale Avenue and Moorefield Avenue – Mail Zone (1 service vehicle)
- President Avenue north side between Cross Street and West Botany Street – 1P 830AM-6PM Monday to Friday and 830AM-1230PM Saturday (4 spaces)

Bayside Council have agreed to the relocation of timed parking between Oakdale Avenue and Moorefield Avenue onto Warren Avenue and Moorefield Avenue along the park reserve, providing 14 spaces. Both Bayside Council and Australia Post have agreed to the relocation of the Mail Zone to Oakdale Avenue replacing the existing timed parking between President Avenue and Warren Avenue (2 spaces). The agreements and revised parking arrangements are provided in Appendix A.

Discussion was held with Bayside Council on providing alternate parking for the loss of the four (4) timed restricted spaces on the northern side of President Avenue between Cross Street and West Botany Street outside President Avenue Fruit World, however, Fruit World has significant onsite parking availability, refer to Figure 4, and this relocation of the 1P parking area was not further pursued.

Figure 4: Fruit World onsite parking area from Greens Lane

5.4. Streets surrounding President Avenue

Bayside Council have requested the installation of linemarking to highlight the existence of driveways in Lachal Avenue, Traynor Avenue, Oakdale Avenue, Moorefield Avenue, Civic Avenue, Cross Street between President Avenue and Green Street and Green and French streets between West Botany Street and Cross Street. These works were undertaken in April 2022.

5.5. Site compounds establishment

West Botany Street and Bay Street are regional roads managed and maintained by Bayside Council. There are several pre-existing signalised intersections localised to the M6 project works to include:

- 1335 – West Botany Street and President Avenue intersection
- 3298 – West Botany Street and Rockdale Plaza Drive intersection
- 0204 – West Botany Street and Bay Street intersection
- 2978 – Bay Street and Crawford Road intersection

The signalised intersections are managed by TfNSW. As a requirement of the intersections, a 20m No Stopping is required on all approaches and departures of each intersection.

The establishment of compounds and signalised intersections across the network to include signalised intersections at C2 and C3 ,Bay Street, Muddy creek and Marsh Street may require the removal of parking for access driveways. Signalised intersections will require removal of approx. 80m of kerbside parking at each signalised intersection where unsignalised access driveways will require 20-40m of parking.

Compounds which impact parking are:

- C2 – Signalised intersection at West Botany Street between bay Street and Rockdale Plaza Drive
- C3 – Signalised intersection at West Botany Street between President Avenue and Rockdale Plaza Drive
- C5 - Muddy Creek – unsignalised driveway at West Botany Street between Muddy creek and Bryant Street
- Bay Street – unsignalised driveways at Bay Street between Aero Street and England Street

The establishment of these compounds, signalised intersections and future ATC corridor impacts has been through LTC at bayside council and have agreed to the below:

- West Botany Street parking will be returned to previous on completion of the project and removal of the C2 and c3 signals

- Muddy Creek kerbside parking will be returned with the exception of a section of parking impacted by the end state ATC Local Area Works (LAW)

6. Construction overview

6.1. Project construction works

The Project main surface works are:

- Entry and exit ramp tunnels approximately 1.5km in length and a tunnel portal connecting the tunnels to a surface intersection with President Avenue
- Provision of a new intersection at President Avenue including the widening and raising of President Avenue at this location
- Upgrade of the President Avenue and Princes Highway intersection to improve capacity and network integration
- Utility works along Princes Highway between Rocky Point Road and Green Street and President Avenue between Princes Highway and Crawford Road
- Provision of new shared cycle and pedestrian pathways
- Motorway Operations Complexes at Arncliffe and Rockdale

To facilitate these construction works, the on street parking along President Avenue between the Princes Highway to east of Crawford Road was removed in March 2022.

6.2. Construction compounds

The construction compounds of C1, C2 and C3 were established during the preliminary construction phase of the project. Activities to be undertaken during the construction phase at these compounds include:

- C1 – Marsh Street, Arncliffe:
 - ▶ No further changes to the road network required
 - ▶ Establishment of temporary noise attenuation measures including construction of an acoustic shed
 - ▶ Tunnel excavation and other tunnelling works
 - ▶ Stockpiling of excavated material and spoil haulage
 - ▶ Mechanical and electrical services within the tunnel and fit out of the tunnel with additional infrastructure
 - ▶ Construction of a substation and water treatment facility
 - ▶ Finishing works including asphaltting, lighting, line marking, utilities and signage installation
 - ▶ Rehabilitation and/ or landscaping of areas that will not be occupied by permanent operational infrastructure
- C2 – TfNSW depot on West Botany Street
 - ▶ Installation of traffic signals to facilitate vehicle movements
 - ▶ No Stoppings Zone to facilitate the signals
 - ▶ Support of the ongoing investigation and survey to inform design and construction
 - ▶ Establishment of temporary noise attenuation measures including construction of an acoustic shed
 - ▶ Construction of the decline tune
 - ▶ Civil tunnel fit out works including pavement and drainage works
 - ▶ Mechanical and electrical services within the tunnel and fit out of the tunnel with additional infrastructure
 - ▶ Tunnel excavation and other tunnel works as well as stockpiling of excavated material and spoil haulage
 - ▶ Pavement works including asphaltting, lighting, line marking and signage installation for the internal access road
 - ▶ Reconfiguration of the site to enable ongoing/ future use for maintenance activities
 - ▶ Rehabilitation and landscaping

- C3 – Bicentennial Park on West Botany Street and President Avenue
 - ▶ Installation of traffic signals on West Botany Street to facilitate vehicle movements
 - ▶ No Stoppings Zone to facilitate the signals
 - ▶ Cut and cover works for the entry and exit ramps and the tunnel portal
 - ▶ The new intersection with President Avenue
 - ▶ The Active Transport Link through Bicentennial Park and over President Avenue
 - ▶ The upgraded intersection of President Avenue/ Princes Highway
 - ▶ The reinstatement of Rockdale Bicentennial Park, water body and facilities
- C4 and C5 – Active Transport Link at Bruce Street and off West Botany Street, Brighton-le-Sands:
 - ▶ Updates to the pedestrian crossing facilities to connect the shared pathway facilities on the western verge and new ATC corridor
 - ▶ No Stopping Zone to accompany the new unsignalised crossing
 - ▶ Vegetation clearing and removal, topsoil stripping areas and landform shaping
 - ▶ Excavation of spoil and removal off site
 - ▶ Provision of utilities for lighting
 - ▶ Concrete formation and concrete pathway pouring
 - ▶ Finishing works including lighting, line marking and signage installation
- C6 – Corner of Princes Highway and President Avenue
 - ▶ Addition of dual turning lanes onto President Avenue
 - ▶ Relocation of utilities, stormwater infrastructure and substation
 - ▶ Laydown and parking of construction vehicles and equipment
 - ▶ Pavement works along Princes Highway and President Avenue
 - ▶ Rehabilitation and landscaping

7. Parking survey methodology

Parking accumulation surveys in accordance with MCoA E130, consistent with AustRoads, were undertaken between Saturday, 20th November through to Friday, 26th November 2021. Inclusive. The weekday surveys were undertaken during the AM Peak, School Drop off, Off peak, School pick up and PM peak. The weekend surveys were undertaken hourly between the hours of 9AM and 4PM Saturdays and Sundays.

7.1. Survey locations

Surveys were conducted in the Rockdale/ Kogarah area, as noted in Table 4 and as highlighted on Figure 5, below.

Table 4: Rockdale/ Kogarah survey locations

Location	From	To
Bay Street	Aboukir Street	England Road
West Botany Street	President Avenue	Bay Street
Bermill Street	West Botany Street	End
Lindsay Street	West Botany Street	End
Baxter Avenue	Princes Highway	Cross Street
Baxter Lane	Cross Lane	Cross Street
French Street	West Botany Street	Princes Highway

Rockdale Ilinden Sports Centre parking area	Bicentennial Park	
Bicentennial Park South	Parking area	
Multi storey car park (open to public)	West Botany Street	Lindsay Street

Figure 5: Rockdale/ Kogarah survey area

7.2. Calculating parking occupancy

Parking occupancy is defined as the ratio of number of occupied car spaces to the total number of spaces available. To determine the number of spaces available, the number of available parking spaces was counted and all parking controls/ restrictions (ie: unrestricted, timed, disabled parking, loading zones etc) were recorded. To determine the number of occupied spaces, the number of parked vehicle in each street were recorded over a defined survey period.

$$\text{Parking occupancy (\%)} = \frac{\text{number of parked cars}}{\text{Number of parking spaces}}$$

8. Parking survey results

8.1. Existing conditions

To ascertain the impact of removal of the current on street parking within the Rockdale/ Kogarah survey area, the existing parking restrictions have been identified and are shown on Figure 6 and Figure 7.

A breakdown of the parking spaces available for each location and for each restriction is provided in Appendix A.

The main workzone parking impacts are observed along President Avenue between Princes Highway and Crawford Road and West Botany Street between Bay Street and President Avenue. There is minimal impact to parking outside of this immediate workzone, but with some minor impacts expected as the ATC is constructed. The focus of the parking survey was the most impacted roadways and surrounding area local to the removed parking.

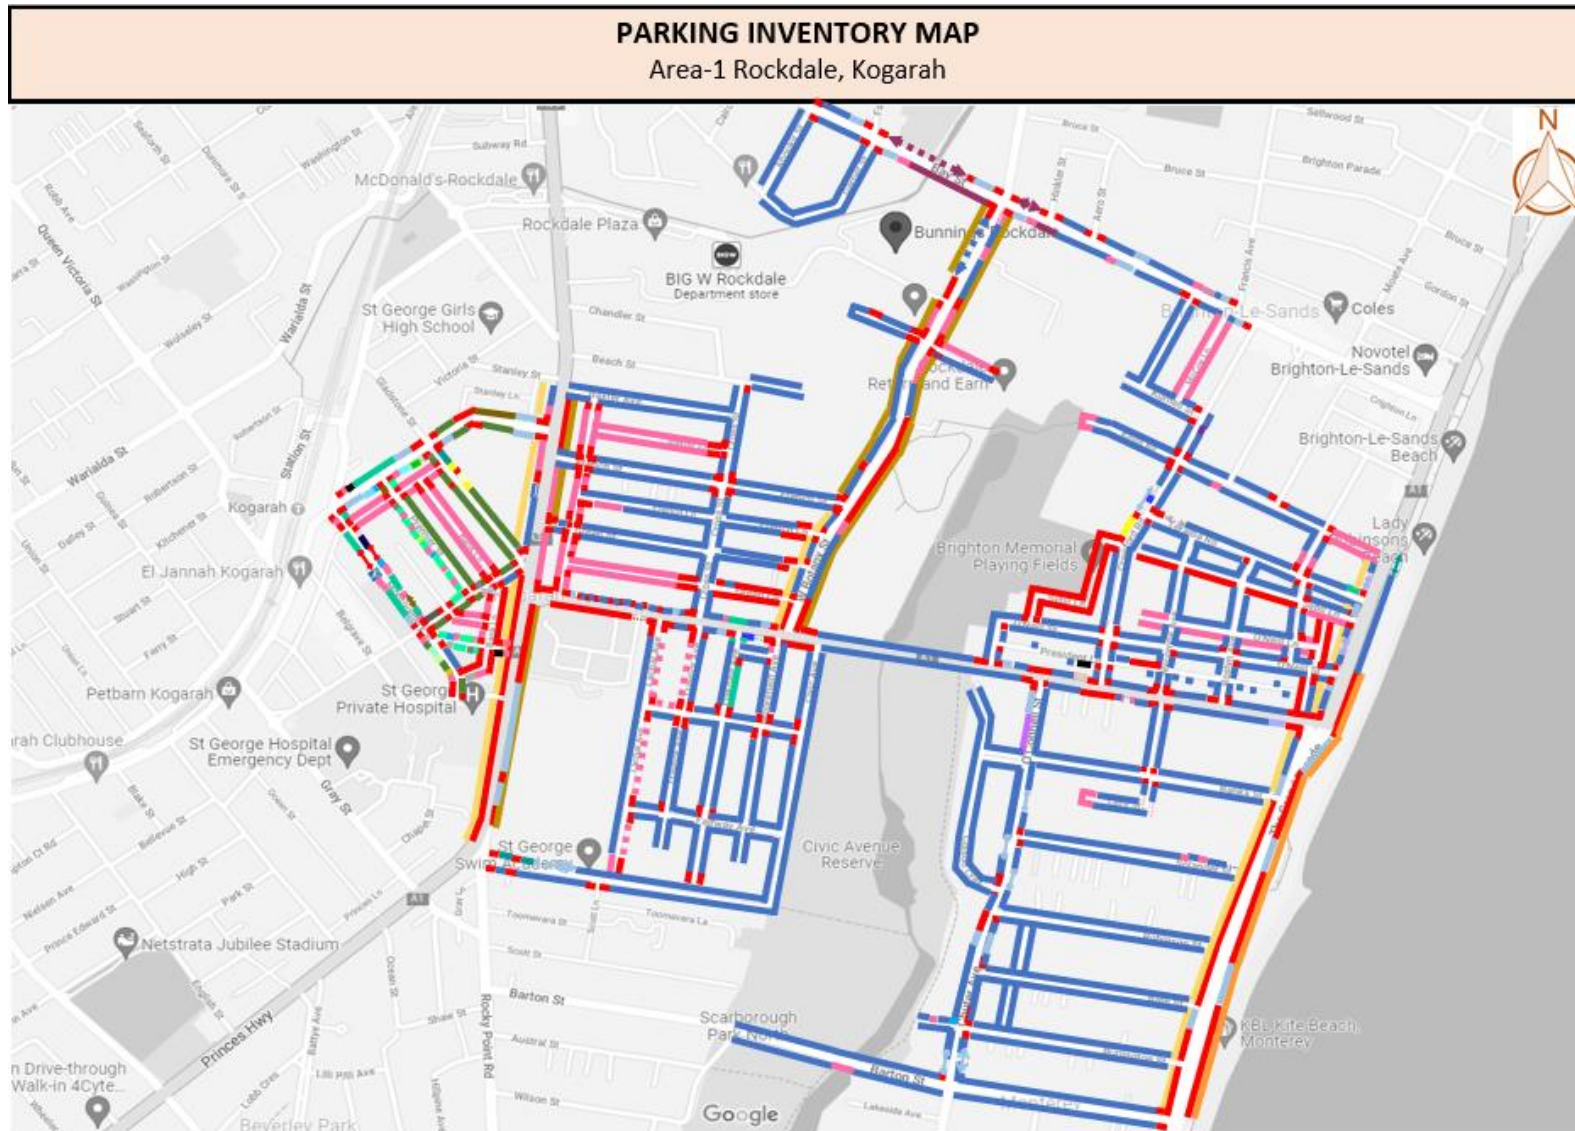

Figure 6: Rockdale/ Kogarah parking restrictions:

Figure 7: Legend for Rockdale/ Kogarah parking restrictions

8.2. President Avenue existing parking

The number of unrestricted spaces available along President Avenue is provided in Table 5.

Table 5: President Avenue unrestricted parking spaces

Side of street	From	To	Spaces available
North	Cross Lane	Cross Street	27
North	Cross Street	West Botany Street	10
North	West Botany Street	O'Neill Street	54
North	O'Neill Street	Crawford Road	14
North	Crawford Road	Wycombe Avenue	13
North	Wycombe Avenue	Roslyn Avenue	13
North	Roslyn Avenue	The Grand Parade	16
Total north side			147
South	Lachal Avenue	Traynor Avenue	5
South	Traynor Avenue	Oakdale Avenue	2
South	Oakdale Avenue	Civic Avenue	0
South	Civic Avenue	O'Connell Street	55
South	O'Connell Street	Wycombe Avenue	14
South	Wycombe Avenue	The Grand Parade	29
Total south side			105

The implementation of 'No Stopping' areas is required to allow the works to proceed between Princes Highway through to Crawford Road. There may be some requirement to temporarily remove parking through to Crawford Road during short term works.

For locations east of Crawford Road, highlighted in Table 5, the existing parking stock will be retained, this includes parking between Crawford Road and The Grand Parade on the northern side (42 spaces) and O'Connell Street and The Grand Parade on the southern side (43 spaces).

During construction, the number of impacted unrestricted spaces on President Avenue will be approximately 157, with 4 time restricted spaces. Impact commenced in late 2021 as construction works commenced and a selection of parking to be returned at end of construction.

To understand the geographical impact on parking, President Avenue has been zoned as follows:

Table 6: President Avenue zoning and average occupancy rates

Zone	Side	From	To	Unrestricted spaces	Weekday average parking occupancy%	Weekend average parking occupancy%
A1	North	Crawford Road	O'Neill Street	14	36%	30%
A2	North	O'Neill Street	West Botany Street	54	15%	14%
B1	North	West Botany Street	Cross Street	10	62%	72%
B2	North	Cross Street	Cross Lane	27	77%	78%
A1	South	O'Connell Street	Civic Avenue	55	3%	3%
B1	South	Oakdale Avenue	Traynor Avenue	2	10%	0%
B2	South	Traynor Avenue	Lachal Avenue	5	78%	23%
B3	South	Lachal Avenue	Princes Highway	3	41%	35%

Note that zone B3 South is restricted during the afternoon peak period (No Stopping 330PM-630PM Monday to Friday) and is unrestricted outside of these times and therefore has been included as part of this survey for completeness.

It can be seen from Table 6 and shown graphically on Figure 8, the highest occupancy rates occur to the west of West Botany Street particularly on the northern side of President Avenue between West Botany Street and Cross Lane having similar weekday and weekend average occupancy rates.

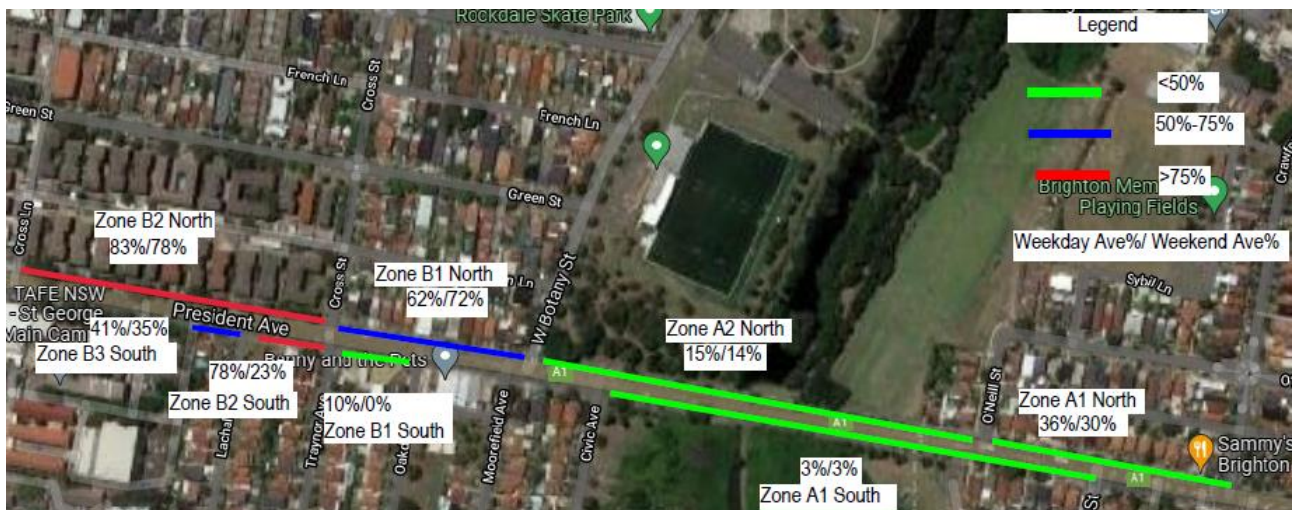

Figure 8: Graphical representation of average occupancy rates along President Avenue

Table 7: President Avenue parking occupancy per zone

Zone	Time period	Time assessed	Occupied spaces	Unoccupied spaces	Total spaces	Average Parking Occupancy%
A1 North	AM peak	Weekdays 6AM-10AM	6	8	14	41%
	School drop off	Weekdays 8AM-10AM	5	9		38%
	Off peak	Weekdays 10AM-3PM	4	10		28%

	Off peak	Weekdays 10AM-3PM	2	1		60%
	School pick up	Weekdays 2PM-4PM	.5	2.5		17%
	PM peak	Weekdays 3PM-7PM	0	3		0%

8.3. West Botany Street existing parking

The number of parking spaces available in west Botany Street is tabled below. To understand the geographical impact on parking, the below table identifies the existing occupancy for each section of roadway:

Table 8: West Botany Street parking spaces occupancy

Side of street	From	To	Spaces available ¹	Weekday Avg Occupancy % (#)	Weekend Avg Occupancy % (#)
West	Lindsay Street	French Street	35	19% (7)	13% (5)
West	French Street	French Lane	5	0% (0)	0% (0)
West	French Lane	Green Street	6	17% (1)	0% (0)
West	Green Street	Green Lane	6	0% (0)	0% (0)
West	Green Lane	President Avenue	3	0% (0)	0% (0)
Total west side			55	15% (8)	9% (5)
East	Bryant St	Bay Street	10	8% (1)	17% (2)
East	Bay Street	Bermill Street	12	67% (8)	25% (3)
East	Bermill Street	Bicentennial Car Park South	20	40% (8)	20% (4)
East	Bicentennial Car Park South	President Avenue	28	0% (0)	0% (0)
Total east side			70	28% (17)	15% (9)

*Parking between Rockdale Plaza Dr is permitted after 7pm only.

Note that southbound (east) is subject to 3pm-7pm clearways and northbound (west) is subject to 6am-10am clearways occupancy rates are calculated outside of these times.

The installation of 'No Stopping' is required for the implementation of signals at C2 and C3. This will include 20m on all approaches and departures for each signal intersection. This impact commenced with initial construction, and additional parking removal was required for Gasmain works at the C3 compound and Soft Ground Tunnelling works (SGT) further described through this document. Parking loss associated with the ATC works at Muddy creek will be implemented during construction and be partly reinstated post construction. Parking outside of this will be unimpacted. It can be seen from Table 8 and shown graphically on Figure 9: West Botany Street occupancy rates, the highest occupancy rates occur on the eastern verge between Bay Street and Bermill Street.

Figure 9: West Botany Street occupancy rates Bay Street to President Avenue

Figure 10: West Botany Street Muddy creek occupancy rates

9. Parking removal and parking availability summary

Parking on President Avenue has been, and will be, impacted by M6 Stage 1 roadworks, both from construction and to cater for the future M6 portal. Parking on West Botany Street has been impacted with the establishment of signalised compound intersections at C2 and C3 and additional impacts will be anticipated from SGT works and Gasmain works adjacent to the C3 compound. Additionally, parking will be affected in the surrounding network for works associated with the Active transport corridor, tunnelling compounds, "satellite" compounds and Utility and service works. This parking is mixed between construction/temporary removal and permanent removal. The following sub-sections summarise the parking impacts and evaluate the surrounding areas capability to cater to the additional parking requirements.

Analysis has been undertaken to provide an understanding of the unrestricted parking availability in streets surrounding President Avenue that are not impacted by the works. Analysis of parking availability includes within:

- 100m of President Avenue
- 200m of President Avenue
- 300m of President Avenue

- 400m of President Avenue and
- 500m of President Avenue

It should be noted that in some instances, where whole numbers are not provided in the following tables this may be due to:

- Motorcycle parking
- Car and trailer parking
- Motorcycle and trailer parking
- Truck and trailer parking
- Semi-trailer parking
- Other plant parking
- Area blocked by traffic cones

9.1. President Avenue parking impacts

The works along President Avenue include utility works on both sides of President Avenue including the installation of longitudinal utilities such as communications, water main, power and sewer. Pavement widening works will occur on the southern side of President Avenue between Princes Highway and O'Connell Street and widening and interchange works on the northern side of President Avenue between West Botany Street and O'Neill Street. This will also impact the parking on O'Neill Street with the conversion to a site access and later to a Cul de Sac. President Avenue was divided into zones to evaluate the impact to parking and to assess the capacity of the surrounding parking to cater for any overflow.

An estimated 157 unrestricted and 4 time restricted spaces (161 total) parking spaces would be impacted along President Avenue during the Project. Initial removal of parking was from Princes Highway to O'Connell Street with further parking between Crawford Road and O'Connell Street removed later prior to road opening (final state parking loss). Additional parking loss occurred on O'Neill Street to develop the Cul de Sac. These impacts are summarised below.

9.1.1. Zone A1 North parking removal

Zone A1 North is located on President Avenue between Crawford Road and O'Neill Street on the northern side of President Avenue. Zone A1 North contains 14 unrestricted parking spaces, 4 located between O'Neill Street and opposite O'Connell Street intersection and 10 located between opposite O'Connell Street and Crawford Road. location of the unrestricted parking spaces removed is shown on Figure 11.

Figure 11: Zone A1 North parking removal

9.1.2. Zone A2 North parking removal

Zone A2 North is located on President Avenue between O'Neill Street and West Botany Street on the northern side of President Avenue. Zone A2 North contains 54 unrestricted parking spaces. The occupancy rate 15% on average during weekdays (8 spaces occupied) and 14% on average on weekends (8 spaces). Given the low occupancy rates on this section, the surrounding street system can adequately cater for this displacement.

Figure 12: Zone A2 north parking removal

Parking occupancy for Zone A1 and A2 North are provided in Table 9. The surrounding street system can adequately cater for those displaced parking spaces.

Table 9: Zone A1 and A2 North surrounding parking availability

Street	Between	Metres from President Avenue	# of space	Weekday average occupancy %	# of spaces available	Weekend average occupancy %	# of spaces available
O'Neill Street	President Avenue to Crawford Road	<100m	55 ²	43%	21	35%	26
President Lane	O'Neill Street to Crawford Road	<100m	2	55%	1	64%	.5
Crawford Road	President Avenue to O'Neill Street	<100m	12	50%	6	33%	8
Crawford Road	O'Neill Street to Sybil Lane (west side only)	<300m	19	65%	7	61%	7
Crawford Road	O'Neill Street to Teralba Road (east side only)	100m-365m	21	50%	10	41%	12
Crawford Road	Teralba Road to Kings Road (east side only)	365m-480m	8	88%	1	90%	1
Kings Road	Crawford Road to end of road	500m	33	75%	8	76	8
Total Spaces			150		54		62.5

9.1.3. Zone B1 North parking removal

Zone B1 North is located on President Avenue between West Botany Street and Cross Street on the northern side of President Avenue. Zone B1 North contains 10 unrestricted parking spaces and 4x 1P spaces outside of Fruit World, as noted previously, refer to section 5.

The number and location of the unrestricted parking spaces removed is shown on Figure 13.

Figure 13: Zone B1 North and Zone B2 parking removal

Parking occupancy for Zone B1 North are provided in Table 10.

Table 10: Zone B1 North surrounding parking availability

Location	Between	Metres from President Avenue	# of spaces	Weekday average occupancy%	# of spaces available	Weekend average occupancy%	# of spaces available
Green Lane	Cross Street to West Botany Street	<100m	2	85%	0	100%	0
Green Street	Cross Street to West Botany Street	<200m	35	59%	14	58%	15
French Lane	Cross Street to West Botany Street	210m	25	39%	15	31%	17
French Street	Cross Street to West Botany Street	<300m	47	53%	22	67%	15
Total spaces			109		51		47

Noting that there are 10 unrestricted spaces and 4 x 1P to be removed for the duration of the works the surrounding street system can adequately cater for those displaced parking spaces. It should be noted that the time restricted spaces are located outside of President Avenue Fruit World. There are a number of parking spaces available on site for customers to use.

9.1.4. Zone B2 North parking removal

Zone B2 North is located on President Avenue between Cross Street and Cross Lane on the northern side of President Avenue. Zone B2 North contains 27 unrestricted parking, as noted on Figure 13.

Parking occupancy for Zone B2 North is provided in Table 11.

Table 11: Zone B2 North surrounding parking availability

Location	Between	Metres from President Avenue	# of spaces	Weekday average occupancy%	# of spaces available	Weekend average occupancy%	# of spaces available
Green Street	Cross Street to Cross Lane	<200m	65	89%	12	82%	7
French Lane	Cross Street to Cross Lane	210m	31	36%	20	40%	19
French Street	Cross Street to Cross Lane	<300m	61	85%	9	90%	6
French Street	Cross Lane to Princes Highway	<300m	12	87%	2	73%	3
Baxter Avenue	Princes Highway to Cross Street	420m	72	75%	18	84%	12
Total spaces			241		61		47

Noting that there are 27 unrestricted spaces to be removed for the duration of the works the surrounding street system can adequately cater for those displaced parking spaces. It should be further noted that all President Avenue residents have onsite parking available.

9.1.5. Zone A1 South parking removal

Zone A1 South is located on President Avenue between O'Connell Street and Civic Avenue on the southern side of President Avenue. Zone A1 South contains 55 unrestricted parking that have been removed, as noted on Figure 14.

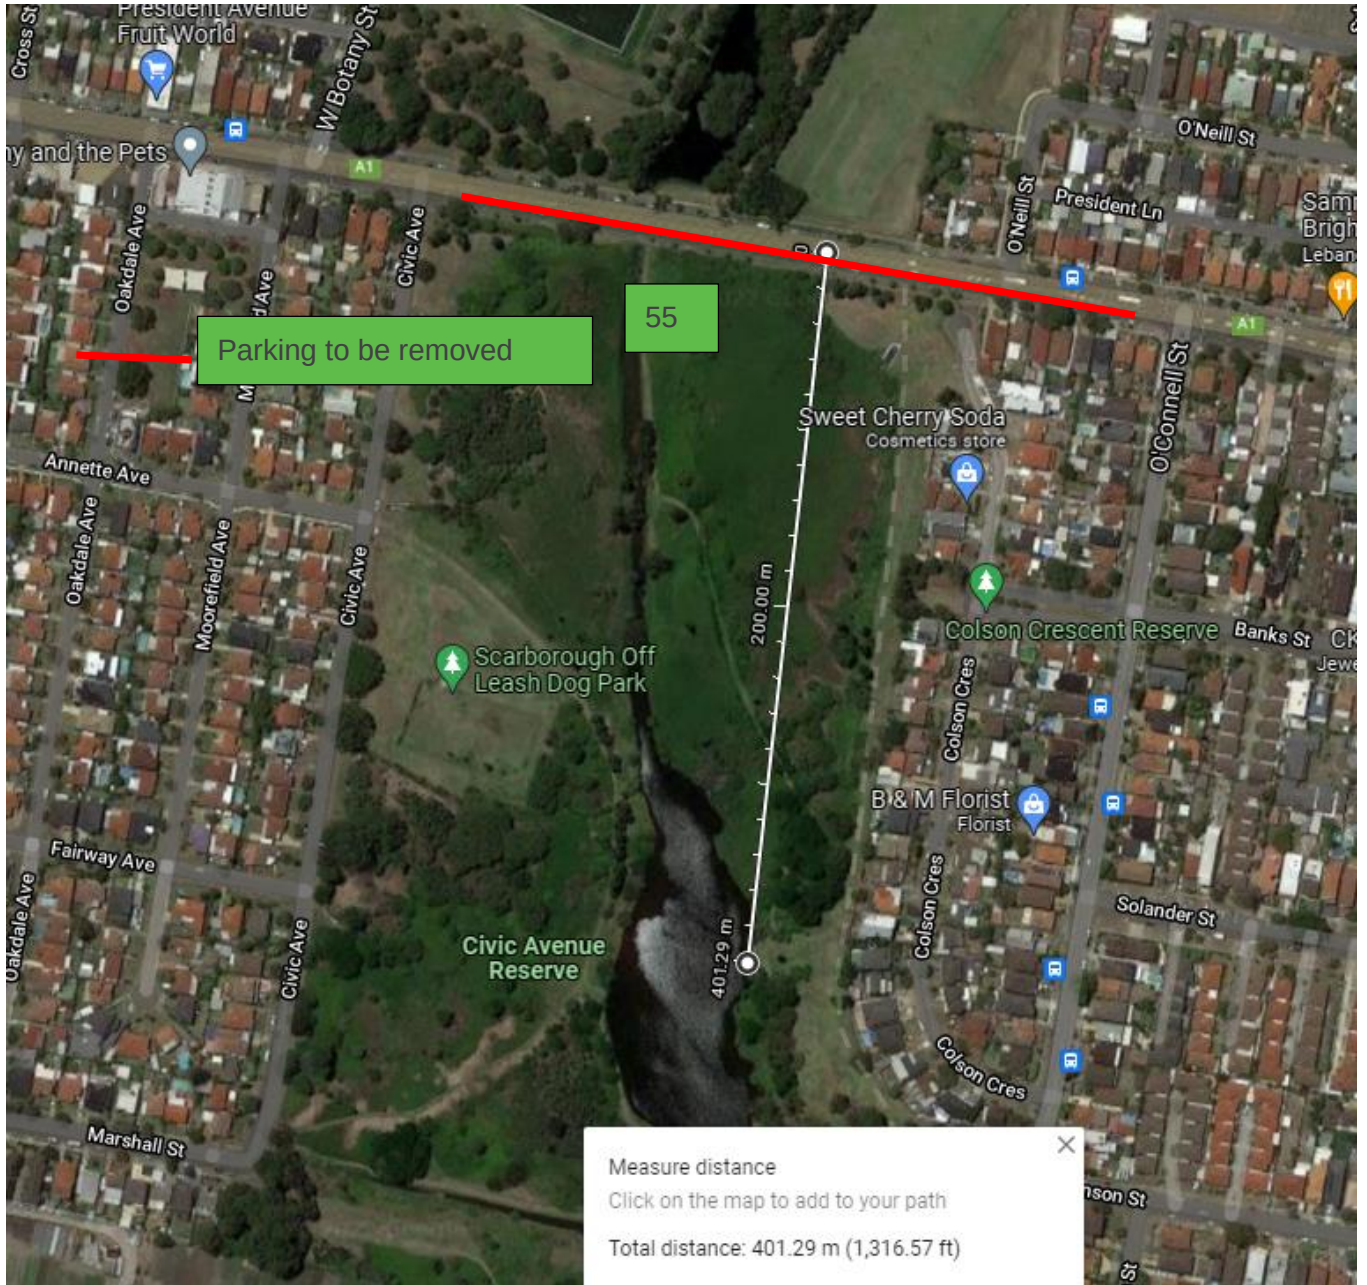

Figure 14: Zone A1 South parking removal

Parking occupancy for Zone A1 South are provided in Table 12.

Table 12: Zone A1 South surrounding parking availability

Location	Between	Metres from President Avenue	# of spaces	Weekday average occupancy%	# of spaces available	Weekend average occupancy%	# of spaces available
Colson Crescent	Banks Street to cul-de-sac	<200m	15	14%	13	24%	11
Colson Crescent	Banks Street to O'Connell Street	<500m	82	26%	61	26%	61
Total spaces			97		74		72

Noting that there are 55 unrestricted spaces to be removed for the duration of the works the surrounding street system can adequately cater for the displaced parking given the low occupancy rate of 3% on average during weekdays and weekends (3 spaces occupied).

9.1.6. Zone B1 South parking removal

Zone B1 South is located on President Avenue between Oakdale Avenue and Traynor Avenue on the southern side of President Avenue. There are no unrestricted parking spaces between Civic Avenue and Oakdale Avenue. Zone B1 South contains 2 unrestricted parking.

Figure 15: Zone B1 south parking removal

Parking occupancy for Zone B1 South is provided in Table 13.

Table 13: Zone B1 south surrounding parking availability

Location	Between	Metres from President Avenue	# of spaces	Weekday average occupancy%	# of spaces available	Weekend average occupancy%	# of spaces available
Warren Avenue	Oakdale Avenue to Moorefield Avenue	30m	10 ³	53%	4	47%	5
Civic Avenue	President Avenue to Annette Avenue	<200m	43	18%	35	18%	35
Moorefield Avenue	President Avenue to Annette Avenue	<200m	24 ⁴	56%	11	47%	13
Oakdale Avenue	President Avenue to Annette Avenue	<200m	10	61%	4	41%	6
Civic Avenue	Annette Avenue to Fairway Avenue	<400m	51	12%	45	20%	41
Moorefield Avenue	Annette Avenue to Fairway Avenue	<400m	39	31%	27	66%	13
Oakdale Avenue	Annette Avenue to Fairway Avenue	<400m	41	37%	26	50%	20
Civic Avenue	Fairway Avenue Marshall Street	<550	35	15%	30	22%	27
Moorefield Avenue	Fairway Avenue to End of Road	<500	11	19%	9	30%	8
Oakdale Avenue	Fairway Avenue to End of Road	<500	25	25%	19	28%	18
Total spaces			289		210		186

Noting that there are 2 unrestricted spaces to be removed for the duration of the works the surrounding street system can adequately cater for the displaced parking given the relatively low occupancy rates during the week and weekends.

9.1.7. Zone B2 and B3 South parking removal

Zone B2 South is located on President Avenue between Traynor Avenue and Lachal Avenue on the southern side of President Avenue. Zone B2 South contains 5 unrestricted parking, as noted on Table 14.

Zone B3 South is located on President Avenue between Lachal Avenue and Princes Highway on the southern side of President Avenue. Zone B3 South contains 3 spaces that are unrestricted outside of 330PM-630PM Monday to Friday, as noted on. Parking occupancy for Zone B2 and B3 South are provided in Table 14.

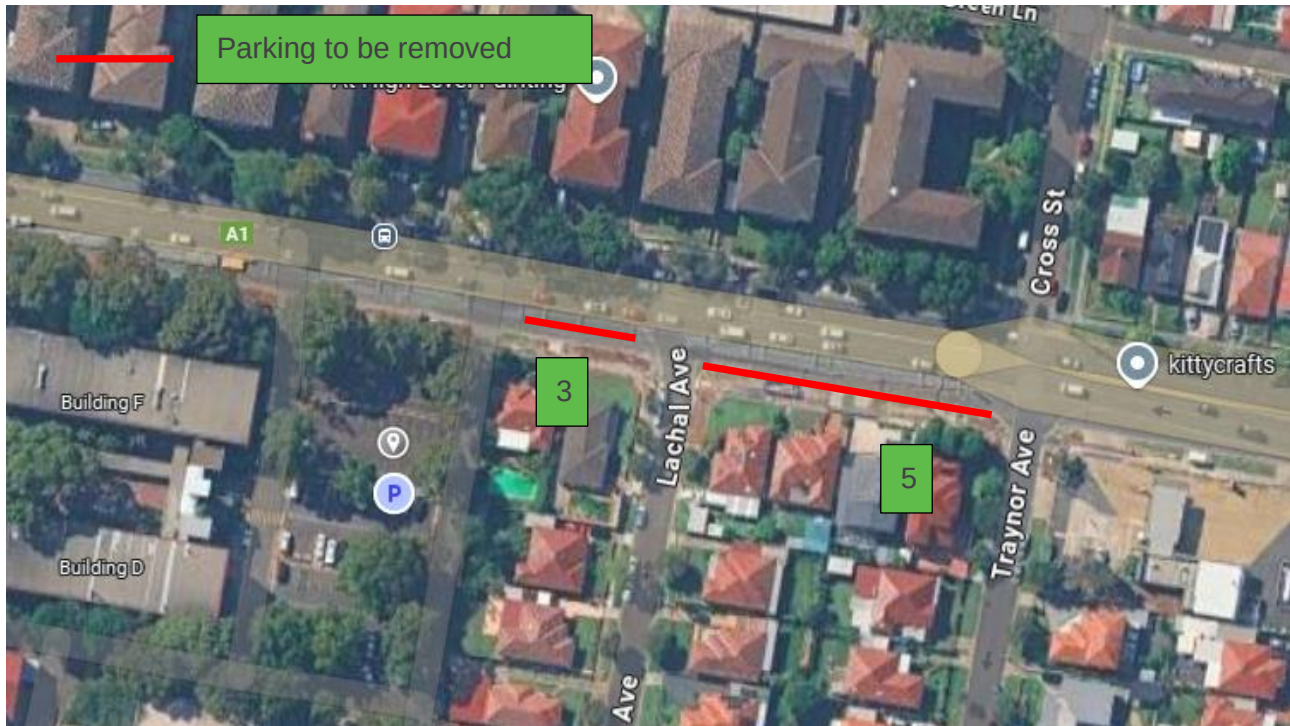

Table 14: Zone B2 and B3 south surrounding parking availability

Location	Between	Metres from President Avenue	# of spaces	Weekday average occupancy%	# of spaces available	Weekend average occupancy%	# of spaces available
Traynor Avenue	President Avenue to Annette Avenue	<200m	18	71%	5	43%	10
Traynor Avenue	Annette Avenue to Fairway Avenue	<400m	42	35%	28	39%	26
Traynor Avenue	Fairway Avenue to End of Road	<500m	9	57%	4	28%	6
Lachal Avenue	President Avenue to End of Road	0-500m	58	74%	15	34%	48
Total spaces			127		52		90

Noting that there are 5 unrestricted spaces removed in zone B2 South and 3 restricted spaces in zone B3 South for the duration of the works the surrounding street system can adequately cater for the displaced parking.

9.2. O'Neill Street

The design for O'Neill Street at President Avenue includes the installation of a cul-de-sac, refer to Figure 16, which removed parking on both sides of O'Neill Street for approximately 20-25m on both sides of O'Neill Street. This resulted in the loss of 8 parking spaces. **Error! Reference source not found.** provides the details on the available parking in the area. Noting that an extra 8 removed for the O'Neill Street cul-de-sac.

The removal of parking on O'Neill Street was completed in mid to late 2022.

This parking will be supplemented by one A1 north availability provided in Table 9.

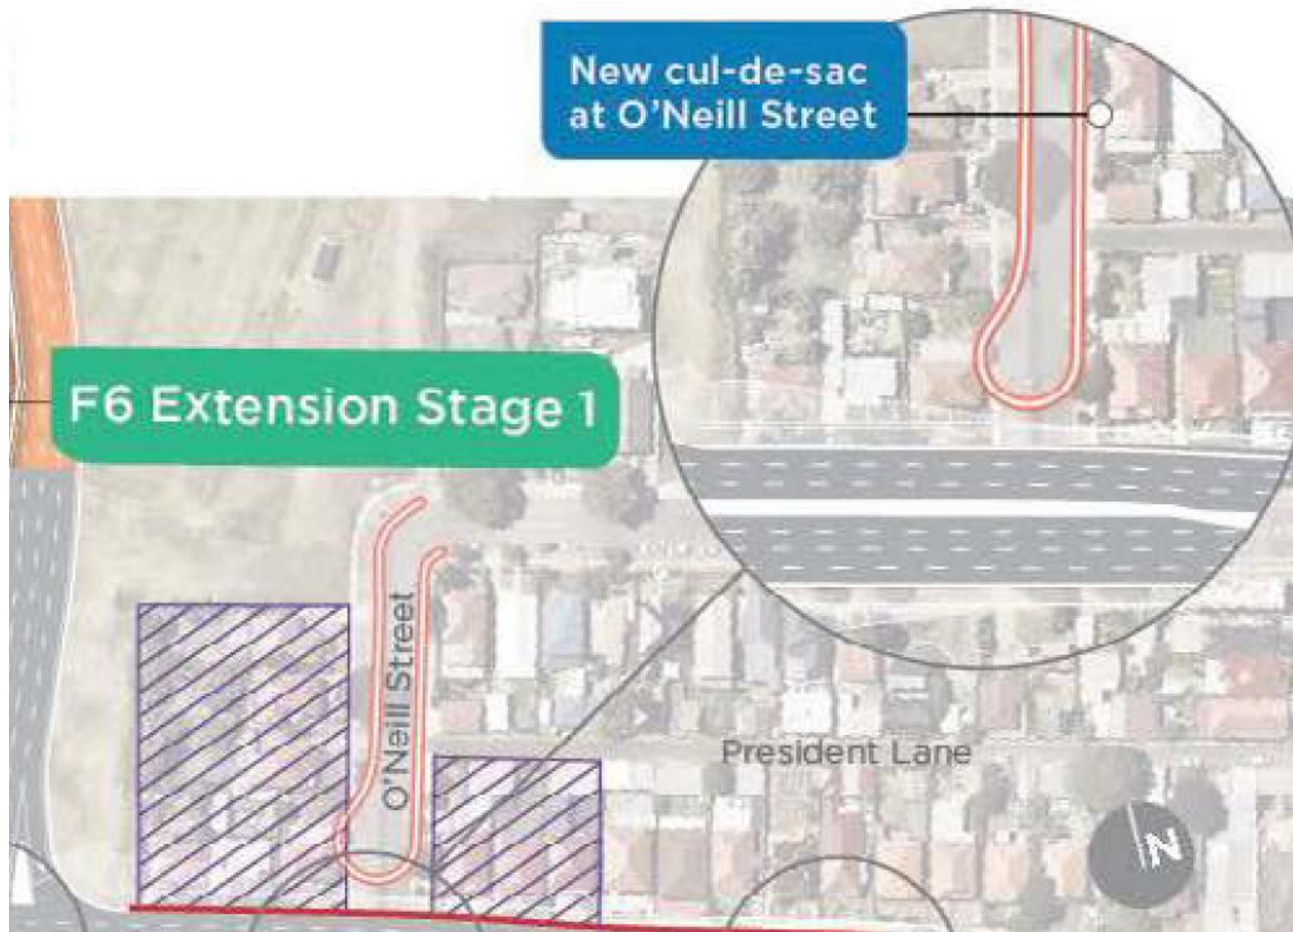

Figure 16: Preferred Infrastructure Report excerpt

9.3. West Botany Street Signals

West Botany Street has an AM Clearway in place on the northbound carriageway between the hours of 6am-10AM Monday to Friday and a PM Clearway in place on the southbound carriageway between the hours of 3PM-7PM Monday to Friday. Outside of these hours, parking is generally unrestricted along West Botany Street other than at signalised intersections and No Parking restriction on the southbound carriageway between Bermill Street and the Northern Council car park where the C3 compound is located and between Lindsay Street and Bay Street on the northbound carriageway where various restrictions including No Stopping are in place for extended periods of time.

The installation of traffic signals associated with the operation of the construction compounds, C2 and C3 saw the installation of No Stopping for approximately 20m either side of West Botany Street at the signal sites, removing any parking that currently is allowed for the duration of the operation of the traffic signals.

9.3.1. Construction Compound 2 (C2 site)

At the C2 site, the existing parking restrictions on the western side of West Botany Street between Rockdale Plaza and Bay Street is currently No Stopping 6AM-7PM with AM Clearway in place. This was converted to full time No Stopping to facilitate the temporary traffic signal operation between April 2022 and mid-2025.

On the eastern side of West Botany Street, at the C2 site, there are 7 parking spaces available outside of the PM Peak Clearway. This area would be converted to full time No Stopping for the duration of the temporary traffic signal operation. It is noted that all businesses and residents have access to off street parking between Bay Street and Bermill Street within their own premises. Indicative parking changes are shown on Figure 17 for the C2 site.

Figure 17: C2 parking changes

9.3.2. Construction Compound 3 (C3 site)

The C3 construction compound, is located on West Botany Street near the Northern Council car park entry. A loss of approximately 7-10 parking spaces on the western side of West Botany Street with approximately 10 spaces removed on the eastern side of West Botany Street adjacent to Bicentennial Park occurred due to the traffic signal installation, as shown on Figure 18.

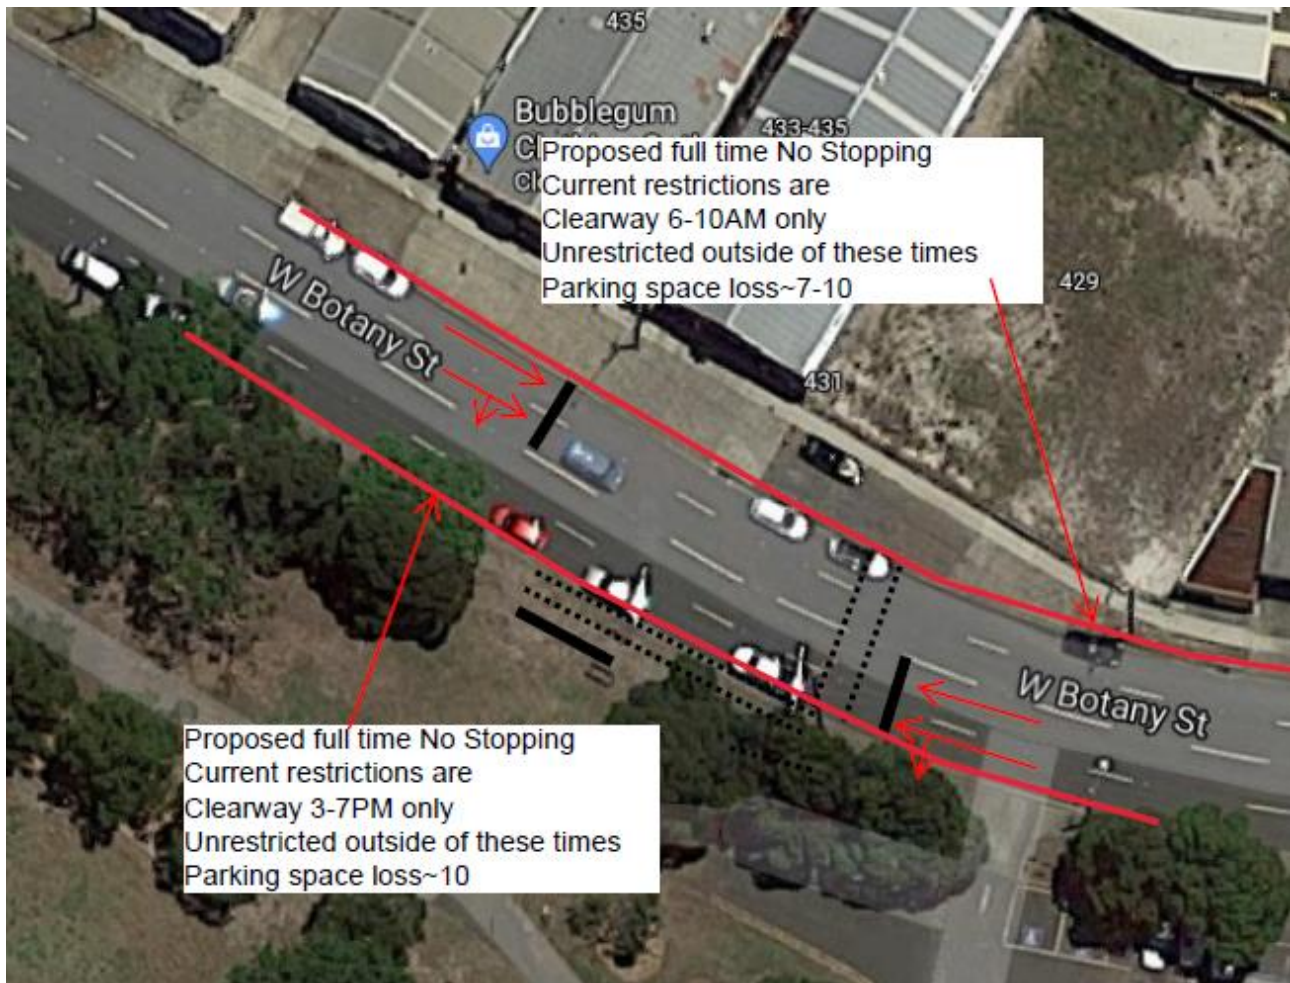

Figure 18: C3 parking changes

To ascertain the impact of the installation of full time No Stopping for the duration of the construction phase, noting that the traffic signals are temporary only, surveys of West Botany Street and the surrounding street system have been undertaken. s occupancy reviews the available parking on West Botany Street outside of nominated clearway hours with the west side of the street subject to AM clearway restrictions whilst the east side of the street is subject to PM clearway restrictions.

The temporary traffic signal operation is occurring between April 2022, and mid/late 2025.

Table 15 identifies the existing parking and available parking after occupancy adjusted from Table 8, Table 16 identifies the updated available parking post parking removal and makes adjustments for occupancies. This shows that there is a significant amount of underutilised parking along West Botany Street.

Table 15: Parking availability pre traffic signal installation

Side of street	From	To	Existing spaces available	Weekday Avg spaces available	Weekend Avg spaces available
West	Lindsay Street	French Street	35	28	30
West	French Street	French Lane	5	5	5
West	French Lane	Green Street	6	5	6
West	Green Street	Green Lane	6	6	6
West	Green Lane	President Avenue	3	3	3
Total west side			55	47	50
East	Bay Street	Bermill Street	12	4	9
East	Bermill Street	Bicentennial Car Park South	20	12	16
East	Bicentennial Car Park South	President Avenue	28	28	28
Total east side			60	44	53

Table 16 West Botany Street adjusted available parking post signal implementation

Side of street	From	To	Spaces available	Weekday Avg spaces available	Weekend Avg spaces available
West	Lindsay Street	French Street	25	18*	20*
West	French Street	French Lane	5	5	5
West	French Lane	Green Street	6	5	6
West	Green Street	Green Lane	6	6	6
West	Green Lane	President Avenue	3	3	3
Total west side			45	19	20

East	Bermill Street	Bicentennial Car Park South	10	2*	6*
East	Bicentennial Car Park South	President Avenue	28	28	28
Total east side			50	34	43

*Adjustments made for parking removal

To evaluate the surrounding areas to determine if the available parking can cater to the impact, surveys were conducted of adjacent street, refer to Table s below.

Table 17 provides the average occupancies and available spaces on side streets at the northern end of West Botany Street near the C2 site. For occupancies near the C3 site, refer to Table 10.

Table 17: Parking occupancy and spaces available near C2 site

Location	Between	Metres from West Botany Street	# of spaces	Weekday average occupancy%	# of spaces available	Weekend average occupancy%	# of spaces available
Bermill Street	West Botany Street to end of road	0-135m	15	93%	1	82%	3
Lindsay Street	West Botany Street to end of road	0-155m	31	87%	4	68%	9
Total spaces			46		5		12

There is also a significant amount of parking underutilised in off street parking areas located off West Botany Street, close to President Avenue. It should be noted, as discussed in Section 5, that part of the Bicentennial Southern Car Park will be occupied by CGU workforce between the hours of 7AM-6PM Monday to Friday, as agreed with Bayside Council.

Table 18: Parking occupancy of surrounding off street parking sites

Location	Between	Metres from President Avenue	# of spaces	Weekday average occupancy%	# of spaces available	Weekend average occupancy%	# of spaces available
Bicentennial Southern car park	West Botany Street	300m	188	8%	173	4%	173
Ilinden Sports Centre	West Botany Street to end of road	150m	24	8%	22	12%	20
Total spaces			212		195		193

9.4. West Botany Street Gas main works

As part of the C3 compound tunnelling works, a shaft was constructed on the eastern side of West Botany Street. A Gas main runs parallel to the roadway beneath the eastern verge. This gasmain must be protected for the duration of shaft excavation due to potential heave from works.

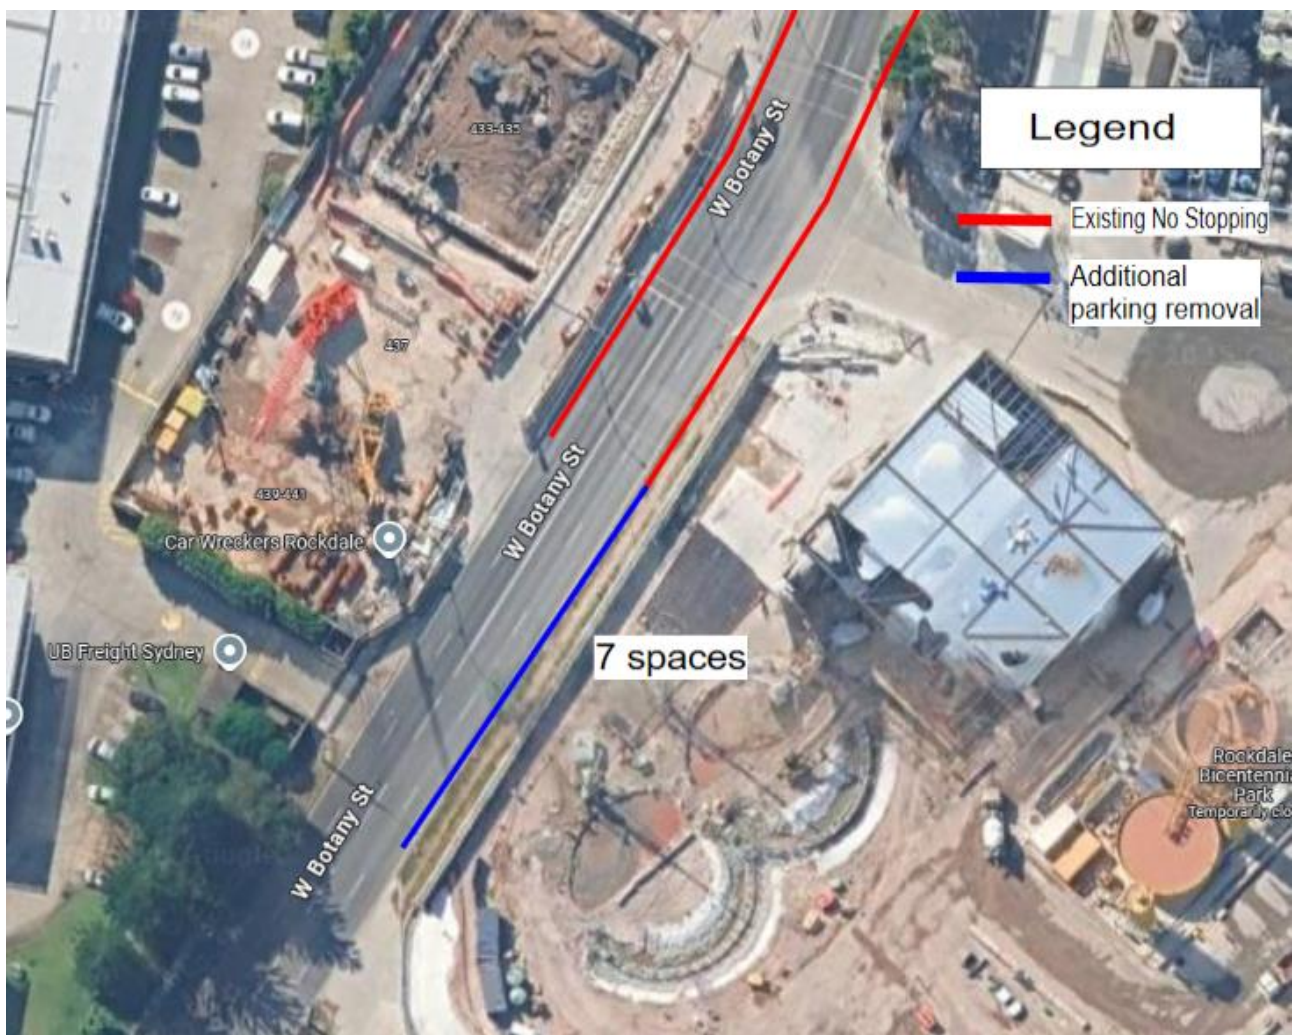

To do this the eastern verge of West Botany Street was closed off and a structure provided to support the gas main.

This will impact the remaining parking between the current No Stopping associated with the C3 signals and the southern Bicentennial carpark.

This parking impact accounts for an additional parking loss of approx. 7 spaces or approx.45m.

On reviewing Table 16 it can be seen that the surrounding available parking can cater to this requirement.

Figure 19 Gasmain parking removal

Parking through this section pre-construction had an occupancy rating of 40% during weekday and 20% during weekends. Post implementation of the signals this parking availability would be reduced through this section. With additional removals due to gasmain works the parking is expected to move south between the carpark and President Avenue.

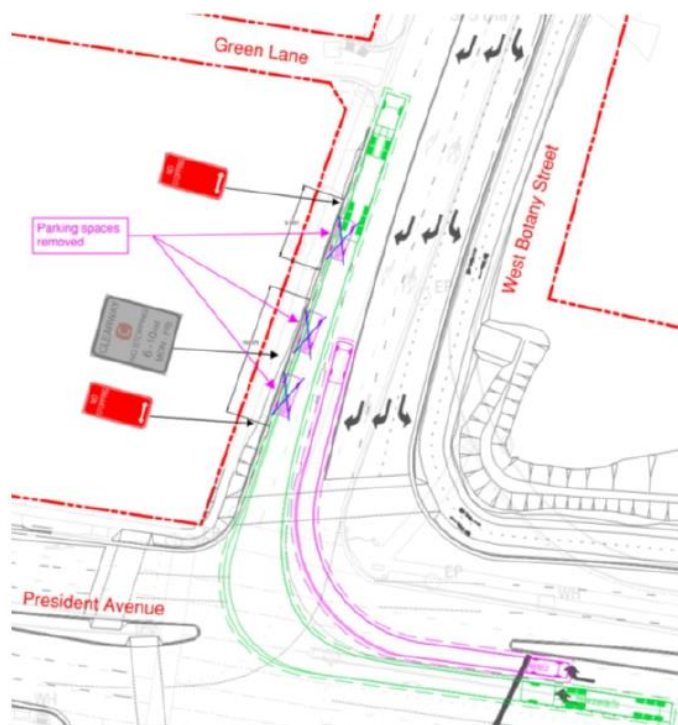

Table 19 West Botany Street adjusted available parking post gasain works

Side of street	From	To	Spaces available	Weekday Avg spaces available	Weekend Avg spaces available
East	Bay Street	Bermill Street	12	4	9
East	Bermill Street	Bicentennial Car Park South	10	2	6
East	Bicentennial Car Park South	President Avenue	28*	21*	21*
Total east side			43	27	36

9.5. West Botany Street turning lane allowance

As part of the end state works a dual dedicated turning lane from President Avenue westbound to West botany Street northbound is provided. To allow for the dual turning lanes operation the two northbound lanes on West Botany Street are required to be free. Therefore, the kerbside parking lanes is to be converted to a No Stopping between President Avenue and Green Lane.

Figure 20: President Avenue turning lane allowance

As this parking removal would be permanent and not just temporary during the construction phase, occupancy surveys were conducted in 2021 and again in Q3 2024 for the available parking between President Avenue and Green Street (totalling 6 parking bays with 3 of these bays being removed). 2021 parking occupancy noted that no vehicles were parked through this section during the survey. In Q3 of 2024 the subsequent surveys again indicated low occupancy (0-30% occupancy). These low figures indicate that the loss of parking through this section will can be accommodated on the local network as identified in Table 11 for Zone B2 north identifying occupancy of adjacent side streets.

9.6. Active transport Corridor (ATC) compound C5

The C5 ATC site at Muddy Creek, is located on the eastern verge of West Botany Street directly north of Muddy Creek. The eastern verge of West Botany Street is a clearway and is typically No Stopping thereafter with exception of a 60m section approaching Muddy creek crossing. A loss of approximately 5 parking spaces on the eastern side of West Botany Street occurred for construction, as shown on Figure below.

Figure 21: C5 Muddy Creek parking impact

The impact of the installation of full time No Stopping for the duration of the construction phase was assessed, noting that this section of kerbside is also subject to update in line with the Local Area Works update for end state design (some parking loss associated with the installation of a new signalised pedestrian/cyclist crossing). Surveys of West Botany Street parking adjacent the C5 compound were conducted. Table 20 reviews the available parking on West Botany Street outside of nominated clearway hours with the west side of the street subject to AM clearway restrictions whilst the east side of the street is subject to PM clearway restrictions. This identifies that 1-2 vehicles typically occupy the parking and this usage can be catered to on the surrounding network.

Table 20: Parking occupancy of surrounding C5 compound

Side of street	From	To	Spaces available ⁵	Weekday Avg Occupancy % (#)	Weekend Avg Occupancy % (#)
East	Ador Avenue	Bruce Street	10	8%	17%

9.1. Active Transport Corridor (ATC) Bay Street

The ATC access at Bay Street requires a driveway access to the north and south of Bay Street along the ATC alignment. These driveways will be located at 221 and 274 Bay Street. The driveways are used to access the ATC site between Bay and Bruce Street and also Bay and King Street. The end state design for this section of roadway includes a signalised pedestrian road crossing and blister islands. The overall parking impact includes approximately 60m, (30m of no-stopping on the northern and southern verge).

The construction phase impacts approx. 6 parking spaces total as shown in Figure 21.

Figure 22: Bay Street parking changes

Table 21 : Bay Street parking occupancy

Pre parking impact					
Side of street	From	To	Existing Spaces available ⁶	Weekday Avg Occupancy % (#)	Weekend Avg Occupancy % (#)
North	Aero Street	Francis Street	23	6% (8)	38% (18)
South	West Botany St	England Street	28	16% (13)	20% (12)

Pre parking impact		
Remaining parking available north	15	4.6
Remaining parking available south	14	16

Note, parking % rounded to whole number due to motorbike parking occupying part-spaces

The review of available parking occupancy provided in Table 21 identifies that the surrounding immediate network can cater to the parking impacts.

Bay Street between West botany Street and Crawford Road has been included in the original Survey conducted in 2022 and ongoing monitoring and calculated impacts are included in the quarterly reports.

9.2. West Botany Street Soft Ground Tunnelling (SGT)

As part of the final tunnelling between MOC 3 and the Cut and cover beneath West Botany Street ground stabilisation works are required to ensure the safety of the road above. To complete these works West Botany Street is being re-aligned.

The re-alignment will take place between Green Street and Bermill Street and will impact parking between these two intersecting roadways.

The Northbound lanes are merged to the kerbside lane approaching French Street impacting approximately 22 parking spaces.

The southbound approach is merged to the fast lane impacting approximately 7 parking spaces. These parking spaces were restricted with the application of clearway hours (northbound 6am-10am, southbound 3pm-7pm) and will be re-instated post completion of SGT works.

Figure 23: SGT parking impact

A quarterly review of parking is undertaken. The parking survey conducted in Q4 of 2024 is summarised below and included in the Quarterly report ref# M6S1-CGU-NWW-FA-PLN-000428.

Table 22: West Botany Street occupancy 2024

Roadway	Side	Network included	Weekday parking occupancy% 2021/2024	Weekend parking occupancy% 2021/2024
West Botany Street	West	Between French St & Lindsay St	16%	9%
	West	Between French Ln & French St	2%	15%
	West	W Botany St, Between Green St & French Ln	6%	6%
	West	W Botany St, Between Green Ln & Green St	19%	19%

Roadway	Side	Network included	Weekday parking occupancy% 2021/2024	Weekend parking occupancy% 2021/2024
	West	W Botany St, Between Green Ln & President Avenue	0%	0%
	East	Between Bay St & Bermill St	28%	21%

A review of the impact of this reduction identified that the parking occupancy of the northbound parking is below 20% meaning on average 4-5 vehicles utilise this parking. A review of the adjacent roadways of Green Street and French Street (also in Q4 of 2024) identified that this parking can be accommodated on adjacent streets.

Table 23: Zone B1 north available parking 2024

Location	Between	# of spaces	Weekday average occupancy%	# of spaces available	Weekend average occupancy%	# of spaces available
Green Lane	Cross Street to West Botany Street	2	100%	0	100%	0
Green Street	Cross Street to West Botany Street	35	76%	27	69%	24
French Lane	Cross Street to West Botany Street	25	34%	9	45%	11
French Street	Cross Street to West Botany Street	47	65%	31	75%	35
Total spaces		109		66		71

10. Workforce parking impacts

Workforce parking on local streets is a key issue resulting from construction activities. Reduced unoccupied street parking spaces, because of parking demand generated by the Project, can impact local residents. The Project has identified and will implement feasible strategies to lessen this impact.

The workforce will comprise of workforce and trades personnel, subcontracted personnel and engineering, functional and administrative staff. The size of the workforce will vary across the duration of the Project works. The EIS for the Project, provided peak construction workforce estimates. The EIS figures and CGU's proposed peak work force numbers are provided in Table 24.

Table 24: Peak construction workforce estimates

Site	EIS approx. day shift peak ⁷	CGU approx. day shift peak	EIS approx. night shift peak ⁸	CGU approx. night shift peak
C1	65	170	35	80
C2	94	90	55	50
C3	114	110	11	10
C4	10	10	1	1
C5	12	12	1	1
C6	30	30	25	25
Total	325	312	129	121

NOTE:

Assuming a typical day/ night approximately 6-12 months into construction

The workforce comprises construction management personnel, supervisory staff, plant operators, inspection personnel and support (eg: cleaners, security etc)

CGU analysed the induction records of 20,915 personnel from the M4 East Project and M8 Project, including details on the mode of transport utilised to travel to work, with:

- 61.7% of personnel using public transport (12,904 people),
- 0.1% of personnel walking to work (23 people), and
- 38.2% of personnel using their own private vehicle (7,988 people).

CGU anticipates the level of accessibility to public transport to be similar. Based on this large data set, the M6 Stage 1 Project has forecast 39% of personnel would use private vehicles to travel to work and would therefore require parking.

Table 25 provides a breakdown per site for personnel numbers anticipated to be on site and the amount of parking available on site, based on the peak numbers provided in Table 24. While the number of parking spaces provided exceeds the number of spaces expected to be required, it is noted that the workforce size and parking demands will vary over the duration of the project, particularly during the mechanical and electrical fit-out of structures.

Table 25: Personnel and parking on site

Site	Onsite parking	39% of day peak	Difference	39% of night peak	Difference
C1	140	66	+74	31	+109
C2	50	35	+15	20	+30
C3	150	43	+105	4	+146
C4	10	4	+6	NA	+10
C5	10	5	+4	NA	+10
C6	25	12	+13	4	+21

Supplementing the parking supply, as noted in Section 5, further parking is provided in the southern Bicentennial car park between 7AM and 6PM Monday to Friday.

Expected peak travel periods for the construction phase of the works are provided in Table 26.

Table 26: Peak travel periods

Activity	Hours	Shift time
Surface works	7AM to 6PM Monday to Friday 8AM to 6PM Saturday	630AM-7AM Monday to Friday 5PM-6PM Monday to Friday 730AM-8AM Saturday 6PM-630PM Saturday
Tunnel works	24 hours	530AM-6AM all days 6PM-630PM all days
Administration	7AM to 6PM Monday to Friday 8AM to 6PM Saturday	630AM-7AM Monday to Friday 5PM-6PM Monday to Friday 730AM-8AM Saturday 6PM-630PM Saturday

10.1. Mitigation measures

A number of mitigation measures have been adopted, that are applicable to project personnel and all subcontractors including:

10.1.1. Major subcontractor obligations

CGU will require major subcontractors which provide a large workforce to the site (eg mechanical and electrical contractors for tunnel fit-out) to provide employee transport strategies, to reduce the impacts on parking and traffic (refer to Section 10.2).

10.1.2. Demand reduction

CGU have office-based personnel located in offices away from the works areas (e.g. the main project offices for CGU, TfNSW and the independent certifier are all based in Mascot). This provides a demand reduction of approximately 450 design and support services staff from travelling to the construction site.

10.1.3. Tools of trade

The sites will allow for storage areas for workers who require tools of trade.

10.2. Dedicated off street parking

As noted in Section 5, CGU, Transport for NSW and Bayside Council have agreed that CGU can occupy the Bicentennial South car park between the hours of 7AM-6PM Monday to Friday. Reflecting the anticipated increase in construction personnel in 2024 and 2025 to complete the mechanical and electrical fit-out of structures (Section 9.4), CGU have sought and obtained agreement with Kogarah Golf Club to use a portion of the existing car park for construction personnel. The golf club is located adjacent to the C1 Arncliffe construction ancillary facility and the site is accessed via an existing pedestrian gate. In addition to the Kogarah Golf Club, the following additional off-street parking options will be considered by CGU:

- 1 Burrows Street, Wolli Creek – Former WestConnex New M5 construction ancillary facility located adjacent to Arncliffe Train Station
- West Botany Street – Vacant lot located on the south-east corner of Eve Street and West Botany Street
- Burrows Road, St Peters – Former WestConnex New M5 construction ancillary facility
- Bestic Street, Banksia – Existing carpark located adjacent to the C1 Arncliffe approved project boundary
- Other suitable site(s).

The establishment of one or more of the above off-site commuter parking facilities is subject to commercial agreement with landowners and appropriate environmental approvals.

10.3. Staged removal

In order to mitigate parking losses through the complete temporary removal of parking in the local roads area, CGU will stage the works to facilitate staged removal of parking. This staged removal of parking is available for the Active Transport Link and power supply works. These works will be included in later revisions of this strategy once the details are finalised.

The surface works along President Avenue is not possible to stage parking removal. However, as noted in this Strategy, the temporary removal of parking can easily be accommodated in the surrounding street system.

The timing of this staged implementation is provided in Table 1.

10.4. Sustainable transport options

10.4.1. Car pooling

Site toolboxes will be utilised to encourage Project personnel on the same shifts to coordinate with personnel comfortable with carpooling from similar locations.

10.4.2. Active transport

CGU will encourage the workforce to use active methods of transport such as walking and cycling to reduce the use of private vehicles. Bicycle parking will be provided at each construction site. End of trip facilities will be provided at the C3 site.

The local area surrounding the project has a well-established walking and cycling network with dedicated cycle lanes and footpath in the surrounding local roads, adjoining to shared paths along major arterial road, including General Holmes Drive/ The Grand Parade, refer to Figure 24.

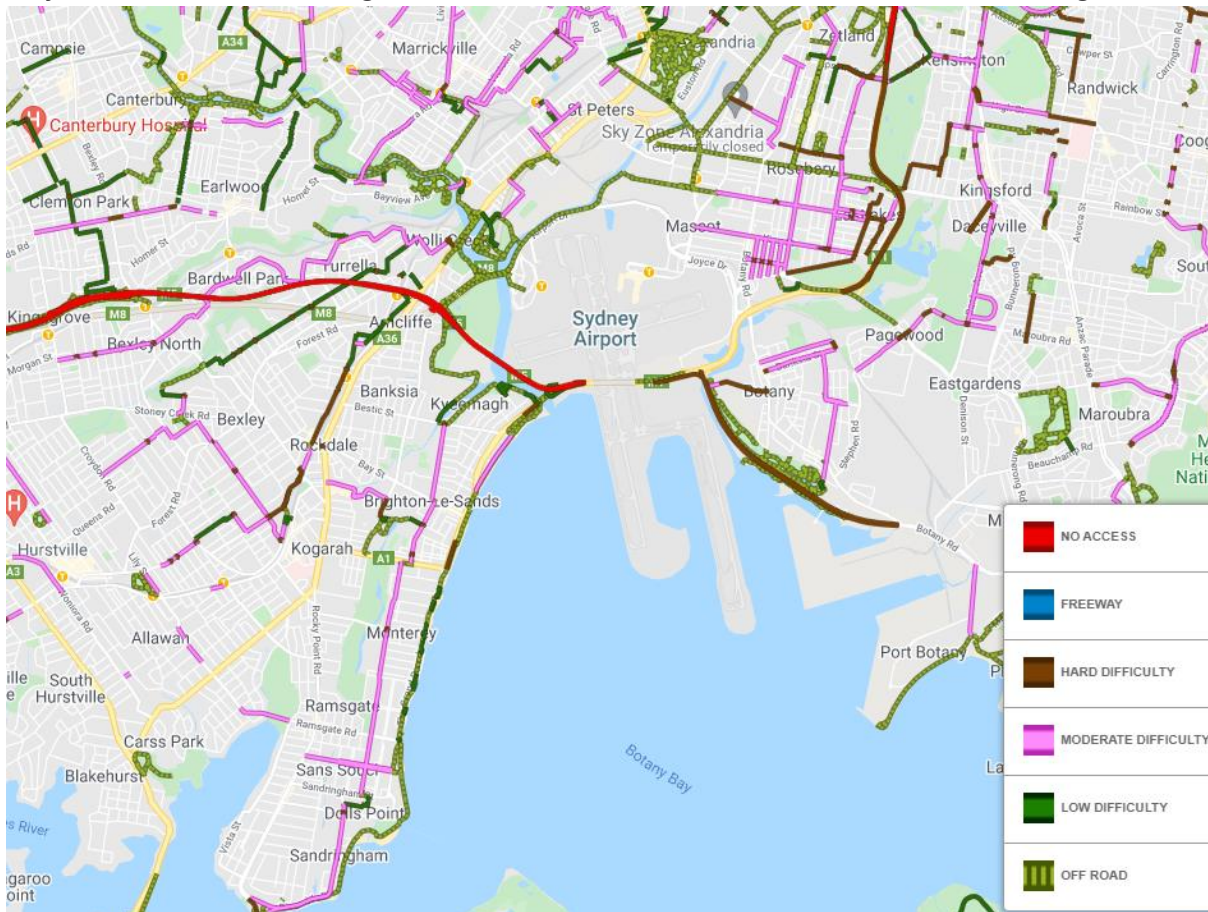

Figure 24: Existing cycle routes and paths

CGU will encourage the workforce to use public transport through the recruitment and onboarding process, as well as through toolbox talks, to reduce the number of private vehicles travelling to and from the construction sites and compounds.

Bus services connecting the site to major transport interchanges include:

Route 455: this route connects Kingsgrove rail station to Rockdale Plaza Drive bus interchange, via Kogarah rail station. The service operates between the hours of 6AM-7PM Monday to Friday (30 minute frequency) and 8AM-6PM (30 minute frequency). Bus stops are located on Kensington Street, Kogarah and within Rockdale Plaza Drive (limited service only)

Route 478 this route connects Rockdale rail station to Bay Street at West Botany Street and Miranda. The service operates between the hours of 530AM-midnight Monday to Friday (10-15 minute frequency) and 630AM-midnight (20 minute frequency)

Route 479 this route operates as a loop service connecting Rockdale to Kyeemagh. This service operates between the hours of 630AM-630PM Monday to Friday (10 minute frequency) and 8AM -6PM (40 minute frequency) Saturdays

Route 947: this route connects Hurstville and Kogarah rail stations to President Avenue via Dolls Point. The service operates between the hours of 6AM and 930PM Monday to Friday (30 minute frequency) and from 8AM to 9PM Saturdays (40 minute frequency). Bus stops are located on President Avenue and O'Connell Street.

Route 958: this route connects Hurstville rail station to Kogarah rail station and onto Rockdale Plaza. This service operates between the hours of 6AM and 930PM Monday to Friday (30 minute frequency) and from 730 and 4PM Saturday (hourly frequency). Bus stop is located on Rockdale Plaza Drive.

Refer to Figure below.

Figure 25: Bus routes connecting to transport interchanges

Rockdale rail station is located 1.7km walk from the C2 site (approximately 17 minutes) Rockdale is serviced by the T4 line linking Cronulla to the Eastern Suburbs. Services start at 4AM until after midnight (all times) with services typically operating every 10 minutes during peak periods.

Figure 26: Train services

10.4.3. Shuttle bus service

During the initial stages of construction, the quantity of off-site parking together with efforts to promote sustainable transport options, was such that a shuttle bus service was not required. Bus route 947 provides a direct connection from both Kogarah and Hurstville stations to the C3 and C6 sites. Rockdale Plaza Drive bus interchange is located within close proximity of the C2 site and provides for a number of bus services and there is ample parking available at the C1, C4 and C5 sites to accommodate the anticipated peak personnel numbers.

As the Project transitions toward the mechanical and electrical fit-out of structures, additional off-site commuter parking facilities may be required to address shortfalls in car parking spaces at the C1 Arncliffe construction ancillary facility. Where the off-site commuter parking facilities are not within walking distance of the ancillary facility, CGU will provide a shuttle bus service for construction personnel.

11. Monitoring and reporting

11.1. Monitoring

Monitoring to assess the effectiveness of this Strategy will be carried out by inspections of the surrounding street system every three months to ascertain the impact of the removal of parking associated with the construction works..

Where monitoring or community complains identify non-conformances with this strategy corrective actions shall be undertaken through the Project's non-conformance works procedure. Corrective actions will be documented as per the procedure. Where practicable, non-conformances and corresponding corrective actions would be communicated to the workforce and reinforced through various communications including, but not limited to:

- Project toolbox and pre-start meetings
- Project alerts
- Investigation and implementation of alternative methods to reinforce the parking strategy
- Investigation and implementation of other viable options for staff to use public transport
- Where the owner of an offending vehicle can be identified, issuing warning notices
- Reassessment and planning of works to further minimise site vehicles on affected streets and
- Documenting actions in weekly and monthly internal reports

11.2. Reporting

A summary report for each quarter will be provided to Bayside Council, TfNSW and DPHI regarding the outcomes of the monitoring undertaken for the preceding quarter. This report will also provide details of non-conformances and corrective actions taken.

11.3. Contingency measures

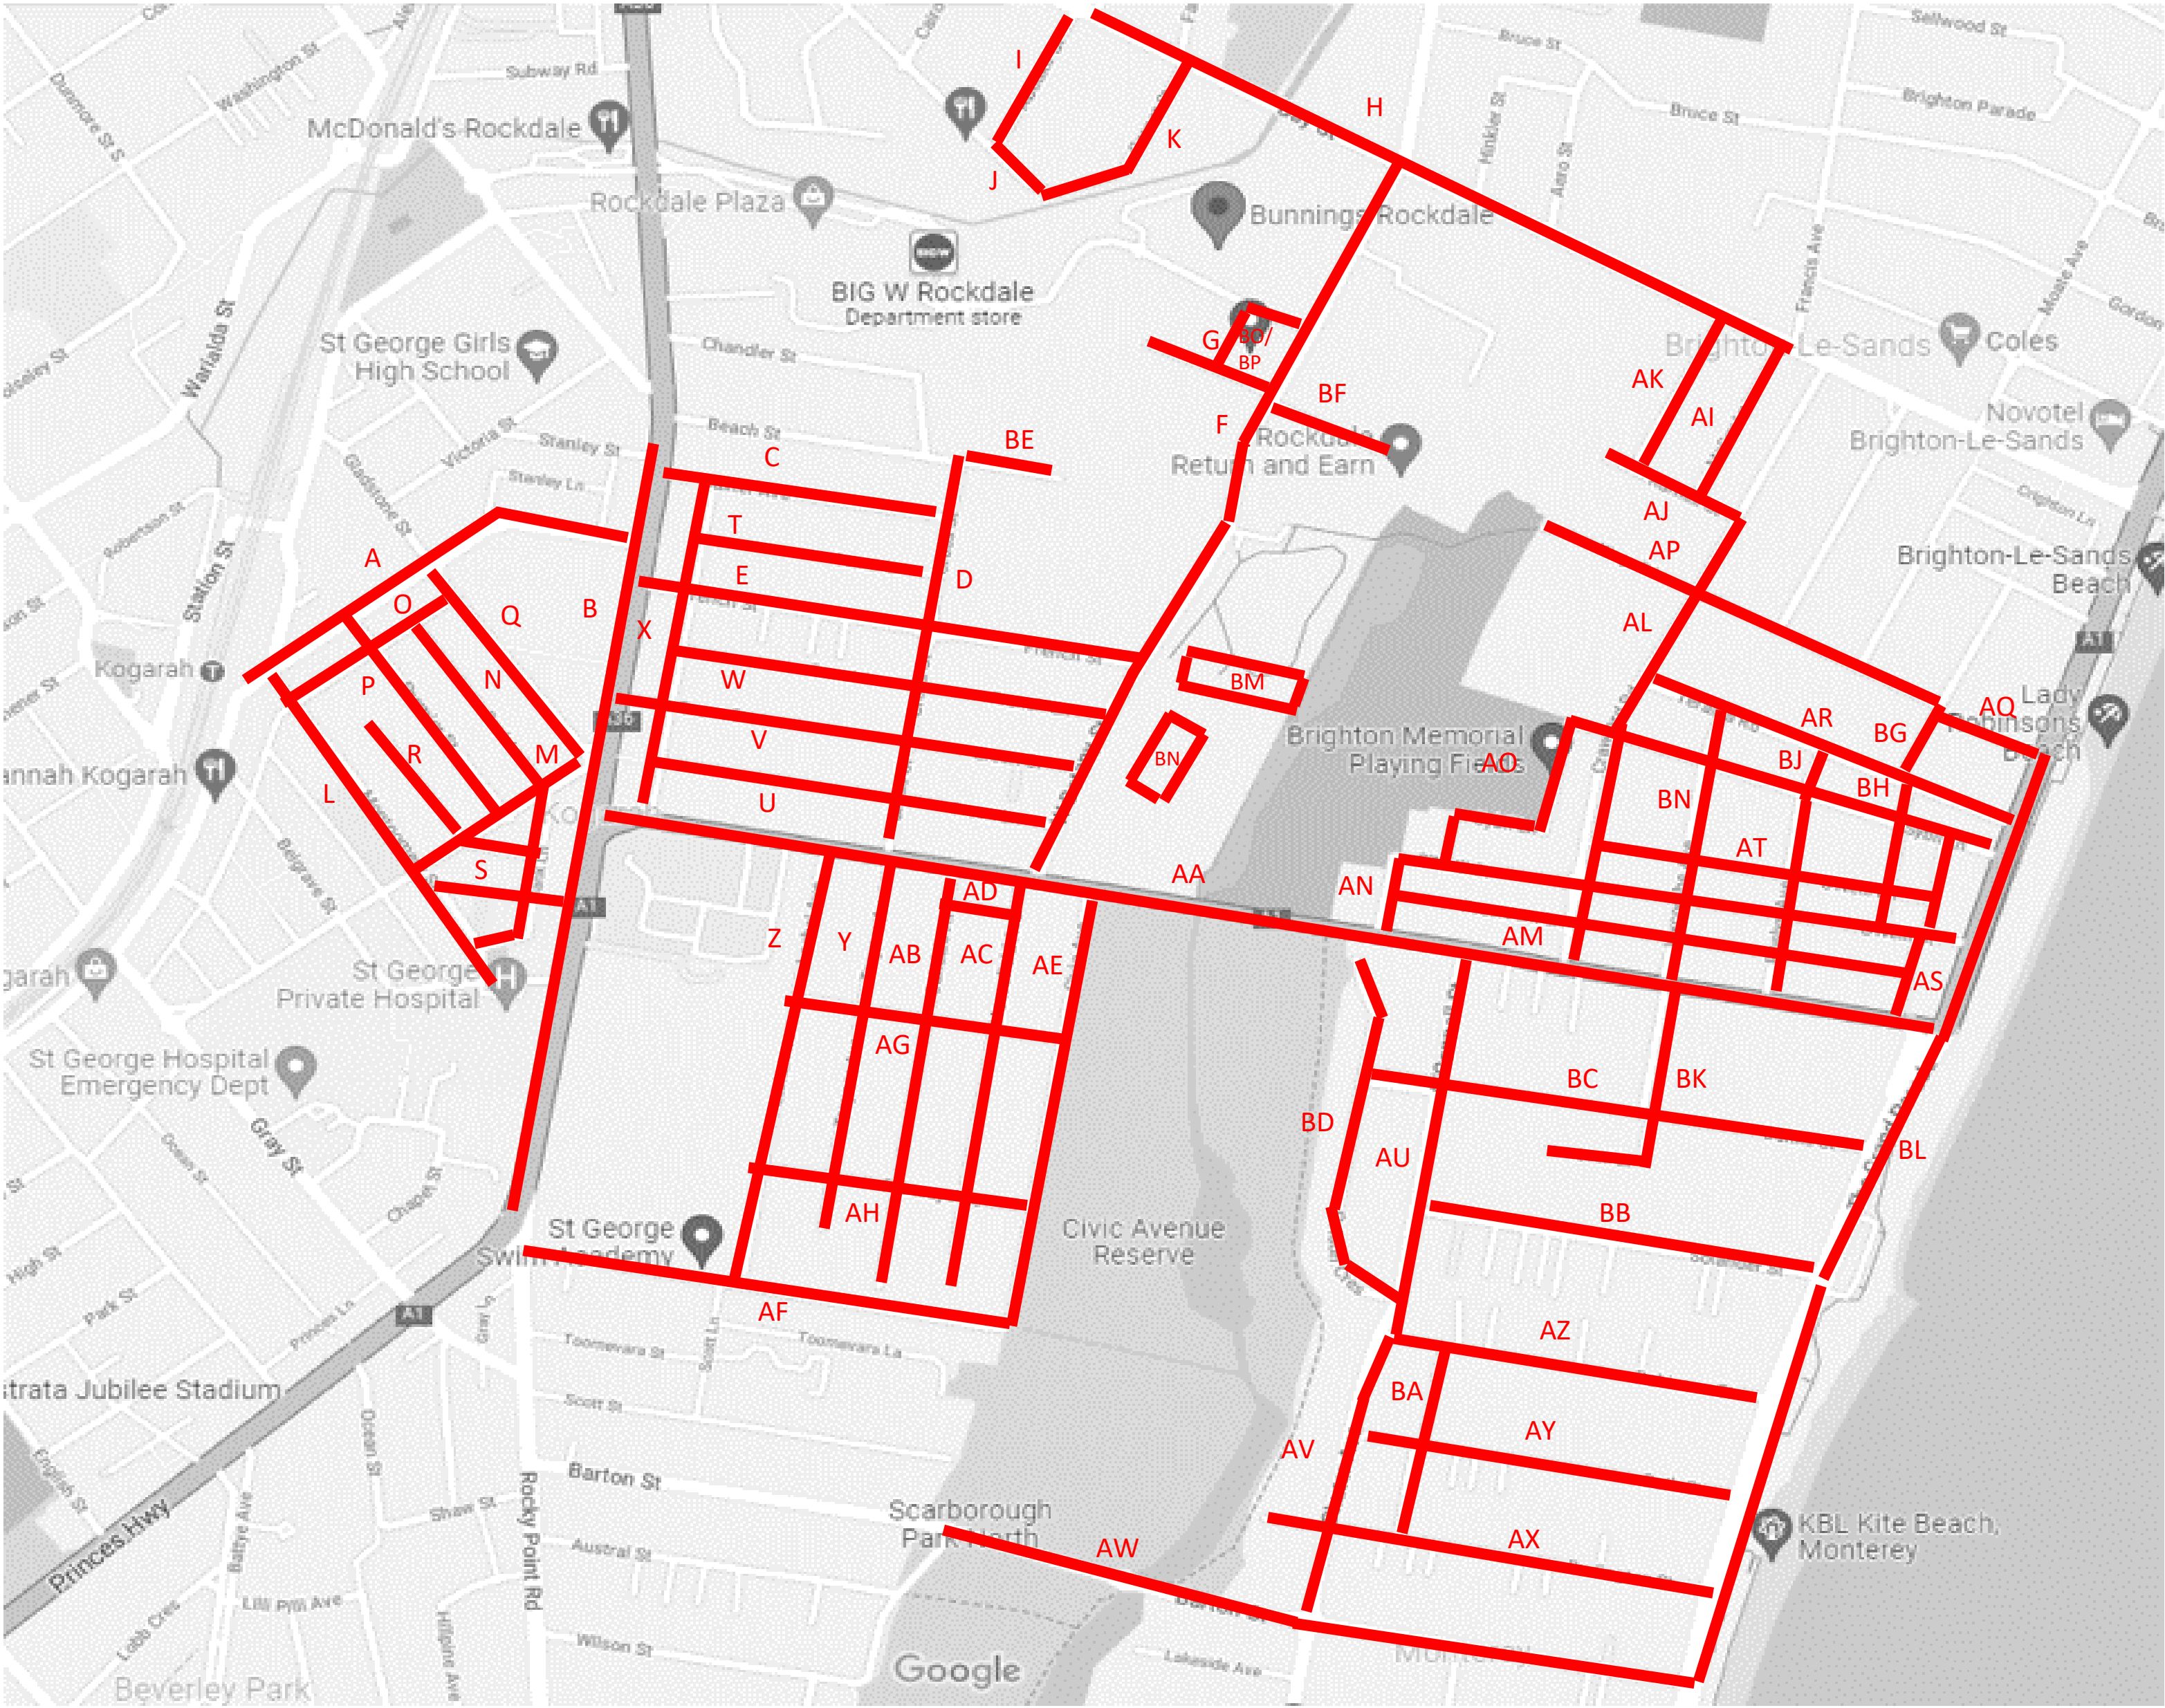

Contingency measures would be dependent upon the issues/ non-conformances identified during monitoring, and the effectiveness of corrective actions implemented as per section 11.1. Contingency measures would be investigated if it is determined that the corrective actions implemented are ineffective, and may include

- Investigating additional offsite parking for the workforce
- Revising site induction and toolbox talk content to better encourage the use of active and public transport and communicate designated and prohibited locations for workforce parking
- Amending carpooling communications to encourage an increase in participation rates
- Implementing disciplinary process for repeated non-conformances
- Revisiting shuttle bus operations
