

Memorandum

To: Department Planning Housing and Infrastructure
From: Edify Energy
Subject: Burroway Solar Farm (SSD-55968733)
Date:
Copy to: Rita Hatem, Nestor Tsambos

Subject: Traffic and Transport Route

Edify Energy confirms its will remove the previously proposed Port Botany transport route to the project site from the project's construction phase. This commitment supersedes all prior references to the use of Port Botany in project documentation. Accordingly, all construction-phase transport activities will be undertaken via the Port of Newcastle, consistent with the approach outlined in the Response to Submissions Report. Edify will continue to liaise with relevant councils and transport authorities during preparation of the Traffic Management Plan and prior to construction to ensure compliance and minimise community impacts.
