Hi There,

As part of keeping the community informed about the Hume North BESS Project, we wanted to share an update. The project has now received its draft conditions of consent, following the exhibition of the Response to Submissions and Amendment Report on the NSW Planning Portal. The next step is for the project to be considered by the Independent Planning Commission (IPC), which will make the final determination.

<https://www.planningportal.nsw.gov.au/major-projects/projects/hume-north-battery-energy-storage-system>

To help explain some of the key issues raised during consultation, we've prepared three fact sheets (attached). These outline our responses and the next steps for the project, focusing on:

- Noise and amenity
- Fire safety
- Community benefit initiatives

Please feel free to get in touch if you have any questions or would like to discuss the next steps in more detail.

Kind Regards,

Hume North BESS Team

Hi Jamie,

I hope you've had a good week so far.

I wanted to check if there are any outstanding discussion points regarding our access to the project site in relation to the undetermined Aboriginal Land Claim.

Separately, I don't believe I've directly shared the link to the NSW Planning website where the all publicly exhibited project reports are available. Please feel free to review the amendment report and the response to submissions, which outline the main features of the project and address the key issues raised during the EIS, via the link below.

<https://www.planningportal.nsw.gov.au/major-projects/projects/hume-north-battery-energy-storage-system>

Have a great weekend,

Arash Zafari | **Portfolio Manager**

Hi Jamie,

I hope your working week is off to a good start.

I wanted to follow-up on the below to ensure to address any outstanding comments that you may have with regards to 1m encroachment on Crownland with undetermined Aboriginal Land Claim.

Regards,

Arash Zafari | **Portfolio Manager**

Subject: Engagement on Hume North BESS – Access via Lot 98 DP 753356

Hi Jamie,

Thank you again for your time over the phone. As mentioned, we have previously engaged with the Albury & District LALC and worked with Andom Rendell in 2023 on the preparation of the ACHAR and site walkover.

The existing access to 32 Trout Farm Road encroaches by approximately one metre into Lot 98 DP 753356, which is a previously disturbed area. We currently hold a Crown licence that grants recreational access, and we are proposing to utilise this same access route for the Hume North Battery Energy Storage System Project. We understand that Lot 98 is presently the subject of an undetermined Aboriginal Land Claim.

In light of our past engagement, we wanted to check whether the LALC has any concerns with the proposed use of this access, noting that it does not worsen or extend beyond the existing disturbed area. We are also keen to ensure the LALC and its community members have the opportunity to be involved in our Community Benefit Sharing program.

We would welcome the chance to discuss this further at your convenience.

Regards,

Arash Zafari | **Portfolio Manager**

Subject: RE: Hume North BESS - Bulk Water Supply

Hi Chris,

I hope you're well.

I was part of the team that presented to Council in May and wanted to follow up on one item regarding firewater procurement.

We're planning to source 20 kL of firewater for our on-site tank in late 2026. Based on our understanding, the closest suitable option is the Table Top Bulk Water Filling Station (corner of Perryman Lane), which uses a 50 mm camlock connector. We'll arrange appropriately sized tankers and apply for the required iButton access closer to the time.

Could you please confirm if there's anything else we should be aware of?

Our EPC contractor will separately apply for construction water, so I'm also checking whether that process differs from the firewater supply.

Appreciate your guidance.

Regards,

Arash Zafari | **Portfolio Manager**
