Dear Mary-Anne

Re: Integra Underground, Project Approval 08_0101 – Rehabilitation Management Plan

Integra Underground currently holds a Mining Operations Plan (MOP) through to 30 November 2018 for activities associated with mining through to Longwall 14. Integra Underground has prepared a new MOP for approval by Department of Planning and Environment – Resources Regulator. This MOP encompasses the approved Modification 8 to Project Approval 08_0101 and associated consultation with regulatory agencies and community stakeholders. This MOP forms the Rehabilitation Management Plan required under Project Approval 08_0101.

The MOP document and MOP Plans (Appendix 1) are enclosed. Please inform me whether the Singleton Council has any comments on this MOP. A response to this correspondence by 2 November would be greatly appreciated. Please contact me via 0427 928 906 or Chloe.Piggford@glencore.com.au should you wish to discuss this matter.

Yours sincerely

Chloe Piggford
Environment and Community Manager
