Project Details	
Project Number, or ID Number, or Topic	DA 305-11-2001 MOD 3
Project Title or Location Name	Wallerawang Quarry Expansion Project
Address of site, project, proposal, or application	963 Great Western Highway, Marrangaroo NSW 2790
Name of Local Government area	Lithgow
Subject & Outcome	
Subject Matter <i>Brief summary - max 120 characters</i>	Site visit – General overview
Matters discussed	Water Management and general overview of Modification 3
Notes	<p>The Site visit was conducted on 13 August 2019 with officers from WaterNSW. WaterNSW officers attended to observe the quarry's water management infrastructure.</p> <p>Department of Planning, Industry and Environment (DPIE) Officers attended to gain a general understanding of the quarry to assist with the assessment of the current modification application.</p> <p>Areas of interest shown to the party included:</p> <ul style="list-style-type: none"> • proximity of the expansion to the Coxs River; • proposed western stockpile area, location of clean water diversions and secondary drainage lines; and • access location to the southern expansion area.

Notes (cont'd)	<p>Alex Irwin (Umwelt consultant) directed the group around the quarry focusing initially on water management measures at the request of WaterNSW. The group was shown upper and lower sediment dams and the locations of licensed discharge points into the Coxs River. The site inspection included DPIE and WaterNSW officers also being shown where the mine expansion would be sited.</p> <p>The group was provided access to the top of the existing extraction area (looking north – see PSIMS attachments) where it was identified that the quartzite seam continued to the south.</p> <p>Alex explained that the proposed expansion would require filling of a second order watercourse and the construction of a new clean water diversion channel. WaterNSW stated that it would be assessing this matter in detail in its advice to DPIE.</p> <p>The group was provided access to the western side of the Coxs River tributary. Representatives of Walker Quarries stated that this area would form the western stockpile area only if overburden material was unable to be dispatched offsite (via sales).</p> <p>Meeting concluded approximately 2:00pm</p>	
Primary Outcome – select one <i>Check one</i>	<input type="checkbox"/> Meeting declined <input type="checkbox"/> Agency provided advice on process <input type="checkbox"/> Agency provided advice on progress of the matter/project <input type="checkbox"/> Additional information to be provided by other parties to the meeting <input type="checkbox"/> Matter to be referred to or discussed with another party <input type="checkbox"/> Parties agreed to reconvene <input checked="" type="checkbox"/> No further action	
Other Outcomes <i>Check applicable</i>	<input type="checkbox"/> Agency provided advice on process <input type="checkbox"/> Agency provided advice on progress of the matter/project <input type="checkbox"/> Additional information to be provided by other parties to the meeting <input type="checkbox"/> Matter to be referred to or discussed with another party <input type="checkbox"/> Parties agreed to reconvene <input checked="" type="checkbox"/> No further action
