Mullion Creek Wind Farm (SSD-100739958) – Request for SEARs

Dear Ms OHara,

Thank you for your referral dated 2 December 2025 requesting WaterNSW's input into the proposal's SEARs. It is understood that the proposal is for the installation, operation, maintenance and decommissioning of up to 33 wind turbine generators each with a maximum blade-tip height of up to 250 metres (m) above ground level, ancillary civil and electrical engineering infrastructure, temporary construction facilities and permanent worker facilities.

WaterNSW has reviewed the proposal's Scoping Report and draft SEARs and found that the proposal is not located near any WaterNSW land, assets or infrastructure, therefore we have no particular comments or requirements regarding the proposal.

Notwithstanding, we consider that the provided draft SEARs are expected to cover the required environmental assessment components.

WaterNSW requests that the Department continues to consult with us on any development that may impact on our land, assets, or infrastructure, by emailing Environmental.Assessments@waternsw.com.au.

If you have any questions regarding this letter, please contact Justine Clarke at justine.clarke@waternsw.com.au.

Yours sincerely,

A handwritten signature in black ink, appearing to be "Mina Suh", written over a horizontal line.
