Subject: Out of Hours Work Extension Request – Buronga Landfill

Dear Mr Webster

I refer to your letter dated 9 April 2025 to the Department of Planning, Housing and Infrastructure (the Department) regarding the Buronga Landfill (SSD-10096818).

I understand you are seeking approval for out-of-hours works between 16 June 2025 to 25 June 2025 in order to complete site access roadworks pursuant to Conditions B35 and B36 (b) of Schedule 2 of the development consent.

The Department has carefully your request, including the supporting Noise and Vibration Assessment (prepared by Sonus, dated October 2021, ref: S6801C3) referenced in your submission.

The Department considers that the proposed out-of-hours work is required to limit traffic conflict surrounding the site access and ensure safety during construction. Accordingly, as nominee of the Planning Secretary, I approve the proposed out-of-hours roadworks between 16 – 25 June 2025 during the hours of 6 pm to 6 am, subject to implementation of the noise mitigation measures addressed in your letter.

You are reminded that you must seek separate Planning Secretary's approval for any other out-of-hours work pursuant to Condition B36(b) of the consent.

Should you have any further enquiries, please contact Penny White, Industry Assessments, at the Department on (02) 8289 6410 or via penny.white@planning.nsw.gov.au.

Yours sincerely

Lindsey Blecher
Team Leader
Industry Assessments

As nominee of the Planning Secretary
