Dear Sir/Madam

Re: SSD-10096818: Buronga Landfill – Notification of Commencement

As part of the above approval, Wentworth Shire Council (Council) has been actively constructing the new facilities at the Buronga landfill. Construction of the public drop off facilities at the front of the facility are now complete and a Certificate of Occupancy has been issued.

As this Certificate of Occupancy is now in place, it is Council's intention to commence general public use of these recycling and disposal facilities over the coming weeks. Condition A9 of the Instrument of Consent states the following:

A9. The date of commencement of each of the following phases of the development must be notified to the Planning Secretary in writing, at least one month before that date, or as otherwise agreed with the Planning Secretary:

- (a) construction;*
- (b) operation; and*
- (c) cessation of operations.*

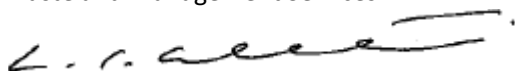

As the development was staged, Condition A10 also applies which states:

A10. If the construction or operation of the development is to be staged, the Planning Secretary must be notified in writing, at least one month before the commencement of each stage (or other timeframe agreed with the Planning Secretary), of the date of commencement and the development to be carried out in that stage.

Based on the above planned approach and the requirements as identified above, please take this correspondence as appropriate notice to achieve compliance with the Instrument of Consent.

I trust this supplies sufficient supporting information however if you need anything else, please don't hesitate to contact me.

Kind Regards
Waste and Management Services

Geoffrey Webster
Director
