

|                |                                                                                                                                                                                                                                                                 |
|----------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| General Notes: |                                                                                                                                                                                                                                                                 |
| A.             | This is not an installation drawing and shows design intent information only.                                                                                                                                                                                   |
| B.             | All dimensions in millimeters (mm) unless noted otherwise. All levels are in metres (m) unless otherwise stated.                                                                                                                                                |
| C.             | Do not scale. Figures are net dimensions only. This drawing shall be read in conjunction with building specifications, documents and other relevant contract documents.                                                                                         |
| D.             | Equipment and plant details are not manufacturer specifications. Selected equipment shall meet the given constraints and long lead equipment will be coordinated based on final equipment selection.                                                            |
| E.             | The equipment shall be installed in accordance with thermal, air and watertight compartments shall be sealed to achieve performance rating equivalent to the design and shall be designed to accommodate movement.                                              |
| F.             | Services penetrations through fire rated compartments shall be fire stopped to achieve a rating equivalent to the compartment and shall be installed in accordance with the design intent.                                                                      |
| G.             | All services crossing the movement joints shall be installed to accommodate the movements as defined in the design. Consistent Contractor coordination. The Contractor will produce fully coordinated installation drawings prior to installation for approval. |
| H.             | The Contractor will produce as built drawings prior to handover for approval.                                                                                                                                                                                   |
