Re: SSD 10272349 - Yiribana Logistics Estate

Environmental Representative Monthly Report January 2026

It has been confirmed that the planned end of construction activities for 2025 falls on Friday 19th December 2025, with most project staff not returning until Monday the 5th January 2026 at the earliest.

The Environmental Representatives also will not be returning to duties until that time.

Conditions of Approval A33 for the Project requires that

*The **Environmental Representative Monthly Report** must be submitted within seven calendar days following the end of each month for the duration of the ER's engagement, or as otherwise agreed with the Planning Secretary".*

Given the expected unavailability of both the project staff to collate and provide the data required for the Monthly ERMR and the ER to receive and compile the data into the report, it is requested that provision be given for the December ERMR to be submitted by Friday 16th January 2025.

This provision is only requested for the December ERMR and subsequent reports will be submitted in accordance with the requirements of Condition A33.

Please submit this request to the Planning Secretary via the DPHIE portal.

Sincerely

Carl Vincent

Principal (ErSed Environmental Pty Ltd)
Environmental Representative for SSD 10272349
