OFFICIAL

Dear Ms Chu

Thank you for your email below requesting comment from the Civil Aviation Safety Authority (CASA) on the Secretary's Environmental Assessment Requirements (SEARs) for the New Primary School at Googong, SSD-10326042 refers.

CASA has reviewed the information provided and has no objections to the proposed development.

The Aviation Section of the draft SEARs advises that a report may be required. The report may include details of any flight paths that may be impacted by the proposed development and details of the impact of the proposed development on aviation and airspace protection with consideration of the Obstacle Limitation Surface (OLS) for Canberra Airport. The Googong North Village Centre on Gorman Drive is located closer to the airport. It is noted that no flight paths will be impacted although the ground at the site infringes the Outer Horizontal Surface for Canberra Airport.

Although approval under the *Airspace Regulations 2007* would be required, infringement of the OLS is not likely to be an issue. Some areas of the township are covered by overlays developed by Queanbeyan Palerang Regional Council that obviates the requirement for buildings less than 20m in height above ground level to be assessed under these Regulations.

CASA does not comment on noise issues.

Please note that Mr Steve Neal is no longer CASA point of contact for development applications. Please direct any future requests to me by email at: government.relations@casa.gov.au.

I trust this information is of assistance.

Yours sincerely

Cathy Koch
