

21192

**Tweed Valley Hospital Multi-Deck Carpark
SSD3 AMENDMENT REGISTER****DCR-SSD3**

We issue herewith the list of changes made on the drawings as sent in the nominate transmissions.

Transmittal Date 16.09.2022

Doc. No.	Document Title	Doc. Rev. #	Doc. Change #	Doc. Change	Notes
MDD-AR-SKE-MCP-20B2001	FLOOR PLAN BASEMENT 2	7	1	Staff and Fleet Vehicle Entry and Exits revised as per Traffic Engineers recommendations for compliant sweep paths	
			2	Parking Bay B2-01 revised to Small Parking Bay as per Traffic Engineers recommendations for compliant sweep paths	
			3	Exit path from Stair 1 revised as part of Design Development	
			4	Crash Barrier shown on Grids CA and CB, part of design development	
			5	Minor planning amendments to services (ie Hose Reels, Hydrants)	
MDD-AR-SKE-MCP-20B1001	FLOOR PLAN BASEMENT 1	7	1	Public Vehicle Entry and Exits revised as per Traffic Engineers recommendations for compliant sweep paths	
			2	Crash Barrier shown on Grids CA and CB, part of design development	
			3	Additional Fire Hose Reels indicated for compliance during design development	
			4	Grid C5 / C6 and CG / CH, equipment for wash bay above shown, part of design development	
			5	Strip drain shown in lift lobby - part of design development	
			6	Minor planning arrangements to drainage as part of design development	
			7	Mechanical Exhaust duct indicated - part of design development	
			8	Exit path from Stair 1 at Basement Level 2 revised as part of Design Development	
			9	Minor planning amendments to services (ie Hose Reels, Hydrants)	
MDD-AR-SKE-MCP-2000001	FLOOR PLAN GROUND	6	1	Green spine pavement arrangement adjusted - part of design development	
			2	Café Tenancy Space added	
			3	Covered Walkway extended to Café Tenancy. Arrangement amended as part of design development	
			4	Car Wash Bay Space Shown and noted	
			5	Space for Mechanical Exhaust Fans shown in Female	
			6	Operators Office and Fitout adjusted For AS1428.1 compliance	
			7	Minor planning amendments to services (ie Hose Reels, FIP, Hydrants, Mechanical Exhaust Ducts)	
			8	Pay Stations positions revised to be opposite lifts, Grid C9 / C10	
			9	Minor planning arrangements to drainage as part of design development	
			10	Accessible parking bay clear zone defined	
			11	PWD Amenities Door relocated as part of design development for AS 1428.1 compliance	
			12	Wall and door added to secure bike store as part of design development	
MDD-AR-SKE-MCP-2001001	FLOOR PLAN LEVEL 1	5	1	Covered Walkway extended to Café Tenancy. Arrangement amended as part of design development	
			2	Minor planning amendments to services (ie Hose Reels, Hydrants, Mechanical Exhaust Ducts) as part of design development	
			3	Accessible parking bay clear zone defined	
MDD-AR-SKE-MCP-2002001	FLOOR PLAN LEVEL 2	6	1	Drainage Wastes amended from Circular to square type as part of design development	
			2	Minor planning amendments to services (ie Hose Reels, Hydrants, Mechanical Exhaust Ducts) as part of design development	
			3	Accessible parking bay clear zone defined	
			4	Drainage Wastes amended from Circular to square type as part of design development	
MDD-AR-SKE-MCP-2003001	FLOOR PLAN LEVEL 3	4	1	Mechanical Exhaust duct indicated - part of design development	
			2	Accessible parking bay clear zone defined	
			3	Minor planning arrangements to drainage as part of design development	
			4	Staff Parking overflow arrangement amended as part of design development (relocated along Lvl 3 to 4 ramp)	
MDD-AR-SKE-MCP-2004001	FLOOR PLAN LEVEL 4	6	1	Mechanical Exhaust duct indicated - part of design development	
			2	Accessible parking bay clear zone defined	
			3	Minor planning arrangements to drainage as part of design development	
			4	Staff Parking overflow arrangement amended as part of design development (relocated along Lvl 3 to 4 ramp)	
MDD-AR-SKE-MCP-2005002	LIFT OVERUN - LVL5 / ROOF PLAN	6	1	Mechanical Exhaust discharge indicated - part of design development	
			2	General Arrangement and orientation of Solar Structures developed as part of detailed design as per supplier advice	
			3	Roof Awning shown to lift lobby - part of design development	
			4	Turning bay shown along Grid CC / C4 and C7 as per Traffic Engineers advice, to become parking bays in future construction stage of Levels 6 and 7	
			5	Accessible parking bay clear zone defined	
			6	Drainage Wastes amended from Circular to square type as part of design development	
MDD-AR-SKE-MCP-2007001	FLOOR PLAN LEVEL 7	4	1	General Arrangement of Solar Structures developed as part of detailed design as per supplier advice, parking bays adjusted where required to maintain compliance	
MDD-AR-SKE-MCP-2500001	LIFT OVERUN - LVL7 / ROOF PLAN	8	1	General Arrangement and orientation of Solar Structures developed as part of detailed design as per supplier advice	
			2	Lift Over Run RL amended to suit Vertical Transport Manufacturer Requirements	
MDD-AR-SKE-MCP-4000001	ELEVATIONS	7	1	Façade Types amended to meet requirements of FEBQ and FRNSW	
MDD-AR-SKE-MCP-4000002		7	2	Façade Types Legend Amended to reflect proposed materials. Finish Codes deleted, refer to finishes schedule for selections	
			3	East Elevation Covered Walkway Extended and Café Tenancy Entry Shown	

Doc. No.	Document Title	Doc. Rev. #	Doc. Change #	Doc. Change	Notes
			4	Lift Over Run amended to suit Vertical Transport Manufacturer Requirements	
			5	General Arrangement and orientation of Solar Structures developed as part of detailed design as per supplier advice	
MDD-AR-SKE-MCP-5000001	SECTIONS	5	1	Lift Over Run amended to suit Vertical Transport Manufacturer Requirements	
			2	General Arrangement and orientation of Solar Structures developed as part of detailed design as per supplier advice	
			3	Public Vehicle Entry and Exits revised as per Traffic Engineers recommendations for compliant sweep paths	
			4	Staff Parking overflow arrangement amended as part of design development	
MDD-AR-SKE-MCP-5000002	SECTIONS	7	1	Lift Over Run amended to suit Vertical Transport Manufacturer Requirements	
			2	General Arrangement and orientation of Solar Structures developed as part of detailed design as per supplier advice	
			3	Café Tenancy Space added	
			4	Space for Mechanical Exhaust Fans shown in Female	
			5	Operators Office and Fit out adjusted For AS1428.1 compliance	
			6	PWD Amenities Door Relocated	
			7	FHR and Hydrant add to B1 Grid CC as part of design development	
MDD-AR-SKE-MCP-6500001	FAÇADE TYPES	5	1	Façade Types amended to meet requirements of FEBQ and FRNSW - refer to finishes schedule for further detail	
MDD-AR-SKE-MCP-6500002		5	2	Powdercoat colour codes removed, refer to finishes schedule for colour selections	
MDD-AR-SKE-MCP-6500003		5			
MDD-AR-SKE-MCP-6500004		5			
MDD-AR-SCH-SSD2-001	FAÇADE SCREEN SCHEDULE	4	1	Façade Screen type FS-211a perforation pattern amended to meet the requirements of natural ventilation of open deck carpark as stipulated by FRNSW	
			2	Façade Screen type FS-211b perforation pattern amended to meet the requirements of natural ventilation of open deck carpark as stipulated by FRNSW	
			3	Façade Screen type FS-265b and FS-265c added to meet the requirements of natural ventilation of open deck carpark as stipulated by FRNSW and colour selection enhances and articulates massing and multi-level expression from the Main Hospital Building
