Subject: RE: HPRM: SSD 10354 - Consent Condition C19 - Construction Noise and Vibration Management Plan

Hi Kael,

I confirm receipt of the Plan and have forwarded to our Environmental Health Team for Council’s records.

If you have any questions please do not hesitate to be in contact.

Kind regards,

Thomas Fernandez

Subject: HPRM: SSD 10354 - Consent Condition C19 - Construction Noise and Vibration Management Plan

***[EXTERNAL EMAIL] Stop and think before opening attachments, clicking on links or responding. ***

Good morning Thomas,

In accordance with Consent Condition C19 of SSD 10354, please find for CPC’s records the final Construction Noise and Vibration Management Plan.

CONSTRUCTION NOISE AND VIBRATION MANAGEMENT PLAN

- C19. Prior to the commencement of works, a **Construction Noise and Vibration Management Plan** (CNVMP) prepared by a suitably qualified person shall be submitted to the Certifier. The CNVMP must be prepared in consultation with and be endorsed by SOPA, and address the relevant requirements of the EPA. The CNVMP shall (including but not limited to):
- (a) be prepared in accordance with the EPA’s *Interim Construction Noise Guideline*;
 - (b) identify nearby sensitive receivers and land uses;
 - (c) identify the noise management levels for the project;
 - (d) identify the construction methodology and equipment to be used and the key sources of noise and vibration;
 - (e) include details of all reasonable and feasible management and mitigation measures to be implemented to minimise construction noise and vibration;
 - (f) address the relevant provisions of Australian Standard 2436-2010 Guide to Noise and Vibration Control on Construction, Demolition and Maintenance Sites;
 - (g) be consistent with and incorporate all relevant recommendations and noise and vibration mitigation measures outlined in the Preliminary Construction Noise and Vibration Management Plan Revision 0, prepared by Acoustic Logic, dated 17 October 2019;
 - (h) ensure all potentially impacted sensitive receivers are informed by letterbox drops prior to the commencement of construction of the nature of works to be carried out, the expected noise levels and duration, as well as contact details for a construction community liaison officer; and
 - (i) include a suitable proactive construction noise and vibration monitoring program which aims to ensure the construction noise and vibration criteria in this consent are not exceeded.
- Prior to the commencement of works, a copy of the CNVMP must be submitted to Council and the Planning Secretary.

If you could please confirm receipt of the CNVMP by way of reply email that would be greatly appreciated.

Thanks In advance Thomas
Kind Regards,

Kael Williams
