

## AIR QUALITY

### Specialist Services

## INTRODUCTION TO WILKINSON MURRAY

Wilkinson Murray is a multidisciplinary consultancy providing services in acoustics, air quality and environmental monitoring.

Our air quality team works closely with clients, planners, architects and engineers to provide a comprehensive approach to projects. The team is particularly experienced in assisting developers to obtain consent for a variety of development types and our technical strength allows us to provide effective solutions to planning problems, whilst safeguarding the interests of our clients.

There is a diverse range of personnel working within the Wilkinson Murray group, primarily including engineers and scientists.

All technical personnel are highly trained professionals with experience extending up to 30 years, and individuals have developed tailored / targeted skills relating to specific types of projects.

With offices in Sydney, the Hunter, Wollongong, Orange, Queensland and Hong Kong, Wilkinson Murray services the entire Asia-Pacific region. Our Hong Kong office is responsible for projects in Hong Kong, mainland China, Taiwan, Vietnam, Thailand, Malaysia, Singapore and India with the Sydney, Hunter, Wollongong, Orange and Queensland offices being responsible for services Australia-wide.

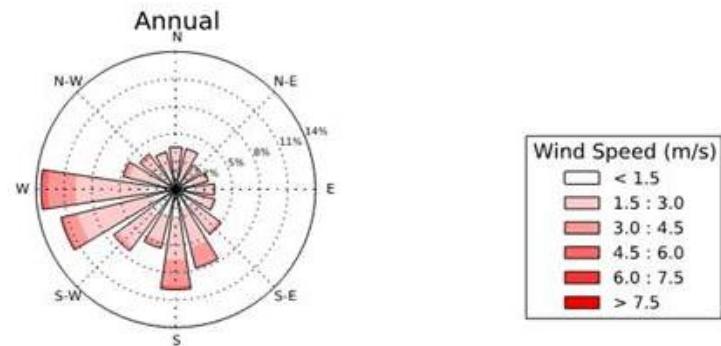

## SPECIFIC EXPERTISE

### Air Quality, Odour and Greenhouse Emissions

Wilkinson Murray has significant experience in providing air quality (including dust), odour and greenhouse emissions consultancy services. Our project experience includes:

- Coal mines
