Trinity Grammar School Redevelopment – Modification 4 (SSD-10371-Mod-4)

To whom it may concern,

Arcadia hereby confirms that to the best of our knowledge, the proposed Modification 3 will have no adverse impact on the extant and new proposed trees and planting along the Victoria Street boundary.

The proposed regrading works do not intrude into the tree protection zones of the majority of extant trees. A small number of extant trees will have very minor encroachment into their tree protection zones which is outlined in 'Appendix A - Tree Schedule' of the Arborist report, with recommended tree protection measures noted in 'Section 7 – Tree Protection Measures'. Refer to Arborist Report 'AIA_Trinity Grammar School, Renewal Project_20221824.1'.

In May 2022, Inner West Council approved the design for Public Domain upgrades, which includes the removal of tree 2. This tree was previously documented to be retained in the approved consent.

The proposed new tree planting as documented in the approved consent, will be planted in a deep soil condition which will support healthy growth to maturity.

Yours Faithfully - For Arcadia Landscape Architecture Pty Ltd.
