

Mrs Natalie Heather
Development Manager
Suez Recycling and Recovery Pty Ltd
Unit 37, Rider Boulevard
Rhodes NSW 2138

2 October 2019

Dear Mrs Heather

**Botany Cogeneration Plant (SSD 10373)
Planning Secretary's Environmental Assessment Requirements**

Please find attached a copy of the Planning Secretary's Environmental Assessment Requirements (SEARs) for the preparation of an Environmental Impact Statement (EIS) for the Development Application (DA). These requirements have been prepared in consultation with relevant public authorities based on the information you have provided to date. I have also attached a copy of the public authorities' comments for your information.

The Department has not yet received a response from Bayside Council or NSW Health. A copy of their responses will be forwarded to you upon receipt.

Please note the Planning Secretary may modify these requirements at any time and may do so following the receipt of Bayside Council or NSW Health's responses.

If you do not submit a DA and EIS within two years, you must consult further with the Planning Secretary in relation to the preparation of the EIS.

Prior to exhibiting the EIS, the Department will review the document in consultation with relevant authorities to determine if it addresses the requirements in Schedule 2 of the *Environmental Planning and Assessment Regulation 2000*. You will be required to submit an amended EIS if it does not adequately address the requirements.

The Department wishes to emphasise the importance of effective and genuine community consultation where a comprehensive open and transparent community consultation engagement process must be undertaken during the preparation of the EIS. This process must ensure that the community is provided with a good understanding of what is proposed, description of any potential impacts and they are actively engaged in issues of concern to them.

Please contact the Department at least two weeks before you propose to submit your DA and EIS. This will enable the Department to:

- confirm the applicable fee (see Division 1AA, Part 15 of the *Environmental Planning and Assessment Regulation 2000*); and
- determine the number of hard copies of the DA and EIS that will be required for reviewing purposes.

If your development is likely to have a significant impact on matters of National Environmental Significance, it will require an approval under the Commonwealth *Environment Protection and Biodiversity Conservation Act 1999* (EPBC Act). This approval would be in addition to any approvals

required under NSW legislation and it is your responsibility to contact the Commonwealth Department of the Environment and Energy to determine if an approval under the EPBC Act is required (<http://www.environment.gov.au> or 6274 1111).

If you have any questions, please contact Sally Munk on 9274 6431 or via email at sally.munk@planning.nsw.gov.au.

Yours sincerely,

2/10/19

Chris Ritchie
Director, Industry Assessments
as delegate of the Secretary
