Selection of the Architect

Community Engagement

- The consultation period between 20 March to 3 April and was widely promoted through Council's website, social media and weekly newspaper advertisements.
- We asked the community to watch three concept videos, and select the features of each concept that appealed to them in the categories of; external appearance, entrance and foyer, theatre experience and connection with the park.
- the Sutherland Entertainment Centre. Feedback could be submitted online and on hard copy forms at Videos and drawings could be viewed on Council's website and in a dedicated consultation exhibit at the Entertainment Centre and Libraries. The digital reach during the consultation period was strong, with over 3,000 clicks to the dedicated consultation page on the website, and over 20,500 people reached on social media.
- A total of 423 surveys were completed.
- Feedback received from the consultation was the design needs: More leg room, A Full Fly Tower, Need a lift, Proper disabled access to seats & Parking.
- We also completed the following informing engagement with the community during this time:
- Media Release 22 March 2019 launch of design consultation
- 2SSR 20 March 2019 - launch of design consultation Our Shire – March 2019 - launch of design consultation

CONSULTATION RESULTS

CONSULTATION PROCESS

Sutherland Shire Council consulted with the community from 20 March 2019 to 3 April 2019, seeking feedback on the Sutherland Entertainment Centre architectural concepts.

We asked the community to watch three concept videos, and select the features of each concept that appealed to them in the categories of; external appearance, entrance and foyer, theatre experience and connection with the park.

Along with a technical and costing assessment, these results will contribute to an overall review of each concept, which will eventually lead to appointing an architect for this project.

SUTHERLAND ENTERTAINMENT CENTRE DESIGN

CONSULTATION PROCESS

Sutherland Shire Council consulted with the community from 15 November to 29 November 2019, seeking feedback on Sutherland Entertainment Centre Design.

We asked the community to:

- 1. Review the design images and floor plans.
- 2. Provide feedback on the design.

These results will contribute to refining the design before submitting to Council for consideration.

WHAT YOU TOLD US

- "The new design looks great! Is it possible to retract the seating?..."
- "I love the concept of tiered outdoor steps/seating and grassed area. Have enjoyed the November Music in the Park and can see this area being used more extensively. Please carefully consider the number of female toilets..."

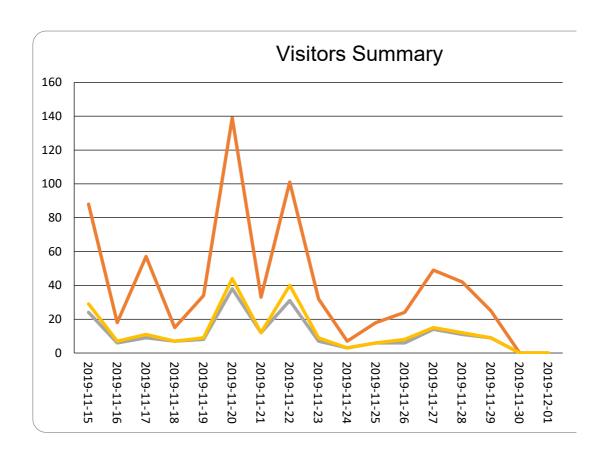

- "The overall improvement in the appearance of the building is pleasing, plus the way it has been developed to fit in with the surrounding environment is good. It is not clear how the interior design improves the actual experience of being in the audience at a performance..."
- "Centre looks fine. Main feedback is that there should be some playground equipment in peace park (and/or the centre) ..."
- "Play equip in the park would be a great addition"
- "From the design shown there appears to be no outdoor seating other than low brick walls..."
- "There are LOTS of steps! Hopefully, you have multiple ramp entrances..."
- "Where are the green features such as solar panels?"
- "Please incorporate as much greenery throughout building..."
- "The facade just needs refreshing not redoing. The internal spaces need updating spend the money inside"

WHAT'S NEXT?

Council will review feedback and further develop the design before lodging the development application in the first quarter of 2020

One band I am in uses the St George auditorium at Kogarah a few times a year-even that's a bit big, but easy to book and not much bureaucracy. In many ways it just looks like the same old entertainment centre with completely unnecessary facade and walk ways How about using some of the wasted walkway space for community arts and building rooms to accommodate rehearsals, exhibition and gallery spaces. Wollongong City Council has built The Illawarra Performing Arts Centre and attracts these types of performance. Cronulla Arts Theatre had a well-deserved makeover but the actual theatre seating area is still far too cramped for comfortable viewing. Submissions	Nov 22 19 01:09:12 pm What's this?		VAC		Our family often takes our children to the library, farmers markets, or shops at Sutherland. However, there is no playground equipment nearby. Particularly given the number of apartments is on the increase, it would be a real missed opportunity to spend \$34 million on what is currently a usable entertainment centre, and not include at least a bit of playground equipment Peace Park (and/or the centre). It is the ideal location, being nearby the library, train station, shops, and farmers markets. Thank you for your consideration. Originally the choice the Councillors made was on the figure of \$20M for a refurbishment or \$50M for a new build. The figure for the refurbishment is now \$34M and will most probably not stop there. We have not achieved any parking which is desperately needed. I totally support Cr. Johns and Cr. Collier regarding this subject.	Demolish the centre and start again with underground parking, a large canopy in the front that coaches/buses can offload passengers under cover and then park elsewhere. A good example is Mittagong RSL which is very successful. Build the library on top and sell the library site towards the cost of this project. The Shire could have a wonderful new centre and library which we could be proud of. This could be achieved very efficiently with the correct builder. It only 180 cm tall but I could not sit in the chair facing forward without my knees knocking up against the chair in front of me. was very uncomfortable, and I stopped going to shows there because of it. Please ensure there is sufficient legroom for every tall(ish) people. Also, I would suggest that you don't try to recoup your capital expenditure through ticket sales. Given that the proposal has very high, imposing structural outline on exterior, could we please have it made in keeping with the special Sutherland Shire environment by having trees outside around that exterior, with some extending up to the full height of the building. This has been done with great effect at Bankstown Library Centre. You can sit in the library cafe and look outside and right up to the high highest point of the extensive high glass panels, to eucalypt tree tops. It is magnificent, calming and restorative to sit in that space.	Please incorporate as much greenery throughout building also.	4-6	Leader Advertising	COMO, NSW 46-60		UnverifiedUser							2244011

The New Design looks great!

Is it possible to retract the seating? If its not youwill lose a lot of business. I feel it would be cheaper to knock down and rebuild.

All the best John Smith
