Dear Javier

SSD-10387: Daroobalgie Solar Farm, Forbes – Response to the Environmental Impact Statement

Thank you for referring the Environmental Impact Statement for SSD-10387 for the Daroobalgie Solar Farm.

ARTC has been liaising with Pacific Hydro in regards to the 132kV Electrical Transmission Line (ETL) that will cross the Stockinbingal to Parkes Railway line at 603.730km

We have advised Pacific Hydro that to enable the construction/installation of the ETL, it project would be subject to the following conditions:

1. Pacific Hydro is to obtain written approval from the appropriate Environmental Planning Approval Authority that they will enter into a Licence for Infrastructure of the 132 kV transmission line (crossing at 603.730km). This agreement will govern the works in the rail corridor and the ongoing occupation of the infrastructure upon completion. ARTC will not agree to an easement over the rail corridor.
2. ARTC Fees (noting these are subject to change):
 - a) Application
 - b) Ongoing Licence rental fees
 - c) Project specific Third Party Review costs
3. Design, construction and corridor entry needs to be in accordance with:
 - a) ARTC Network Rules and Procedures including but not limited to RLS-PR-003.
 - b) ARTC Standards, Policies and Procedures.
 - c) Any relevant Australian Standards.
 - d) All relevant safety documentation including but not Safe Work Method Statement relating to working in the rail corridor
4. Special Conditions
 - a) Any works are not to have a negative impact on ARTC Operations
 - b) The works are not to have a negative hydraulic impact on ARTC property
 - c) Services Searches, surveys or other preliminary corridor entry to be conducted under separate ARTC approval.

Yours sincerely
