I refer to the Validation Report submitted to the Planning Secretary in accordance with condition D21 of the project development consent for SSD-10388.

I note that the Validation Report:

- has been reviewed by the Applicant, and no issues have been raised with the Department;
- has been prepared by a site contamination certified specialist;
- contains the information required by the conditions of consent; and
- demonstrates that the remediation and validation strategy, applicable to the site and as outlined in the Remediation Action Plan, was appropriately implemented.

Accordingly, I acknowledge receipt of the final Validation Report, dated 27 September 2022, prepared by J K Environments, for our information under Schedule 2, Condition D21 of SSD-10388.

I remind you that condition D21(b) requires the Applicant to submit a copy of the Validation Report to the Certifier, therefore, please submit a copy to the Certifier if it already has not been done so.

Please note that if there are any inconsistencies between the submitted documents and the conditions of consent, then the requirements of conditions of consent will prevail.
