18/03/2022

Dear Dr. Marriner,

**Liverpool Hospital Redevelopment (SSD-10389)
Revised Archaeological Research Design and Excavation Methodology
Conditions A32, B24**

I refer to your revised Archaeological Research Design and Excavation Methodology (ARD&EM), submitted to the Planning Secretary for approval in accordance with condition A32, Schedule 2 of the project Development Consent for the Liverpool Hospital Redevelopment (SSD-10389). I acknowledge and thank you for your response to the Department review comments and request for additional information.

The Department has carefully reviewed the revised ARD&EM including your correspondence dated 25 January 2022 which include an assessment of the Archaeological potential in Area 1. Based on the provided justification, the Department is satisfied that the recommended revision proposed by RPS is minor and acceptable as it does not pose a serious risk to the heritage values at the site.

Accordingly, as a nominee of the Planning Secretary, I approve the revised ARD&EM, Version 2 dated 11 March 2022, in accordance with condition A32 of SSD 10389.

Please ensure that the approved ARD&EM is placed on the project website at the earliest convenience.

If you have any questions or wish to discuss the matter further, please contact Hala Fua, who can be contacted at Hala.Fua@planning.nsw.gov.au.

Yours sincerely

Jake Shackleton
Director – Infrastructure Management

As nominee of the Secretary
