Mr James Campbell
Project Engineer
BOJV

Dear James,

SSDA DESIGN MODIFICATION 1 - BASEMENTS WALL DESIGN CHANGE - ARCHAEOLOGICAL ADVICE

BVN and Urbis is preparing documentation to support minor modifications to the existing SSD (SSD 10405) for the Atlassian Office and Hotel Development at 8-10 Lee Street, Haymarket.

Modification 1 (MOD-1) includes the following:

- Minor design changes to the basement wall.

ARCHAEOLOGY ADVICE

The proposed design modification of the basement wall under MOD-1 is located within the subject area, assessed by archaeological assessments and will not have any effect on the management of the archaeological resource. Associated physical works of MOD-1 will be managed as per the developed Historical archaeological Assessment and Research Design (HAARD), Aboriginal Cultural Heritage Assessment (ACHA) and Heritage Management Plan (HMP).

CONCLUSION

There are no additional archaeological impacts identified as a result of the modification to SSD 10405. The works are therefore supported from an archaeological perspective.

Please do not hesitate to contact the undersigned if you require anything further.

Yours sincerely,

A handwritten signature in black ink, appearing to read "Balazs Hansel".

Balazs Hansel
Director - Associate Director/Archaeology
