Subject: Heritage Management Plan for Atlassian Central (Condition E43 of SSD-10405)

---

Dear Mr Gunasekara

I refer to your submission dated 4 August 2022, requesting approval of the Heritage Management Plan (revision 3, dated 3 August 2022). I also acknowledge your response to the Department's review comments and requests for additional information.

The Heritage Management Plan has been prepared in consultation with Heritage NSW and the Registered Aboriginal Parties and contains the information required by Condition E43 including:

- a protocol for ongoing consultation with RAPs during the project
- the proposed staging and timing of excavations and archaeological site works
- an Aboriginal archaeological monitoring and excavation methodology based on three primary scenarios for the discovery of Aboriginal archaeological resources
- reporting requirements including the preparation of a comprehensive archaeological excavation report following the application of archaeological management measures
- a methodology for artefact analysis, storage and management
- a protocol for unexpected finds and the discovery of human remains.

As nominee of the Planning Secretary, I approve the Heritage Management Plan (revision 3, dated 3 August 2022) under Condition E43.

You are reminded that if there is any inconsistency between the approved document and the conditions of approval, then the requirements of the conditions of approval prevail.

Please ensure you make the document and this approval letter publicly available on the project website.

If you wish to discuss the matter further, please contact Annika Hather on 02 9995 6662.

Yours sincerely

Amy Watson  
Team Leader  
Key Sites Assessments  
As nominee of the Planning Secretary
