Subject: Approval of the Acid Sulfate Soils Management Plans – Breen Resource Recovery Facility and Marang Parklands

Dear Mr Huang

I refer to your recent correspondence regarding the Breen Resource Recovery Facility and Marang Parklands (SSD-10412) seeking approval of the Acid Sulfate Soils Management Plans (ASSMP) as required by condition B33 of Schedule 2 of the development consent.

The Department of Planning, Housing and Infrastructure (Department) has reviewed the submitted management plans for the resource recovery facility and parklands components of the development and concludes the plans address the relevant conditions. As such, the following plans are approved:

- ‘304001462-200-04-Acid Sulfate Soil Management Plan – Resource Recovery Facility’ prepared by Stantec Australia Pty Ltd, dated 10 December 2025, rev 2
- ‘304001462-100-04 – Acid Sulfate Soil Management Plan – Parklands’ prepared by Stantec Australia Pty Ltd, dated 10 December 2026, rev 2

You are reminded that if there are any inconsistencies between the approved ASSMPs and the conditions of consent, the conditions prevail.

Please ensure you make the approved documents publicly available on the project website at the earliest convenience. Should you have any further enquiries, please contact Rebecka Williams, Industry Assessments, at the Department on 02 8275 1723 or via rebecka.williams@dpie.nsw.gov.au.

Yours sincerely

Lindsey Blecher
Team Leader
