

Ms Susie McBurney  
Remondis Australia Pty Ltd  
LEVEL 4, 163 O'RIORDAN STREET  
MASCOT New South Wales 2020

24/11/2021

Dear Ms McBurney

**Remondis Resource Recovery Facility Tomago (SSD-10447)  
Odour Control Unit**

I refer to the documentation submitted describing the odour control unit to be installed on the food de-packaging plant at the Remondis Resource Recovery Facility in Tomago (SSD 10447). The documentation was submitted in accordance with Condition B32 of Schedule 2 of SSD 10447.

The Department provided the documentation to the Environment Protection Authority (EPA) as they commented on the potential odour impacts of the development during the Department's assessment of SSD 10447. The EPA acknowledged receipt of the information but did not provide detailed comments.

The Department has conducted a review of the information and is satisfied it meets the requirements of Condition B32. The Department reminds you that an air quality verification report is required prior to construction of the food de-packaging plant in accordance with Condition B34 and B35. The air quality verification report must take into account the proposed odour control unit and must be approved by the Planning Secretary.

If you wish to discuss the matter further, please contact Deana Burn on 02 9274 6453.

Yours sincerely

Chris Ritchie  
Director  
Industry Assessments

As nominee of the Secretary
