SSD-10447 Tomago Resource Recovery Facility, Condition A16

REMONDIS' Development Consent (SSD-10447) Condition A16 requires the following:

A16. Before the commencement of construction of the development, the Applicant must:

- (a) consult with the relevant owner and provider of services that are likely to be affected by the development to make suitable arrangements for access to, diversion, protection and support of the affected infrastructure;*
- (b) prepare a dilapidation report identifying the condition of all public infrastructure in the vicinity of the site (including roads, gutters and footpaths);*
- (c) submit a copy of the dilapidation report to the Planning Secretary and Council.*

All nearby roads and gutters have been inspected with images captured and uploaded in the file SSD-10447 Sch 2 A16- Dilapidation Report- Image Locations. Larger individual images can be found in the following link-
<https://www.dropbox.com/sh/g4pyqdpk5sq0aa1/AADJbxXj6dRVPO6Dxbhzwr8Ma?dl=0>

The roads leading up to the site appear to be in fair condition with no guttering or footpath on any of these roads.

Guttering is located immediately around the subject site, 21D School Dr and is in reasonable condition.

No footpaths are present on any of the roads in the area.

A copy of the email to Port Stephens Council has also been uploaded to the Major Projects Portal.

I trust this clarification meets the requirements of this condition.

Yours faithfully

REMONDIS Australia Pty Ltd
