The Secretary
Department of Planning and Environment

Stubbo Solar Farm (SSD-10452)
Schedule 4 Condition 8: Non-Compliance Notification
Schedule 3 Condition 4: Transport – Access Route

Pursuant to Condition 8 of Schedule 4 of the Stubbo Solar Farm's Development Consent, ACEN Australia (the Applicant) hereby provides notice of a non-compliance in relation to Schedule 3 Condition 4 - Transport – Access Route, namely.

All over-dimensional and heavy vehicles associated with the development must travel to and from the site via Golden Highway, Ulan Road, Cope Road and Blue Springs Road as identified in Appendix 1 and Appendix 5.

Date that the Applicant became aware of the non-compliance: 12 February 2024

Development: Stubbo Solar Farm

Application number: SSD-10452

Condition of consent that the development is non-compliant with: Schedule 3 Condition 4: Transport - Access Route

The way in which it does not comply: On 5 February 2024, a heavy vehicle delivering equipment to a solar project was observed to have travelled to site via Mudgee. Upon further investigations, it was confirmed on 12 February 2024 that the vehicle had travelled to the Stubbo Solar site from Sydney via the Blue Mountains and Mudgee, instead of via the approved Access Route.

The reasons for the non-compliance (if known): The driver involved in the incident was a last-minute change, and despite having been given instructions at the time of the handover to drive to the Stubbo Solar site via the Access Route, the driver decided to travel to site via the Blue Mountains and Mudgee so as not to be late with the delivery.

What actions have been, or will be, undertaken to address the non-compliance: The driver who caused the non-compliance has been banned by the logistics company from future deliveries to Stubbo Solar. All carriers delivering items to the Stubbo Solar project have been advised about the Access Route.

Please do not hesitate to contact the undersigned on 0427 776 873 or email at Michael.Yeo@acenrenewables.com.au should you have any queries or require any additional information.

Kind Regards,
ACEN Australia
