

A map of the North Atlantic region, showing the eastern coast of North America on the left and the western coast of Europe on the right. The ocean is light blue. Landmasses are light beige. Greenland is shown in dark green on the left. A red dot is located in the central North Atlantic, with an orange shaded area surrounding it, indicating the study area.

VIEW FROM BRADLEYS HEAD ROAD

OUTLINE OF BUILT WORKS SHOWN IN WHITE

The main street frontage on Bradleys Head rd will have a large timber fence/screen to provide the animals with visual and acoustic privacy. The scale of this screen will be lessened by pulling the top edge down where possible reducing the overall scale. The screen will also be softened by the use of natural timbers and with a landscaping strip in front of the screen to help break up the scale and soften the appearance from the street.

APPROXIMATE EXTENTS OF SITE SHOWN DASHED

Situated within a dense existing tree canopy the proposed structures are not expected to be visible from Sydney Harbour as they will be obscured from view by existing trees.
