Dear Mr Cassel,

Mosman High School (SSD 10465): Changes in accordance with Condition A30(c) - Construction Environmental Management Plan

I refer to the upgrade of Mosman High School approved on 6 August 2021

In accordance with conditions B17-B22 of the Development Consent, the following documents are submitted to the Planning Secretary for information:

- SSD 10465 – B17-B22 – Construction and Environmental Management Plan, dated 10 December 2021 by Multiplex

I am writing to inform you of the updates made to the Mosman High School Project Construction Environmental Management Plan.

During the projects initial Independent Environmental Audit on 14 April 2022 one of the audit recommendations was that additional information or an addendum to the Environmental Waste Management Plan should be provided for construction works under condition of consent B20. This was recommended as the current EWMP only covered the demolition and excavation phases for the project not the waste generated during the remaining build.

Following the audit under condition of consent A30(c) Revision of Strategies, Plans and Programs, the CEMP was reviewed and the recommended changes to the EWMP made by way of the introduction of a section EWMP from the Construction Waste Contractor Bingo Industries within Appendix 5.

There were no other changes made to the CEMP or any of the appended reports under conditions B18, B19, B21 and B22.

Should you have any queries regarding this correspondence or require any further information on this matter please contact the undersigned.

Yours sincerely
