Hi Ania,

Apologies for the delay here, please ensure the following is included in the document,

Ausgrid recommends the addition of the following to the SEARs under Utilities:

In consultation with relevant agencies prepare a services and utilities impact assessment which:

- assesses the capacity of existing services and utilities and identify any upgrades required to facilitate the development
- assesses the impacts of the proposal on existing utility infrastructure and service provider assets and describe how any potential impacts would be managed.
