Dear Mr Wathen

**Winterbourne Wind Farm**  
**State Significant Development application number SSD-10471**

We refer to the above project and to our letter of 7 February 2024 regarding the expected date of lodgement of a written response to submissions received during exhibition of the Environmental Impact Statement (EIS) for the project.

Given the extensive design and assessment work which has been conducted since the EIS, preparation of the Submissions Report has taken longer than initially anticipated. We now expect to be in a position to lodge both this report and an Amendment Report by 30 August 2024.

Regards,

**Doug Landfear**  
Project Director
