Energy, Resources and Industry Assessments  
Department of Planning, Housing and Infrastructure

By Email

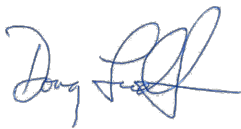

Dear Ms Bandaruk

**Winterbourne Wind Farm  
State Significant Development application number SSD-10471**

We refer to the above project and to our letter of 21 June 2024 regarding the expected date of lodgement of a written response to submissions received during exhibition of the Environmental Impact Statement (EIS) for the project.

Given the extensive design and assessment work which has been conducted since the EIS, preparation of the Submissions Report has taken longer than initially anticipated. We now expect to be in a position to lodge both this report and an Amendment Report by 20 September 2024.

Regards,

**Doug Landfear**  
Project Director  
WinterbourneWind Pty Ltd
