

5 March 2025

Tatsiana Bandaruk
Team Leader – Energy Assessments
Energy, Resources and Industry Assessments
Department of Planning, Housing and Infrastructure

By Email

Dear Ms Bandaruk

**Winterbourne Wind Farm
State Significant Development application number SSD-10471
Response to Submissions No. 2**

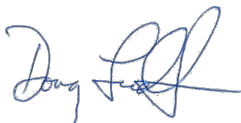

We refer to the above project and to your letter dated 5 November 2024 requesting a written response to submissions received by the Department of Planning, Housing and Infrastructure (DPHI) during exhibition of the Amendment Report dated 3 October 2024 for the project.

As previously advised, we request an extension to provide DPHI with a written response to the further submissions. This request is made due to a number of factors, including that key agency submissions were received more than a month after your above letter, we are presently awaiting information from Transport for NSW and EnergyCo to inform our assessment, and there has been an intervening holiday period.

Based on the scope of submissions and assessment work being conducted at this time, we expect to lodge a further Submissions Report by Friday, 30 May 2025.

We are working to deliver the further Submissions Report to DPHI at the earliest opportunity. In response to DPHI's recent request, we will consider whether we can deliver part of the report in April 2025 based on the matters to be addressed, progress of assessment work, and timely receipt of information that has been requested from the relevant NSW Government agencies.

Kind regards

Doug Landfear
Project Director
WinterbourneWind Pty Ltd
