**Subject: Request for response to submissions received during the exhibition period**

Dear Mr Searle

The exhibition of the development application for the proposed Eastern Creek Recycling Ecology Park Throughput Increase (SSD-11606719), including the Environmental Impact Statement (EIS), ended on 10 August 2022.

All submissions received by the Department of Planning and Environment (the Department) are now available on the NSW planning portal at <https://www.planningportal.nsw.gov.au/major-projects/projects/eastern-creek-rep-throughput-increase>.

The Department requests a written response to issues raised in these submissions, as required under section 59(2) of the *Environmental Planning and Assessment Regulation 2021* (the Regulation). The written response must be in the form of a submissions report that has been prepared having regard to the *State Significant Development Guidelines* (DPIE, 2021), including the *Preparing a Submissions Report* guideline.

At the time of writing, the Department has not yet received advice from the NSW Environment Protection Authority, however this will be forwarded to you when it is received.

The Department will shortly forward you its comments on the EIS, which may include requirements to provide additional information. This information should be included in the response to submissions report requested above.

Your submissions report should be provided within two months of the date of this letter.

Please note that the time between the date of this letter and the date the Planning Secretary receives your submissions report are not included in the development application's assessment period, pursuant to section 94(1) of the Regulation.
