**Hunter Valley Operations South Open Cut Continuation Project**

**Project Description:** Hunter Valley Operations South Open Cut Continuation Project, State Significant Development 11826621.

HV Operations Pty Ltd has lodged a Development Application for Development Consent under Divisions 4.1 and 4.7 of Part 4 of the *Environmental Planning and Assessment Act 1979* for the Hunter Valley Operations Continuation Project (the Project).

HV Operations Pty Ltd is seeking Development Consent for the Project to facilitate the continuation of open cut coal mining operations and supporting infrastructure upgrades through to the end of 2045.

Pursuant to the requirements of the *Environmental Planning and Assessment Regulation 2021*, notice of the Development Application is hereby provided.

An Environmental Impact Statement (EIS) prepared in accordance with the requirements specified in the *Environmental Planning and Assessment Regulation 2021* supported the Development Application. Details regarding the public exhibition of the EIS will be made via notification by the NSW Department of Planning and Environment.

**Site Description:**

The Project is located primarily within the Singleton Local Government Area, approximately 24km north-west of Singleton.

The Project encompasses the following land (Lots in Deposited Plans):

**Loy Yang B Power Station**

**Senior Management Opportunity**

*Loy Yang B - Powering Your career!*

*Is it time to change the pace and get out of the city rat race?  
 Great career opportunity in a changing industry and high growth business  
 Team-oriented and inclusive workplace culture which promotes health & wellbeing and work life balance*

**About us**

- Loy Yang B is an electricity generator located in the picturesque Latrobe Valley currently supplying around 20% of Victoria's power. We are owned by Chow Tai Fook Enterprises (CTFE) and belong to the Alinta Energy family, a growing and innovative energy market disrupter.
- We are focused on maintaining world class levels of plant performance, efficiency and flexibility and are in search of a person with expertise and experience to contribute to innovative new projects as we look to re-invent our business.
- We are committed to increasing workforce diversity and creating an environment where people with new ideas feel empowered to speak up and explore what is possible.
- We constantly strive to understand and meet broad community expectations regarding environmental management, health, safety and good corporate citizenship.

**About the opportunity**

We are looking to appoint a dynamic and highly motivated senior manager on a permanent basis. The ideal candidate will have experience at a management level in the day-to-day operations, and engineering and maintenance of a thermal power plant or heavy industry. The successful candidate will initially take on the role of Manager Production, with potential opportunity in the future to move into other management roles.

As a member of the Loy Yang B Management Team, you will play a pivotal role in influencing and shaping our future as well as providing effective leadership and contributing to the development and implementation of our overall business strategy. This role is a key part of our senior management succession strategy and ensures our ability to meet longer-term business objectives.

**What you'll do**

Reporting directly to the General Manager, Loy Yang B, the Manager Production plans, organises, staffs, directs and controls all operational activities, ensuring that the business meets availability, reliability, efficiency, generation and cost targets, both safely and within environmental limits. Additionally, this role is responsible for chemistry, environmental and compliance programs and activities associated with the operation of the Loy Yang Power Station.

**What you'll need**

- Skills to empower, motivate, lead, mentor, coach and develop employees.
- Demonstrated excellent communication, presentation and interpersonal skills, including technical writing.
- The ability to achieve successful business outcomes through functional and informal networks.
- A bachelor's degree in engineering (Electrical, or Mechanical).
- Significant experience working in a thermal generation plant in both operations and engineering and maintenance.

**If this sounds like you, don't ignore this opportunity, make sure you:**

- Apply via our careers page [www.loyyangb.com.au/careers](http://www.loyyangb.com.au/careers)
- Close date 18 January 2023

*Loy Yang B welcome applications from people with diverse cultural and linguistic backgrounds and people with disability. We will provide reasonable adjustments for individuals with disability throughout the recruitment process. If you identify as a person with disability and require adjustments to the application, recruitment, selection and/or assessment process, please advise via the above email or 5177 2268 and indicate your preferred method of communication (email, phone) so we can keep in touch and meet your needs.*

Dennis recently relocated and between his old area and new area he has to book jobs in advance. The thing though he mentioned was that he chose to keep his regular ad in the old area as he said a lot of customers tell him they misplace his number so they wait for the next paper to come out and get it from there as they know he always has an ad in the classifieds.

**Like Dennis, don't miss a job by thinking everyone knows how to contact you. Let our classified team help you today.**
