Item

Marulan Solar Farm

740 Carrick Rd, 154 Munro Rd, Carrick

Heritage Status

The proposed site is adjacent to 'Lockersleigh' GMC LEP, Schedule 5 Local Item 033 and the site includes 'Ruins of Kyle' GMC LEP, Schedule 5 Local Item 032.

Matter

Proposed installation of Solar Farm including panels on steel frames and associated ancillary structures, access tracks and fences. The project is an item of State Significant Development.

Advice

I have reviewed the Environmental Impact Statement (EIS) and the Statement of Heritage Impact (SoHI) prepared by Premise Australia and dated July 2022.

In my opinion the SOHI is of high quality and consistent with standards of the NSW Heritage Office and the Australia ICOMOS Burra Charter, 1999.

The assessments of impact on the two identified heritage items appear to be well reasoned and the recommendations sound. These appear to have been satisfactorily adopted as Mitigation Measures in the EIS Main Report. In my opinion the proposed measures will satisfactorily address the potential impacts on heritage significance.

I note that potential impacts on aboriginal items will be assessed by others.

David Hobbes

Heritage Advisor to Goulburn Mulwaree Council
