Dear Javier,

RE: Submission Peninsula Solar Farm – SSD-14757962

Thank you for the opportunity to provide comment on the Peninsula Solar Farm project (the Project).

APA has statutory obligations to ensure our pipelines are maintained and operated in accordance with Australian Standard 2885. The project is located approximately 30km south-east from the Marsden to Dubbo Pipeline at the closest point. Therefore, APA has no concerns regarding any direct impact on the pipeline, as a result of the development and construction activity. In addition, the project development layout is outside the pipeline measure length (area of consequence).

For any further enquiries relating to this correspondence, please feel free to contact myself on (07) 3223 3385 or the Infrastructure Planning & Protection team at planningnsw@apa.com.au

Yours faithfully
