

A 3D architectural rendering of the Nepean Hospital Development - Stage 2. The image shows a large, multi-story building with a complex, stepped roofline and a series of red structural elements, including stairs and walkways, indicating construction or renovation work. The building is situated on a sloping site, and the foreground shows a large, multi-level underground parking structure with numerous columns and red structural elements. The overall style is a technical architectural drawing with a focus on structural details.
