- in Zone R2 Low Density Residential, and
- identified as "Mount Gilead Urban Release Area" on the Urban Release Area Map.

**4.1F Exception to minimum lot sizes for certain land in Glenfield**

**4.1G Exception to minimum subdivision lot sizes for certain residential development in Maryfields Urban Release Area**

- (1) The objective of this clause is to provide flexibility in the application of lot size standards for residential development on larger sized lots on land in Zone R3 Medium Density Residential in the Maryfields Urban Release Area.
- (2) This clause applies to land in Zone R3 Medium Density Residential and identified as "Maryfields Urban Release Area" on the Urban Release Area Map.
- (3) Despite clause 4.1, development consent may be granted for the subdivision of land to which this clause applies on which is lawfully erected a type of residential accommodation if—

  - (b) each lot resulting from the subdivision will be at least 225 square metres and will have an erected single dwelling, and
  - (c) each lot resulting from the subdivision will have a single dwelling that is in existence and for which an occupation certificate was issued before the consent was granted.

**4.2 Rural subdivision**

(1) The objective of this clause is to provide flexibility in the application of standards for subdivision in rural zones to allow land owners a greater chance to achieve the objectives for development in the relevant zone.

(2) This clause applies to the following rural zones—

- (a) Zone RU1 Primary Production,
- (b) Zone RU2 Rural Landscape,
- (baa) Zone RU3 Forestry,
- (c) Zone RU4 Primary Production Small Lots,

**Note—**

When this Plan was made it did not include all of these zones.

(3) Land in a zone to which this clause applies may, with development consent, be subdivided for the purpose of primary production to create a lot of a size that is less than the minimum size shown on the Lot Size Map in relation to that land.

(4) However, such a lot cannot be created if an existing dwelling would, as the result of the subdivision, be situated on the lot.

(5) A dwelling cannot be erected on such a lot.

**Note—**

A dwelling includes a rural worker's dwelling (see definition of that term in the Dictionary).

**4.2A Erection of dwelling houses or dual occupancies (attached) on land in certain rural and environment protection zones**

(1) The objectives of this clause are as follows—

(2) This clause applies to land in the following zones—

- (a) Zone RU2 Rural Landscape,
- (b) Zone E3 Environmental Management,
- (c) Zone E4 Environmental Living.

(3) Development consent must not be granted for the erection of a dwelling house or a dual occupancy (attached) on land to which this clause applies unless the land—

- (b) is a lot created under this Plan (other than clause 4.2(3)), or
- (c) is a lot created under an environmental planning instrument before this Plan commenced and on which the erection of a dwelling house or a dual occupancy (attached) was permissible immediately before that commencement, or
- (d) is a lot resulting from a subdivision for which development consent (or its equivalent) was granted before this Plan commenced and on which the erection of a dwelling house or a dual occupancy (attached) would have been permissible if the plan of subdivision had been registered before that commencement, or
- (e) is an existing holding, or
- (f) would have been a lot or holding referred to in paragraph (a), (b), (c), (d) or (e) had it not been affected by—

  - (ii) a subdivision creating or widening a public road or public reserve or for another public purpose, or
  - (iii) a consolidation with an adjoining public road or public reserve or for another public purpose.

**Note—**

A dwelling cannot be erected on a lot created under clause 9 of *State Environmental Planning Policy (Rural Lands) 2008* or clause 4.2.

(4) Development consent must not be granted under subclause (3) unless—

- (a) no dwelling house or dual occupancy (attached) has been erected on the land, and
- (b) if a development application has been made for development for the purposes of a dwelling house or dual occupancy (attached) on the land—the application has been refused or it was withdrawn before it was determined, and
- (c) if development consent has been granted in relation to such an application—the consent has been surrendered or it has lapsed.

(5) Development consent may be granted for the erection of a dwelling house or a dual occupancy (attached) on land to which this clause applies if there is a lawfully erected dwelling house or dual occupancy (attached) on the land and the dwelling house or dual occupancy (attached) proposed to be erected is intended only to replace the existing dwelling house or dual occupancy (attached).

(6) Development consent may be granted to convert a dwelling house into, or to replace a dwelling house with, a dual occupancy (attached) on land to which this clause applies if no dual occupancy (attached) exists on the land and the dual occupancy (attached) is designed and will be constructed to have the appearance of a single dwelling.

(7) In this clause—

***existing holding*** means land that—

- (a) was a holding on the relevant date, and
- (b) is a holding at the time the application for development consent referred to in subclause (3) is lodged,

- (f) in the case of land to which *Interim Development Order No 28—City of Campbelltown* applied immediately before the commencement of this Plan—3 November 1978.

**Note—**

The owner in whose ownership all the land is at the time the application is lodged need not be the same person as the owner in whose ownership all the land was on the stated date.

### **4.2B Erection of rural workers' dwellings on land in Zones RU2 and E3**

**4.2C Exceptions to minimum subdivision lot sizes for certain land in Zones RU2 and E3**

- (1) The objective of this clause is to allow the owners of certain land to which the following environmental planning instruments applied to excise a home-site area from an existing lot (or existing holding) by the means of a subdivision—
  - (a) *Campbelltown Local Environmental Plan No 1*,
  - (b) *Interim Development Order No 15—City of Campbelltown*.
- (2) Subclause (3) applies to each lot to which *Campbelltown Local Environmental Plan No 1* applied immediately before its repeal that—

  - (b) is in Zone E3 Environmental Management, and
  - (c) has an area of at least 10 hectares.
- (3) Development consent must not be granted to the subdivision of the land to which this subclause applies unless the proposed subdivision will result in the creation of only 2 lots, each of which must have an area of at least 2 hectares.
- (4) Subclause (5) applies to each lot to which *Interim Development Order No 15—City of Campbelltown* applied immediately before its repeal that—
  - (a) was in existence on 18 July 1973, and
  - (b) is in Zone RU2 Rural Landscape.
- (5) Development consent must not be granted to the subdivision of the land to which this subclause applies unless the smallest lot to be created has an area of at least 2 hectares and is required for the erection of a dwelling house for occupation by—
  - (a) the person who owned the land on 18 July 1973, or
  - (b) a relative of that owner, or
  - (c) a person employed or engaged by that owner in the use of land of the owner adjoining or adjacent to that lot for the purpose of agriculture.
- (6) The total number of lots that may be created by the subdivision of land to which subclause (5) applies, whether by one or more subdivisions, must not exceed—
  - (a) if the land to be subdivided had an area of less than 10 hectares—nil, or
  - (b) if the land to be subdivided had an area of at least 10 hectares but less than 40 hectares—1, or
  - (c) if the land to be subdivided had an area of at least 40 hectares but less than 80 hectares—2, or
  - (d) if the land to be subdivided had an area of at least 80 hectares—3.

**4.2D Exceptions to minimum subdivision lot sizes for certain land in Zone E4**

ENVIRONMENTAL PLANNING AND ASSESSMENT ACT 1979**

---

area of the land being subdivided by the maximum density control number specified on the Lot Averaging Map in relation to that land.

(4) Development consent must not be granted under this clause unless the consent authority is satisfied that—

- (b) each lot to be created by the subdivision contains a suitable land area for—
  - (i) a dwelling house, and
  - (ii) an appropriate asset protection zone relating to bush fire hazard, and
  - (iii) if reticulated sewerage is not available to the lot—on-site sewage treatment, management and disposal, and
  - (iv) other services related to the use of the land for residential occupation, and

- (d) adequate arrangements are in place for the provision of infrastructure to service the needs of development in the locality.

**4.2E Subdivision of land in Zone E3**

- (1) The objective of this clause is to provide flexibility in the application of standards for the subdivision of certain land to allow land owners a greater chance to achieve the objectives for development in the relevant zone.
