CASA has no objections to, and no recommended conditions for the Woodlawn Advanced Energy Recovery Centre. There are no Aviation Safety implications.
As advised by CASA in Appendix E to Appendix O of the EIS:
The site is approximately 31km from Goulburn Aerodrome and not runway aligned.
The site is approximately 39km from Canberra Aerodrome and not runway aligned.
There are no strategic Helicopter Landing Sites in the area.
The site is a long way past the extremities of any Obstacle Limitation Surfaces.
Also, there are mountain ranges between the site and Goulburn and Canberra Aerodromes.
