Dear Sir/Madam,

**State Significant Development - Waste or resource management facility
Request for comments - exhibited Environmental Impact Statement (EIS)
Waste & Resource Management Facility - 609 COLLECTOR RD TARAGO NSW 2580, 91//DP754919**

Reference is made to correspondence dated 21/10/2022 seeking comments regarding the Environmental Impact Statement (EIS) currently being exhibited, for the above State Significant Development in accordance with the *Environmental Planning and Assessment Act 1979*.

The New South Wales Rural Fire Service (NSW RFS) has reviewed the EIS and provides the following comments;

The NSW Rural Fire Service notes that the Bushfire Protection Assessment prepared Travers Bushfire and Ecology adequately addresses the items raised in previous correspondence dated 7th June 2021 and finds broad concurrence with recommendations in section 4.2 of the report. NSW RFS raises no objections subject to a requirement that the future development of the land complies with *Planning for Bush Fire Protection 2019*.

For any queries regarding this correspondence, please contact David Webster on 1300 NSW RFS.

Yours sincerely,

Anna Jones
**Manager Planning & Environment Services
