Dear Marcus Kraefft

**SINSW - GLENWOOD HIGH SCHOOL
RESPONSE TO REVISED ARBORICULTURAL IMPACT
ASSESSMENT (AIA)**

Further to the Aconex correspondence RCC-GCOR-000222, requesting the review and preparation of written responses to address concerns raised pertaining to the amendment to the amended Arboricultural Impact Assessment (AIA) for the **SSD-23512960 - Glenwood High School Upgrade**.

Our responses to the amended AIA regarding impact to tree canopy cover is outlined below:

The amended AIA has identified a number of trees for removal to allow for the increase of parking spaces within the existing parking zone along the western boundary of the school.

The impact of the proposed canopy cover has been calculated as reducing the canopy cover by 41m², from 14,655m² (24.1%) to 14,614m² (24.05%).

We trust the above adequately addresses the impact of the removed tree planting on the canopy cover for the school.

Please do not hesitate to contact us should you have any queries or require any additional information.

Yours faithfully,

A handwritten signature in black ink, appearing to read 'Glenn McIntosh', with a long horizontal flourish extending to the right.
