Liddell Future Landuse Project- Extension to Retire Hunter Valley Delma Credits

Dear Mr. Parkinson

I refer to the letter dated 20 March 2025, submitted in accordance with Condition 29 (a) and (b); and condition B30, Part B of the consent for the Liddell Future Land Use Project (SSD-24937520), seeking a time extension to retire credits for the Hunter Valley Delma (*Delma vescolineata*), due to the species not being available in the BAM system at present.

I note that AGLM is in the process of preparing the documentation to request a charge quote from the Biodiversity Conservation Trust to enable the retirement of the Stage 1 and Stage 2 biodiversity credits included in Condition B28 of SSD-24937520. I acknowledge that AGLM aims to retire the credits as soon as possible. Given the project schedule and the requirement to retire the credits before commencing construction, AGLM intends to retire the credits, excluding those for the Hunter Valley Delma.

Accordingly, as nominee of the Planning Secretary, I approve AGLM's retirement of credits for the Hunter Valley Delma for Stage 1 and Stage 2 by 28 November 2025. If credits are not available in the BAM system, AGLM will seek a further extension.

Please ensure you make the document publicly available on the project website at the earliest convenience.

If you wish to discuss the matter further, please contact Charissa Pillay on 02 99955944.

Yours sincerely

Stephen O'Donoghue
Director
Resource Assessments
As nominee of the Planning Secretary
