

## Pre-Notification

Agency	Contact	Type	Date	Description	Extent contact
Pre-Notifications		Outgoing			
Heritage NSW	Greater Sydney Aboriginal Cultural Heritage		2020-10-15	Requested details of any Aboriginal organisations or individuals who may be interested in the project, using the original study area boundary.	Tom Sapienza
Heritage NSW	Greater Sydney Aboriginal Cultural Heritage		2020-10-19	Re-requested details of any Aboriginal organisations or individuals who may be interested in the project, using the finalised study area boundary the client settled on.	Tom Sapienza
Gandangara Local Aboriginal Land Council	General Manager		2020-10-19	Requested details of any Aboriginal organisations or individuals who may be interested in the project, using the finalised study area boundary.	Tom Sapienza
Greater Sydney Local Land Services	General Manager				
Liverpool City Council	General Manager				
NTSCorp	General Manager				
National Native Title Tribunal	General Manager		2020-10-19	Requested details of any Aboriginal organisations or individuals who may be interested in the project. Submitted request for search of Tribunal Registers.	Tom Sapienza
Office of the Registrar Aboriginal Land Rights Act 1983	The Office of the Registrar				
Pre-Notification		Incoming			
Gandangaara LALC	Darren Duncan	Phone	2020-10-20	Rang to register an interest, and sent through details as well. Rang because Gandangara LALC had been involved in some digs with AECOM recently in near the same area, and Darren wanted to check what was going on with things. Darren said he was keen for the fieldwork to happen on this project sooner rather than later, and that he would support efforts to expedite the consultation process.	Tom Sapienza
NNTT	Automated response		2020-10-20	No native title over the study area.	Tom Sapienza
Heritage NSW	Barry Gunther		2020-10-20	Madeline rang Barry to apologise and explain the fact that we sent through multiple data requests, and they discussed the possibility of expediting the search request for reasons related to trying to achieve fieldwork prior to Christmas. Tom later spoke further with Barry and forwarded the specific RAP request information, and Barry sent through the list at the end of the day.	Tom Sapienza Madeline Shanahan

Agency	Contact	Type	Date	Description	Extent contact
Liverpool City Council	Thomas Wheeler		2020-11-04	Thomas sent through a MDB mail merge of Aboriginal groups, but it was flagged by Outlook as spam and I could not open the attachment. Asked him to re-send in another format.	Tom Sapienza

Deerubbin LALC	Steve Randall	Email	2020-11-02	Sent email to inform workshop date (16 November) and seek confirmation of availability for that date.	Dr. Madeline Shanahan

Agency	Contact	Type	Date	Description	Extent contact
Deerubbin LALC	Steve Randall	Phone	2020-11-02	Phone call to inform workshop date. Steve said that he did not think the study area is in their boundary and requested that the study area boundary be sent on to him.	Dr. Madeline Shanahan
Gandangara LALC	Darren Duncan	Email	2020-11-02	Sent email to inform workshop date (16 November) and seek confirmation of availability for that date.	Dr. Madeline Shanahan
Gandangara LALC	Darren Duncan	Phone	2020-11-02	Phone call to inform workshop date. Darren was informed that email to Ruth bounced back, and he replied saying that he could pass on the information.	Dr. Madeline Shanahan
Darug Custodian Aboriginal Corporation	Justine Coplin	Phone	2020-11-02	Phone call to inform workshop date. Justine requested invitation list for workshop, and wanted to consider whether she will attend Focus Group 1 or Focus Group 2.	Dr. Madeline Shanahan
Darug Custodian Aboriginal Corporation	Justine Coplin	Email	2020-11-02	<p>Sent email thanking Justine for the preceding phone call; informed Justine that the study area for this phase of the project is the Aero Core precinct only, and that Extent Heritage is the main heritage consultant for this project. Also informed Justine that Extent Heritage is working closely with Zion Engagement and Planning who are engaged separately as specialists in Aboriginal community engagement and consultation. Informed Justine that Zion advises for additional Darug groups to be consulted (besides the original focus group convened by Extent Heritage earlier this year), and that another cultural values workshop should be held for this additional consultation to take place. Hence, two more workshops will take place, following the same format and facilitated by Extent Heritage, to discuss cultural values for the precinct and gather feedback on how these should be reflected in design.</p> <p>Informed Justine that Extent Heritage will be inviting Cubbitch Barta Native Title Claimants Aboriginal Corporation, Deerubbin Local Aboriginal Land Council and Gandangara Local Aboriginal Land Council for a workshop on 16 November. Also informed Justine that Zion will be organizing another workshop for Dharug Strategic Management Group, Dharug Ngurra Aboriginal Corporation, Darug Aboriginal Cultural Heritage Assessments, Darug Aboriginal Land Care, Darug Land</p>	Dr. Madeline Shanahan

Agency	Contact	Type	Date	Description	Extent contact
				<p>Observations and Burbaga Aboriginal Corporation on 18 November.</p> <p>Invitation extended to Justine to participate in either of the two sessions, as she has participated in the very first focus group earlier this year. Assured Justine that the agenda and format will be the same at both workshops.</p>	
Deerubbin LALC	Steve Randall	Email	2020-11-04	Sent email to let Steve know that the study area boundaries lie outside the boundaries of the Deerubbin LALC, and to keep him notified on the work done with the focus group at the Cultural Values Workshop.	Dr. Madeline Shanahan
Cubbitch Barta	Glenda Chalker	Email	2020-11-05	Sent follow up email on workshop about the plan and schedule on 16 November; informed about invoicing arrangements for the workshop; requested number of participants from her organisation that will be attending the workshop for catering and social distancing requirements; informed that the meeting place, agenda and conference venue of the workshop will be confirmed next week.	Dr. Madeline Shanahan
Gandangara LALC	Darren Duncan	Email	2020-11-05	Sent follow up email on workshop about the plan and schedule on 16 November; informed about invoicing arrangements for the workshop; requested number of participants from her organisation that will be attending the workshop for catering and social distancing requirements; informed that the meeting place, agenda and conference venue of the workshop will be confirmed next week.	Dr. Madeline Shanahan
Darug Custodian Aboriginal Corporation	Justine Coplin	Phone	2020-11-05	Phone call to Justine (about the workshop on 16 November) – no answer.	Dr. Madeline Shanahan
Gandangara LALC	Darren Duncan	Phone	2020-11-06	Phone call from Darren requesting for the workshop to be postponed to a later date, as he has other commitments to attend to on 16 November.	Dr. Madeline Shanahan
Gandangara LALC	Darren Duncan	Email	2020-11-06	Sent email following up on phone conversation about Darren being unable to attend the workshop on 16 November due to his other commitments, and that Extent Heritage will organize (and get back to him about) another date for the workshop in the week beginning 23 November instead.	Dr. Madeline Shanahan

Cubbitch Barta	Glenda Chalker	Phone	2020-11-06	Phone call to inform Glenda that the workshop scheduled on 16 November will be postponed to a later date, and that Extent will be in touch with a new date once it is organised.	Dr. Madeline Shanahan
Cubbitch Barta	Glenda Chalker	Email	2020-11-06	Sent email following up on postponing the workshop on 16 November, and that Extent will be in touch with a new date once it is organised.	Dr. Madeline Shanahan
Deerubbin LALC	Steve Randall	Phone	2020-11-06	Phone call to Steve (on postponing the workshop on 16 November) – no answer.	Dr. Madeline Shanahan
Darug Land Observations	Jamie Workman and Anna Workman	Phone	2020-11-06	Phone call to Jamie and Anna to inform them on additional cultural values mapping work – no answer.	Dr. Madeline Shanahan
Darug Land Observations	Jamie Workman and Anna Workman	Email	2020-11-06	Follow up email to Jamie and Anna to inform them on additional cultural values mapping work.	Dr. Madeline Shanahan
Darug Aboriginal Cultural Heritage Assessments	Gordon Morton	Phone	2020-11-06	Phone call to Gordon to inform him on additional cultural values mapping work. Gordon requested to be in a session with Darug groups only	Dr. Madeline Shanahan
Cubbitch Barta	Glenda Chalker	Phone	2020-11-11	Phone call to Glenda to organize separate visit at her house on 17 November.	Dr. Madeline Shanahan
Cubbitch Barta	Glenda Chalker	Email	2020-11-11	Follow up email to Glenda to check if both Chole Sullivan (GHD) and Madeline can visit Glenda at 10.30am on 17 November to discuss the project and record any information that Glenda would like to share as part of the cultural values workshop process.	Dr. Madeline Shanahan
Deerubbin LALC	Steve Randall	Phone	2020-11-11	Phone call to Steve – Steve advised that Deerubbin LALC will not be able to participate in the cultural values workshop as the study area is not within Deerubbin's boundaries.	Dr. Madeline Shanahan
Deerubbin LALC	Steve Randall	Email	2020-11-11	Follow up email to Steve to confirm that Deerubbin LALC does not wish to be part of the cultural values work associated with the Aero Core precinct as it is not within their boundaries. Informed Steve that Extent Heritage will get back in touch with Deerubbin LALC if commissioned to conduct similar cultural values work for areas within their boundaries.	Dr. Madeline Shanahan

Agency	Contact	Type	Date	Description	Extent contact
Gandangara LALC	Darren Duncan	Phone	2020-11-11	Phone call to Darren – Darren advised that Gandangara LALC is available to meet Extent Heritage on site on the week beginning 23 November 2020.	Dr. Madeline Shanahan
Gandangara LALC	Darren Duncan	Email	2020-11-11	Follow up email to Darren to confirm if 24 November at 10am suit Gandangara LALC to meet and spend a couple of hours on site to discuss cultural values for the study area.	Dr. Madeline Shanahan
Burbaga Aboriginal Corporation	Sandra Lee	Email	2020-11-16	Email to Sandra (previously contacted by GHD) inviting her to attend a cultural values workshop relating to the Aero Core precinct on 30 November. Informed Sandra that the rates for the consultation will be \$150 per hour per group, that Extent Heritage will inform her on the specifics on the workshop (location, agenda and time) shortly, and requested that she confirm her attendance.	Dr. Madeline Shanahan
Darug Strategic Management Group	DSMG Admin	Email	2020-11-16	Email to DSMG admin (previously contacted by GHD) inviting him to attend a cultural values workshop relating to the Aero Core precinct on 30 November. Informed DSMG admin that the rates for the consultation will be \$150 per hour per group, that Extent Heritage will inform them on the specifics on the workshop (location, agenda and time) shortly, and requested that they confirm their attendance.	Dr. Madeline Shanahan
Darug Custodian Aboriginal Corporation	Justine Coplin	Phone	2020-11-16	Phone call to Justine inviting her to participate in the cultural values workshop relating to the Aero Core precinct on 30 November – Justine confirmed her attendance, but expressed reservations about a list of people.	Dr. Madeline Shanahan
Darug Custodian Aboriginal Corporation	Justine Coplin	Email	2020-11-16	Follow-up email to Justine inviting her to attend a cultural values workshop relating to the Aero Core precinct on 30 November. Informed Justine that the rates for the consultation will be \$150 per hour per group, and that Extent Heritage will inform her on the specifics on the workshop (location, agenda and time) shortly.	
Darug Land Observations	Jamie Workman and Anna Workman	Phone	2020-11-16	Phone call to Jamie inviting them to participate in the cultural values workshop relating to the Aero Core precinct on 30 November – no answer, left a message.	Dr. Madeline Shanahan

Freeman and Marx	Clive Freeman	Email	2020-11-26	Would like to be updated on the project and would like to participate in work.	Ryan Taddeucci

Agency	Contact	Type	Date	Description	Extent contact
Walbunja	Hika Te Kowhai	Phone	2020-11-27	Called Extent Brisbane office to speak to Ryan. Ryan was unavailable and could not take the call but was sent a message to contact Hika.	Tiffany Ho
Walbunja	Hika Te Kowhai	Phone	2020-11-27	Requested additional information regarding the survey and noted that the RAPs should be provided an opportunity to participate in the fieldwork program in addition to the LALC. Ryan explained that representatives of the RAPs have been engaged for participation in the survey and that because there are 64 RAPs for the project, not everyone will be able to participate in the survey. Ryan also noted that there may be additional opportunities to participate in fieldwork if test excavations take place. Hika noted that the South Coast Groups have knowledge of the study area and would provide details in a written response to the ACHAR methodology.	Ryan Taddeucci
Wori Woilywa	Daniel Chalker	Email	2020-12-09	The study area is considered to be sacred land, as is all Aboriginal land. Notes that it is difficult to investigate Aboriginal land use and history, as the post-contact modification of the study area has removed archaeological material. Any works taking place within the study area should be cultural appropriate. A full coverage survey and test excavation program is recommended.	Ryan Taddeucci
<b>Archaeological Survey</b>					
Gandangara LALC	Melissa Williams	Email	2020-11-20	Sent email inviting Gandangara LALC to participate in archaeological survey at Aero Core Precinct (07.12.2020-09.12.2020). Requested for their response and relevant work insurances by close of business 27.11.2020. Walbunja	Hika Te Kowhai	Phone	2021-06-16	Hika left a message to discuss the project	Ryan Taddeucci
Walbunja	Hika Te Kowhai	Phone	2021-06-17	Ryan returned Hika's phone call. Hika expressed concern that the remainder of the study area outside of the identified areas of PAD are not being subject to test excavation. Ryan explained that the study has been subject to previous excavation by AECOM as part of the Sydney Metro project and that most of the study area has been subject to historic disturbance. Therefore, the test excavation program will focus on the areas of PAD identified by the survey report. Hika would also like to see the maximum area of test excavation permissible by the Code of Practice (0.5%) of the investigation area. Ryan explained that the purpose of the 0.5% is to minimise harm through investigations and that the general principal is to keep testing to a minimum to ensure no harm occurs without an AHIP. Hika was asked to provide written comments for inclusion in the consultation log.	Ryan Taddeucci
Gandangara LALC	Ruth Sheridan	Phone	2021-06-17	Ryan called Ruth to discuss the sites mentioned in the email.	Ryan Taddeucci

				<p>Questions 'why is the western section of ACF01 PAD not being investigated...If you are going to test the PAD then all of it should be tested unless this area is not to be impacted by the proposed development'.</p> <p>Requested topographical information to be included into the methodology to understand the landscape.</p> <p>Suggests 'we should be testing to prove a lack of artefactual material presence in some places , just as much as trying to prove the presence of artefactual material.'</p> <p>'All excavated material should be <b>WET</b> sieved using a 3mm sieve'.</p> <p>'If you are seeking advice on the methodology, then this should be taken into that advice and not dismissed.'</p>	
Cubbitch Barta Native Title	Glenda Chalker	Phone	2021-06-07	Hannah Morris (HM) called Glenda Chalker (GC) in response to her email to further discuss concerns and new methodology to be proposed. HM hears concerns about trench location in relation to PAD ACF01 (Extent had already reassessed to move trenches). HM Stated that Extent had decided to add additional trenches along waterways. GC says she agrees and did not bring that up because she had not been on site to understand the level of disturbance. HM mentioned that several trenches would likely be relocated and we can further investigate the PAD where necessary and discuss further with all REPs on site during the program. GC seemed happy with response to updated methodology and looks forward to receiving the new version.	Hannah Morris
Gandangara LALC	Ruth Sheridan	Email	2021-06-21	'The methodology itself appears to be sound.' Would like to further 'discuss findings of rare ochre deposits in the area that were not captured in other reports.'	Madeline Shanahan
Walbunja	Hika Te Kowhai	Phone	2021-06-30	Hika left a message to discuss the project.	Madeline Shanahan
Walbunja	Hika Te Kowhai	Phone	2021-06-30	Madeline Shanahan (MS) returned Hika's call. Hika says he is ok with the methodology. MS told Hika that Extent had listened to the feedback, that the methodology was being revised and would be reissued soon.	Madeline Shanahan

**Re: Request for information on Aboriginal Stakeholders for Aboriginal Cultural Heritage Assessment of the proposed development in Western Sydney Aerotropolis AeroCore Precinct, NSW**

Dear Ms Williams,

Extent Heritage Pty Ltd has been engaged by the Western Parkland City Authority (the proponent) to undertake an Aboriginal Cultural Heritage Assessment (ACHA) in advance of proposed development within the Western Sydney Aerotropolis AeroCore Precinct (the study area). The development comprises 165 hectares and is located just north of The Northern Road, between Badgerys Creek Road and the areas surrounding Thompsons Creek (Figure 1).

The study area is located in **Liverpool Local Government Area**, and comprises all or part of the following land parcels:

- Lots 1, 2 DP2650
- Lot 1 DP712840
- Lots 700, 701, 702, 703, 705, 706, 707, 708, 709 DP788485
- Lots 801, 802, 803, 804, 805, 806, 807, 808 DP803165
- Lots 900, 901, 902, 903, 904, 905, 906, 907 DP803166
- Lots 274, 275, 276 DP803167
- Lot 7041 DP850594
- Lots 2711, 2712 DP1128906
- Lot 10 DP1235662

The proposed development would involve construction works associated with mixed use development, including bulk earthworks, rezoning, construction of infrastructure (roads, footpaths, stormwater, etc.), environmental controls and landscaping.

Dear Sir or Madam,

Extent Heritage Pty Ltd has been engaged by the Western Parkland City Authority (the proponent) to undertake an Aboriginal Cultural Heritage Assessment (ACHA) in advance of proposed development within the Western Sydney Aerotropolis AeroCore Precinct (the study area). The development comprises 165 hectares and is located just north of The Northern Road, between Badgerys Creek Road and the areas surrounding Thompsons Creek (Figure 1).

The study area is located in **Liverpool Local Government Area**, and comprises all or part of the following land parcels:

- Lots 1, 2 DP2650
- Lot 1 DP712840
- Lots 700, 701, 702, 703, 705, 706, 707, 708, 709 DP788485
- Lots 801, 802, 803, 804, 805, 806, 807, 808 DP803165
- Lots 900, 901, 902, 903, 904, 905, 906, 907 DP803166
- Lots 274, 275, 276 DP803167
- Lot 7041 DP850594
- Lots 2711, 2712 DP1128906
- Lot 10 DP1235662

The proposed development would involve construction works associated with mixed use development, including bulk earthworks, rezoning, construction of infrastructure (roads, footpaths, stormwater, etc.), environmental controls and landscaping.

The contact details for the proponent are:

**Subject:** Report Review - Aboriginal Cultural Values within the Western Sydney Aerotropolis

Hello,

Back in June, your organisation registered an interest in the Aboriginal Cultural Values Consulting exercise Extent Heritage was undertaking as part of an overarching Heritage Assessment of five precincts within the Western Sydney Aerotropolis region.

Per Heritage NSW's *Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010 (DECCW)*, I am writing to inform you that our draft report is complete and that it is now available for your organisation to review and comment on. The report is way too big to email, but you can view and download it from the following links.

The full size version of the draft report is 73 megabytes, and can be downloaded here:

[https://www.dropbox.com/s/v9np9wzme0mzayh/WSAP\\_Aboriginal%20%26%20Non-Aboriginal%20Cultural%20Heritage%20Assessment\\_Final%20DRAFT.pdf?dl=0](https://www.dropbox.com/s/v9np9wzme0mzayh/WSAP_Aboriginal%20%26%20Non-Aboriginal%20Cultural%20Heritage%20Assessment_Final%20DRAFT.pdf?dl=0)

A reduced resolution version of the report with highly compressed images, which is *still* 24 megabytes, can be downloaded here:

[https://www.dropbox.com/s/i4gyfbj9bfynr3g/WSAP\\_Aboriginal%20%26%20Non-Aboriginal%20Cultural%20Heritage%20Assessment\\_Final%20DRAFT%20compressed%2096dpi.pdf?dl=0](https://www.dropbox.com/s/i4gyfbj9bfynr3g/WSAP_Aboriginal%20%26%20Non-Aboriginal%20Cultural%20Heritage%20Assessment_Final%20DRAFT%20compressed%2096dpi.pdf?dl=0)

If you should have any problems accessing or viewing the file, please let me know and I'll try to work something out to get it to you.

You can get comments to us at anytime, but please get back to me by **Wednesday, November 18**. Feel free to email any comments back to me at this address or if you would prefer to do so by phone, please ring me at 02 9555 4000.

Likewise, if you have any questions just email me or ring me when you can.

Sincerely,

Tom

**Subject:** RE: SR20/1092 - Extent Heritage - Aboriginal Stakeholder enquiry (Aerotropolis Core Precinct, Badgerys Ck Rd, Bringelly) - SR20/1092

## UNCLASSIFIED

**Native title search – NSW Parcels – Multiple**  
**Your ref:** AeroCore ACHAR - **Our ref:** SR20/1092

Dear Tom Sapienza,

Thank you for your search request received on 19 October 2020 in relation to the above area. Based on the records held by the National Native Title Tribunal as at 20 October 2020 it would appear that there are no Native Title Determination Applications, Determinations of Native Title, or Indigenous Land Use Agreements over the identified area.

### Search Results

The results provided are based on the information you supplied and are derived from a search of the following Tribunal databases:

- Schedule of Native Title Determination Applications
- Register of Native Title Claims
- Native Title Determinations
- Indigenous Land Use Agreements (Registered and notified)

At the time this search was carried out, there were **no relevant entries** in the above databases.

### Cadastral Data as at: 01/07/2020

For more information about the Tribunal's registers or to search the registers yourself and obtain copies of relevant register extracts, please visit our [website](#).

Information on native title claims and freehold land can also be found on the Tribunal's website here: [Native title claims and freehold land](#).

**Please note:** There may be a delay between a native title determination application being lodged in the Federal Court and its transfer to the Tribunal. As a result, some native title determination applications recently filed with the Federal Court may not appear on the Tribunal's databases.

The search results are based on analysis against external boundaries of applications only. Native title applications commonly contain exclusions clauses which remove areas from within the external boundary. To determine whether the areas described are in fact subject to claim, you need to refer to the "Area covered by claim" section of the relevant Register Extract or Schedule Extract and any maps attached.

#### **Search results and the existence of native title**

Please note that the enclosed information from the Register of Native Title Claims and/or the Schedule of Applications is **not** confirmation of the existence of native title in this area. This cannot be confirmed until the Federal Court makes a determination that native title does or does not exist in relation to the area. Such determinations are registered on the National Native Title Register.

#### **The Tribunal accepts no liability for reliance placed on enclosed information**

The enclosed information has been provided in good faith. Use of this information is at your sole risk. The National Native Title Tribunal makes no representation, either express or implied, as to the accuracy or suitability of the information enclosed for any particular purpose and accepts no liability for use of the information or reliance placed on it.

#### **Cultural Heritage Searches in NSW**

The National Native Title Tribunal (the Tribunal) has undertaken steps to remove itself from the formal list of sources for information about indigenous groups in development areas. The existence or otherwise of native title is quite separate to any matters relating to Aboriginal cultural heritage. Information on native title claims, native title determinations and Indigenous Land Use Agreements is available on the Tribunal's website.

Interested parties are invited to use Native Title Vision (NTV) the Tribunal's online mapping system to discover native title matters in their area of interest. Access to NTV is available at <http://www.nntt.gov.au/assistance/Geospatial/Pages/NTV.aspx>

Training and self-help documents are available on the NTV web page under "Training and help documents". For additional assistance or general advice on NTV please contact [GeospatialSearch@NNTT.gov.au](mailto:GeospatialSearch@NNTT.gov.au)

Additional information can be extracted from the Registers available at <http://www.nntt.gov.au/searchRegApps/Pages/default.aspx>

If you have any further queries, please do not hesitate to contact us on the free call number 1800 640 501.

Regards,

Caution: This is an external email. DO NOT click links or open attachments unless you recognise the sender and know the content is safe.

Dear Sir or Madam,

Extent Heritage is undertaking an Aboriginal Cultural Heritage Assessment of proposed development within the Aerotropolis Core Precinct, near Badgerys Creek Road and The Northern Road, Bringelly. This project is located within **Liverpool Local Government Area**.

In accordance with Heritage NSW guidelines, please find attached a letter seeking information on Aboriginal stakeholders in this area who may be interested in the project.

I have also attached a spreadsheet of the cadastral lots covered by the study area, and a shapefile of the study area.

If you have any questions, I am happy to discuss further and can be contacted at this email address or at 02 9555 4000.

Sincerely,

Tom Sapienza

**Subject:** Extent Heritage - Aboriginal Stakeholder enquiry (Aerotropolis Core Precinct, Badgerys Ck Rd, Bringelly)

Dear Sir or Madam,

Extent Heritage is undertaking an Aboriginal Cultural Heritage Assessment of proposed development within the Aerotropolis Core Precinct, near Badgerys Creek Road and The Northern Road, Bringelly. This project is located within **Liverpool Local Government Area.**

In accordance with Heritage NSW guidelines, please find attached a letter seeking information on Aboriginal stakeholders in this area who may be interested in the project.

If you have any questions, I am happy to discuss further and can be contacted at this email address or at 02 9555 4000.

Sincerely,  
Tom Sapienza

**Re: Notice of Aboriginal Cultural Heritage Assessment and Invitation for Registrations of Interest – Aerotropolis AeroCore Precinct near Badgerys Creek Rd NSW**

Dear Carolyn,

In accordance with Heritage NSW's *Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010*, I am writing to notify you that Extent Heritage Pty Ltd has been engaged by the Western Parkland City Authority (the proponent) to undertake an Aboriginal Cultural Heritage Assessment (ACHA) in advance of proposed development within the Western Sydney Aerotropolis AeroCore Precinct, in Liverpool Local Government Area (**Figure 1**, the study area).

The contact details for the proponent are:

**Yolanda Gil** (Director, Planning)  
Western Parkland City Authority  
Level 2, 10 Valentine Avenue  
Parramatta NSW 2150  
[yolanda.gil@wcaa.sydney](mailto:yolanda.gil@wcaa.sydney)

The development comprises 165 hectares and is located just north of The Northern Road, between Badgerys Creek Road and the areas surrounding Thompsons Creek. The study area comprises all or part of the following land parcels:

- Lots 1, 2 DP2650
- Lot 1 DP712840
- Lots 700, 701, 702, 703, 705, 706, 707, 708, 709 DP788485
- Lots 801, 802, 803, 804, 805, 806, 807, 808 DP803165
- Lots 900, 901, 902, 903, 904, 905, 906, 907 DP803166
- Lots 274, 275, 276 DP803167
- Lot 7041 DP850594
- Lots 2711, 2712 DP1128906
- Lot 10 DP1235662

The proposed development would involve construction works associated with mixed use development, including bulk earthworks, rezoning, construction of infrastructure (roads, footpaths, stormwater, etc.), environmental controls and landscaping.

Previous studies have been undertaken across the study area by Navin Officer Heritage Consultants (NOHC), Artefact Cultural Heritage Management (ACHM) and AECOM. As part of investigations in 1997 for the proposed Badgerys Creek airport, NOHC recorded eight sites

within the study area, all of which were artefact scatters and isolated artefacts. NOCH recorded two more sites within 50 metres of the study, which were also artefact sites. As part of widening work along Badgerys Creek Road and The Northern Road within the last few years, ACHM recorded a potential archaeological deposit (PAD) site within the study area.

Earlier this year, AECOM completed some limited surveys across the study area as part of the Sydney Metro project connecting to Western Sydney Airport. They identified no new sites during their survey, and were unable to relocate one of the artefact scatters previously recorded by NOHC. We understand that AECOM have commenced or will soon commence additional works within the greater study area as part of the next phase of their Sydney Metro work, but we have no further information about this at present.

Because the proposed works for the development are likely to cause harm to Aboriginal objects at the known site, further investigations shall be undertaken at the study area, in the form of an Aboriginal Cultural Heritage Assessment (ACHA). The aim of this ACHA is to provide an on-site investigation of soil profiles, determine whether cultural deposits are present, assess their significance and provide the necessary documentation for an Aboriginal Heritage Impact Permit (AHIP).

Extent Heritage will be undertaking the ACHA in accordance with the relevant Heritage NSW *Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010* guidelines. An important part of the assessment will be consultation with the Aboriginal community in the aim of identifying the Aboriginal cultural heritage within the study area, including cultural values and places of importance.

As a result, in accordance with the Heritage NSW's Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010, I am writing to you to seek information on relevant Aboriginal individuals and/or communities that you are aware of who may hold cultural knowledge for the area relevant to determining the significance of Aboriginal objects and/or places. It would be appreciated if you could provide this information to the Sydney address below or by email to [tsapienza@extent.com.au](mailto:tsapienza@extent.com.au) by **Thursday 5 November**.

**Re: Notice of Aboriginal Cultural Heritage Assessment and Invitation for Registrations of Interest – Aerotropolis AeroCore Precinct near Badgerys Creek Rd NSW**

Dear Ralph,

In accordance with Heritage NSW's *Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010*, I am writing to notify you that Extent Heritage Pty Ltd has been engaged by the Western Parkland City Authority (the proponent) to undertake an Aboriginal Cultural Heritage Assessment (ACHA) in advance of proposed development within the Western Sydney Aerotropolis AeroCore Precinct, in Liverpool Local Government Area (**Figure 1**, the study area).

The contact details for the proponent are:

**Yolanda Gil** (Director, Planning)  
Western Parkland City Authority  
Level 2, 10 Valentine Avenue  
Parramatta NSW 2150  
[yolanda.gil@wcaa.sydney](mailto:yolanda.gil@wcaa.sydney)

The development comprises 165 hectares and is located just north of The Northern Road, between Badgerys Creek Road and the areas surrounding Thompsons Creek. The study area comprises all or part of the following land parcels:

- Lots 1, 2 DP2650
- Lot 1 DP712840
- Lots 700, 701, 702, 703, 705, 706, 707, 708, 709 DP788485
- Lots 801, 802, 803, 804, 805, 806, 807, 808 DP803165
- Lots 900, 901, 902, 903, 904, 905, 906, 907 DP803166
- Lots 274, 275, 276 DP803167
- Lot 7041 DP850594
- Lots 2711, 2712 DP1128906
- Lot 10 DP1235662

The proposed development would involve construction works associated with mixed use development, including bulk earthworks, rezoning, construction of infrastructure (roads, footpaths, stormwater, etc.), environmental controls and landscaping.

Previous studies have been undertaken across the study area by Navin Officer Heritage Consultants (NOHC), Artefact Cultural Heritage Management (ACHM) and AECOM. As part of investigations in 1997 for the proposed Badgerys Creek airport, NOHC recorded eight sites

within the study area, all of which were artefact scatters and isolated artefacts. NOCH recorded two more sites within 50 metres of the study, which were also artefact sites. As part of widening work along Badgerys Creek Road and The Northern Road within the last few years, ACHM recorded a potential archaeological deposit (PAD) site within the study area.

Earlier this year, AECOM completed some limited surveys across the study area as part of the Sydney Metro project connecting to Western Sydney Airport. They identified no new sites during their survey, and were unable to relocate one of the artefact scatters previously recorded by NOHC. We understand that AECOM have commenced or will soon commence additional works within the greater study area as part of the next phase of their Sydney Metro work, but we have no further information about this at present.

Because the proposed works for the development are likely to cause harm to Aboriginal objects at the known site, further investigations shall be undertaken at the study area, in the form of an Aboriginal Cultural Heritage Assessment (ACHA). The aim of this ACHA is to provide an on-site investigation of soil profiles, determine whether cultural deposits are present, assess their significance and provide the necessary documentation for an Aboriginal Heritage Impact Permit (AHIP).

Extent Heritage will be undertaking the ACHA in accordance with the relevant Heritage NSW *Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010* guidelines. An important part of the assessment will be consultation with the Aboriginal community in the aim of identifying the Aboriginal cultural heritage within the study area, including cultural values and places of importance.

As a result, in accordance with the Heritage NSW's Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010, I am writing to you to seek information on relevant Aboriginal individuals and/or communities that you are aware of who may hold cultural knowledge for the area relevant to determining the significance of Aboriginal objects and/or places. It would be appreciated if you could provide this information to the Sydney address below or by email to [tsapienza@extent.com.au](mailto:tsapienza@extent.com.au) by **Thursday 5 November**.

- Lots 274, 275, 276 DP803167
- Lot 7041 DP850594
- Lots 2711, 2712 DP1128906
- Lot 10 DP1235662

The proposed development would involve construction works associated with mixed use development, including bulk earthworks, rezoning, construction of infrastructure (roads, footpaths, stormwater, etc.), environmental controls and landscaping.

Previous studies have been undertaken across the study area by Navin Officer Heritage Consultants (NOHC), Artefact Cultural Heritage Management (ACHM) and AECOM. As part of investigations in 1997 for the proposed Badgerys Creek airport, NOHC recorded eight sites

within the study area, all of which were artefact scatters and isolated artefacts. NOCH recorded two more sites within 50 metres of the study, which were also artefact sites. As part of widening work along Badgerys Creek Road and The Northern Road within the last few years, ACHM recorded a potential archaeological deposit (PAD) site within the study area.

Earlier this year, AECOM completed some limited surveys across the study area as part of the Sydney Metro project connecting to Western Sydney Airport. They identified no new sites during their survey, and were unable to relocate one of the artefact scatters previously recorded by NOHC. We understand that AECOM have commenced or will soon commence additional works within the greater study area as part of the next phase of their Sydney Metro work, but we have no further information about this at present.

Because the proposed works for the development are likely to cause harm to Aboriginal objects at the known site, further investigations shall be undertaken at the study area, in the form of an Aboriginal Cultural Heritage Assessment (ACHA). The aim of this ACHA is to provide an on-site investigation of soil profiles, determine whether cultural deposits are present, assess their significance and provide the necessary documentation for an Aboriginal Heritage Impact Permit (AHIP).

Extent Heritage will be undertaking the ACHA in accordance with the relevant Heritage NSW *Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010* guidelines. An important part of the assessment will be consultation with the Aboriginal community in the aim of identifying the Aboriginal cultural heritage within the study area, including cultural values and places of importance.

As a result, in accordance with the Heritage NSW's Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010, I am writing to you to seek information on relevant Aboriginal individuals and/or communities that you are aware of who may hold cultural knowledge for the area relevant to determining the significance of Aboriginal objects and/or places. It would be appreciated if you could provide this information to the Sydney address below or by email to [tsapienza@extent.com.au](mailto:tsapienza@extent.com.au) by **Thursday 5 November**.

**Re: Notice of Aboriginal Cultural Heritage Assessment and Invitation for Registrations of Interest – Aerotropolis AeroCore Precinct near Badgerys Creek Rd NSW**

Dear Mark,

In accordance with Heritage NSW's *Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010*, I am writing to notify you that Extent Heritage Pty Ltd has been engaged by the Western Parkland City Authority (the proponent) to undertake an Aboriginal Cultural Heritage Assessment (ACHA) in advance of proposed development within the Western Sydney Aerotropolis AeroCore Precinct, in Liverpool Local Government Area (**Figure 1**, the study area).

The contact details for the proponent are:

**Yolanda Gil** (Director, Planning)  
Western Parkland City Authority  
Level 2, 10 Valentine Avenue  
Parramatta NSW 2150  
[yolanda.gil@wcaa.sydney](mailto:yolanda.gil@wcaa.sydney)

The development comprises 165 hectares and is located just north of The Northern Road, between Badgerys Creek Road and the areas surrounding Thompsons Creek. The study area comprises all or part of the following land parcels:

- Lots 1, 2 DP2650
- Lot 1 DP712840
- Lots 700, 701, 702, 703, 705, 706, 707, 708, 709 DP788485
- Lots 801, 802, 803, 804, 805, 806, 807, 808 DP803165
- Lots 900, 901, 902, 903, 904, 905, 906, 907 DP803166
- Lots 274, 275, 276 DP803167

The aim of this ACHA is to provide an on-site investigation of soil profiles, determine whether cultural deposits are present, assess their significance and provide the necessary documentation for an Aboriginal Heritage Impact Permit (AHIP).

Extent Heritage will be undertaking the ACHA in accordance with the relevant Heritage NSW *Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010* guidelines. An important part of the assessment will be consultation with the Aboriginal community in the aim of identifying the Aboriginal cultural heritage within the study area, including cultural values and places of importance.

As a result, in accordance with the Heritage NSW's Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010, I am writing to you to seek information on relevant Aboriginal individuals and/or communities that you are aware of who may hold cultural knowledge for the area relevant to determining the significance of Aboriginal objects and/or places. It would be appreciated if you could provide this information to the Sydney address below or by email to [tsapienza@extent.com.au](mailto:tsapienza@extent.com.au) by **Thursday 5 November**.

**Re: Notice of Aboriginal Cultural Heritage Assessment and Invitation for Registrations of Interest – Aerotropolis AeroCore Precinct near Badgerys Creek Rd NSW**

Dear Robert,

In accordance with Heritage NSW's *Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010*, I am writing to notify you that Extent Heritage Pty Ltd has been engaged by the Western Parkland City Authority (the proponent) to undertake an Aboriginal Cultural Heritage Assessment (ACHA) in advance of proposed development within the Western Sydney Aerotropolis AeroCore Precinct, in Liverpool Local Government Area (**Figure 1**, the study area).

The contact details for the proponent are:

**Yolanda Gil** (Director, Planning)  
Western Parkland City Authority  
Level 2, 10 Valentine Avenue  
Parramatta NSW 2150  
[yolanda.gil@wcaa.sydney](mailto:yolanda.gil@wcaa.sydney)

The development comprises 165 hectares and is located just north of The Northern Road, between Badgerys Creek Road and the areas surrounding Thompsons Creek. The study area comprises all or part of the following land parcels:

- Lots 1, 2 DP2650
- Lot 1 DP712840
- Lots 700, 701, 702, 703, 705, 706, 707, 708, 709 DP788485
- Lots 801, 802, 803, 804, 805, 806, 807, 808 DP803165
- Lots 900, 901, 902, 903, 904, 905, 906, 907 DP803166
- Lots 274, 275, 276 DP803167
- Lot 7041 DP850594
- Lots 2711, 2712 DP1128906
- Lot 10 DP1235662

The proposed development would involve construction works associated with mixed use development, including bulk earthworks, rezoning, construction of infrastructure (roads, footpaths, stormwater, etc.), environmental controls and landscaping.

Previous studies have been undertaken across the study area by Navin Officer Heritage Consultants (NOHC), Artefact Cultural Heritage Management (ACHM) and AECOM. As part of investigations in 1997 for the proposed Badgerys Creek airport, NOHC recorded eight sites

within the study area, all of which were artefact scatters and isolated artefacts. NOCH recorded two more sites within 50 metres of the study, which were also artefact sites. As part of widening work along Badgerys Creek Road and The Northern Road within the last few years, ACHM recorded a potential archaeological deposit (PAD) site within the study area.

Earlier this year, AECOM completed some limited surveys across the study area as part of the Sydney Metro project connecting to Western Sydney Airport. They identified no new sites during their survey, and were unable to relocate one of the artefact scatters previously recorded by NOHC. We understand that AECOM have commenced or will soon commence additional works within the greater study area as part of the next phase of their Sydney Metro work, but we have no further information about this at present.

Because the proposed works for the development are likely to cause harm to Aboriginal objects at the known site, further investigations shall be undertaken at the study area, in the form of an Aboriginal Cultural Heritage Assessment (ACHA). The aim of this ACHA is to provide an on-site investigation of soil profiles, determine whether cultural deposits are present, assess their significance and provide the necessary documentation for an Aboriginal Heritage Impact Permit (AHIP).

Extent Heritage will be undertaking the ACHA in accordance with the relevant Heritage NSW *Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010* guidelines. An important part of the assessment will be consultation with the Aboriginal community in the aim of identifying the Aboriginal cultural heritage within the study area, including cultural values and places of importance.

As a result, in accordance with the Heritage NSW's Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010, I am writing to you to seek information on relevant Aboriginal individuals and/or communities that you are aware of who may hold cultural knowledge for the area relevant to determining the significance of Aboriginal objects and/or places. It would be appreciated if you could provide this information to the Sydney address below or by email to [tsapienza@extent.com.au](mailto:tsapienza@extent.com.au) by **Thursday 5 November**.

Parramatta NSW 2150  
[yolanda.gil@wcaa.sydney](mailto:yolanda.gil@wcaa.sydney)

The development comprises 165 hectares and is located just north of The Northern Road, between Badgerys Creek Road and the areas surrounding Thompsons Creek. The study area comprises all or part of the following land parcels:

- Lots 1, 2 DP2650
- Lot 1 DP712840
- Lots 700, 701, 702, 703, 705, 706, 707, 708, 709 DP788485
- Lots 801, 802, 803, 804, 805, 806, 807, 808 DP803165
- Lots 900, 901, 902, 903, 904, 905, 906, 907 DP803166
- Lots 274, 275, 276 DP803167
- Lot 7041 DP850594
- Lots 2711, 2712 DP1128906
- Lot 10 DP1235662

The proposed development would involve construction works associated with mixed use development, including bulk earthworks, rezoning, construction of infrastructure (roads, footpaths, stormwater, etc.), environmental controls and landscaping.

Previous studies have been undertaken across the study area by Navin Officer Heritage Consultants (NOHC), Artefact Cultural Heritage Management (ACHM) and AECOM. As part of investigations in 1997 for the proposed Badgerys Creek airport, NOHC recorded eight sites

within the study area, all of which were artefact scatters and isolated artefacts. NOCH recorded two more sites within 50 metres of the study, which were also artefact sites. As part of widening work along Badgerys Creek Road and The Northern Road within the last few years, ACHM recorded a potential archaeological deposit (PAD) site within the study area.

Earlier this year, AECOM completed some limited surveys across the study area as part of the Sydney Metro project connecting to Western Sydney Airport. They identified no new sites during their survey, and were unable to relocate one of the artefact scatters previously recorded by NOHC. We understand that AECOM have commenced or will soon commence additional works within the greater study area as part of the next phase of their Sydney Metro work, but we have no further information about this at present.

Because the proposed works for the development are likely to cause harm to Aboriginal objects at the known site, further investigations shall be undertaken at the study area, in the form of an Aboriginal Cultural Heritage Assessment (ACHA). The aim of this ACHA is to provide an on-site investigation of soil profiles, determine whether cultural deposits are present, assess their significance and provide the necessary documentation for an Aboriginal Heritage Impact Permit (AHIP).

Extent Heritage will be undertaking the ACHA in accordance with the relevant Heritage NSW *Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010* guidelines. An important part of the assessment will be consultation with the Aboriginal community in the aim of identifying the Aboriginal cultural heritage within the study area, including cultural values and places of importance.

As a result, in accordance with the Heritage NSW's Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010, I am writing to you to seek information on relevant Aboriginal individuals and/or communities that you are aware of who may hold cultural knowledge for the area relevant to determining the significance of Aboriginal objects and/or places. It would be appreciated if you could provide this information to the Sydney address below or by email to [tsapienza@extent.com.au](mailto:tsapienza@extent.com.au) by **Thursday 5 November**.

As part of widening work along Badgerys Creek Road and The Northern Road within the last few years, ACHM recorded a potential archaeological deposit (PAD) site within the study area.

Earlier this year, AECOM completed some limited surveys across the study area as part of the Sydney Metro project connecting to Western Sydney Airport. They identified no new sites during their survey, and were unable to relocate one of the artefact scatters previously recorded by NOHC. We understand that AECOM have commenced or will soon commence additional works within the greater study area as part of the next phase of their Sydney Metro work, but we have no further information about this at present.

Because the proposed works for the development are likely to cause harm to Aboriginal objects at the known site, further investigations shall be undertaken at the study area, in the form of an Aboriginal Cultural Heritage Assessment (ACHA). The aim of this ACHA is to provide an on-site investigation of soil profiles, determine whether cultural deposits are present, assess their significance and provide the necessary documentation for an Aboriginal Heritage Impact Permit (AHIP).

Extent Heritage will be undertaking the ACHA in accordance with the relevant Heritage NSW *Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010* guidelines. An important part of the assessment will be consultation with the Aboriginal community in the aim of identifying the Aboriginal cultural heritage within the study area, including cultural values and places of importance.

As a result, in accordance with the Heritage NSW's Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010, I am writing to you to seek information on relevant Aboriginal individuals and/or communities that you are aware of who may hold cultural knowledge for the area relevant to determining the significance of Aboriginal objects and/or places. It would be appreciated if you could provide this information to the Sydney address below or by email to [tsapienza@extent.com.au](mailto:tsapienza@extent.com.au) by **Thursday 5 November**.

**Re: Notice of Aboriginal Cultural Heritage Assessment and Invitation for Registrations of Interest – Aerotropolis AeroCore Precinct near Badgerys Creek Rd NSW**

Dear Roxanne,

In accordance with Heritage NSW's *Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010*, I am writing to notify you that Extent Heritage Pty Ltd has been engaged by the Western Parkland City Authority (the proponent) to undertake an Aboriginal Cultural Heritage Assessment (ACHA) in advance of proposed development within the Western Sydney Aerotropolis AeroCore Precinct, in Liverpool Local Government Area (**Figure 1**, the study area).

The contact details for the proponent are:

**Yolanda Gil** (Director, Planning)  
Western Parkland City Authority  
Level 2, 10 Valentine Avenue  
Parramatta NSW 2150  
[yolanda.gil@wcaa.sydney](mailto:yolanda.gil@wcaa.sydney)

The development comprises 165 hectares and is located just north of The Northern Road, between Badgerys Creek Road and the areas surrounding Thompsons Creek. The study area comprises all or part of the following land parcels:

- Lots 1, 2 DP2650
- Lot 1 DP712840
- Lots 700, 701, 702, 703, 705, 706, 707, 708, 709 DP788485
- Lots 801, 802, 803, 804, 805, 806, 807, 808 DP803165
- Lots 900, 901, 902, 903, 904, 905, 906, 907 DP803166
- Lots 274, 275, 276 DP803167
- Lot 7041 DP850594
- Lots 2711, 2712 DP1128906
- Lot 10 DP1235662

The proposed development would involve construction works associated with mixed use development, including bulk earthworks, rezoning, construction of infrastructure (roads, footpaths, stormwater, etc.), environmental controls and landscaping.

Previous studies have been undertaken across the study area by Navin Officer Heritage Consultants (NOHC), Artefact Cultural Heritage Management (ACHM) and AECOM. As part of investigations in 1997 for the proposed Badgerys Creek airport, NOHC recorded eight sites within the study area, all of which were artefact scatters and isolated artefacts. NOHC recorded two more sites within 50 metres of the study, which were also artefact sites. As part of widening

work along Badgerys Creek Road and The Northern Road within the last few years, ACHM recorded a potential archaeological deposit (PAD) site within the study area.

Earlier this year, AECOM completed some limited surveys across the study area as part of the Sydney Metro project connecting to Western Sydney Airport. They identified no new sites during their survey, and were unable to relocate one of the artefact scatters previously recorded by NOHC. We understand that AECOM have commenced or will soon commence additional works within the greater study area as part of the next phase of their Sydney Metro work, but we have no further information about this at present.

**Re: Notice of Aboriginal Cultural Heritage Assessment and Invitation for Registrations of Interest – Aerotropolis AeroCore Precinct near Badgerys Creek Rd NSW**

Dear Shane,

In accordance with Heritage NSW's *Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010*, I am writing to notify you that Extent Heritage Pty Ltd has been engaged by the Western Parkland City Authority (the proponent) to undertake an Aboriginal Cultural Heritage Assessment (ACHA) in advance of proposed development within the Western Sydney Aerotropolis AeroCore Precinct, in Liverpool Local Government Area (**Figure 1**, the study area).

The contact details for the proponent are:

**Yolanda Gil** (Director, Planning)  
Western Parkland City Authority  
Level 2, 10 Valentine Avenue  
Parramatta NSW 2150  
[yolanda.gil@wcaa.sydney](mailto:yolanda.gil@wcaa.sydney)

The development comprises 165 hectares and is located just north of The Northern Road, between Badgerys Creek Road and the areas surrounding Thompsons Creek. The study area comprises all or part of the following land parcels:

- Lots 1, 2 DP2650
- Lot 1 DP712840
- Lots 700, 701, 702, 703, 705, 706, 707, 708, 709 DP788485
- Lots 801, 802, 803, 804, 805, 806, 807, 808 DP803165
- Lots 900, 901, 902, 903, 904, 905, 906, 907 DP803166
- Lots 274, 275, 276 DP803167
- Lot 7041 DP850594
- Lots 2711, 2712 DP1128906
- Lot 10 DP1235662

The proposed development would involve construction works associated with mixed use development, including bulk earthworks, rezoning, construction of infrastructure (roads, footpaths, stormwater, etc.), environmental controls and landscaping.

Previous studies have been undertaken across the study area by Navin Officer Heritage Consultants (NOHC), Artefact Cultural Heritage Management (ACHM) and AECOM. As part of investigations in 1997 for the proposed Badgerys Creek airport, NOHC recorded eight sites within the study area, all of which were artefact scatters and isolated artefacts. NOHC recorded two more sites within 50 metres of the study, which were also artefact sites. As part of widening

work along Badgerys Creek Road and The Northern Road within the last few years, ACHM recorded a potential archaeological deposit (PAD) site within the study area.

Earlier this year, AECOM completed some limited surveys across the study area as part of the Sydney Metro project connecting to Western Sydney Airport. They identified no new sites during their survey, and were unable to relocate one of the artefact scatters previously recorded by NOHC. We understand that AECOM have commenced or will soon commence additional works within the greater study area as part of the next phase of their Sydney Metro work, but we have no further information about this at present.

Because the proposed works for the development are likely to cause harm to Aboriginal objects at the known site, further investigations shall be undertaken at the study area, in the form of an Aboriginal Cultural Heritage Assessment (ACHA). The aim of this ACHA is to provide an on-site investigation of soil profiles, determine whether cultural deposits are present, assess their significance and provide the necessary documentation for an Aboriginal Heritage Impact Permit (AHIP).

Extent Heritage will be undertaking the ACHA in accordance with the relevant Heritage NSW *Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010* guidelines. An important part of the assessment will be consultation with the Aboriginal community in the aim of identifying the Aboriginal cultural heritage within the study area, including cultural values and places of importance.

As a result, in accordance with the Heritage NSW's Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010, I am writing to you to seek information on relevant Aboriginal individuals and/or communities that you are aware of who may hold cultural knowledge for the area relevant to determining the significance of Aboriginal objects and/or places. It would be appreciated if you could provide this information to the Sydney address below or by email to [tsapienza@extent.com.au](mailto:tsapienza@extent.com.au) by **Thursday 5 November**.

**Attn: Tom Sapienza**

- Lot 10 DP1235662

The proposed development would involve construction works associated with mixed use development, including bulk earthworks, rezoning, construction of infrastructure (roads, footpaths, stormwater, etc.), environmental controls and landscaping.

Previous studies have been undertaken across the study area by Navin Officer Heritage Consultants (NOHC), Artefact Cultural Heritage Management (ACHM) and AECOM. As part of investigations in 1997 for the proposed Badgerys Creek airport, NOHC recorded eight sites within the study area, all of which were artefact scatters and isolated artefacts. NOHC recorded two more sites within 50 metres of the study, which were also artefact sites. As part of widening

work along Badgerys Creek Road and The Northern Road within the last few years, ACHM recorded a potential archaeological deposit (PAD) site within the study area.

Earlier this year, AECOM completed some limited surveys across the study area as part of the Sydney Metro project connecting to Western Sydney Airport. They identified no new sites during their survey, and were unable to relocate one of the artefact scatters previously recorded by NOHC. We understand that AECOM have commenced or will soon commence additional works within the greater study area as part of the next phase of their Sydney Metro work, but we have no further information about this at present.

Because the proposed works for the development are likely to cause harm to Aboriginal objects at the known site, further investigations shall be undertaken at the study area, in the form of an Aboriginal Cultural Heritage Assessment (ACHA). The aim of this ACHA is to provide an on-site investigation of soil profiles, determine whether cultural deposits are present, assess their significance and provide the necessary documentation for an Aboriginal Heritage Impact Permit (AHIP).

Extent Heritage will be undertaking the ACHA in accordance with the relevant Heritage NSW *Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010* guidelines. An important part of the assessment will be consultation with the Aboriginal community in the aim of identifying the Aboriginal cultural heritage within the study area, including cultural values and places of importance.

As a result, in accordance with the Heritage NSW's Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010, I am writing to you to seek information on relevant Aboriginal individuals and/or communities that you are aware of who may hold cultural knowledge for the area relevant to determining the significance of Aboriginal objects and/or places. It would be appreciated if you could provide this information to the Sydney address below or by email to [tsapienza@extent.com.au](mailto:tsapienza@extent.com.au) by **Thursday 5 November**.

**Re: Notice of Aboriginal Cultural Heritage Assessment and Invitation for Registrations of Interest – Aerotropolis AeroCore Precinct near Badgerys Creek Rd NSW**

Dear Steven and Donna,

In accordance with Heritage NSW's *Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010*, I am writing to notify you that Extent Heritage Pty Ltd has been engaged by the Western Parkland City Authority (the proponent) to undertake an Aboriginal Cultural Heritage Assessment (ACHA) in advance of proposed development within the Western Sydney Aerotropolis AeroCore Precinct, in Liverpool Local Government Area (**Figure 1**, the study area).

The contact details for the proponent are:

**Yolanda Gil** (Director, Planning)  
Western Parkland City Authority  
Level 2, 10 Valentine Avenue  
Parramatta NSW 2150  
[yolanda.gil@wcaa.sydney](mailto:yolanda.gil@wcaa.sydney)

The development comprises 165 hectares and is located just north of The Northern Road, between Badgerys Creek Road and the areas surrounding Thompsons Creek. The study area comprises all or part of the following land parcels:

- Lots 1, 2 DP2650
- Lot 1 DP712840
- Lots 700, 701, 702, 703, 705, 706, 707, 708, 709 DP788485
- Lots 801, 802, 803, 804, 805, 806, 807, 808 DP803165
- Lots 900, 901, 902, 903, 904, 905, 906, 907 DP803166
- Lots 274, 275, 276 DP803167
- Lot 7041 DP850594
- Lots 2711, 2712 DP1128906
- Lot 10 DP1235662

The proposed development would involve construction works associated with mixed use development, including bulk earthworks, rezoning, construction of infrastructure (roads, footpaths, stormwater, etc.), environmental controls and landscaping.

Previous studies have been undertaken across the study area by Navin Officer Heritage Consultants (NOHC), Artefact Cultural Heritage Management (ACHM) and AECOM. As part of investigations in 1997 for the proposed Badgerys Creek airport, NOHC recorded eight sites

within the study area, all of which were artefact scatters and isolated artefacts. NOCH recorded two more sites within 50 metres of the study, which were also artefact sites. **Re: Notice of Aboriginal Cultural Heritage Assessment and Invitation for Registrations of Interest – Aerotropolis AeroCore Precinct near Badgerys Creek Rd NSW**

Dear Bo,

In accordance with Heritage NSW's *Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010*, I am writing to notify you that Extent Heritage Pty Ltd has been engaged by the Western Parkland City Authority (the proponent) to undertake an Aboriginal Cultural Heritage Assessment (ACHA) in advance of proposed development within the Western Sydney Aerotropolis AeroCore Precinct, in Liverpool Local Government Area (**Figure 1**, the study area).

The contact details for the proponent are:

**Yolanda Gil** (Director, Planning)  
Western Parkland City Authority  
Level 2, 10 Valentine Avenue  
Parramatta NSW 2150  
[yolanda.gil@wcaa.sydney](mailto:yolanda.gil@wcaa.sydney)

The development comprises 165 hectares and is located just north of The Northern Road, between Badgerys Creek Road and the areas surrounding Thompsons Creek. The study area comprises all or part of the following land parcels:

- Lots 1, 2 DP2650
- Lot 1 DP712840
- Lots 700, 701, 702, 703, 705, 706, 707, 708, 709 DP788485
- Lots 801, 802, 803, 804, 805, 806, 807, 808 DP803165
- Lots 900, 901, 902, 903, 904, 905, 906, 907 DP803166
- Lots 274, 275, 276 DP803167
- Lot 7041 DP850594
- Lots 2711, 2712 DP1128906
- Lot 10 DP1235662

The proposed development would involve construction works associated with mixed use development, including bulk earthworks, rezoning, construction of infrastructure (roads, footpaths, stormwater, etc.), environmental controls and landscaping.

Previous studies have been undertaken across the study area by Navin Officer Heritage Consultants (NOHC), Artefact Cultural Heritage Management (ACHM) and AECOM. As part of investigations in 1997 for the proposed Badgerys Creek airport, NOHC recorded eight sites

within the study area, all of which were artefact scatters and isolated artefacts. NOCH recorded two more sites within 50 metres of the study, which were also artefact sites. As part of widening work along Badgerys Creek Road and The Northern Road within the last few years, ACHM recorded a potential archaeological deposit (PAD) site within the study area.

Earlier this year, AECOM completed some limited surveys across the study area as part of the Sydney Metro project connecting to Western Sydney Airport. They identified no new sites during their survey, and were unable to relocate one of the artefact scatters previously recorded by NOHC. We understand that AECOM have commenced or will soon commence additional works within the greater study area as part of the next phase of their Sydney Metro work, but we have no further information about this at present.

Because the proposed works for the development are likely to cause harm to Aboriginal objects at the known site, further investigations shall be undertaken at the study area, in the form of an Aboriginal Cultural Heritage Assessment (ACHA). The aim of this ACHA is to provide an on-site investigation of soil profiles, determine whether cultural deposits are present, assess their significance and provide the necessary documentation for an Aboriginal Heritage Impact Permit (AHIP).

Extent Heritage will be undertaking the ACHA in accordance with the relevant Heritage NSW *Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010* guidelines. An important part of the assessment will be consultation with the Aboriginal community in the aim of identifying the Aboriginal cultural heritage within the study area, including cultural values and places of importance.

As a result, in accordance with the Heritage NSW's Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010, I am writing to you to seek information on relevant Aboriginal individuals and/or communities that you are aware of who may hold cultural knowledge for the area relevant to determining the significance of Aboriginal objects and/or places. - Lot 1 DP712840
- Lots 700, 701, 702, 703, 705, 706, 707, 708, 709 DP788485
- Lots 801, 802, 803, 804, 805, 806, 807, 808 DP803165
- Lots 900, 901, 902, 903, 904, 905, 906, 907 DP803166
- Lots 274, 275, 276 DP803167
- Lot 7041 DP850594
- Lots 2711, 2712 DP1128906
- Lot 10 DP1235662

The proposed development would involve construction works associated with mixed use development, including bulk earthworks, rezoning, construction of infrastructure (roads, footpaths, stormwater, etc.), environmental controls and landscaping.

Previous studies have been undertaken across the study area by Navin Officer Heritage Consultants (NOHC), Artefact Cultural Heritage Management (ACHM) and AECOM. As part of investigations in 1997 for the proposed Badgerys Creek airport, NOHC recorded eight sites within the study area, all of which were artefact scatters and isolated artefacts. NOHC recorded

two more sites within 50 metres of the study, which were also artefact sites. As part of widening work along Badgerys Creek Road and The Northern Road within the last few years, ACHM recorded a potential archaeological deposit (PAD) site within the study area.

Earlier this year, AECOM completed some limited surveys across the study area as part of the Sydney Metro project connecting to Western Sydney Airport. They identified no new sites during their survey, and were unable to relocate one of the artefact scatters previously recorded by NOHC. We understand that AECOM have commenced or will soon commence additional works within the greater study area as part of the next phase of their Sydney Metro work, but we have no further information about this at present.

Because the proposed works for the development are likely to cause harm to Aboriginal objects at the known site, further investigations shall be undertaken at the study area, in the form of an Aboriginal Cultural Heritage Assessment (ACHA). The aim of this ACHA is to provide an on-site investigation of soil profiles, determine whether cultural deposits are present, assess their significance and provide the necessary documentation for an Aboriginal Heritage Impact Permit (AHIP).

Extent Heritage will be undertaking the ACHA in accordance with the relevant Heritage NSW *Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010* guidelines. An important part of the assessment will be consultation with the Aboriginal community in the aim of identifying the Aboriginal cultural heritage within the study area, including cultural values and places of importance.

As a result, in accordance with the Heritage NSW's Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010, I am writing to you to seek information on relevant Aboriginal individuals and/or communities that you are aware of who may hold cultural knowledge for the area relevant to determining the significance of Aboriginal objects and/or places. It would be appreciated if you could provide this information to the Sydney address below or by email to [tsapienza@extent.com.au](mailto:tsapienza@extent.com.au) by **Thursday 5 November**.

**Re: Notice of Aboriginal Cultural Heritage Assessment and Invitation for Registrations of Interest – Aerotropolis AeroCore Precinct near Badgerys Creek Rd NSW**

Dear Scott,

In accordance with Heritage NSW's *Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010*, I am writing to notify you that Extent Heritage Pty Ltd has been engaged by the Western Parkland City Authority (the proponent) to undertake an Aboriginal Cultural Heritage Assessment (ACHA) in advance of proposed development within the Western Sydney Aerotropolis AeroCore Precinct, in Liverpool Local Government Area (**Figure 1**, the study area).

The contact details for the proponent are:

**Yolanda Gil** (Director, Planning)  
Western Parkland City Authority  
Level 2, 10 Valentine Avenue  
Parramatta NSW 2150  
[yolanda.gil@wcaa.sydney](mailto:yolanda.gil@wcaa.sydney)

The development comprises 165 hectares and is located just north of The Northern Road, between Badgerys Creek Road and the areas surrounding Thompsons Creek. The study area comprises all or part of the following land parcels:

- Lots 1, 2 DP2650
- Lot 1 DP712840
- Lots 700, 701, 702, 703, 705, 706, 707, 708, 709 DP788485
- Lots 801, 802, 803, 804, 805, 806, 807, 808 DP803165
- Lots 900, 901, 902, 903, 904, 905, 906, 907 DP803166
- Lots 274, 275, 276 DP803167
- Lot 7041 DP850594
- Lots 2711, 2712 DP1128906
- Lot 10 DP1235662

# Notice of Aboriginal Cultural Heritage Investigation and Invitation for Registrations of Interest

Date listed: 24/10/2020

 Report

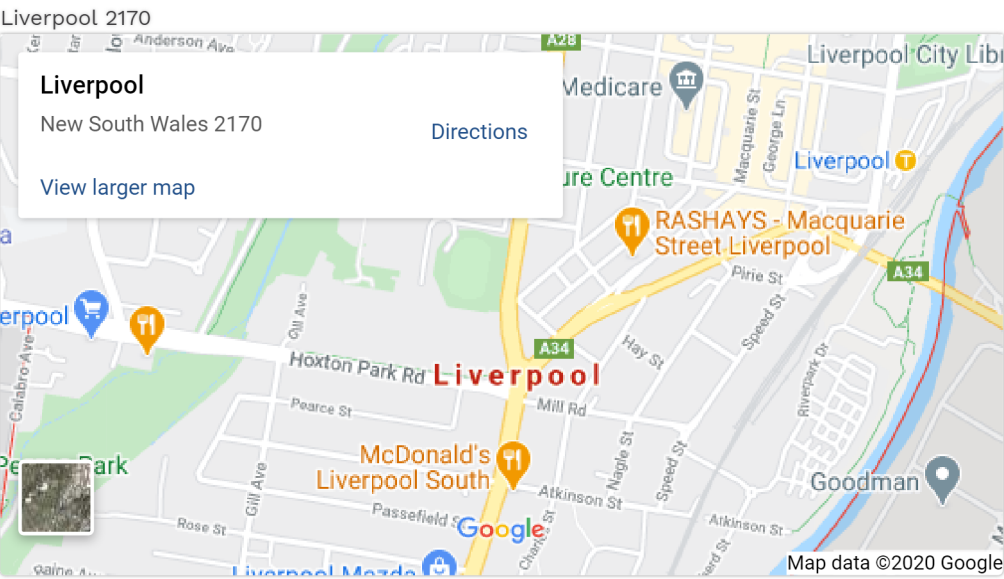

## PUBLIC NOTICE

### Notice of Aboriginal Cultural Heritage Investigation and Invitation for Registrations of Interest – Western Sydney Aerotropolis Core Precinct, including Thompsons Creek, NSW.

The Western Parkland City Authority is seeking Aboriginal cultural heritage input into an Aboriginal Cultural Heritage Assessment in advance of proposed development within the Western Sydney Aerotropolis Core Precinct, including Thompsons Creek. Contact details for the proponent are: Ms Yolanda Gil, Western Parkland City Authority, Level 2, 10 Valentine avenue, Parramatta, NSW 2150.

Registrations are invited from Aboriginal individuals and organisations who hold cultural knowledge relevant to determining the significance of Aboriginal objects and/or places in the area, and who wish to be involved in the consultation process. The consultation will inform the assessment and will be used to develop recommendations for the management of any Aboriginal cultural archaeological materials at the site.

Registrations of interest should be provided by no later than 5 November to Tom Sapienza of Extent Heritage: (post) Level 3, 73 Union St Pyrmont 2009; (email) [tsapienza@extent.com.au](mailto:tsapienza@extent.com.au); or (phone) (02) 9555 ... .

Hi Tom,

Thank you for your email, I would like to register in being involved in all levels of consultation for this project, such as, Meetings, Reports, Sharing Cultural Information, and available Field Work.

I am a traditional owner and a lead voice among my family group.

I've had many years' experience in helping preserve Aboriginal Cultural Heritage on projects, I hold cultural knowledge relevant to determining the cultural significance of Aboriginal objects and values that exist in the project area.

I have also attached A1 *Indigenous Services Insurances*.

Please feel free to contact me on details supplied

Kind Regards,

**Carolyn Hickey**

### Kawalkan Youth Workforce Program

We would like the proponent and Extent to consider including A1's, Kawalkan youth employees for all future field work.

The Kawalkan Youth Program is a designed program created to employ young indigenous youths between the ages of (18-29) years of age.

### **OUR MISSION**

**Building strength in aboriginal families, communities, and services.**

It is our mission to commit to an innovative approach to a better future for our indigenous youth.

Giving our youth the opportunity to be employed or gain work experience in a culturally sensitive work environment also giving our youth the opportunity to work on country and continue the tradition of passing down

Cultural knowledge from one generation to the next – continuing the importance of keeping culture.

Dear Carolyn,

On behalf of Western Parkland City Authority, Extent Heritage is commencing work on an Aboriginal Cultural Heritage Assessment in advance of a development in the Aerotropolis AeroCore precinct, near Badgerys Creek Rd, Bringelly. You can find more information about the proposed project in the attached letter.

Per Heritage NSW's guidelines for Aboriginal cultural heritage consultation, we are inviting registrations from Aboriginal individuals and/or organisations who may hold relevant cultural knowledge for determining the Aboriginal cultural heritage of the area and any associated significance, and who wish to be involved in the community consultation process.

If you or your organisation is interested in being part of the consultation process, please let me know by **5 November 2020**, and please don't hesitate to contact me by email or phone (02 9555 4000) should you have any further questions.

All the best,

Tom

Hi Tom,

We would like to register our interest in the project.

If you would like a copy of our certificate of currency please let me know.

We are excited by this opportunity and have in employment 6 officers, 3 male and 3 female. Majority are recognised claimants of the south coast people's native title claim and hold very strong cultural connections to the area.

If you would like anything further please let us know.

Kind regards

Hi Tom,

Thank you for informing us that **Extent Heritage** will be involved in an Aboriginal Cultural Heritage Assessment at **Aerotropolis AeroCore precinct, near Badgerys Creek Rd, Bringelly** &, that you are inviting Aboriginal organisations to register, if they wish too be involved in the community consultation process.

As a senior Aboriginal person for the past 40yrs, I actively participate in the protection of the Aboriginal Cultural Heritage throughout the Sydney Basin, & particularly throughout Western Sydney, on behalf of Kamilaroi Yankuntjatjara Working Group I wish to provide to you my organisation's registration of interest.

I wish to be involved & participate in all levels of consultation/project involvement. I wish to attend all meetings, participate in available field work & receive a copy of the report.

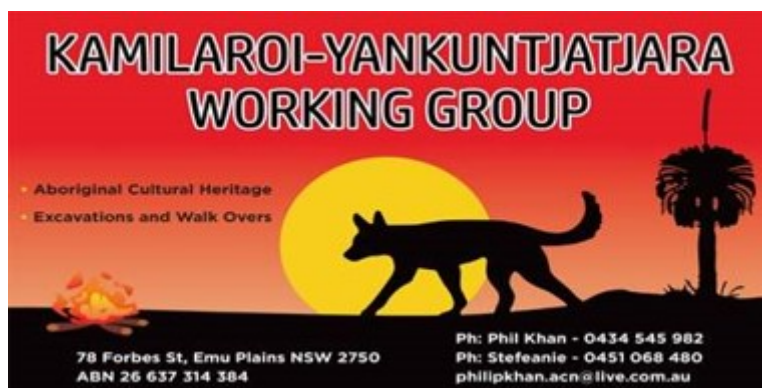

I have attached a copy of Kamilaroi Yankuntjatjara Working group's Public Liability Insurance & Workers Compensation certificate.

Our Rates - \$100 per hour, \$400 half day & \$800 full day (Exc. GST)

Our RAPS have up to 15yrs Cultural Heritage experience in – field work which involves manual excavation (digging), sieving, identifying artefacts, setting up transits, setting up equipment, packing equipment, site surveys & attending meetings.

Should you wish me to provide further information, please do not hesitate to contact me on 0434545982 or Stefeanie on 0451068480.

Kind Regards  
Phil Khan

**Subject:** Invitation to Register - Extent Heritage, Aerotropolis AeroCore Badgerys Ck Rd ACHA

Dear Phil,

On behalf of Western Parkland City Authority, Extent Heritage is commencing work on an Aboriginal Cultural Heritage Assessment in advance of a development in the Aerotropolis AeroCore precinct, near Badgerys Creek Rd, Bringelly. You can find more information about the proposed project in the attached letter.

Per Heritage NSW's guidelines for Aboriginal cultural heritage consultation, we are inviting registrations from Aboriginal individuals and/or organisations who may hold relevant cultural knowledge for determining the Aboriginal cultural heritage of the area and any associated significance, and who wish to be involved in the community consultation process.

If you or your organisation is interested in being part of the consultation process, please let me know by **5 November 2020**, and please don't hesitate to contact me by email or phone (02 9555 4000) should you have any further questions.

All the best,

Tom

## **BUTUCARBIN ABORIGINAL CORPORATION**

PO Box E18, Emerton NSW 2770

28 Pringle Road, Hebersham NSW 2770

Ph: 9832 7167 Fax: 9832 7263

[koori@ozemail.com.au](mailto:koori@ozemail.com.au)

ABN: 83 535 742 276

5<sup>th</sup> November 2020

To whom it may concern,

On behalf of Butucarbin, I would like to register interest in the consultation in relation to the Aerotropolis AeroCore Project.

Please see information in relation to Butucarbin's cultural connection to the area.

### **Cultural Connection and Representation**

Butucarbin Aboriginal Corporation is a successful not for profit community organisation that was established in 1989 to provide Community Development, Education and Training to organisations and individuals in the Blacktown and Penrith LGA's of Western Sydney. The organisation has won many awards for outstanding service delivery over the past 23 years. The latest being our Executive Officer Jennifer Beale being a finalist in the 2014 NSW Australian of the Year awards.

Due to the changes in funding, for Aboriginal organisations and for Butucarbin to continue the service that they have been providing, the organisation has developed an Aboriginal Cultural Heritage Assessment business. All profits go back into the organisation to provide services to the community. As community workers we believe it is our duty to involve the Aboriginal community of Western Sydney in this work, as it enables the community to learn about cultural heritage and also enables archaeologists to gain different perspectives into Aboriginal Culture.

Butucarbin in itself is a modern example of cultural heritage in that it is a product of the 1970's resettlement program and self-determination policy (see, Aboriginal Community Controlled Organisations). Due to this resettlement policy there are generations of Aboriginal people who have been born in Western Sydney and have been raised in the Mount Druitt Community (which has the highest Aboriginal urban population in Australia) and thus, this is where their connection lies. Ultimately, our cultural connection lies in our community work and assistance to the people of wider Western Sydney.

In conclusion, we also believe it is essential to pass on knowledge from generation to generation. Butucarbin provides cultural knowledge to the wider community through Aboriginal Cultural workshops and community development programs.

### **Previous experience**

We have participated in projects with such companies as, Extent, Niche, Kelleher Nightingale, Artefact, AMBS, Virtus Heritage, Navin Officer, Curio and Biosis. This work has involved activities such as, site-walkovers, surface collections, ACHA reviews and excavations.

When on site, our workers were on time, professional and participate in all tasks set for them. It is essential for our community members to participate in Aboriginal Community Consultations and other cultural work as we believe it is of the utmost importance that cultural heritage skills and knowledge are passed on to our younger Aboriginal generations.

Overall, our team is highly skilled and has over ten years' experience in cultural heritage assessment field work. Currently, our team consists of several skilled field officers. We ensure there is diversity amongst our workers in that we do not discriminate against gender and age. In fact, we strongly encourage the employment of individuals of all ages and genders as it is essential to gain insight into cultural heritage from varying perceptions.

In the event Butucarbin is selected for fieldwork, please consider our consultancy rates. Ultimately, Butucarbin can negotiate fees however, our standard fee is \$120 per hour. Longer-term projects, those lasting over two months, may be subject to a reduced fee.

#### **Schedule of Rates**

Our rates are as follows:

Meetings/site inspections: \$400+GST

Fieldwork: \$120.00 per hour

Perusal and comment of reports: \$120.00 per hour

Mileage Allowance: 0.75 cents per kilometre

If you require further information, we have attached our flyer and web page [www.butucarbin.org.au](http://www.butucarbin.org.au) and we are also on Facebook. We would appreciate the opportunity to tender for any Aboriginal cultural heritage assessments you may have coming up in the future. You can contact Jennifer Beale on 0409924409 or Lowanna Gibson on 0458537666.

Yours Sincerely,

Lowanna Gibson

Dear Tom,

Thank you for your invitation.

On behalf of Dhinawan Culture and Heritage Pty Ltd, I would like to formally register our interest in the consultation process for the Aerotropolis AeroCore Precinct near Badgerys Creek Rd NSW project.

Regards,

**Stephen Fields**  
CEO  
Dhinawan Culture and Heritage Pty Ltd

Dear Stephen,

On behalf of Western Parkland City Authority, Extent Heritage is commencing work on an Aboriginal Cultural Heritage Assessment in advance of a development in the Aerotropolis AeroCore precinct, near Badgerys Creek Rd, Bringelly. You can find more information about the proposed project in the attached letter.

Per Heritage NSW's guidelines for Aboriginal cultural heritage consultation, we are inviting registrations from Aboriginal individuals and/or organisations who may hold relevant cultural knowledge for determining the Aboriginal cultural heritage of the area and any associated significance, and who wish to be involved in the community consultation process.

If you or your organisation is interested in being part of the consultation process, please let me know by 5 November 2020, and please don't hesitate to contact me by email or phone (02 9555 4000) should you have any further questions.

All the best,

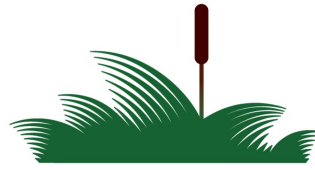

Tom

**Subject:** Registration of Interest - Aboriginal Cultural Heritage Assessment - Aerotropolis AeroCore Precinct near Badgerys Creek Rd NSW

You (EXTENT HERITAGE) seek and invite, on behalf of **Western Parkland City Authority**, registrations of interest from Aboriginal Persons who hold knowledge relevant to the ABORIGINAL Objects and ABORIGINAL Places within and throughout the below mentioned lands with respects to the future application for an ABORIGINAL Heritage Impact Permit under Part 6 of the NSW National Parks and Wildlife Act 1974.

It is important for me to remind you that the NSW National Parks and Wildlife Regulations 2019 and the NSW ABORIGINAL Cultural Heritage Consultation Requirements for Proponents 2010 provide no provision or requirement for the exclusive invitation and registration of Exclusively LOCAL ABORIGINAL GROUPS and PEOPLE to register an interest in any ABORIGINAL Consultation for the purposes of Clause 60 of the NSW National Parks and Wildlife Regulations 2019.

For the purposes of Clause 60-2 (a) of the Regulations, I, confirm that I'm an ABORIGINAL Person by descent and that I hold knowledge relevant to the ABORIGINAL Objects and ABORIGINAL Places within and throughout the Lands being, but not limited to the following:

1. Lots 700, 701, 702, 703, 705, 706, 707, 708, 709 DP788485
2. Lots 801, 802, 803, 804, 805, 806, 807, 808 DP803165
3. Lots 900, 901, 902, 903, 904, 905, 906, 907 DP803166
4. Lots 274, 275, 276 DP803167
5. Lot 7041 DP850594
6. Lots 2711, 2712 DP1128906
7. Lot 10 DP1235662

In accordance with the provisions and the requirements of the NSW National Parks and Wildlife Act and Regulations, I, accordingly register an interest with EXTENT HERITAGE on behalf of **Western Parkland City Authority** for Consultation within and throughout the Lands being, but not limited to the following:

1. Lots 700, 701, 702, 703, 705, 706, 707, 708, 709 DP788485
2. Lots 801, 802, 803, 804, 805, 806, 07, 808 DP803165
3. Lots 900, 901, 902, 903, 904, 905, 906, 907 DP803166
4. Lots 274, 275, 276 DP803167
5. Lot 7041 DP850594
6. Lots 2711, 2712 DP1128906
7. Lot 10 DP1235662

I do not consent to the disclosure of any of my information to be released to any the LOCAL ABORIGINAL LAND COUNCIL under any circumstances, however, I do consent to the release of my information to be released to HERITAGE NSW of the Department of Premier and Cabinet.

Lastly, I would like to thank you for inviting me to consider registering my interest in this project.

**To:** Tom Sapienza  
**Subject:** Registration of Interest - Aboriginal Cultural Heritage Assessment - Aerotropolis AeroCore Precinct near Badgerys Creek Rd NSW

You (EXTENT HERITAGE) seek and invite, on behalf of **Western Parkland City Authority**, registrations of interest from Aboriginal Persons who hold knowledge relevant to the ABORIGINAL Objects and ABORIGINAL Places within and throughout the below mentioned lands with respects to the future application for an ABORIGINAL Heritage Impact Permit under Part 6 of the NSW National Parks and Wildlife Act 1974.

It is important for me to remind you that the NSW National Parks and Wildlife Regulations 2019 and the NSW ABORIGINAL Cultural Heritage Consultation Requirements for Proponents 2010 provide no provision or requirement for the exclusive invitation and registration of Exclusively LOCAL ABORIGINAL GROUPS and PEOPLE to register an interest in any ABORIGINAL Consultation for the purposes of Clause 60 of the NSW National Parks and Wildlife Regulations 2019.

For the purposes of Clause 60-2 (a) of the Regulations, I, confirm that I'm an ABORIGINAL Person by descent and that I hold knowledge relevant to the ABORIGINAL Objects and ABORIGINAL Places within and throughout the Lands being, but not limited to the following:

1. Lots 700, 701, 702, 703, 705, 706, 707, 708, 709 DP788485
2. Lots 801, 802, 803, 804, 805, 806, 807, 808 DP803165
3. Lots 900, 901, 902, 903, 904, 905, 906, 907 DP803166
4. Lots 274, 275, 276 DP803167
5. Lot 7041 DP850594
6. Lots 2711, 2712 DP1128906
7. Lot 10 DP1235662

In accordance with the provisions and the requirements of the NSW National Parks and Wildlife Act and Regulations, I, accordingly register an interest with EXTENT HERITAGE on behalf of **Western Parkland City Authority** for Consultation within and throughout the Lands being, but not limited to the following:

1. Lots 700, 701, 702, 703, 705, 706, 707, 708, 709 DP788485
2. Lots 801, 802, 803, 804, 805, 806, 07, 808 DP803165
3. Lots 900, 901, 902, 903, 904, 905, 906, 907 DP803166
4. Lots 274, 275, 276 DP803167
5. Lot 7041 DP850594
6. Lots 2711, 2712 DP1128906
7. Lot 10 DP1235662

I do not consent to the disclosure of any of my information to be released to any the LOCAL ABORIGINAL LAND COUNCIL under any circumstances, however, I do consent to the release of my information to be released to HERITAGE NSW of the Department of Premier and Cabinet.

Lastly, I would like to thank you for inviting me to consider registering my interest in this project.

**To:** Tom Sapienza  
**Subject:** Registration of Interest - Aboriginal Cultural Heritage Assessment - Aerotropolis AeroCore Precinct near Badgerys Creek Rd NSW

You (EXTENT HERITAGE) seek and invite, on behalf of **Western Parkland City Authority**, registrations of interest from Aboriginal Persons who hold knowledge relevant to the ABORIGINAL Objects and ABORIGINAL Places within and throughout the below mentioned lands with respects to the future application for an ABORIGINAL Heritage Impact Permit under Part 6 of the NSW National Parks and Wildlife Act 1974.

It is important for me to remind you that the NSW National Parks and Wildlife Regulations 2019 and the NSW ABORIGINAL Cultural Heritage Consultation Requirements for Proponents 2010 provide no provision or requirement for the exclusive invitation and registration of Exclusively LOCAL ABORIGINAL GROUPS and PEOPLE to register an interest in any ABORIGINAL Consultation for the purposes of Clause 60 of the NSW National Parks and Wildlife Regulations 2019.

For the purposes of Clause 60-2 (a) of the Regulations, I, confirm that I'm an ABORIGINAL Person by descent and that I hold knowledge relevant to the ABORIGINAL Objects and ABORIGINAL Places within and throughout the Lands being, but not limited to the following:

1. Lots 700, 701, 702, 703, 705, 706, 707, 708, 709 DP788485
2. Lots 801, 802, 803, 804, 805, 806, 807, 808 DP803165
3. Lots 900, 901, 902, 903, 904, 905, 906, 907 DP803166
4. Lots 274, 275, 276 DP803167
5. Lot 7041 DP850594
6. Lots 2711, 2712 DP1128906
7. Lot 10 DP1235662

In accordance with the provisions and the requirements of the NSW National Parks and Wildlife Act and Regulations, I, accordingly register an interest with EXTENT HERITAGE on behalf of **Western Parkland City Authority** for Consultation within and throughout the Lands being, but not limited to the following:

1. Lots 700, 701, 702, 703, 705, 706, 707, 708, 709 DP788485
2. Lots 801, 802, 803, 804, 805, 806, 07, 808 DP803165
3. Lots 900, 901, 902, 903, 904, 905, 906, 907 DP803166
4. Lots 274, 275, 276 DP803167
5. Lot 7041 DP850594
6. Lots 2711, 2712 DP1128906
7. Lot 10 DP1235662

**To:** Tom Sapienza  
**Subject:** Registration of Interest - Aboriginal Cultural Heritage Assessment - Aerotropolis AeroCore Precinct near Badgerys Creek Rd NSW

You (EXTENT HERITAGE) seek and invite, on behalf of **Western Parkland City Authority**, registrations of interest from Aboriginal Persons who hold knowledge relevant to the ABORIGINAL Objects and ABORIGINAL Places within and throughout the below mentioned lands with respects to the future application for an ABORIGINAL Heritage Impact Permit under Part 6 of the NSW National Parks and Wildlife Act 1974.

It is important for me to remind you that the NSW National Parks and Wildlife Regulations 2019 and the NSW ABORIGINAL Cultural Heritage Consultation Requirements for Proponents 2010 provide no provision or requirement for the exclusive invitation and registration of Exclusively LOCAL ABORIGINAL GROUPS and PEOPLE to register an interest in any ABORIGINAL Consultation for the purposes of Clause 60 of the NSW National Parks and Wildlife Regulations 2019.

For the purposes of Clause 60-2 (a) of the Regulations, I, confirm that I'm an ABORIGINAL Person by descent and that I hold knowledge relevant to the ABORIGINAL Objects and ABORIGINAL Places within and throughout the Lands being, but not limited to the following:

1. Lots 700, 701, 702, 703, 705, 706, 707, 708, 709 DP788485
2. Lots 801, 802, 803, 804, 805, 806, 807, 808 DP803165
3. Lots 900, 901, 902, 903, 904, 905, 906, 907 DP803166
4. Lots 274, 275, 276 DP803167
5. Lot 7041 DP850594
6. Lots 2711, 2712 DP1128906
7. Lot 10 DP1235662

In accordance with the provisions and the requirements of the NSW National Parks and Wildlife Act and Regulations, I, accordingly register an interest with EXTENT HERITAGE on behalf of **Western Parkland City Authority** for Consultation within and throughout the Lands being, but not limited to the following:

1. Lots 700, 701, 702, 703, 705, 706, 707, 708, 709 DP788485
2. Lots 801, 802, 803, 804, 805, 806, 07, 808 DP803165
3. Lots 900, 901, 902, 903, 904, 905, 906, 907 DP803166
4. Lots 274, 275, 276 DP803167
5. Lot 7041 DP850594
6. Lots 2711, 2712 DP1128906
7. Lot 10 DP1235662

I do not consent to the disclosure of any of my information to be released to any the LOCAL ABORIGINAL LAND COUNCIL under any circumstances, however, I do consent to the release of my information to be released to HERITAGE NSW of the Department of Premier and Cabinet.

Lastly, I would like to thank you for inviting me to consider registering my interest in this project.

**Subject:** Registration of Interest - Aboriginal Cultural Heritage Assessment - Aerotropolis AeroCore Precinct near Badgerys Creek Rd NSW

You (EXTENT HERITAGE) seek and invite, on behalf of **Western Parkland City Authority**, registrations of interest from Aboriginal Persons who hold knowledge relevant to the ABORIGINAL Objects and ABORIGINAL Places within and throughout the below mentioned lands with respects to the future application for an ABORIGINAL Heritage Impact Permit under Part 6 of the NSW National Parks and Wildlife Act 1974.

It is important for me to remind you that the NSW National Parks and Wildlife Regulations 2019 and the NSW ABORIGINAL Cultural Heritage Consultation Requirements for Proponents 2010 provide no provision or requirement for the exclusive invitation and registration of Exclusively LOCAL ABORIGINAL GROUPS and PEOPLE to register an interest in any ABORIGINAL Consultation for the purposes of Clause 60 of the NSW National Parks and Wildlife Regulations 2019.

For the purposes of Clause 60-2 (a) of the Regulations, I, confirm that I'm an ABORIGINAL Person by descent and that I hold knowledge relevant to the ABORIGINAL Objects and ABORIGINAL Places within and throughout the Lands being, but not limited to the following:

1. Lots 700, 701, 702, 703, 705, 706, 707, 708, 709 DP788485
2. Lots 801, 802, 803, 804, 805, 806, 807, 808 DP803165
3. Lots 900, 901, 902, 903, 904, 905, 906, 907 DP803166
4. Lots 274, 275, 276 DP803167
5. Lot 7041 DP850594
6. Lots 2711, 2712 DP1128906
7. Lot 10 DP1235662

In accordance with the provisions and the requirements of the NSW National Parks and Wildlife Act and Regulations, I, accordingly register an interest with EXTENT HERITAGE on behalf of **Western Parkland City Authority** for Consultation within and throughout the Lands being, but not limited to the following:

1. Lots 700, 701, 702, 703, 705, 706, 707, 708, 709 DP788485

**To:** Tom Sapienza  
**Subject:** Registration of Interest - Aboriginal Cultural Heritage Assessment - Aerotropolis AeroCore Precinct near Badgerys Creek Rd NSW

You (EXTENT HERITAGE) seek and invite, on behalf of **Western Parkland City Authority**, registrations of interest from Aboriginal Persons who hold knowledge relevant to the ABORIGINAL Objects and ABORIGINAL Places within and throughout the below mentioned lands with respects to the future application for an ABORIGINAL Heritage Impact Permit under Part 6 of the NSW National Parks and Wildlife Act 1974.

It is important for me to remind you that the NSW National Parks and Wildlife Regulations 2019 and the NSW ABORIGINAL Cultural Heritage Consultation Requirements for Proponents 2010 provide no provision or requirement for the exclusive invitation and registration of Exclusively LOCAL ABORIGINAL GROUPS and PEOPLE to register an interest in any ABORIGINAL Consultation for the purposes of Clause 60 of the NSW National Parks and Wildlife Regulations 2019.

For the purposes of Clause 60-2 (a) of the Regulations, I, confirm that I'm an ABORIGINAL Person by descent and that I hold knowledge relevant to the ABORIGINAL Objects and ABORIGINAL Places within and throughout the Lands being, but not limited to the following:

1. Lots 700, 701, 702, 703, 705, 706, 707, 708, 709 DP788485
2. Lots 801, 802, 803, 804, 805, 806, 807, 808 DP803165
3. Lots 900, 901, 902, 903, 904, 905, 906, 907 DP803166
4. Lots 274, 275, 276 DP803167
5. Lot 7041 DP850594
6. Lots 2711, 2712 DP1128906
7. Lot 10 DP1235662

In accordance with the provisions and the requirements of the NSW National Parks and Wildlife Act and Regulations, I, accordingly register an interest with EXTENT HERITAGE on behalf of **Western Parkland City Authority** for Consultation within and throughout the Lands being, but not limited to the following:

1. Lots 700, 701, 702, 703, 705, 706, 707, 708, 709 DP788485

**To:** Tom Sapienza  
**Subject:** Registration of Interest - Aboriginal Cultural Heritage Assessment - Aerotropolis AeroCore Precinct near Badgerys Creek Rd NSW

You (EXTENT HERITAGE) seek and invite, on behalf of **Western Parkland City Authority**, registrations of interest from Aboriginal Persons who hold knowledge relevant to the ABORIGINAL Objects and ABORIGINAL Places within and throughout the below mentioned lands with respects to the future application for an ABORIGINAL Heritage Impact Permit under Part 6 of the NSW National Parks and Wildlife Act 1974.

It is important for me to remind you that the NSW National Parks and Wildlife Regulations 2019 and the NSW ABORIGINAL Cultural Heritage Consultation Requirements for Proponents 2010 provide no provision or requirement for the exclusive invitation and registration of Exclusively LOCAL ABORIGINAL GROUPS and PEOPLE to register an interest in any ABORIGINAL Consultation for the purposes of Clause 60 of the NSW National Parks and Wildlife Regulations 2019.

For the purposes of Clause 60-2 (a) of the Regulations, I, confirm that I'm an ABORIGINAL Person by descent and that I hold knowledge relevant to the ABORIGINAL Objects and ABORIGINAL Places within and throughout the Lands being, but not limited to the following:

1. Lots 700, 701, 702, 703, 705, 706, 707, 708, 709 DP788485
2. Lots 801, 802, 803, 804, 805, 806, 807, 808 DP803165
3. Lots 900, 901, 902, 903, 904, 905, 906, 907 DP803166
4. Lots 274, 275, 276 DP803167
5. Lot 7041 DP850594
6. Lots 2711, 2712 DP1128906
7. Lot 10 DP1235662

In accordance with the provisions and the requirements of the NSW National Parks and Wildlife Act and Regulations, I, accordingly register an interest with EXTENT HERITAGE on behalf of **Western Parkland City Authority** for Consultation within and throughout the Lands being, but not limited to the following:

1. Lots 700, 701, 702, 703, 705, 706, 707, 708, 709 DP788485
2. Lots 801, 802, 803, 804, 805, 806, 07, 808 DP803165
3. Lots 900, 901, 902, 903, 904, 905, 906, 907 DP803166
4. Lots 274, 275, 276 DP803167
5. Lot 7041 DP850594

You (EXTENT HERITAGE) seek and invite, on behalf of **Western Parkland City Authority**, registrations of interest from Aboriginal Persons who hold knowledge relevant to the ABORIGINAL Objects and ABORIGINAL Places within and throughout the below mentioned lands with respects to the future application for an ABORIGINAL Heritage Impact Permit under Part 6 of the NSW National Parks and Wildlife Act 1974.

It is important for me to remind you that the NSW National Parks and Wildlife Regulations 2019 and the NSW ABORIGINAL Cultural Heritage Consultation Requirements for Proponents 2010 provide no provision or requirement for the exclusive invitation and registration of Exclusively LOCAL ABORIGINAL GROUPS and PEOPLE to register an interest in any ABORIGINAL Consultation for the purposes of Clause 60 of the NSW National Parks and Wildlife Regulations 2019.

For the purposes of Clause 60-2 (a) of the Regulations, I, confirm that I'm an ABORIGINAL Person by descent and that I hold knowledge relevant to the ABORIGINAL Objects and ABORIGINAL Places within and throughout the Lands being, but not limited to the following:

1. Lots 700, 701, 702, 703, 705, 706, 707, 708, 709 DP788485
2. Lots 801, 802, 803, 804, 805, 806, 807, 808 DP803165
3. Lots 900, 901, 902, 903, 904, 905, 906, 907 DP803166
4. Lots 274, 275, 276 DP803167
5. Lot 7041 DP850594
6. Lots 2711, 2712 DP1128906
7. Lot 10 DP1235662

In accordance with the provisions and the requirements of the NSW National Parks and Wildlife Act and Regulations, I, accordingly register an interest with EXTENT HERITAGE on behalf of **Western Parkland City Authority** for Consultation within and throughout the Lands being, but not limited to the following:

1. Lots 700, 701, 702, 703, 705, 706, 707, 708, 709 DP788485
2. Lots 801, 802, 803, 804, 805, 806, 07, 808 DP803165
3. Lots 900, 901, 902, 903, 904, 905, 906, 907 DP803166
4. Lots 274, 275, 276 DP803167
5. Lot 7041 DP850594
6. Lots 2711, 2712 DP1128906
7. Lot 10 DP1235662

I do not consent to the disclosure of any of my information to be released to any the LOCAL ABORIGINAL LAND COUNCIL under any circumstances, however, I do consent to the release of my information to be released to HERITAGE NSW of the Department of Premier and Cabinet.

Lastly, I would like to thank you for inviting me to consider registering my interest in this project.

For the purposes of Clause 60-2 (a) of the Regulations, I, confirm that I'm an ABORIGINAL Person by descent and that I hold knowledge relevant to the ABORIGINAL Objects and ABORIGINAL Places within and throughout the Lands being, but not limited to the following:

1. Lots 700, 701, 702, 703, 705, 706, 707, 708, 709 DP788485
2. Lots 801, 802, 803, 804, 805, 806, 807, 808 DP803165
3. Lots 900, 901, 902, 903, 904, 905, 906, 907 DP803166
4. Lots 274, 275, 276 DP803167
5. Lot 7041 DP850594
6. Lots 2711, 2712 DP1128906
7. Lot 10 DP1235662

In accordance with the provisions and the requirements of the NSW National Parks and Wildlife Act and Regulations, I, accordingly register an interest with EXTENT HERITAGE on behalf of **Western Parkland City Authority** for Consultation within and throughout the Lands being, but not limited to the following:

1. Lots 700, 701, 702, 703, 705, 706, 707, 708, 709 DP788485
2. Lots 801, 802, 803, 804, 805, 806, 07, 808 DP803165
3. Lots 900, 901, 902, 903, 904, 905, 906, 907 DP803166
4. Lots 274, 275, 276 DP803167
5. Lot 7041 DP850594
6. Lots 2711, 2712 DP1128906
7. Lot 10 DP1235662

I do not consent to the disclosure of any of my information to be released to any the LOCAL ABORIGINAL LAND COUNCIL under any circumstances, however, I do consent to the release of my information to be released to HERITAGE NSW of the Department of Premier and Cabinet.

Lastly, I would like to thank you for inviting me to consider registering my interest in this project.

**Subject:** Registration of Interest - Aboriginal Cultural Heritage Assessment - Aerotropolis AeroCore Precinct near Badgerys Creek Rd NSW

You (EXTENT HERITAGE) seek and invite, on behalf of **Western Parkland City Authority**, registrations of interest from Aboriginal Persons who hold knowledge relevant to the ABORIGINAL Objects and ABORIGINAL Places within and throughout the below mentioned lands with respects to the future application for an ABORIGINAL Heritage Impact Permit under Part 6 of the NSW National Parks and Wildlife Act 1974.

It is important for me to remind you that the NSW National Parks and Wildlife Regulations 2019 and the NSW ABORIGINAL Cultural Heritage Consultation Requirements for Proponents 2010 provide no provision or requirement for the exclusive invitation and registration of Exclusively LOCAL ABORIGINAL GROUPS and PEOPLE to register an interest in any ABORIGINAL Consultation for the purposes of Clause 60 of the NSW National Parks and Wildlife Regulations 2019.

For the purposes of Clause 60-2 (a) of the Regulations, I, confirm that I'm an ABORIGINAL Person by descent and that I hold knowledge relevant to the ABORIGINAL Objects and ABORIGINAL Places within and throughout the Lands being, but not limited to the following:

1. Lots 700, 701, 702, 703, 705, 706, 707, 708, 709 DP788485
2. Lots 801, 802, 803, 804, 805, 806, 807, 808 DP803165
3. Lots 900, 901, 902, 903, 904, 905, 906, 907 DP803166
4. Lots 274, 275, 276 DP803167
5. Lot 7041 DP850594
6. Lots 2711, 2712 DP1128906
7. Lot 10 DP1235662

In accordance with the provisions and the requirements of the NSW National Parks and Wildlife Act and Regulations, I, accordingly register an interest with EXTENT HERITAGE on behalf of **Western Parkland City Authority** for Consultation within and throughout the Lands being, but not limited to the following:

1. Lots 700, 701, 702, 703, 705, 706, 707, 708, 709 DP788485
2. Lots 801, 802, 803, 804, 805, 806, 07, 808 DP803165
3. Lots 900, 901, 902, 903, 904, 905, 906, 907 DP803166
4. Lots 274, 275, 276 DP803167
5. Lot 7041 DP850594
6. Lots 2711, 2712 DP1128906
7. Lot 10 DP1235662

I do not consent to the disclosure of any of my information to be released to any the LOCAL ABORIGINAL LAND COUNCIL under any circumstances, however, I do consent to the release of my information to be released to HERITAGE NSW of the Department of Premier and Cabinet.

Lastly, I would like to thank you for inviting me to consider registering my interest in this project.

**To:** Tom Sapienza  
**Subject:** Registration of Interest - Aboriginal Cultural Heritage Assessment - Aerotropolis AeroCore Precinct near Badgerys Creek Rd NSW

You (EXTENT HERITAGE) seek and invite, on behalf of **Western Parkland City Authority**, registrations of interest from Aboriginal Persons who hold knowledge relevant to the ABORIGINAL Objects and ABORIGINAL Places within and throughout the below mentioned lands with respects to the future application for an ABORIGINAL Heritage Impact Permit under Part 6 of the NSW National Parks and Wildlife Act 1974.

It is important for me to remind you that the NSW National Parks and Wildlife Regulations 2019 and the NSW ABORIGINAL Cultural Heritage Consultation Requirements for Proponents 2010 provide no provision or requirement for the exclusive invitation and registration of Exclusively LOCAL ABORIGINAL GROUPS and PEOPLE to register an interest in any ABORIGINAL Consultation for the purposes of Clause 60 of the NSW National Parks and Wildlife Regulations 2019.

For the purposes of Clause 60-2 (a) of the Regulations, I, confirm that I'm an ABORIGINAL Person by descent and that I hold knowledge relevant to the ABORIGINAL Objects and ABORIGINAL Places within and throughout the Lands being, but not limited to the following:

1. Lots 700, 701, 702, 703, 705, 706, 707, 708, 709 DP788485
2. Lots 801, 802, 803, 804, 805, 806, 807, 808 DP803165
3. Lots 900, 901, 902, 903, 904, 905, 906, 907 DP803166
4. Lots 274, 275, 276 DP803167
5. Lot 7041 DP850594
6. Lots 2711, 2712 DP1128906
7. Lot 10 DP1235662

In accordance with the provisions and the requirements of the NSW National Parks and Wildlife Act and Regulations, I, accordingly register an interest with EXTENT HERITAGE on behalf of **Western Parkland City Authority** for Consultation within and throughout the Lands being, but not limited to the following:

1. Lots 700, 701, 702, 703, 705, 706, 707, 708, 709 DP788485
2. Lots 801, 802, 803, 804, 805, 806, 07, 808 DP803165
3. Lots 900, 901, 902, 903, 904, 905, 906, 907 DP803166
4. Lots 274, 275, 276 DP803167
5. Lot 7041 DP850594
6. Lots 2711, 2712 DP1128906
7. Lot 10 DP1235662

I do not consent to the disclosure of any of my information to be released to any the LOCAL ABORIGINAL LAND COUNCIL under any circumstances, however, I do consent to the release of my information to be released to HERITAGE NSW of the Department of Premier and Cabinet.

Lastly, I would like to thank you for inviting me to consider registering my interest in this project.

## Western Sydney Aerotropolis Core Precinct, NSW – Proposed Aboriginal Cultural Heritage Assessment Report Methodology

Dear Aaron

Thank you for registering an interest in the Western Sydney Aerotropolis Project, which commenced earlier this year. Your interest in the project has been formally registered in accordance with the *Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010*.

The next stage of Aboriginal cultural heritage work is due to commence and we are contacting you regarding preparation of an Aboriginal Cultural Heritage Assessment Report (ACHAR) for the proposed Aerotropolis Core Precinct, situated in the Liverpool and Penrith Local Government Areas.

This letter provides information about the project and the proposed methodology for the Aboriginal Cultural Heritage Assessment Report, which includes an archaeological field survey. I would like to invite you to review the methodology and provide any comments you may have by **9 December 2020**.

If you have any questions, please do not hesitate to contact me on (02) 9555 4000, or by email at [rtaddeucci@extent.com.au](mailto:rtaddeucci@extent.com.au).

Kind Regards

**Ryan Taddeucci**  
**Senior Heritage Advisor | Extent Heritage**

## Proponent Contact Details

This letter has been prepared by Extent Heritage Pty Ltd (Extent Heritage) on behalf of Western Parkland City Authority Trust (the proponent). The proponent's contact details are:

**Yolanda Gil** (Director, Planning)  
Western Parkland City Authority  
Level 2, 10 Valentine Avenue  
Parramatta NSW 2150  
[yolanda.gil@wcaa.sydney](mailto:yolanda.gil@wcaa.sydney)

## Background

### Project Information

Western Parkland City Authority propose to undertake development on approximately 160ha of land within the Aerotropolis Core Precinct (**Figure 1**) (hereafter, referred to as the study area). The proposed development would involve construction works associated with mixed use development, including bulk earthworks, ~~re-zoning~~, construction of infrastructure (roads, footpaths, stormwater, etc.), buildings, environmental controls and landscaping.

As part of the development process, Western Parkland City Authority has engaged Extent Heritage to develop an ACHAR to ensure the Aboriginal objects and values within the study area are identified and appropriately managed. This assessment would inform Western Parkland City Authority of any heritage constraints, and the potential for harm to occur to Aboriginal objects. The ACHAR will provide a management strategy for avoiding, minimising and/or mitigating such impacts to any identified Aboriginal objects. The findings and recommendations of the ACHAR will be used to inform the development of a Master Plan for the site. As the ACHAR is being produced to inform a Master Plan, the ACHAR will not include a detailed impact assessment required for the approval of an Aboriginal Heritage Impact Permit (AHIP). Following the completion of detailed design, an addendum ACHAR may be developed to support an AHIP application.

### Archaeological context

No archaeological excavations are known to have taken place within or immediately adjacent to the study area, but eight sites have been previously recorded within the study area. A review of the Aboriginal Heritage Information Management System (AHIMS) indicates that the majority of these sites are low-density artefact scatters and/or isolated finds. A list of the Aboriginal sites in and immediately adjacent to the study area is presented in **Table 1**, and a map of the sites is shown in **Figure 2**.

These sites were recorded by Navin Officer Heritage Consultants (NOHC) in 1997 as part of fieldwork undertaken to evaluate areas around the Cumberland Plain for suitability of the site as a location for a second Sydney airport. The Aboriginal sites recorded by NOHC comprise surface artefact scatters and isolated artefacts, but currently little detail is known about the composition, size, or extent of these sites. Most of the AHIMS site cards indicate that detailed site information is contained within the final report, but the final report appears to lack this information<sup>[1]</sup>. The limited information available on the AHIMS site cards suggest that most of these sites were low density scatters <10 stone artefacts – mostly flakes though some cores were identified. The majority of the artefact assemblage is comprised of silcrete, with lesser numbers of quartz and mudstone.

**Table 1. Archaeological sites within the development area.**

AHIMS Site ID.	Site Name	Recorder	Site Feature
45-5-2620	B 18	NOHC	Isolated artefact*
45-5-2621	B 19	NOHC	Artefact scatter*
45-5-2622	B 20	NOHC	Artefact scatter*
45-5-2628	B 38	NOHC	Isolated artefact*
45-5-2639	B 21	NOHC	Artefact scatter
45-5-2640	B 22	NOHC	Artefact scatter
45-5-2641	B 23	NOHC	Artefact scatter
45-5-2779	B17	NOHC	Artefact scatter

## Proposed Assessment Methodology

Extent Heritage proposes to develop the ACHAR in accordance with the following guidelines:

- ♦ *Guide to Investigating, Assessing and Reporting on Aboriginal Cultural Heritage in NSW* (OEH 2011).
- ♦ *Code of Practice for Archaeological Investigation of Aboriginal Objects in New South Wales* (DECCW 2010).
- ♦ *Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010* (DECCW 2010).

Development of the ACHAR will involve a cultural values assessment, archaeological survey, and subsequent reporting. We currently anticipate that the ACHAR should be completed by February 2020.

The ACHAR will include the following tasks:

- ♦ Aboriginal community consultation: The initial stages of this process have been completed, and a list of Registered Aboriginal Parties (RAPs) has been compiled. The present letter provides the RAPs with project information and the proposed assessment methodology for review. The next stage of the consultation process will include the opportunity for comment on the proposed works and the assessment.
- ♦ Review of background information. Including the physical environment of the study area, historic land use, previously complete archaeological assessments within the study area and surrounding region, and ethnographic information regarding Aboriginal land use. This information will be utilised to develop a predictive model and assessment of the archaeological character of the study area.
- ♦ Archaeological survey of the survey area to test the predictive model, reassess the status of previously identified Aboriginal sites and determine if any previously unrecorded Aboriginal sites and area of potential archaeological deposit (PAD) are present.
- ♦ If additional Aboriginal sites are identified, submissions of site recordings for registration on Heritage NSW's AHIMS database.
- ♦ Significance and impact assessment. The Aboriginal heritage significance of the study area will be assessed, based on comments received from the RAPs through the consultation program and identified archaeological character of the study area. The potential impact of the proposed development on this significance will be assessed, and management recommendations will be developed accordingly.

## Archaeological Survey Methodology

Extent Heritage proposes to undertake an archaeological survey in accordance with the requirements of the *Code of Practice for Archaeological Investigation of Aboriginal Objects in NSW* (DECCW 2010). This survey will target both Aboriginal and historical heritage. It will aim to identify any visible Aboriginal objects (material traces and evidence of Aboriginal land), to inspect any important or significant locations identified during the cultural values assessment, attempt to relocate previously registered Aboriginal sites to record their current condition and integrity, and to assess the extent to which past land-use may have affected the sub-surface archaeological potential within areas of identified archaeological sensitivity.

This survey will likewise address specific areas of historical archaeological potential. These areas will be examined for any indication of sub-surface potential in the form of house platforms, benching, ruined remains, remnant fencing and/or garden/fruit trees. The investigation will also assess.

It is proposed that a desktop analysis of aerial photos and topographic maps is completed to inform the development of a survey strategy. Based on the results of the desktop study, the study area will be divided into survey units to facilitate the completion of a full coverage survey. Where a full coverage survey is not possible, due to access or safety constraints, a sample survey will be completed. Full coverage survey will involve the completion of parallel transects spaced 30 m apart, where possible. The survey team will carry a handheld Global Positioning System (GPS) to track coverage of the survey and cameras to document representative landform features. Any Aboriginal objects or identified areas of Potential Archaeological Deposit (PAD) would be documented in accordance with the requirements of the Code of Practice.

## Timeframes

Extent Heritage proposes the following indicative timeframes for the project:

- ♦ Distribution of this document to Registered Aboriginal Parties: **6 November 2020.**
- ♦ End of review period for the proposed methodology: **9 December 2020.**
- ♦ Field survey to be undertaken: **mid December 2020.**

- ♦ Cultural values workshops and site visits: **mid November 2020.**
- ♦ Distribution of draft ACHAR to Registered Aboriginal Parties for review: **mid to late December 2020.**

## Information Sought

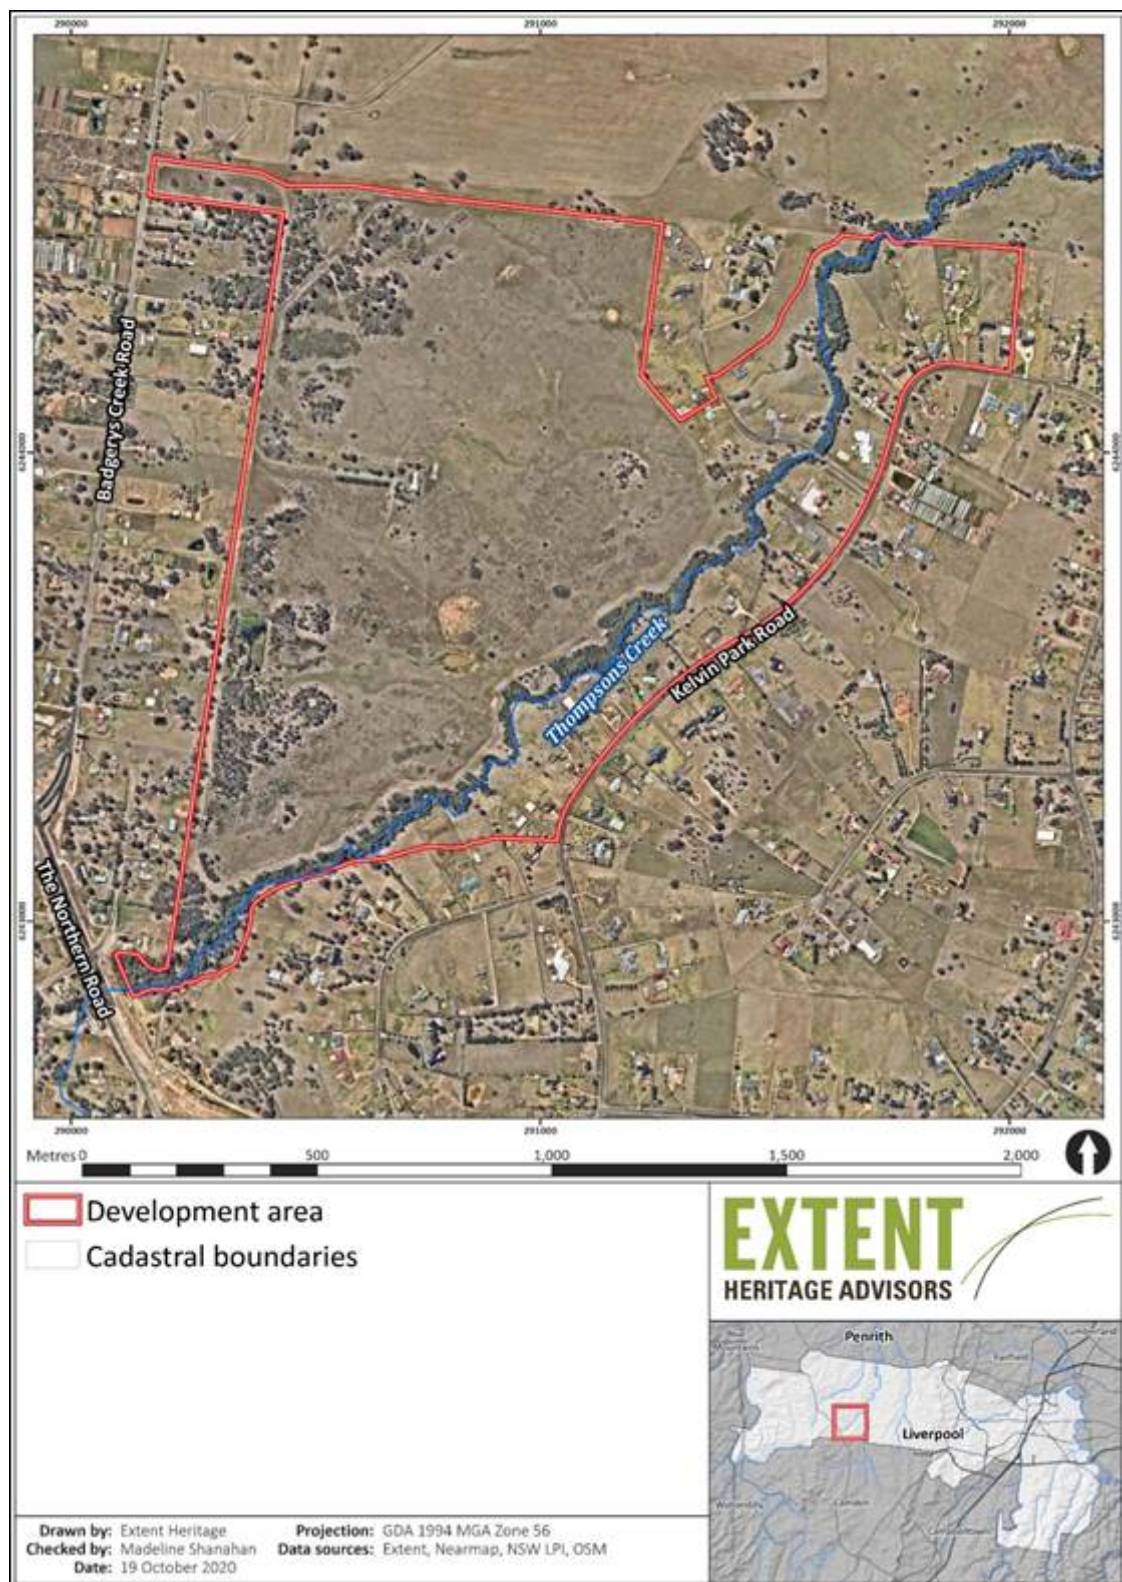

Extent Heritage would appreciate your feedback on the methodology proposed above for the investigation and assessment of the study area.

In returning your answers, please include the following where appropriate:

- ♦ Any protocols that you would like adopted during the project.
- ♦ Identification of any Aboriginal objects of cultural significance and/or importance that you are aware of within the activity area, and how you wish them to be dealt with during the project.
- ♦ Identification of any places of cultural significance and/or importance that you are aware of within the activity area, and how you wish them to be dealt with during the project.
- ♦ Guidance on the protocols, sensitivity, use and/or distribution of any cultural information that you provide to Extent Heritage.
- ♦ Whether you require any further information prior to Extent Heritage proceeding with the project.

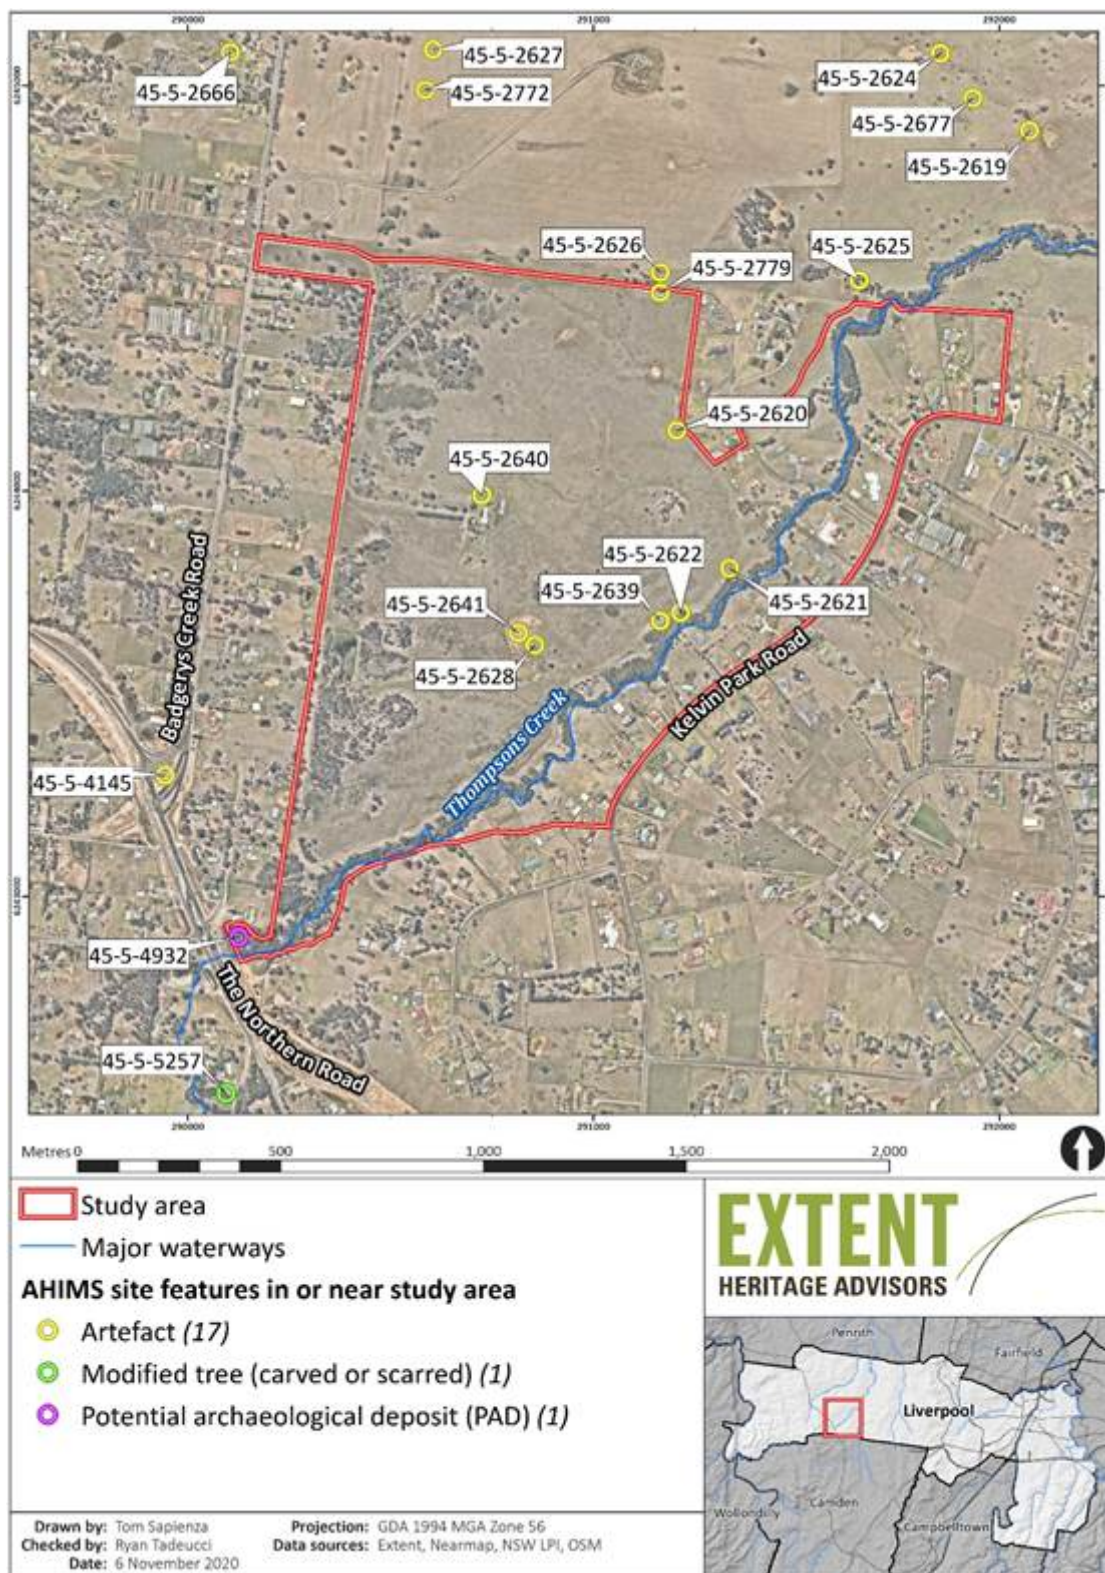

Extent Heritage would like to ask you to review the above information and provide any comments by **9 December 2020.**

## Western Sydney Aerotropolis Core Precinct, NSW – Proposed Aboriginal Cultural Heritage Assessment Report Methodology

Dear Lee

Thank you for registering an interest in the Western Sydney Aerotropolis Project, which commenced earlier this year. Your interest in the project has been formally registered in accordance with the *Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010*.

The next stage of Aboriginal cultural heritage work is due to commence and we are contacting you regarding preparation of an Aboriginal Cultural Heritage Assessment Report (ACHAR) for the proposed Aerotropolis Core Precinct, situated in the Liverpool and Penrith Local Government Areas.

This letter provides information about the project and the proposed methodology for the Aboriginal Cultural Heritage Assessment Report, which includes an archaeological field survey. I would like to invite you to review the methodology and provide any comments you may have by **9 December 2020**.

If you have any questions, please do not hesitate to contact me on (02) 9555 4000, or by email at [rtaddeucci@extent.com.au](mailto:rtaddeucci@extent.com.au).

Kind Regards

## Proponent Contact Details

This letter has been prepared by Extent Heritage Pty Ltd (Extent Heritage) on behalf of Western Parkland City Authority Trust (the proponent). The proponent's contact details are:

**Yolanda Gil** (Director, Planning)  
Western Parkland City Authority  
Level 2, 10 Valentine Avenue  
Parramatta NSW 2150  
[yolanda.gil@wcaa.sydney](mailto:yolanda.gil@wcaa.sydney)

## Background

### Project Information

Western Parkland City Authority propose to undertake development on approximately 160ha of land within the Aerotropolis Core Precinct (**Figure 1**) (hereafter, referred to as the study area). The proposed development would involve construction works associated with mixed use development, including bulk earthworks, ~~rezoning~~, construction of infrastructure (roads, footpaths, stormwater, etc.), buildings, environmental controls and landscaping.

As part of the development process, Western Parkland City Authority has engaged Extent Heritage to develop an ACHAR to ensure the Aboriginal objects and values within the study area are identified and appropriately managed. This assessment would inform Western Parkland City Authority of any heritage constraints, and the potential for harm to occur to Aboriginal objects. The ACHAR will provide a management strategy for avoiding, minimising and/or mitigating such impacts to any identified Aboriginal objects. The findings and recommendations of the ACHAR will be used to inform the development of a Master Plan for the site. As the ACHAR is being produced to inform a Master Plan, the ACHAR will not include a detailed impact assessment required for the approval of an Aboriginal Heritage Impact Permit (AHIP). Following the completion of detailed design, an addendum ACHAR may be developed to support an AHIP application.

### Archaeological context

No archaeological excavations are known to have taken place within or immediately adjacent to the study area, but eight sites have been previously recorded within the study area. A review of the Aboriginal Heritage Information Management System (AHIMS) indicates that the majority of these sites are low-density artefact scatters and/or isolated finds. A list of the Aboriginal sites in and immediately adjacent to the study area is presented in **Table 1**, and a map of the sites is shown in **Figure 2**.

These sites were recorded by Navin Officer Heritage Consultants (NOHC) in 1997 as part of fieldwork undertaken to evaluate areas around the Cumberland Plain for suitability of the site as a location for a second Sydney airport. The Aboriginal sites recorded by NOHC comprise surface artefact scatters and isolated artefacts, but currently little detail is known about the composition, size, or extent of these sites. Most of the AHIMS site cards indicate that detailed site information is contained within the final report, but the final report appears to lack this information<sup>[1]</sup>. The limited information available on the AHIMS site cards suggest that most of these sites were low density scatters <10 stone artefacts – mostly flakes though some cores were identified. The majority of the artefact assemblage is comprised of silcrete, with lesser numbers of quartz and mudstone.

**Table 1. Archaeological sites within the development area.**

AHIMS Site ID.	Site Name	Recorder	Site Feature
45-5-2620	B 18	NOHC	<i>Isolated artefact*</i>
45-5-2621	B 19	NOHC	<i>Artefact scatter*</i>
45-5-2622	B 20	NOHC	<i>Artefact scatter*</i>
45-5-2628	B 38	NOHC	<i>Isolated artefact*</i>
45-5-2639	B 21	NOHC	Artefact scatter
45-5-2640	B 22	NOHC	Artefact scatter
45-5-2641	B 23	NOHC	Artefact scatter
45-5-	B17	NOHC	Artefact scatter

## Proposed Assessment Methodology

Extent Heritage proposes to develop the ACHAR in accordance with the following guidelines:

- ♦ *Guide to Investigating, Assessing and Reporting on Aboriginal Cultural Heritage in NSW* (OEH 2011).
- ♦ *Code of Practice for Archaeological Investigation of Aboriginal Objects in New South Wales* (DECCW 2010).
- ♦ *Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010* (DECCW 2010).

Development of the ACHAR will involve a cultural values assessment, archaeological survey, and subsequent reporting. We currently anticipate that the ACHAR should be completed by February 2020.

The ACHAR will include the following tasks:

- ♦ Aboriginal community consultation: The initial stages of this process have been completed, and a list of Registered Aboriginal Parties (RAPs) has been compiled. The present letter provides the RAPs with project information and the proposed assessment methodology for review. The next stage of the consultation process will include the opportunity for comment on the proposed works and the assessment.
- ♦ Review of background information. Including the physical environment of the study area, historic land use, previously complete archaeological assessments within the study area and surrounding region, and ethnographic information regarding Aboriginal land use. This information will be utilised to develop a predictive model and assessment of the archaeological character of the study area.
- ♦ Archaeological survey of the survey area to test the predictive model, reassess the status of previously identified Aboriginal sites and determine if any previously unrecorded Aboriginal sites and area of potential archaeological deposit (PAD) are present.
- ♦ If additional Aboriginal sites are identified, submissions of site recordings for registration on Heritage NSW's AHIMS database.
- ♦ Significance and impact assessment. The Aboriginal heritage significance of the study area will be assessed, based on comments received from the RAPs through the consultation program and identified archaeological character of the study area. The potential impact of the proposed development on this significance will be assessed, and management recommendations will be developed accordingly.

## Archaeological Survey Methodology

Extent Heritage proposes to undertake an archaeological survey in accordance with the requirements of the *Code of Practice for Archaeological Investigation of Aboriginal Objects in NSW* (DECCW 2010). This survey will target both Aboriginal and historical heritage. It will aim to identify any visible Aboriginal objects (material traces and evidence of Aboriginal land), to inspect any important or significant locations identified during the cultural values assessment, attempt to relocate previously registered Aboriginal sites to record their current condition and integrity, and to assess the extent to which past land-use may have affected the sub-surface archaeological potential within areas of identified archaeological sensitivity.

This survey will likewise address specific areas of historical archaeological potential. These areas will be examined for any indication of sub-surface potential in the form of house platforms, benching, ruined remains, remnant fencing and/or garden/fruit trees. The investigation will also assess.

It is proposed that a desktop analysis of aerial photos and topographic maps is completed to inform the development of a survey strategy. Based on the results of the desktop study, the study area will be divided into survey units to facilitate the completion of a full coverage survey. Where a full coverage survey is not possible, due to access or safety constraints, a sample survey will be completed. Full coverage survey will involve the completion of parallel transects spaced 30 m apart, where possible. The survey team will carry a handheld Global Positioning System (GPS) to track coverage of the survey and cameras to document representative

landform features. Any Aboriginal objects or identified areas of Potential Archaeological Deposit (PAD) would be documented in accordance with the requirements of the Code of Practice.

## Timeframes

Extent Heritage proposes the following indicative timeframes for the project:

- ◆ Distribution of this document to Registered Aboriginal Parties: **6 November 2020.**
- ◆ End of review period for the proposed methodology: **9 December 2020.**
- ◆ Field survey to be undertaken: **mid December 2020.**
- ◆ Cultural values workshops and site visits: **mid November 2020.**
- ◆ Distribution of draft ACHAR to Registered Aboriginal Parties for review: **mid to late December 2020.**

## Information Sought

Extent Heritage would appreciate your feedback on the methodology proposed above for the investigation and assessment of the study area.

In returning your answers, please include the following where appropriate:

## Proposed Assessment Methodology

Extent Heritage proposes to develop the ACHAR in accordance with the following guidelines:

- ◆ Guide to Investigating, Assessing and Reporting on Aboriginal Cultural Heritage in NSW (OEH 2011).
- ◆ Code of Practice for Archaeological Investigation of Aboriginal Objects in New South Wales (DECCW 2010).
- ◆ Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010 (DECCW 2010).

Development of the ACHAR will involve a cultural values assessment, archaeological survey, and subsequent reporting. We currently anticipate that the ACHAR should be completed by February 2020.

The ACHAR will include the following tasks:

- ◆ Aboriginal community consultation: The initial stages of this process have been completed, and a list of Registered Aboriginal Parties (RAPs) has been compiled. The present letter provides the RAPs with project information and the proposed assessment methodology for review. The next stage of the consultation process will include the opportunity for comment on the proposed works and the assessment.
- ◆ Review of background information. Including the physical environment of the study area, historic land use, previously complete archaeological assessments within the study area and surrounding region, and ethnographic information regarding Aboriginal land use. This information will be utilised to develop a predictive model and assessment of the archaeological character of the study area.
- ◆ Archaeological survey of the survey area to test the predictive model, reassess the status of previously identified Aboriginal sites and determine if any previously unrecorded Aboriginal sites and area of potential archaeological deposit (PAD) are present.
- ◆ If additional Aboriginal sites are identified, submissions of site recordings for registration on Heritage NSW's AHIMS database.
- ◆ Significance and impact assessment. The Aboriginal heritage significance of the study area will be assessed, based on comments received from the RAPs through the consultation program and identified archaeological character of the study area. The potential impact of the proposed development on this significance will be assessed, and management recommendations will be developed accordingly.

## Archaeological Survey Methodology

Extent Heritage proposes to undertake an archaeological survey in accordance with the requirements of the *Code of Practice for Archaeological Investigation of Aboriginal Objects in NSW* (DECCW 2010). This survey will target both Aboriginal and historical heritage. It will aim to identify any visible Aboriginal objects (material traces and evidence of Aboriginal land), to inspect any important or significant locations identified during the cultural values assessment, attempt to relocate previously registered Aboriginal sites to record their current condition and integrity, and to assess the extent to which past land-use may have affected the sub-surface archaeological potential within areas of identified archaeological sensitivity.

This survey will likewise address specific areas of historical archaeological potential. These areas will be examined for any indication of sub-surface potential in the form of house platforms, benching, ruined remains, remnant fencing and/or garden/fruit trees. The investigation will also assess.

It is proposed that a desktop analysis of aerial photos and topographic maps is completed to inform the development of a survey strategy. Based on the results of the desktop study, the study area will be divided into survey units to facilitate the completion of a full coverage survey. Where a full coverage survey is not possible, due to access or safety constraints, a sample survey will be completed. Full coverage survey will involve the completion of parallel transects spaced 30 m apart, where possible. The survey team will carry a handheld Global Positioning System (GPS) to track to coverage of the survey and cameras to document representative landform features. Any Aboriginal objects or identified areas of Potential Archaeological Deposit (PAD) would be documented in accordance with the requirements of the Code of Practice.

#### Timeframes

Extent Heritage proposes the following indicative timeframes for the project:

- ◆ Distribution of this document to Registered Aboriginal Parties: **6 November 2020.**
- ◆ End of review period for the proposed methodology: **9 December 2020.**
- ◆ Field survey to be undertaken: **mid December 2020.**
- ◆ Cultural values workshops and site visits: **mid November 2020.**
- ◆ Distribution of draft ACHAR to Registered Aboriginal Parties for review: **mid to late December 2020.**

#### Information Sought

Extent Heritage would appreciate your feedback on the methodology proposed above for the investigation and assessment of the study area.

In returning your answers, please include the following where appropriate:

## Background

### *Project Information*

Western Parkland City Authority propose to undertake development on approximately 160ha of land within the Aerotropolis Core Precinct (**Figure 1**) (hereafter, referred to as the study area). The proposed development would involve construction works associated with mixed use development, including bulk earthworks, ~~rezoning~~, construction of infrastructure (roads, footpaths, stormwater, etc.), buildings, environmental controls and landscaping.

As part of the development process, Western Parkland City Authority has engaged Extent Heritage to develop an ACHAR to ensure the Aboriginal objects and values within the study area are identified and appropriately managed. This assessment would inform Western Parkland City Authority of any heritage constraints, and the potential for harm to occur to Aboriginal objects. The ACHAR will provide a management strategy for avoiding, minimising and/or mitigating such impacts to any identified Aboriginal objects. The findings and recommendations of the ACHAR will be used to inform the development of a Master Plan for the site. As the ACHAR is being produced to inform a Master Plan, the ACHAR will not include a detailed impact assessment required for the approval of an Aboriginal Heritage Impact Permit (AHIP). Following the completion of detailed design, an addendum ACHAR may be developed to support an AHIP application.

### *Archaeological context*

No archaeological excavations are known to have taken place within or immediately adjacent to the study area, but eight sites have been previously recorded within the study area. A review of the Aboriginal Heritage Information Management System (AHIMS) indicates that the majority of these sites are low-density artefact scatters and/or isolated finds. A list of the Aboriginal sites in and immediately adjacent to the study area is presented in **Table 1**, and a map of the sites is shown in **Figure 2**.

These sites were recorded by Navin Officer Heritage Consultants (NOHC) in 1997 as part of fieldwork undertaken to evaluate areas around the Cumberland Plain for suitability of the site as a location for a second Sydney airport. The Aboriginal sites recorded by NOHC comprise surface artefact scatters and isolated artefacts, but currently little detail is known about the composition, size, or extent of these sites. Most of the AHIMS site cards indicate that detailed site information is contained within the final report, but the final report appears to lack this information<sup>[1]</sup>. The limited information available on the AHIMS site cards suggest that most of these sites were low density scatters <10 stone artefacts – mostly flakes though some cores were identified. The majority of the artefact assemblage is comprised of silcrete, with lesser numbers of quartz and mudstone.

**Table 1. Archaeological sites within the development area.**

## Proposed Assessment Methodology

Extent Heritage proposes to develop the ACHAR in accordance with the following guidelines:

- ♦ *Guide to Investigating, Assessing and Reporting on Aboriginal Cultural Heritage in NSW* (OEH 2011).
- ♦ *Code of Practice for Archaeological Investigation of Aboriginal Objects in New South Wales* (DECCW 2010).
- ♦ *Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010* (DECCW 2010).

Development of the ACHAR will involve a cultural values assessment, archaeological survey, and subsequent reporting. We currently anticipate that the ACHAR should be completed by February 2020.

The ACHAR will include the following tasks:

- ♦ Aboriginal community consultation: The initial stages of this process have been completed, and a list of Registered Aboriginal Parties (RAPs) has been compiled. The present letter provides the RAPs with project information and the proposed assessment methodology for review. The next stage of the consultation process will include the opportunity for comment on the proposed works and the assessment.
- ♦ Review of background information. Including the physical environment of the study area, historic land use, previously complete archaeological assessments within the study area and surrounding region, and ethnographic information regarding Aboriginal land use. This information will be utilised to develop a predictive model and assessment of the archaeological character of the study area.
- ♦ Archaeological survey of the survey area to test the predictive model, reassess the status of previously identified Aboriginal sites and determine if any previously unrecorded Aboriginal sites and area of potential archaeological deposit (PAD) are present.
- ♦ If additional Aboriginal sites are identified, submissions of site recordings for registration on Heritage NSW's AHIMS database.
- ♦ Significance and impact assessment. The Aboriginal heritage significance of the study area will be assessed, based on comments received from the RAPs through the consultation program and identified archaeological character of the study area. The potential impact of the proposed development on this significance will be assessed, and management recommendations will be developed accordingly.

## Archaeological Survey Methodology

Extent Heritage proposes to undertake an archaeological survey in accordance with the requirements of the *Code of Practice for Archaeological Investigation of Aboriginal Objects in NSW* (DECCW 2010). This survey will target both Aboriginal and historical heritage. It will aim to identify any visible Aboriginal objects (material traces and evidence of Aboriginal land), to inspect any important or significant locations identified during the cultural values assessment, attempt to relocate previously registered Aboriginal sites to record their current condition and integrity, and to assess the extent to which past land-use may have affected the sub-surface archaeological potential within areas of identified archaeological sensitivity.

This survey will likewise address specific areas of historical archaeological potential. These areas will be examined for any indication of sub-surface potential in the form of house platforms, benching, ruined remains, remnant fencing and/or garden/fruit trees. The investigation will also assess.

It is proposed that a desktop analysis of aerial photos and topographic maps is completed to inform the development of a survey strategy. Based on the results of the desktop study, the study area will be divided into survey units to facilitate the completion of a full coverage survey. Where a full coverage survey is not possible, due to access or safety constraints, a sample survey will be completed. Full coverage survey will involve the completion of parallel transects spaced 30 m apart, where possible. The survey team will carry a

handheld Global Positioning System (GPS) to track to coverage of the survey and cameras to document representative landform features. Any Aboriginal objects or identified areas of Potential Archaeological Deposit (PAD) would be documented in accordance with the requirements of the Code of Practice.

## Timeframes

Extent Heritage proposes the following indicative timeframes for the project:

- ♦ Distribution of this document to Registered Aboriginal Parties: **6 November 2020.**
- ♦ End of review period for the proposed methodology: **9 December 2020.**
- ♦ Field survey to be undertaken: **mid December 2020.**
- ♦ Cultural values workshops and site visits: **mid November 2020.**
- ♦ Distribution of draft ACHAR to Registered Aboriginal Parties for review: **mid to late December 2020.**

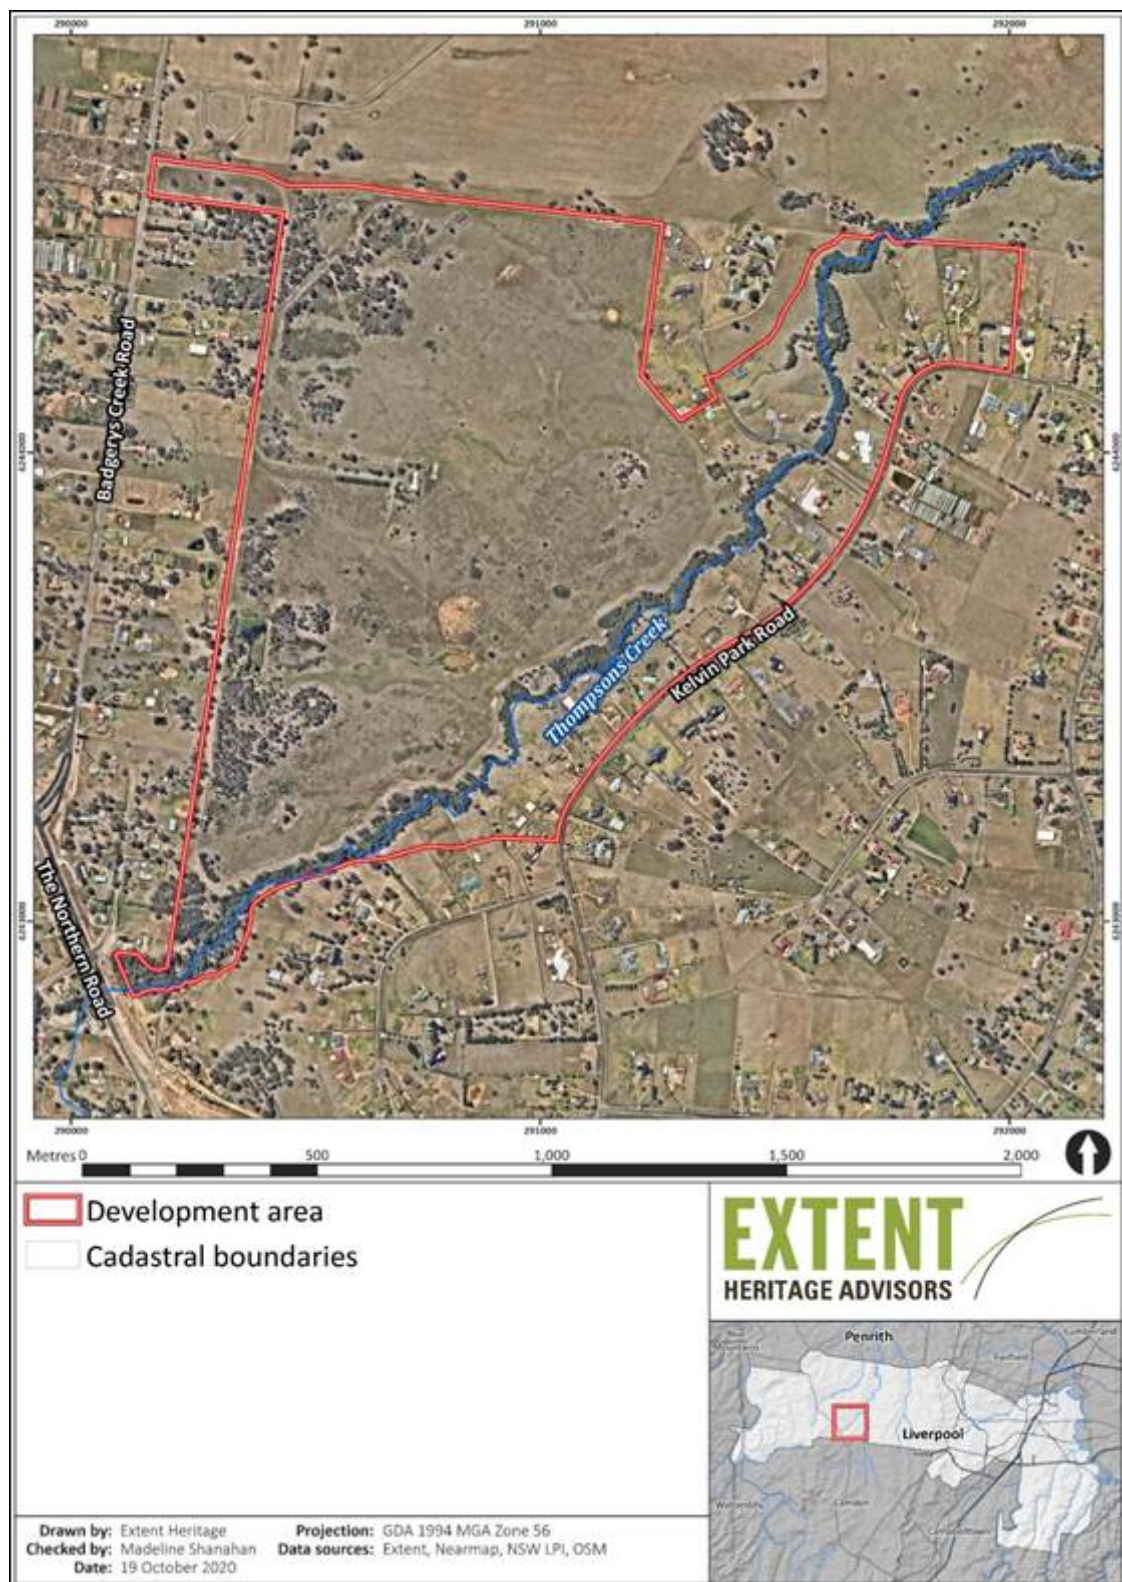

## Information Sought

Extent Heritage would appreciate your feedback on the methodology proposed above for the investigation and assessment of the study area.

In returning your answers, please include the following where appropriate:

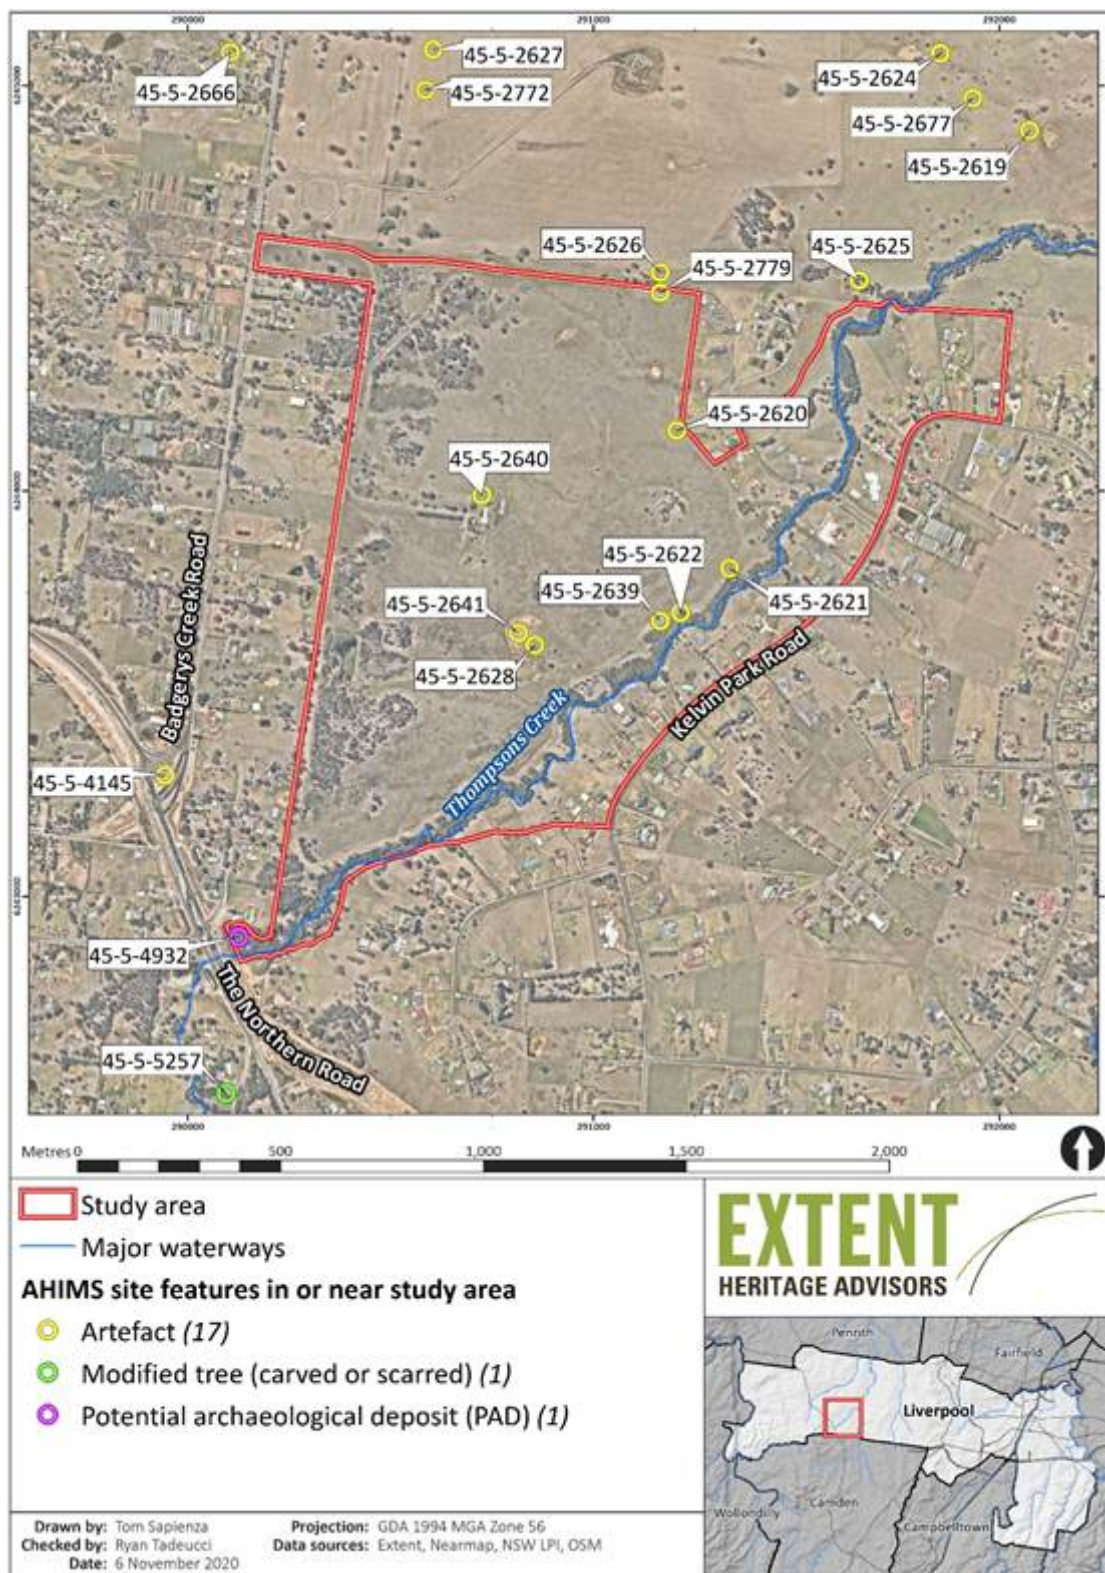

- ♦ Any protocols that you would like adopted during the project.
- ♦ Identification of any Aboriginal objects of cultural significance and/or importance that you are aware of within the activity area, and how you wish them to be dealt with during the project.
- ♦ Identification of any places of cultural significance and/or importance that you are aware of within the activity area, and how you wish them to be dealt with during the project.
- ♦ Guidance on the protocols, sensitivity, use and/or distribution of any cultural information that you provide to Extent Heritage.
- ♦ Whether you require any further information prior to Extent Heritage proceeding with the project.

Extent Heritage would like to ask you to review the above information and provide any comments by **9 December 2020.**

## Western Sydney Aerotropolis Core Precinct, NSW – Proposed Aboriginal Cultural Heritage Assessment Report Methodology

Dear Philip

Thank you for registering an interest in the Western Sydney Aerotropolis Project, which commenced earlier this year. Your interest in the project has been formally registered in accordance with the *Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010*.

The next stage of Aboriginal cultural heritage work is due to commence and we are contacting you regarding preparation of an Aboriginal Cultural Heritage Assessment Report (ACHAR) for the proposed Aerotropolis Core Precinct, situated in the Liverpool and Penrith Local Government Areas.

This letter provides information about the project and the proposed methodology for the Aboriginal Cultural Heritage Assessment Report, which includes an archaeological field survey. I would like to invite you to review the methodology and provide any comments you may have by **9 December 2020**.

If you have any questions, please do not hesitate to contact me on (02) 9555 4000, or by email at [rtaddeucci@extent.com.au](mailto:rtaddeucci@extent.com.au).

Kind Regards

**Ryan Taddeucci**  
Senior Heritage Advisor | Extent Heritage

## Proponent Contact Details

This letter has been prepared by Extent Heritage Pty Ltd (Extent Heritage) on behalf of Western Parkland City Authority Trust (the proponent). The proponent's contact details are:

**Yolanda Gil** (Director, Planning)  
Western Parkland City Authority  
Level 2, 10 Valentine Avenue  
Parramatta NSW 2150  
[yolanda.gil@wcaa.sydney](mailto:yolanda.gil@wcaa.sydney)

## Background

### Project Information

Western Parkland City Authority propose to undertake development on approximately 160ha of land within the Aerotropolis Core Precinct (**Figure 1**) (hereafter, referred to as the study area). The proposed development would involve construction works associated with mixed use development, including bulk earthworks, ~~rezoning~~, construction of infrastructure (roads, footpaths, stormwater, etc.), buildings, environmental controls and landscaping.

As part of the development process, Western Parkland City Authority has engaged Extent Heritage to develop an ACHAR to ensure the Aboriginal objects and values within the study area are identified and appropriately managed. This assessment would inform Western Parkland City Authority of any heritage constraints, and the potential for harm to occur to Aboriginal objects. The ACHAR will provide a management strategy for avoiding, minimising and/or mitigating such impacts to any identified Aboriginal objects. The findings and recommendations of the ACHAR will be used to inform the development of a Master Plan for the site. As the ACHAR is being produced to inform a Master Plan, the ACHAR will not include a detailed impact assessment required for the approval of an Aboriginal Heritage Impact Permit (AHIP). Following the completion of detailed design, an addendum ACHAR may be developed to support an AHIP application.

### Archaeological context

No archaeological excavations are known to have taken place within or immediately adjacent to the study area, but eight sites have been previously recorded within the study area. A review of the Aboriginal Heritage Information Management System (AHIMS) indicates that the majority of these sites are low-density artefact scatters and/or isolated finds. A list of the Aboriginal sites in and immediately adjacent to the study area is presented in **Table 1**, and a map of the sites is shown in **Figure 2**.

These sites were recorded by Navin Officer Heritage Consultants (NOHC) in 1997 as part of fieldwork undertaken to evaluate areas around the Cumberland Plain for suitability of the site as a location for a second Sydney airport. The Aboriginal sites recorded by NOHC comprise surface artefact scatters and isolated artefacts, but currently little detail is known about the composition, size, or extent of these sites. Most of the AHIMS site cards indicate that detailed site information is contained within the final report, but the final report appears to lack this information<sup>[1]</sup>. The limited information available on the AHIMS site cards suggest that most of these sites were low density scatters <10 stone artefacts – mostly flakes though some cores were identified. The majority of the artefact assemblage is comprised of silcrete, with lesser numbers of quartz and mudstone.

## Proposed Assessment Methodology

Extent Heritage proposes to develop the ACHAR in accordance with the following guidelines:

- ♦ *Guide to Investigating, Assessing and Reporting on Aboriginal Cultural Heritage in NSW* (OEH 2011).
- ♦ *Code of Practice for Archaeological Investigation of Aboriginal Objects in New South Wales* (DECCW 2010).
- ♦ *Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010* (DECCW 2010).

Development of the ACHAR will involve a cultural values assessment, archaeological survey, and subsequent reporting. We currently anticipate that the ACHAR should be completed by February 2020.

The ACHAR will include the following tasks:

- ♦ Aboriginal community consultation: The initial stages of this process have been completed, and a list of Registered Aboriginal Parties (RAPs) has been compiled. The present letter provides the RAPs with project information and the proposed assessment methodology for review. The next stage of the consultation process will include the opportunity for comment on the proposed works and the assessment.
- ♦ Review of background information. Including the physical environment of the study area, historic land use, previously complete archaeological assessments within the study area and surrounding region, and ethnographic information regarding Aboriginal land use. This information will be utilised to develop a predictive model and assessment of the archaeological character of the study area.
- ♦ Archaeological survey of the survey area to test the predictive model, reassess the status of previously identified Aboriginal sites and determine if any previously unrecorded Aboriginal sites and area of potential archaeological deposit (PAD) are present.
- ♦ If additional Aboriginal sites are identified, submissions of site recordings for registration on Heritage NSW's AHIMS database.
- ♦ Significance and impact assessment. The Aboriginal heritage significance of the study area will be assessed, based on comments received from the RAPs through the consultation program and identified archaeological character of the study area. The potential impact of the proposed development on this significance will be assessed, and management recommendations will be developed accordingly.

## Archaeological Survey Methodology

Extent Heritage proposes to undertake an archaeological survey in accordance with the requirements of the *Code of Practice for Archaeological Investigation of Aboriginal Objects in NSW* (DECCW 2010). This survey will target both Aboriginal and historical heritage. It will aim to identify any visible Aboriginal objects (material traces and evidence of Aboriginal land), to inspect any important or significant locations identified during the cultural values assessment, attempt to relocate previously registered Aboriginal sites to record their current condition and integrity, and to assess the extent to which past land-use may have affected the sub-surface archaeological potential within areas of identified archaeological sensitivity.

This survey will likewise address specific areas of historical archaeological potential. These areas will be examined for any indication of sub-surface potential in the form of house platforms, benching, ruined remains, remnant fencing and/or garden/fruit trees. The investigation will also assess.

It is proposed that a desktop analysis of aerial photos and topographic maps is completed to inform the development of a survey strategy. Based on the results of the desktop study, the study area will be divided into survey units to facilitate the completion of a full coverage survey. Where a full coverage survey is not possible, due to access or safety constraints, a sample survey will be completed. Full coverage survey will involve the completion of parallel transects spaced 30 m apart, where possible. The survey team will carry a handheld Global Positioning System (GPS) to track to coverage of the survey and cameras to document representative landform features. Any Aboriginal objects or identified areas of Potential Archaeological Deposit (PAD) would be documented in accordance with the requirements of the Code of Practice.

## Timeframes

Extent Heritage proposes the following indicative timeframes for the project:

- ♦ Distribution of this document to Registered Aboriginal Parties: **6 November 2020.**
- ♦ End of review period for the proposed methodology: **9 December 2020.**
- ♦ Field survey to be undertaken: **mid December 2020.**
- ♦ Cultural values workshops and site visits: **mid November 2020.**
- ♦ Distribution of draft ACHAR to Registered Aboriginal Parties for review: **mid to late December 2020.**

## Information Sought

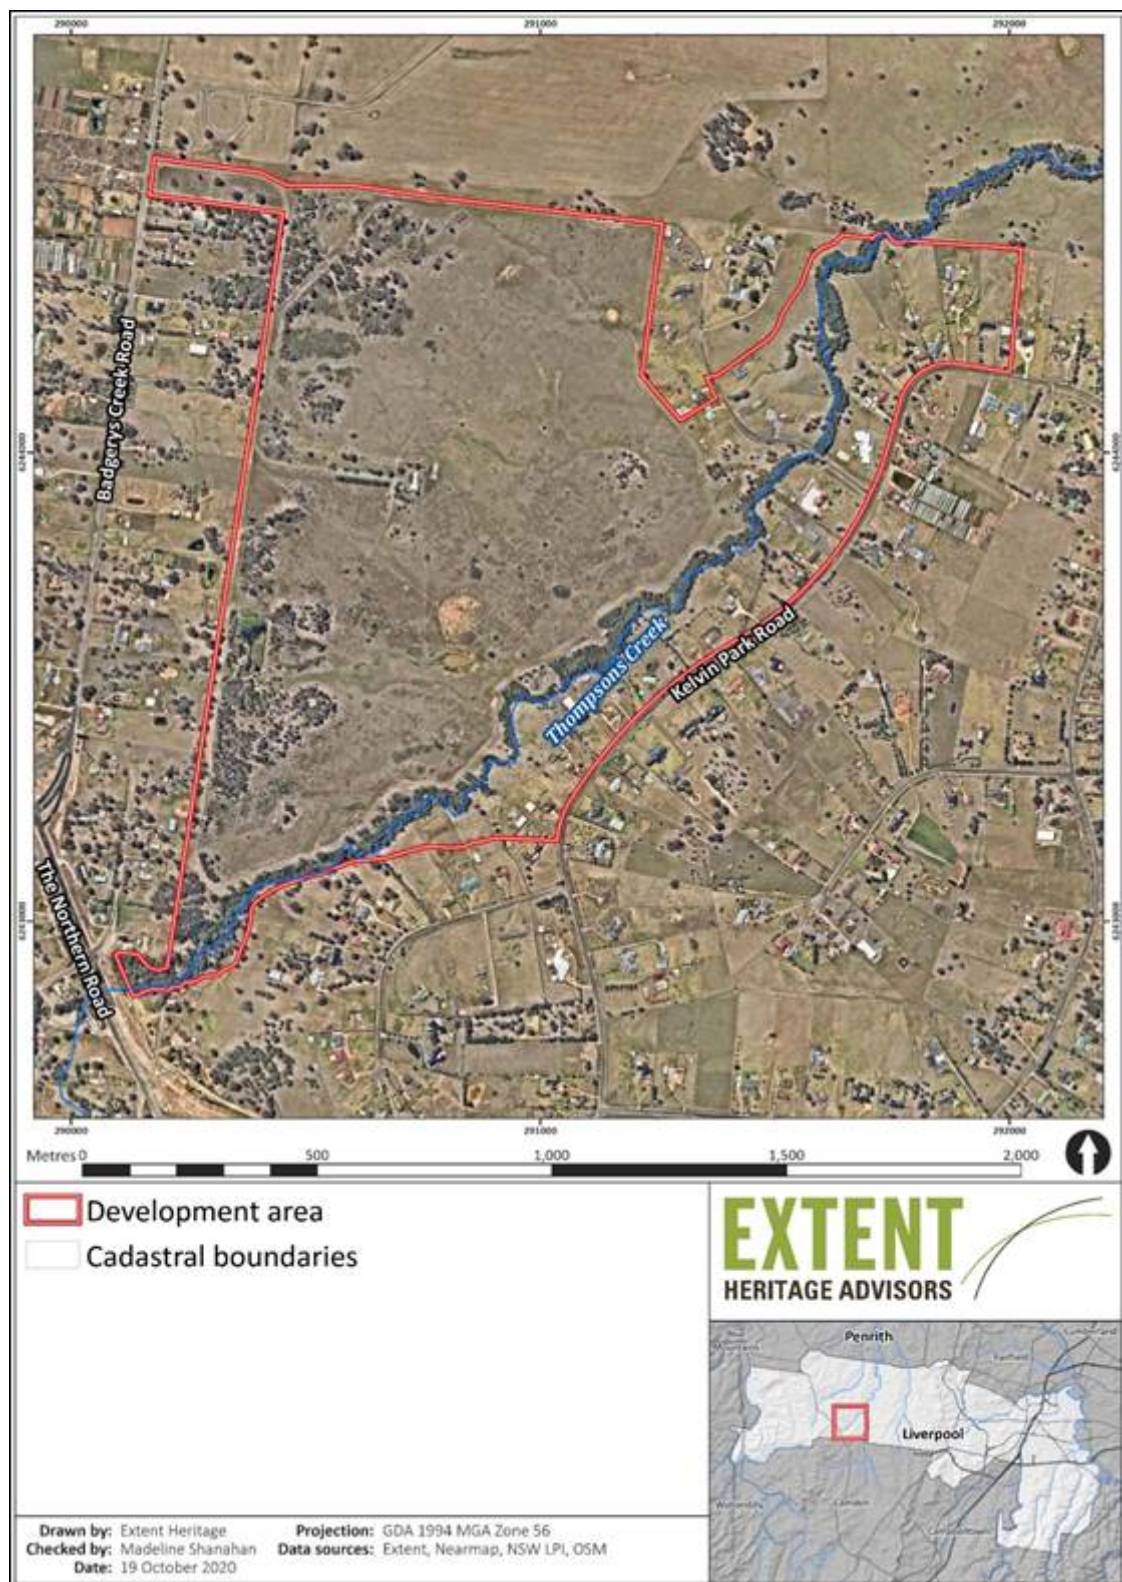

Extent Heritage would appreciate your feedback on the methodology proposed above for the investigation and assessment of the study area.

In returning your answers, please include the following where appropriate:

- ◆ Any protocols that you would like adopted during the project.
- ◆ Identification of any Aboriginal objects of cultural significance and/or importance that you are aware of within the activity area, and how you wish them to be dealt with during the project.
- ◆ Identification of any places of cultural significance and/or importance that you are aware of within the activity area, and how you wish them to be dealt with during the project.
- ◆ Guidance on the protocols, sensitivity, use and/or distribution of any cultural information that you provide to Extent Heritage.
- ◆ Whether you require any further information prior to Extent Heritage proceeding with the project.

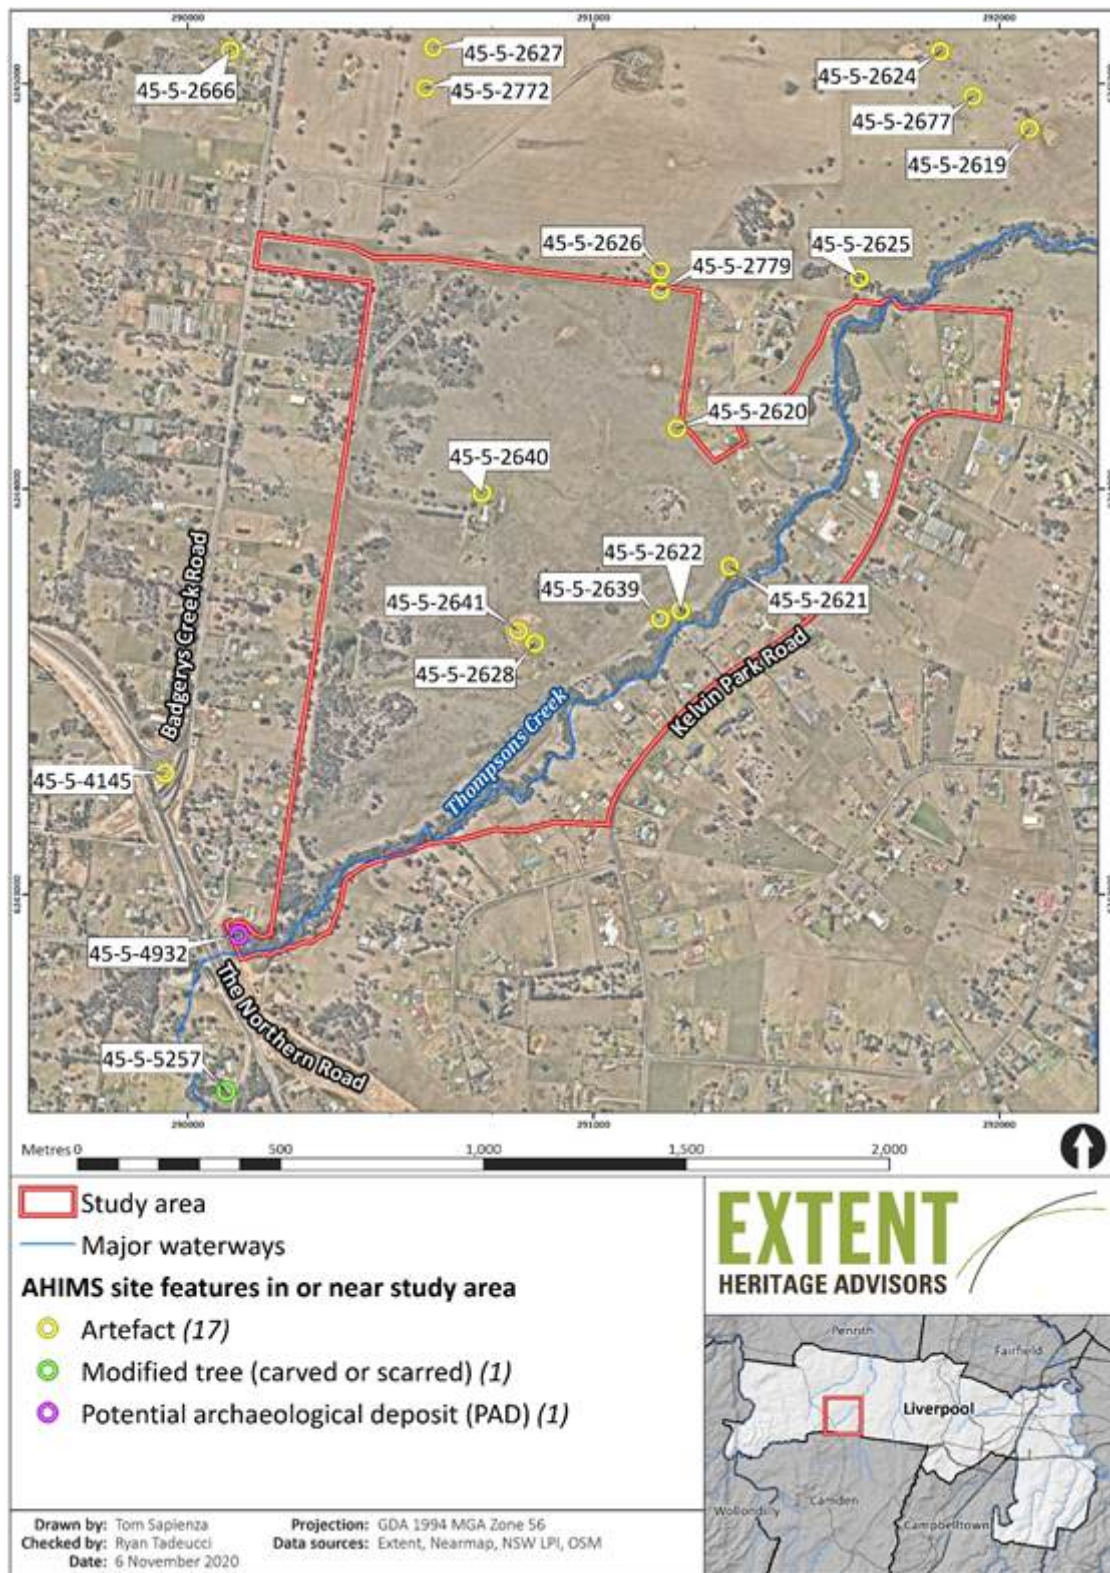

Extent Heritage would like to ask you to review the above information and provide any comments by **9 December 2020**.

## Proposed Assessment Methodology

Extent Heritage proposes to develop the ACHAR in accordance with the following guidelines:

- ♦ *Guide to Investigating, Assessing and Reporting on Aboriginal Cultural Heritage in NSW* (OEH 2011).
- ♦ *Code of Practice for Archaeological Investigation of Aboriginal Objects in New South Wales* (DECCW 2010).
- ♦ *Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010* (DECCW 2010).

Development of the ACHAR will involve a cultural values assessment, archaeological survey, and subsequent reporting. We currently anticipate that the ACHAR should be completed by February 2020.

The ACHAR will include the following tasks:

- ♦ Aboriginal community consultation: The initial stages of this process have been completed, and a list of Registered Aboriginal Parties (RAPs) has been compiled. The present letter provides the RAPs with project information and the proposed assessment methodology for review. The next stage of the consultation process will include the opportunity for comment on the proposed works and the assessment.
- ♦ Review of background information. Including the physical environment of the study area, historic land use, previously complete archaeological assessments within the study area and surrounding region, and ethnographic information regarding Aboriginal land use. This information will be utilised to develop a predictive model and assessment of the archaeological character of the study area.
- ♦ Archaeological survey of the survey area to test the predictive model, reassess the status of previously identified Aboriginal sites and determine if any previously unrecorded Aboriginal sites and area of potential archaeological deposit (PAD) are present.
- ♦ If additional Aboriginal sites are identified, submissions of site recordings for registration on Heritage NSW's AHIMS database.
- ♦ Significance and impact assessment. The Aboriginal heritage significance of the study area will be assessed, based on comments received from the RAPs through the consultation program and identified archaeological character of the study area. The potential impact of the proposed development on this significance will be assessed, and management recommendations will be developed accordingly.

## Archaeological Survey Methodology

Extent Heritage proposes to undertake an archaeological survey in accordance with the requirements of the *Code of Practice for Archaeological Investigation of Aboriginal Objects in NSW* (DECCW 2010). This survey will target both Aboriginal and historical heritage. It will aim to identify any visible Aboriginal objects (material traces and evidence of Aboriginal land), to inspect any important or significant locations identified during the cultural values assessment, attempt to relocate previously registered Aboriginal sites to record their current condition and integrity, and to assess the extent to which past land-use may have affected the sub-surface archaeological potential within areas of identified archaeological sensitivity.

This survey will likewise address specific areas of historical archaeological potential. These areas will be examined for any indication of sub-surface potential in the form of house platforms, benching, ruined remains, remnant fencing and/or garden/fruit trees. The investigation will also assess.

It is proposed that a desktop analysis of aerial photos and topographic maps is completed to inform the development of a survey strategy. Based on the results of the desktop study, the study area will be divided into survey units to facilitate the completion of a full coverage survey. Where a full coverage survey is not possible, due to access or safety constraints, a sample survey will be completed. Full coverage survey will involve the completion of parallel transects spaced 30 m apart, where possible. The survey team will carry a handheld Global Positioning System (GPS) to track to coverage of the survey and cameras to document representative landform features. Any Aboriginal objects or identified areas of Potential Archaeological Deposit (PAD) would be documented in accordance with the requirements of the Code of Practice.

## Timeframes

Extent Heritage proposes the following indicative timeframes for the project:

- ♦ Distribution of this document to Registered Aboriginal Parties: **6 November 2020.**
- ♦ End of review period for the proposed methodology: **9 December 2020.**
- ♦ Field survey to be undertaken: **mid December 2020.**
- ♦ Cultural values workshops and site visits: **mid November 2020.**
- ♦ Distribution of draft ACHAR to Registered Aboriginal Parties for review: **mid to late December 2020.**

The next stage of Aboriginal cultural heritage work is due to commence and we are contacting you regarding preparation of an Aboriginal Cultural Heritage Assessment Report (ACHAR) for the proposed Aerotropolis Core Precinct, situated in the Liverpool and Penrith Local Government Areas.

This letter provides information about the project and the proposed methodology for the Aboriginal Cultural Heritage Assessment Report, which includes an archaeological field survey. I would like to invite you to review the methodology and provide any comments you may have by **9 December 2020**.

If you have any questions, please do not hesitate to contact me on (02) 9555 4000, or by email at [rtaddeucci@extent.com.au](mailto:rtaddeucci@extent.com.au).

Kind Regards

Ryan Taddeucci

Senior Heritage Advisor | Extent Heritage

Proponent Contact Details

This letter has been prepared by Extent Heritage Pty Ltd (Extent Heritage) on behalf of Western Parkland City Authority Trust (the proponent). The proponent's contact details are:

**Yolanda Gil** (Director, Planning)  
Western Parkland City Authority  
Level 2, 10 Valentine Avenue  
Parramatta NSW 2150  
[yolanda.gil@wcaa.sydney](mailto:yolanda.gil@wcaa.sydney)

## Background

### Project Information

Western Parkland City Authority propose to undertake development on approximately 160ha of land within the Aerotropolis Core Precinct (Figure 1) (hereafter, referred to as the study area). The proposed development would involve construction works associated with mixed use development, including bulk earthworks, ~~rezoning~~, construction of infrastructure (roads, footpaths, stormwater, etc.), buildings, environmental controls and landscaping.

As part of the development process, Western Parkland City Authority has engaged Extent Heritage to develop an ACHAR to ensure the Aboriginal objects and values within the study area are identified and appropriately managed. This assessment would inform Western Parkland City Authority of any heritage constraints, and the potential for harm to occur to Aboriginal objects. The ACHAR will provide a management strategy for avoiding, minimising and/or mitigating such impacts to any identified Aboriginal objects. The findings and recommendations of the ACHAR will be used to inform the development of a Master Plan for the site. As the ACHAR is being produced to inform a Master Plan, the ACHAR will not include a detailed impact assessment required for the approval of an Aboriginal Heritage Impact Permit (AHIP). Following the completion of detailed design, an addendum ACHAR may be developed to support an AHIP application.

### Archaeological context

No archaeological excavations are known to have taken place within or immediately adjacent to the study area, but eight sites have been previously recorded within the study area. A review of the Aboriginal Heritage Information Management System (AHIMS) indicates that the majority of these sites are low-density artefact scatters and/or isolated finds. A list of the Aboriginal sites in and immediately adjacent to the study area is presented in Table 1, and a map of the sites is shown in Figure 2.

These sites were recorded by Navin Officer Heritage Consultants (NOHC) in 1997 as part of fieldwork undertaken to evaluate areas around the Cumberland Plain for suitability of the site as a location for a second Sydney airport. The Aboriginal sites recorded by NOHC comprise surface artefact scatters and isolated artefacts, but currently little detail is known about the composition, size, or extent of these sites. Most of the AHIMS site cards indicate that detailed site information is contained within the final report, but the final report appears to lack this information<sup>[1]</sup>. The limited information available on the AHIMS site cards suggest that most of these sites were low density scatters <10 stone artefacts – mostly flakes though some cores were identified. The majority of the artefact assemblage is comprised of silcrete, with lesser numbers of quartz and mudstone.

Table 1. Archaeological sites within the development area.

AHIMS Site ID.	Site Name	Recorder	Site Feature
45-5-2620	B 18	NOHC	Isolated artefact*
45-5-2621	B 19	NOHC	Artefact scatter*
45-5-2622	B 20	NOHC	Artefact scatter*
45-5-2628	B 38	NOHC	Isolated artefact*
45-5-2639	B 21	NOHC	Artefact scatter
45-5-2640	B 22	NOHC	Artefact scatter
45-5-2641	B 23	NOHC	Artefact scatter
45-5-2779	B17	NOHC	Artefact scatter

## Proposed Assessment Methodology

Extent Heritage proposes to develop the ACHAR in accordance with the following guidelines:

- ◆ Guide to Investigating, Assessing and Reporting on Aboriginal Cultural Heritage in NSW (OEH 2011).
- ◆ Code of Practice for Archaeological Investigation of Aboriginal Objects in New South Wales (DECCW 2010).
- ◆ Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010 (DECCW 2010).

Development of the ACHAR will involve a cultural values assessment, archaeological survey, and subsequent reporting. We currently anticipate that the ACHAR should be completed by February 2020.

The ACHAR will include the following tasks:

- ◆ Aboriginal community consultation: The initial stages of this process have been completed, and a list of Registered Aboriginal Parties (RAPs) has been compiled. The present letter provides the RAPs with project information and the proposed assessment methodology for review. The next stage of the consultation process will include the opportunity for comment on the proposed works and the assessment.
- ◆ Review of background information. Including the physical environment of the study area, historic land use, previously complete archaeological assessments within the study area and surrounding region, and ethnographic information regarding Aboriginal land use. This information will be utilised to develop a predictive model and assessment of the archaeological character of the study area.
- ◆ Archaeological survey of the survey area to test the predictive model, reassess the status of previously identified Aboriginal sites and determine if any previously unrecorded Aboriginal sites and area of potential archaeological deposit (PAD) are present.
- ◆ If additional Aboriginal sites are identified, submissions of site recordings for registration on Heritage NSW's AHIMS database.
- ◆ Significance and impact assessment. The Aboriginal heritage significance of the study area will be assessed, based on comments received from the RAPs through the consultation program and identified archaeological character of the study area. The potential impact of the proposed development on this significance will be assessed, and management recommendations will be developed accordingly.

## Archaeological Survey Methodology

Extent Heritage proposes to undertake an archaeological survey in accordance with the requirements of the *Code of Practice for Archaeological Investigation of Aboriginal Objects in NSW* (DECCW 2010). This survey will target both Aboriginal and historical heritage. It will aim to identify any visible Aboriginal objects (material traces and evidence of Aboriginal land), to inspect any important or significant locations identified during the cultural values assessment, attempt to relocate previously registered Aboriginal sites to record their current condition and integrity, and to assess the extent to which past land-use may have affected the sub-surface archaeological potential within areas of identified archaeological sensitivity.

This survey will likewise address specific areas of historical archaeological potential. These areas will be examined for any indication of sub-surface potential in the form of house platforms, benching, ruined remains, remnant fencing and/or garden/fruit trees. The investigation will also assess.

It is proposed that a desktop analysis of aerial photos and topographic maps is completed to inform the development of a survey strategy. Based on the results of the desktop study, the study area will be divided into survey units to facilitate the completion of a full coverage survey. Where a full coverage survey is not possible, due to access or safety constraints, a sample survey will be completed. Full coverage survey will involve the completion of parallel transects spaced 30 m apart, where possible. The survey team will carry a handheld Global Positioning System (GPS) to track coverage of the survey and cameras to document representative landform features. Any Aboriginal objects or identified areas of Potential Archaeological Deposit (PAD) would be documented in accordance with the requirements of the Code of Practice.

## Timeframes

Extent Heritage proposes the following indicative timeframes for the project:

- ◆ Distribution of this document to Registered Aboriginal Parties: **6 November 2020.**
- ◆ End of review period for the proposed methodology: **9 December 2020.**
- ◆ Field survey to be undertaken: **mid December 2020.**
- ◆ Cultural values workshops and site visits: **mid November 2020.**
- ◆ Distribution of draft ACHAR to Registered Aboriginal Parties for review: **mid to late December 2020.**

## Information Sought

Extent Heritage would appreciate your feedback on the methodology proposed above for the investigation and assessment of the study area.

In returning your answers, please include the following where appropriate:

- ◆ Any protocols that you would like adopted during the project.
- ◆ Identification of any Aboriginal objects of cultural significance and/or importance that you are aware of within the activity area, and how you wish them to be dealt with during the project.
- ◆ Identification of any places of cultural significance and/or importance that you are aware of within the activity area, and how you wish them to be dealt with during the project.
- ◆ Guidance on the protocols, sensitivity, use and/or distribution of any cultural information that you provide to Extent Heritage.
- ◆ Whether you require any further information prior to Extent Heritage proceeding with the project.

Extent Heritage would like to ask you to review the above information and provide any comments by **9 December 2020.**

### Proposed Assessment Methodology

Extent Heritage proposes to develop the ACHAR in accordance with the following guidelines:

- ♦ Guide to Investigating, Assessing and Reporting on Aboriginal Cultural Heritage in NSW (OEH 2011).
- ♦ Code of Practice for Archaeological Investigation of Aboriginal Objects in New South Wales (DECCW 2010).

- ◆ Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010 (DECCW 2010).

Development of the ACHAR will involve a cultural values assessment, archaeological survey, and subsequent reporting. We currently anticipate that the ACHAR should be completed by February 2020.

The ACHAR will include the following tasks:

- ◆ Aboriginal community consultation: The initial stages of this process have been completed, and a list of Registered Aboriginal Parties (RAPs) has been compiled. The present letter provides the RAPs with project information and the proposed assessment methodology for review. The next stage of the consultation process will include the opportunity for comment on the proposed works and the assessment.
- ◆ Review of background information. Including the physical environment of the study area, historic land use, previously complete archaeological assessments within the study area and surrounding region, and ethnographic information regarding Aboriginal land use. This information will be utilised to develop a predictive model and assessment of the archaeological character of the study area.
- ◆ Archaeological survey of the survey area to test the predictive model, reassess the status of previously identified Aboriginal sites and determine if any previously unrecorded Aboriginal sites and area of potential archaeological deposit (PAD) are present.
- ◆ If additional Aboriginal sites are identified, submissions of site recordings for registration on Heritage NSW's AHIMS database.
- ◆ Significance and impact assessment. The Aboriginal heritage significance of the study area will be assessed, based on comments received from the RAPs through the consultation program and identified archaeological character of the study area. The potential impact of the proposed development on this significance will be assessed, and management recommendations will be developed accordingly.

#### Archaeological Survey Methodology

Extent Heritage proposes to undertake an archaeological survey in accordance with the requirements of the *Code of Practice for Archaeological Investigation of Aboriginal Objects in NSW* (DECCW 2010). This survey will target both Aboriginal and historical heritage. It will aim to identify any visible Aboriginal objects (material traces and evidence of Aboriginal land), to inspect any important or significant locations identified during the cultural values assessment, attempt to relocate previously registered Aboriginal sites to record their current condition and integrity, and to assess the extent to which past land-use may have affected the sub-surface archaeological potential within areas of identified archaeological sensitivity.

This survey will likewise address specific areas of historical archaeological potential. These areas will be examined for any indication of sub-surface potential in the form of house platforms, benching, ruined remains, remnant fencing and/or garden/fruit trees. The investigation will also assess.

It is proposed that a desktop analysis of aerial photos and topographic maps is completed to inform the development of a survey strategy. Based on the results of the desktop study, the study area will be divided into survey units to facilitate the completion of a full coverage survey. Where a full coverage survey is not possible, due to access or safety constraints, a sample survey will be completed. Full coverage survey will involve the completion of parallel transects spaced 30 m apart, where possible. The survey team will carry a handheld Global Positioning System (GPS) to track coverage of the survey and cameras to document representative landform features. Any Aboriginal objects or identified areas of Potential Archaeological Deposit (PAD) would be documented in accordance with the requirements of the Code of Practice.

#### Timeframes

Extent Heritage proposes the following indicative timeframes for the project:

- ◆ Distribution of this document to Registered Aboriginal Parties: **6 November 2020.**
- ◆ End of review period for the proposed methodology: **9 December 2020.**
- ◆ Field survey to be undertaken: **mid December 2020.**
- ◆ Cultural values workshops and site visits: **mid November 2020.**

- ◆ Distribution of draft ACHAR to Registered Aboriginal Parties for review: **mid to late December 2020.**

#### Information Sought

Extent Heritage would appreciate your feedback on the methodology proposed above for the investigation and assessment of the study area.

## Background

### Project Information

Western Parkland City Authority propose to undertake development on approximately 160ha of land within the Aerotropolis Core Precinct (**Figure 1**) (hereafter, referred to as the study area). The proposed development would involve construction works associated with mixed use development, including bulk earthworks, ~~rezoning~~, construction of infrastructure (roads, footpaths, stormwater, etc.), buildings, environmental controls and landscaping.

As part of the development process, Western Parkland City Authority has engaged Extent Heritage to develop an ACHAR to ensure the Aboriginal objects and values within the study area are identified and appropriately managed. This assessment would inform Western Parkland City Authority of any heritage constraints, and the potential for harm to occur to Aboriginal objects. The ACHAR will provide a management strategy for avoiding, minimising and/or mitigating such impacts to any identified Aboriginal objects. The findings and recommendations of the ACHAR will be used to inform the development of a Master Plan for the site. As the ACHAR is being produced to inform a Master Plan, the ACHAR will not include a detailed impact assessment required for the approval of an Aboriginal Heritage Impact Permit (AHIP). Following the completion of detailed design, an addendum ACHAR may be developed to support an AHIP application.

### Archaeological context

No archaeological excavations are known to have taken place within or immediately adjacent to the study area, but eight sites have been previously recorded within the study area. A review of the Aboriginal Heritage Information Management System (AHIMS) indicates that the majority of these sites are low-density artefact scatters and/or isolated finds. A list of the Aboriginal sites in and immediately adjacent to the study area is presented in **Table 1**, and a map of the sites is shown in **Figure 2**.

These sites were recorded by Navin Officer Heritage Consultants (NOHC) in 1997 as part of fieldwork undertaken to evaluate areas around the Cumberland Plain for suitability of the site as a location for a second Sydney airport. The Aboriginal sites recorded by NOHC comprise surface artefact scatters and isolated artefacts, but currently little detail is known about the composition, size, or extent of these sites. Most of the AHIMS site cards indicate that detailed site information is contained within the final report, but the final report appears to lack this information<sup>[1]</sup>. The limited information available on the AHIMS site cards suggest that most of these sites were low density scatters <10 stone artefacts – mostly flakes though some cores were identified. The majority of the artefact assemblage is comprised of silcrete, with lesser numbers of quartz and mudstone.

**Table 1. Archaeological sites within the development area.**

45-5-2640	B 22	NOHC	Artefact scatter
45-5-2641	B 23	NOHC	Artefact scatter
45-5-2779	B17	NOHC	Artefact scatter

## Proposed Assessment Methodology

Extent Heritage proposes to develop the ACHAR in accordance with the following guidelines:

- ♦ *Guide to Investigating, Assessing and Reporting on Aboriginal Cultural Heritage in NSW* (OEH 2011).
- ♦ *Code of Practice for Archaeological Investigation of Aboriginal Objects in New South Wales* (DECCW 2010).
- ♦ *Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010* (DECCW 2010).

Development of the ACHAR will involve a cultural values assessment, archaeological survey, and subsequent reporting. We currently anticipate that the ACHAR should be completed by February 2020.

The ACHAR will include the following tasks:

- ♦ Aboriginal community consultation: The initial stages of this process have been completed, and a list of Registered Aboriginal Parties (RAPs) has been compiled. The present letter provides the RAPs with project information and the proposed assessment methodology for review. The next stage of the consultation process will include the opportunity for comment on the proposed works and the assessment.
- ♦ Review of background information. Including the physical environment of the study area, historic land use, previously complete archaeological assessments within the study area and surrounding region, and ethnographic information regarding Aboriginal land use. This information will be utilised to develop a predictive model and assessment of the archaeological character of the study area.
- ♦ Archaeological survey of the survey area to test the predictive model, reassess the status of previously identified Aboriginal sites and determine if any previously unrecorded Aboriginal sites and area of potential archaeological deposit (PAD) are present.
- ♦ If additional Aboriginal sites are identified, submissions of site recordings for registration on Heritage NSW's AHIMS database.
- ♦ Significance and impact assessment. The Aboriginal heritage significance of the study area will be assessed, based on comments received from the RAPs through the consultation program and identified archaeological character of the study area. The potential impact of the proposed development on this significance will be assessed, and management recommendations will be developed accordingly.

## Archaeological Survey Methodology

Extent Heritage proposes to undertake an archaeological survey in accordance with the requirements of the *Code of Practice for Archaeological Investigation of Aboriginal Objects in NSW* (DECCW 2010). This survey will target both Aboriginal and historical heritage. It will aim to identify any visible Aboriginal objects (material traces and evidence of Aboriginal land), to inspect any important or significant locations identified during the cultural values assessment, attempt to relocate previously registered Aboriginal sites to record their current condition and integrity, and to assess the extent to which past land-use may have affected the sub-surface archaeological potential within areas of identified archaeological sensitivity.

This survey will likewise address specific areas of historical archaeological potential. These areas will be examined for any indication of sub-surface potential in the form of house platforms, benching, ruined remains, remnant fencing and/or garden/fruit trees. The investigation will also assess.

It is proposed that a desktop analysis of aerial photos and topographic maps is completed to inform the development of a survey strategy. Based on the results of the desktop study, the study area will be divided into survey units to facilitate the completion of a full coverage survey. Where a full coverage survey is not possible, due to access or safety constraints, a sample survey will be completed. Full coverage survey will involve the completion of parallel transects spaced 30 m apart, where possible. The survey team will carry a handheld Global Positioning System (GPS) to track to coverage of the survey and cameras to document representative landform features. Any Aboriginal objects or identified areas of Potential Archaeological Deposit (PAD) would be documented in accordance with the requirements of the Code of Practice.

## Timeframes

Extent Heritage proposes the following indicative timeframes for the project:

- ♦ Distribution of this document to Registered Aboriginal Parties: **6 November 2020.**
- ♦ End of review period for the proposed methodology: **9 December 2020.**
- ♦ Field survey to be undertaken: **mid December 2020.**
- ♦ Cultural values workshops and site visits: **mid November 2020.**
- ♦ Distribution of draft ACHAR to Registered Aboriginal Parties for review: **mid to late December 2020.**

## Information Sought

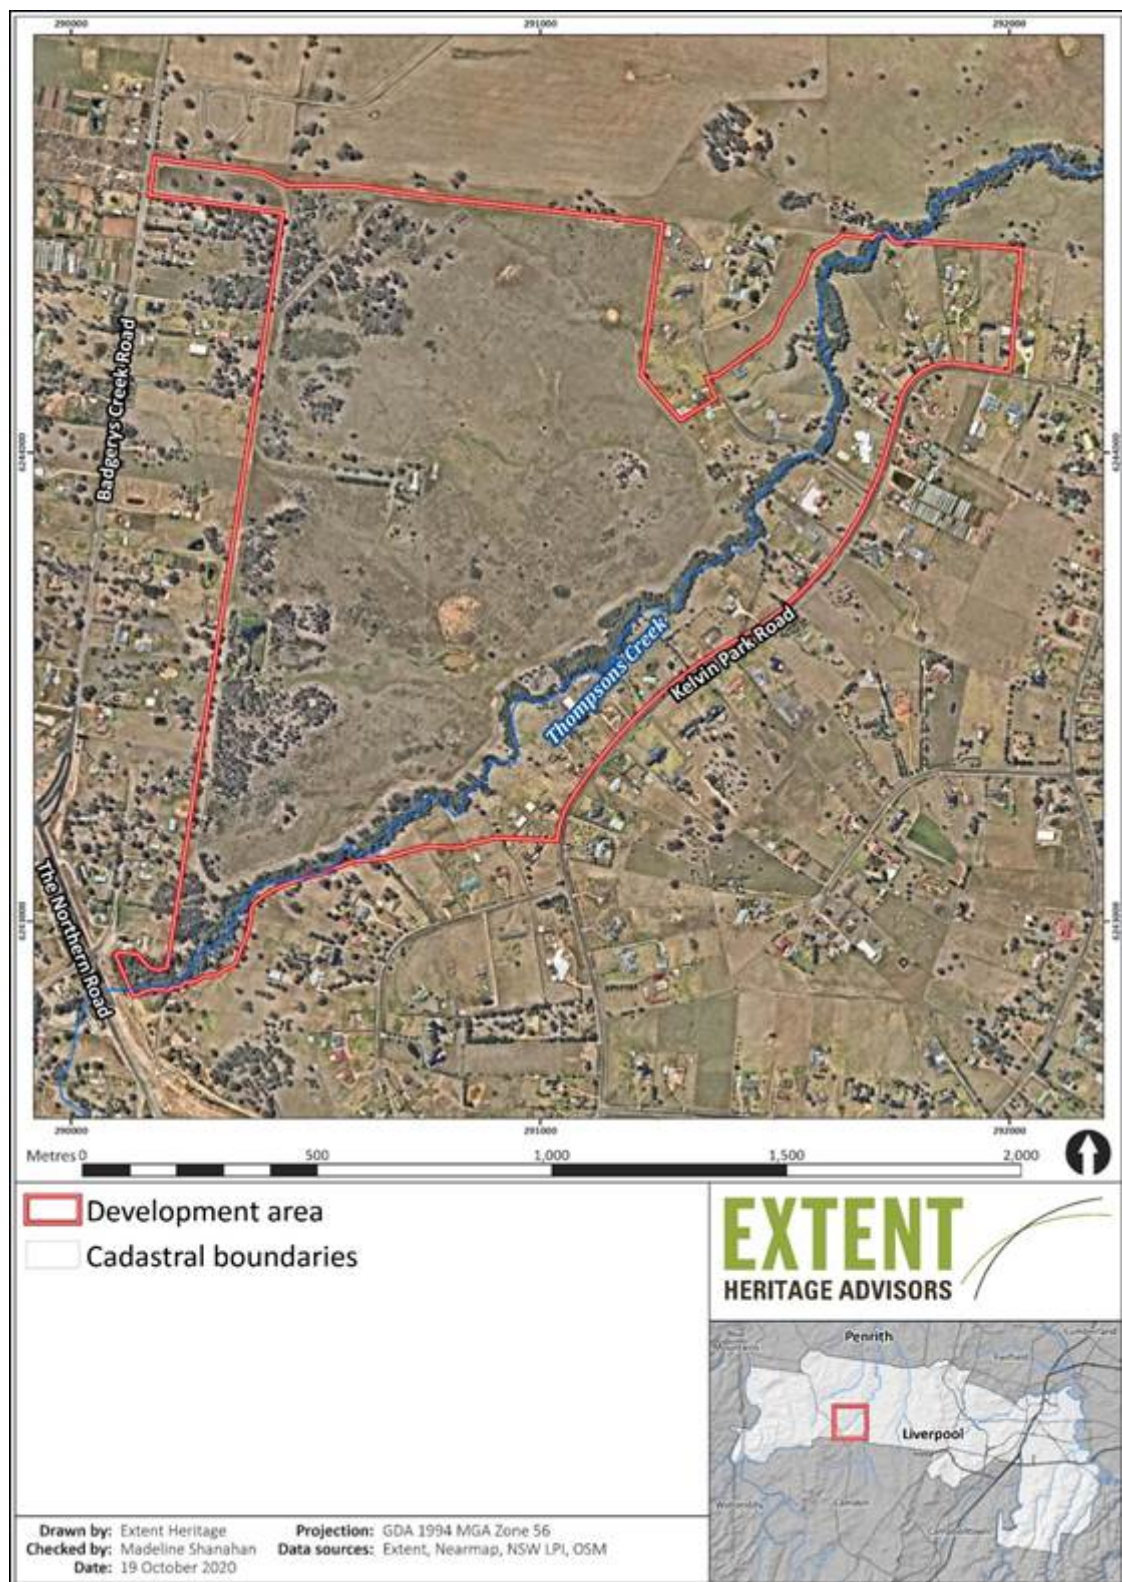

Extent Heritage would appreciate your feedback on the methodology proposed above for the investigation and assessment of the study area.

In returning your answers, please include the following where appropriate:

- ♦ Any protocols that you would like adopted during the project.
- ♦ Identification of any Aboriginal objects of cultural significance and/or importance that you are aware of within the activity area, and how you wish them to be dealt with during the project.
- ♦ Identification of any places of cultural significance and/or importance that you are aware of within the activity area, and how you wish them to be dealt with during the project.
- ♦ Guidance on the protocols, sensitivity, use and/or distribution of any cultural information that you provide to Extent Heritage.
- ♦ Whether you require any further information prior to Extent Heritage proceeding with the project.

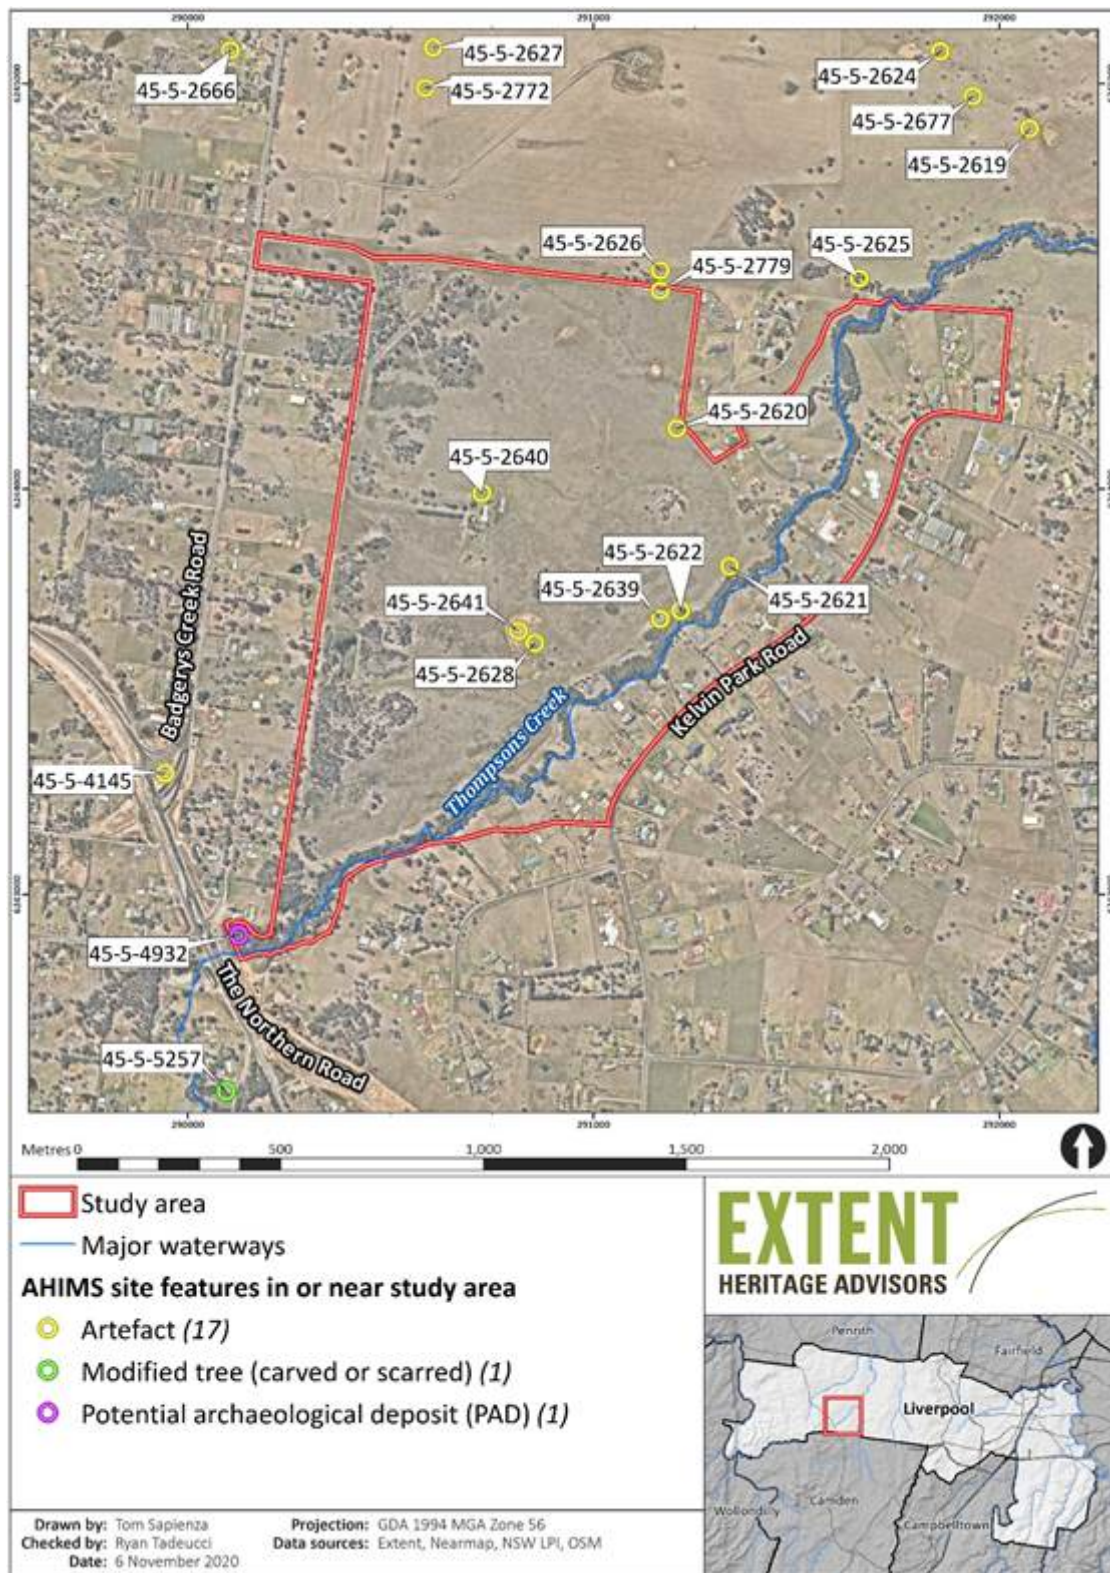

Extent Heritage would like to ask you to review the above information and provide any comments by **9 December 2020.**

Hi Ryan,  
I have reviewed the email and support the information and methodology.  
A1 would like to be involved in all future works with this project.

Please find A1's insurances attached.

We would like the proponent and Extent to consider including A1's, Kawalkan youth employees for all future field work.  
The Kawalkan Youth Program is a designed program created to employ young indigenous youths between the ages of (18-29) years of age.

### OUR MISSION

**Building strength in aboriginal families, communities, and services.**

It is our mission to commit to an innovative approach to a better future for our indigenous youth.

Giving our youth the opportunity to be employed or gain work experience in a culturally sensitive work environment also giving our youth the opportunity to work on country and continue the tradition of passing down

**Cultural knowledge from one generation to the next – continuing the importance of keeping culture.**

Kind Regards  
Carolyn Hickey

**Western Sydney Aerotropolis Core Precinct, NSW – Proposed Aboriginal Cultural Heritage Assessment Report Methodology**

Dear Carolyn

Thank you for registering an interest in the Western Sydney Aerotropolis Project, which commenced earlier this year. Your interest in the project has been formally registered in accordance with the *Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010*.

The next stage of Aboriginal cultural heritage work is due to commence and we are contacting you regarding preparation of an Aboriginal Cultural Heritage Assessment Report (ACHAR) for the proposed Aerotropolis Core Precinct, situated in the Liverpool and Penrith Local Government Areas.

This letter provides information about the project and the proposed methodology for the Aboriginal Cultural Heritage Assessment Report, which includes an archaeological field survey. I would like to invite you to review the methodology and provide any comments you may have by **9 December 2020**.

If you have any questions, please do not hesitate to contact me on (02) 9555 4000, or by email at [rtaddeucci@extent.com.au](mailto:rtaddeucci@extent.com.au).

Kind Regards

## Proponent Contact Details

This letter has been prepared by Extent Heritage Pty Ltd (Extent Heritage) on behalf of Western Parkland City Authority Trust (the proponent). The proponent's contact details are:

**Yolanda Gil** (Director, Planning)  
Western Parkland City Authority  
Level 2, 10 Valentine Avenue  
Parramatta NSW 2150  
[yolanda.gil@wcaa.sydney](mailto:yolanda.gil@wcaa.sydney)

## Background

### Project Information

Western Parkland City Authority propose to undertake development on approximately 160ha of land within the Aerotropolis Core Precinct (**Figure 1**) (hereafter, referred to as the study area). The proposed development would involve construction works associated with mixed use development, including bulk earthworks, ~~rezoning~~, construction of infrastructure (roads, footpaths, stormwater, etc.), buildings, environmental controls and landscaping.

As part of the development process, Western Parkland City Authority has engaged Extent Heritage to develop an ACHAR to ensure the Aboriginal objects and values within the study area are identified and appropriately managed. This assessment would inform Western Parkland City Authority of any heritage constraints, and the potential for harm to occur to Aboriginal objects. The ACHAR will provide a management strategy for avoiding, minimising and/or mitigating such impacts to any identified Aboriginal objects. The findings and recommendations of the ACHAR will be used to inform the development of a Master Plan for the site. As the ACHAR is being produced to inform a Master Plan, the ACHAR will not include a detailed impact assessment required for the approval of an Aboriginal Heritage Impact Permit (AHIP). Following the completion of detailed design, an addendum ACHAR may be developed to support an AHIP application.

### Archaeological context

No archaeological excavations are known to have taken place within or immediately adjacent to the study area, but eight sites have been previously recorded within the study area. A review of the Aboriginal Heritage Information Management System (AHIMS) indicates that the majority of these sites are low-density artefact scatters and/or isolated finds. A list of the Aboriginal sites in and immediately adjacent to the study area is presented in **Table 1**, and a map of the sites is shown in **Figure 2**.

These sites were recorded by Navin Officer Heritage Consultants (NOHC) in 1997 as part of fieldwork undertaken to evaluate areas around the Cumberland Plain for suitability of the site as a location for a second Sydney airport. The Aboriginal sites recorded by NOHC comprise surface artefact scatters and isolated artefacts, but currently little detail is known about the composition, size, or extent of these sites. Most of the AHIMS site cards indicate that detailed site information is contained within the final report, but the final report appears to lack this information<sup>[1]</sup>. The limited information available on the AHIMS site cards suggest that most of these sites were low density scatters <10 stone artefacts – mostly flakes though some cores were identified. The majority of the artefact assemblage is comprised of silcrete, with lesser numbers of quartz and mudstone.

**Table 1. Archaeological sites within the development area.**

AHIMS Site ID.	Site Name	Recorder	Site Feature
45-5-2620	B 18	NOHC	Isolated artefact*
45-5-2621	B 19	NOHC	Artefact scatter*
45-5-2622	B 20	NOHC	Artefact scatter*
45-5-2628	B 38	NOHC	Isolated artefact*
45-5-2639	B 21	NOHC	Artefact scatter
45-5-2640	B 22	NOHC	Artefact scatter
45-5-2641	B 23	NOHC	Artefact scatter
45-5-2779	B17	NOHC	Artefact scatter

## Proposed Assessment Methodology

Extent Heritage proposes to develop the ACHAR in accordance with the following guidelines:

- ♦ *Guide to Investigating, Assessing and Reporting on Aboriginal Cultural Heritage in NSW* (OEH 2011).
- ♦ *Code of Practice for Archaeological Investigation of Aboriginal Objects in New South Wales* (DECCW 2010).
- ♦ *Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010* (DECCW 2010).

Development of the ACHAR will involve a cultural values assessment, archaeological survey, and subsequent reporting. We currently anticipate that the ACHAR should be completed by February 2020.

The ACHAR will include the following tasks:

- ♦ Aboriginal community consultation: The initial stages of this process have been completed, and a list of Registered Aboriginal Parties (RAPs) has been compiled. The present letter provides the RAPs with project information and the proposed assessment methodology for review. The next stage of the consultation process will include the opportunity for comment on the proposed works and the assessment.
- ♦ Review of background information. Including the physical environment of the study area, historic land use, previously complete archaeological assessments within the study area and surrounding region, and ethnographic information regarding Aboriginal land use. This information will be utilised to develop a predictive model and assessment of the archaeological character of the study area.
- ♦ Archaeological survey of the survey area to test the predictive model, reassess the status of previously identified Aboriginal sites and determine if any previously unrecorded Aboriginal sites and area of potential archaeological deposit (PAD) are present.
- ♦ If additional Aboriginal sites are identified, submissions of site recordings for registration on Heritage NSW's AHIMS database.
- ♦ Significance and impact assessment. The Aboriginal heritage significance of the study area will be assessed, based on comments received from the RAPs through the consultation program and identified archaeological character of the study area. The potential impact of the proposed development on this significance will be assessed, and management recommendations will be developed accordingly.

## Archaeological Survey Methodology

Extent Heritage proposes to undertake an archaeological survey in accordance with the requirements of the *Code of Practice for Archaeological Investigation of Aboriginal Objects in NSW* (DECCW 2010). This survey will target both Aboriginal and historical heritage. It will aim to identify any visible Aboriginal objects (material traces and evidence of Aboriginal land), to inspect any important or significant locations identified during the cultural values assessment, attempt to relocate previously registered Aboriginal sites to record their current condition and integrity, and to assess the extent to which past land-use may have affected the sub-surface archaeological potential within areas of identified archaeological sensitivity.

This survey will likewise address specific areas of historical archaeological potential. These areas will be examined for any indication of sub-surface potential in the form of house platforms, benching, ruined remains, remnant fencing and/or garden/fruit trees. The investigation will also assess.

It is proposed that a desktop analysis of aerial photos and topographic maps is completed to inform the development of a survey strategy. Based on the results of the desktop study, the study area will be divided into survey units to facilitate the completion of a full coverage survey. Where a full coverage survey is not possible, due to access or safety constraints, a sample survey will be completed. Full coverage survey will involve the completion of parallel transects spaced 30 m apart, where possible. The survey team will carry a handheld Global Positioning System (GPS) to track coverage of the survey and cameras to document representative landform features. Any Aboriginal objects or identified areas of Potential Archaeological Deposit (PAD) would be documented in accordance with the requirements of the Code of Practice.

## Timeframes

Extent Heritage proposes the following indicative timeframes for the project:

- ♦ Distribution of this document to Registered Aboriginal Parties: **6 November 2020**.

- ♦ End of review period for the proposed methodology: **9 December 2020**.
- ♦ Field survey to be undertaken: **mid December 2020**.
- ♦ Cultural values workshops and site visits: **mid November 2020**.
- ♦ Distribution of draft ACHAR to Registered Aboriginal Parties for review: **mid to late December 2020**.

## Information Sought

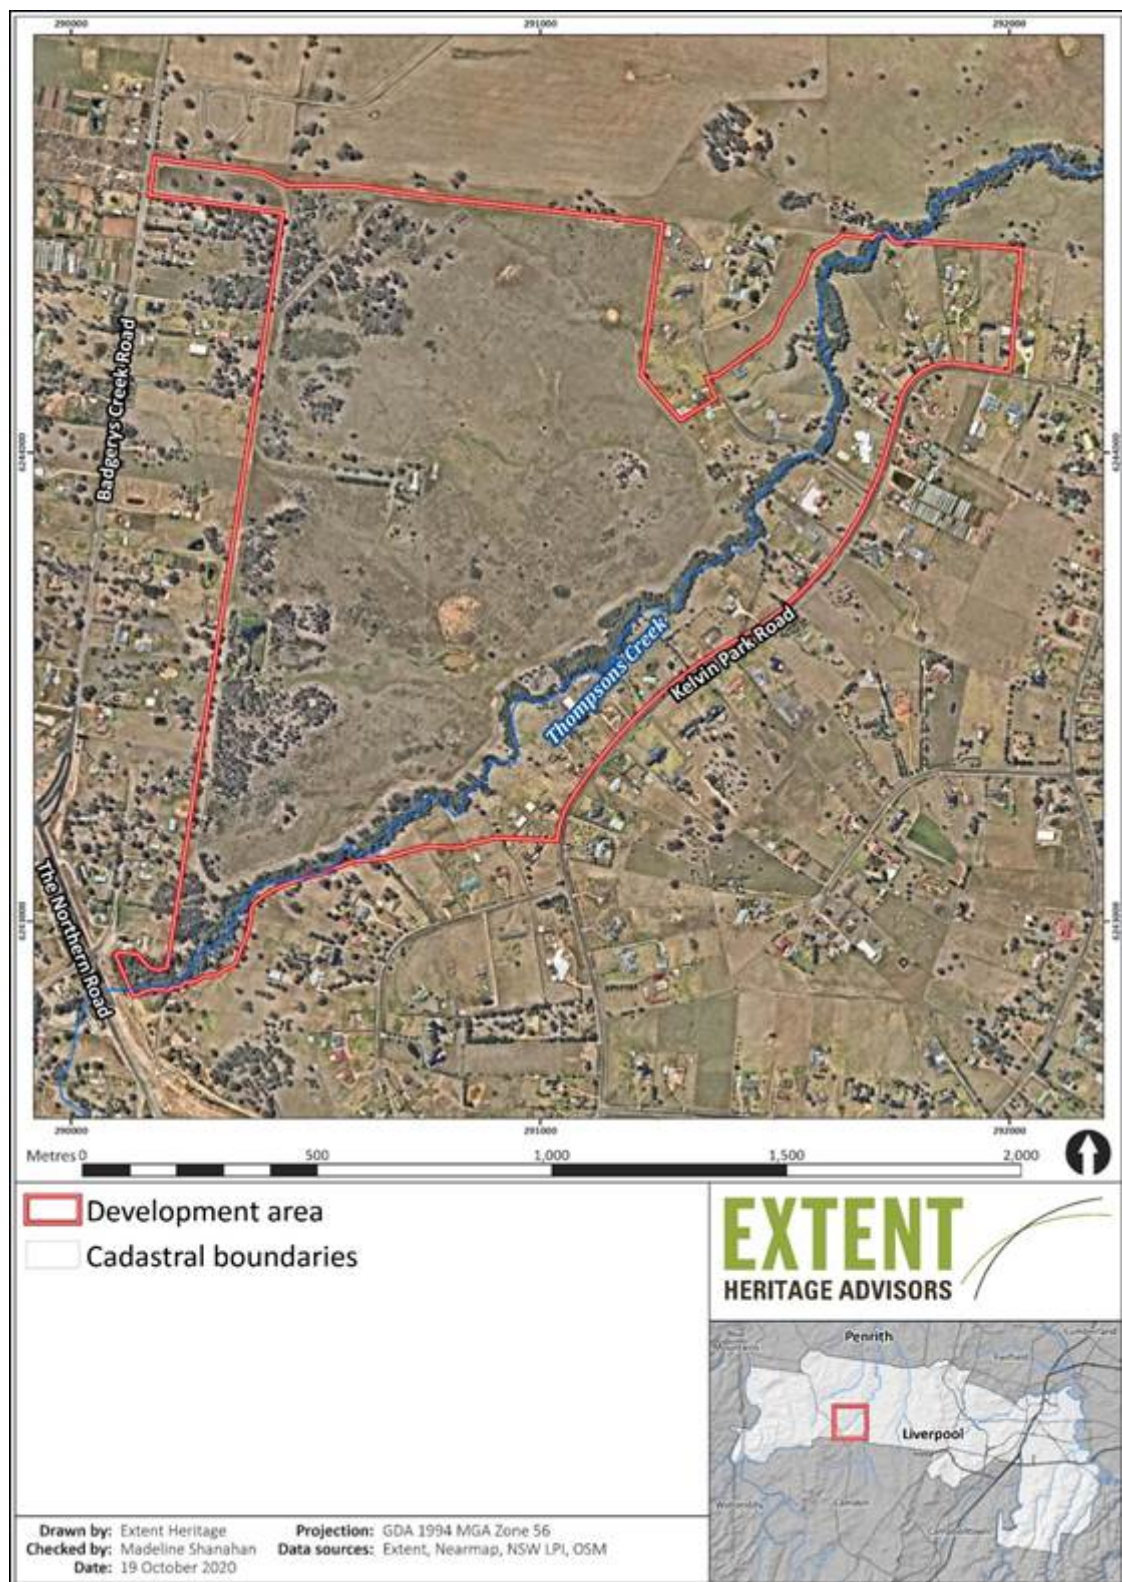

Extent Heritage would appreciate your feedback on the methodology proposed above for the investigation and assessment of the study area.

In returning your answers, please include the following where appropriate:

- ♦ Any protocols that you would like adopted during the project.
- ♦ Identification of any Aboriginal objects of cultural significance and/or importance that you are aware of within the activity area, and how you wish them to be dealt with during the project.
- ♦ Identification of any places of cultural significance and/or importance that you are aware of within the activity area, and how you wish them to be dealt with during the project.
- ♦ Guidance on the protocols, sensitivity, use and/or distribution of any cultural information that you provide to Extent Heritage.
- ♦ Whether you require any further information prior to Extent Heritage proceeding with the project.

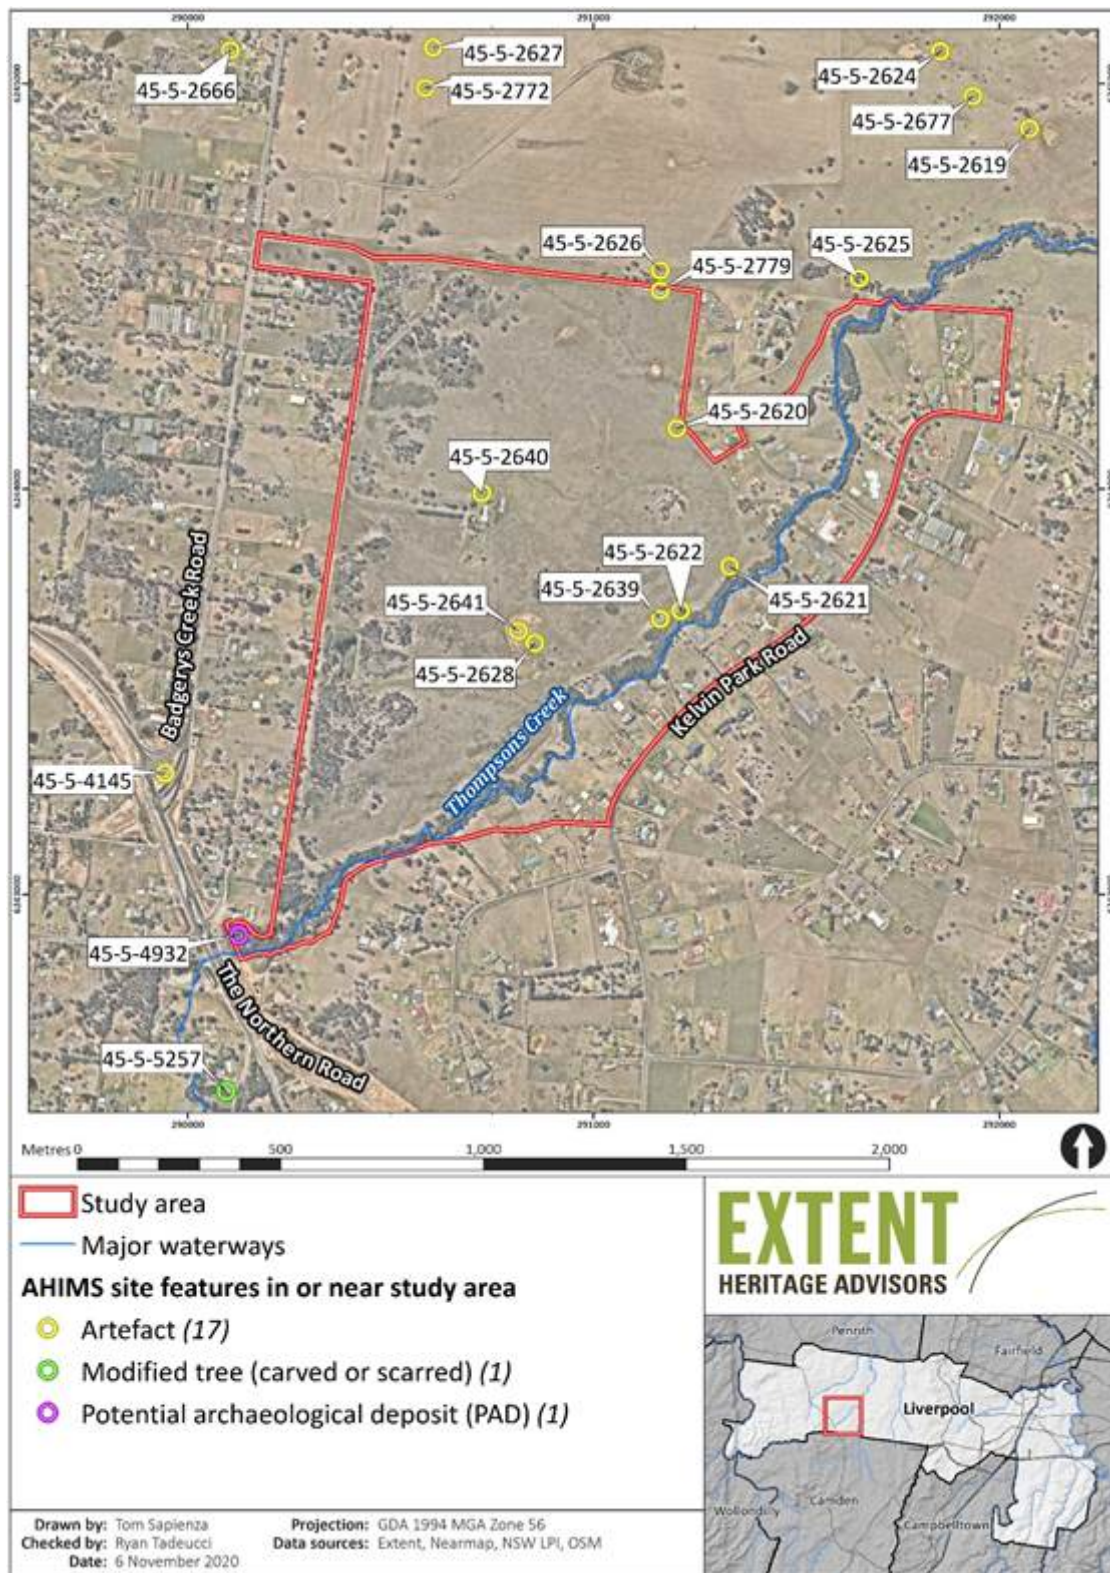

Extent Heritage would like to ask you to review the above information and provide any comments by **9 December 2020**.

**Figure 1.** Study area within the Aerotropolis Core Precinct.

**Figure 2.** Registered Aboriginal sites in and within ~500m of the study area.

[1] Five sites in Table 5 are shown with *italicised text* and an asterisk (\*) following the site feature information. These indicate that there is no information known about the spatial extent of the site, nor is there information about the types, number or raw materials of artefacts found at the site.

45-5-2641	B 23	NOHC	Artefact scatter
45-5-2779	B17	NOHC	Artefact scatter

## Proposed Assessment Methodology

Extent Heritage proposes to develop the ACHAR in accordance with the following guidelines:

- ♦ *Guide to Investigating, Assessing and Reporting on Aboriginal Cultural Heritage in NSW* (OEH 2011).
- ♦ *Code of Practice for Archaeological Investigation of Aboriginal Objects in New South Wales* (DECCW 2010).
- ♦ *Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010* (DECCW 2010).

Development of the ACHAR will involve a cultural values assessment, archaeological survey, and subsequent reporting. We currently anticipate that the ACHAR should be completed by February 2020.

The ACHAR will include the following tasks:

- ♦ **Aboriginal community consultation:** The initial stages of this process have been completed, and a list of Registered Aboriginal Parties (RAPs) has been compiled. The present letter provides the RAPs with project information and the proposed assessment methodology for review. The next stage of the consultation process will include the opportunity for comment on the proposed works and the assessment.
- ♦ **Review of background information.** Including the physical environment of the study area, historic land use, previously complete archaeological assessments within the study area and surrounding region, and ethnographic information regarding Aboriginal land use. This information will be utilised to develop a predictive model and assessment of the archaeological character of the study area.
- ♦ **Archaeological survey of the survey area** to test the predictive model, reassess the status of previously identified Aboriginal sites and determine if any previously unrecorded Aboriginal sites and area of potential archaeological deposit (PAD) are present.
- ♦ **If additional Aboriginal sites are identified,** submissions of site recordings for registration on Heritage NSW's AHIMS database.
- ♦ **Significance and impact assessment.** The Aboriginal heritage significance of the study area will be assessed, based on comments received from the RAPs through the consultation program and identified archaeological character of the study area. The potential impact of the proposed development on this significance will be assessed, and management recommendations will be developed accordingly.

## Archaeological Survey Methodology

Extent Heritage proposes to undertake an archaeological survey in accordance with the requirements of the *Code of Practice for Archaeological Investigation of Aboriginal Objects in NSW* (DECCW 2010). This survey will target both Aboriginal and historical heritage. It will aim to identify any visible Aboriginal objects (material traces and evidence of Aboriginal land), to inspect any important or significant locations identified during the cultural values assessment, attempt to relocate previously registered Aboriginal sites to record their current condition and integrity, and to assess the extent to which past land-use may have affected the sub-surface archaeological potential within areas of identified archaeological sensitivity.

This survey will likewise address specific areas of historical archaeological potential. These areas will be examined for any indication of sub-surface potential in the form of house platforms, benching, ruined remains, remnant fencing and/or garden/fruit trees. The investigation will also assess.

It is proposed that a desktop analysis of aerial photos and topographic maps is completed to inform the development of a survey strategy. Based on the results of the desktop study, the study area will be divided into survey units to facilitate the completion of a full coverage survey. Where a full coverage survey is not possible, due to access or safety constraints, a sample survey will be completed. Full coverage survey will involve the completion of parallel transects spaced 30 m apart, where possible. The survey team will carry a handheld Global Positioning System (GPS) to track to coverage of the survey and cameras to document representative landform features. Any Aboriginal objects or identified areas of Potential Archaeological Deposit (PAD) would be documented in accordance with the requirements of the Code of Practice.

## Timeframes

Extent Heritage proposes the following indicative timeframes for the project:

- ♦ Distribution of this document to Registered Aboriginal Parties: **6 November 2020.**
- ♦ End of review period for the proposed methodology: **9 December 2020.**
- ♦ Field survey to be undertaken: **mid December 2020.**
- ♦ Cultural values workshops and site visits: **mid November 2020.**
- ♦ Distribution of draft ACHAR to Registered Aboriginal Parties for review: **mid to late December 2020.**

## Information Sought

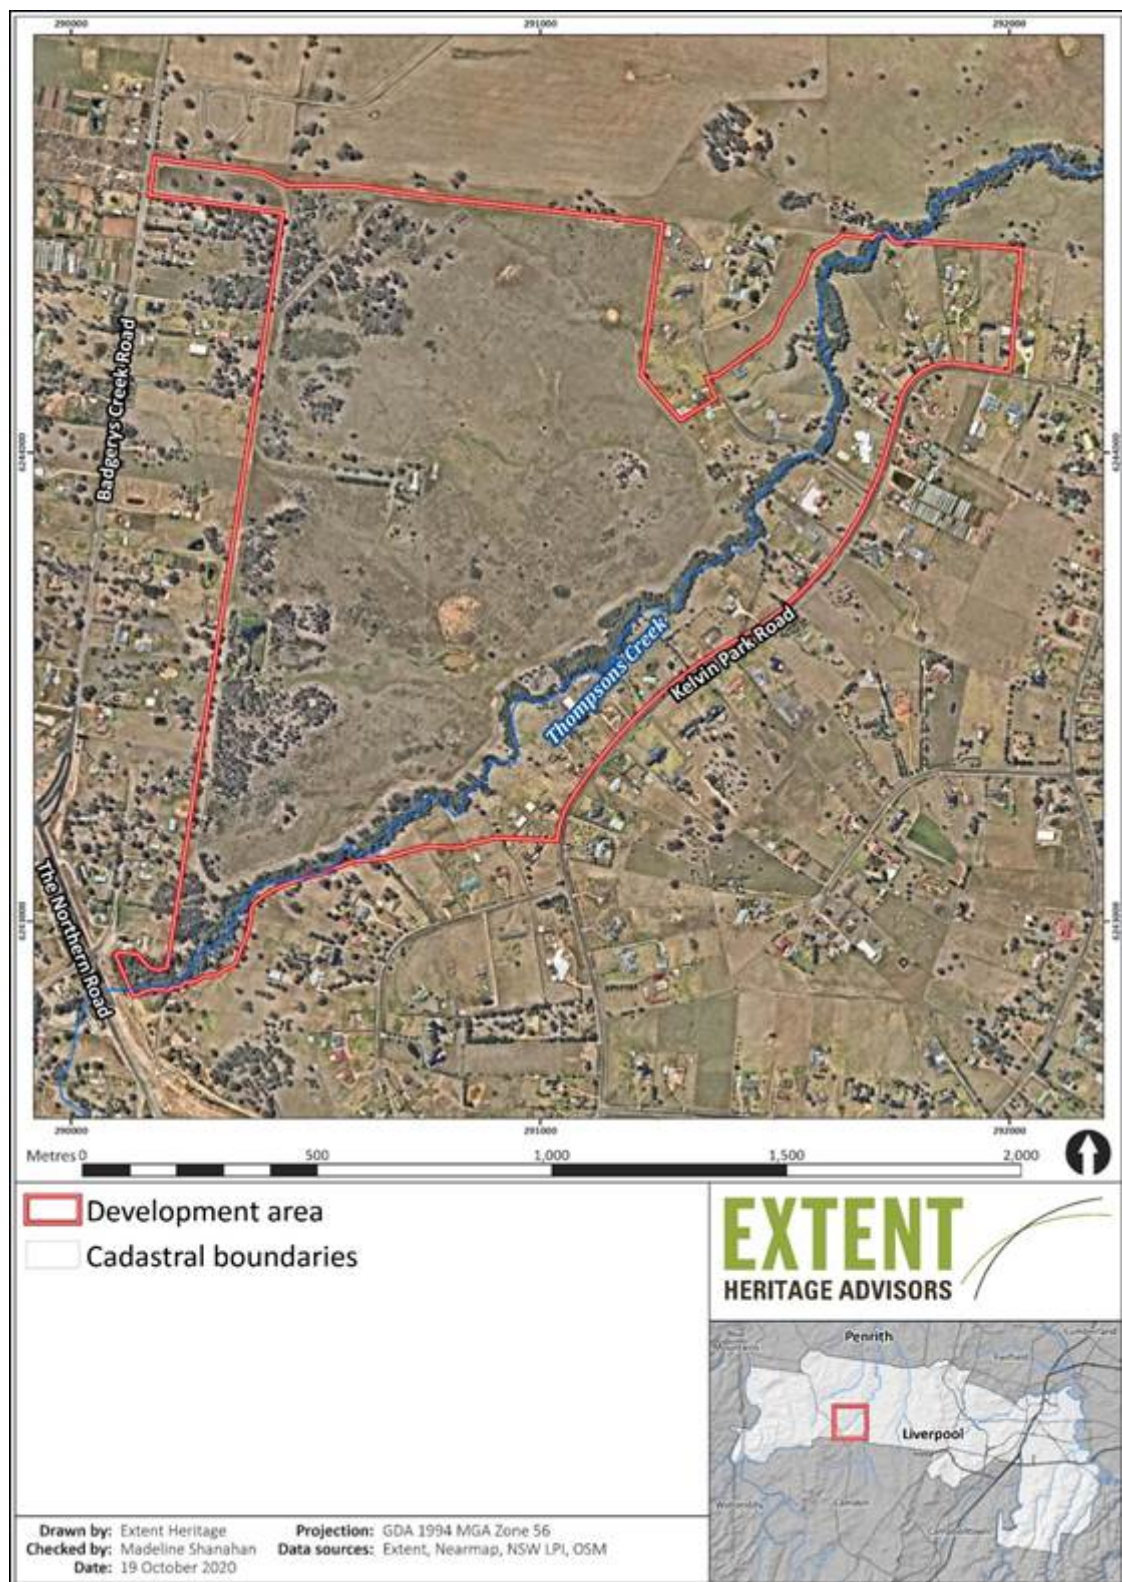

Extent Heritage would appreciate your feedback on the methodology proposed above for the investigation and assessment of the study area.

In returning your answers, please include the following where appropriate:

- ♦ Any protocols that you would like adopted during the project.
- ♦ Identification of any Aboriginal objects of cultural significance and/or importance that you are aware of within the activity area, and how you wish them to be dealt with during the project.
- ♦ Identification of any places of cultural significance and/or importance that you are aware of within the activity area, and how you wish them to be dealt with during the project.
- ♦ Guidance on the protocols, sensitivity, use and/or distribution of any cultural information that you provide to Extent Heritage.
- ♦ Whether you require any further information prior to Extent Heritage proceeding with the project.

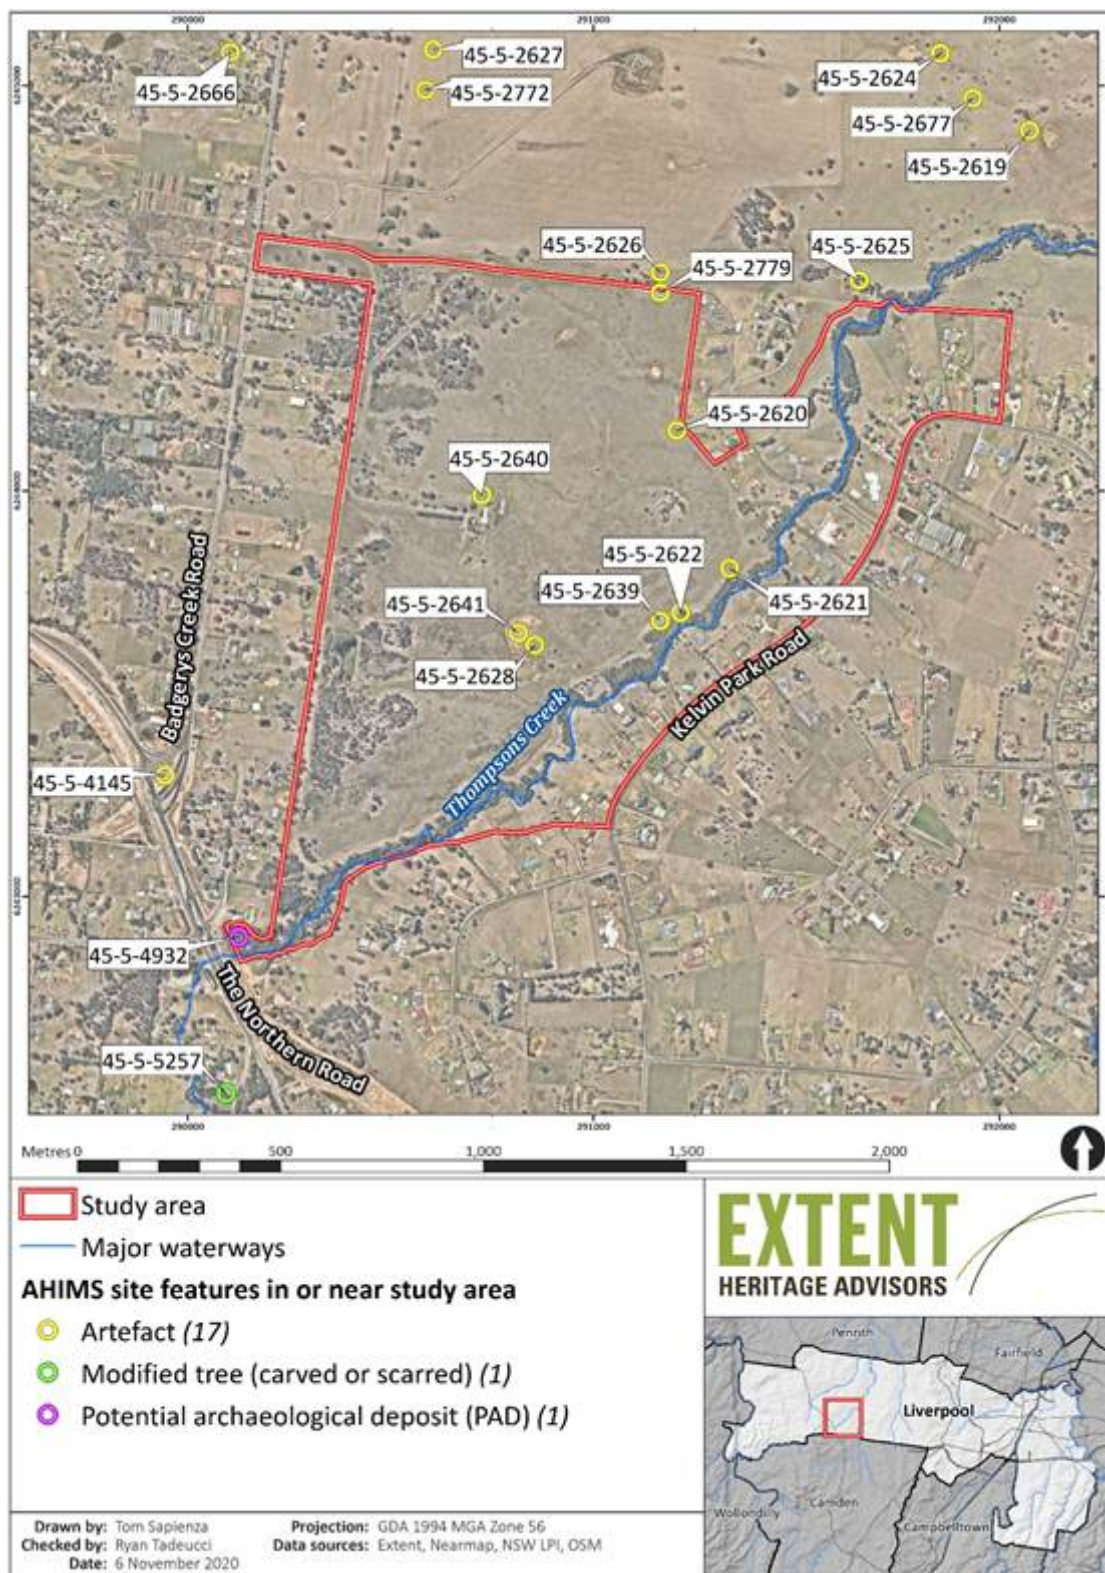

Extent Heritage would like to ask you to review the above information and provide any comments by **9 December 2020**.

To Ryan Taddeucci

As aboriginal people the land was promised to us by our creators and has never been sold or given away and we consider all land as aboriginal land. As aboriginal people we consider the land as our mother and our responsibility is to look after her for in return she will look after us, everything and provide for us, everything. This makes all land sacred and what is on her to our people and we should be given the opportunity to have input into how it is to be used.

There has been forced removal of our people from these areas due to colonisation. These areas have been modified during this time with vegetation removal but generally the country is close to what it was like. I currently see these areas at present given the chance that mother is still able to provide for us, everything and would return back to her natural beauty if allowed. Modern development that you are proposing will dramatically change the country and take away the ability for mother to provide for us, everything in the way she is intended to. Development such as this are the continuation of colonisation by breaking down our cultural values. In the light of reconciliation and the state government's responsibilities to preserve, promote and enhanced aboriginal people and culture. Our cultural values and needs should be of the upmost importance and negotiated with all the effected family groups.

We believe that currently the surveys and testing is to prove that our people were on this land. We know the land was inhabited and used from the beginning our stories tell us this. The evidence that our past has left us still remains within these landscapes and don't believe is given the true respect that it deserves. I see it like a murder it needs to be proven beyond a reasonable doubt. Cultural indicators such as modified trees, resources, vegetation have been modified or removed. These would start to form the story how the area was used culturally. All of the proposed development area needs to be thoroughly surveyed, tested to identify any potential sites within the area before any proposed planes are generated. We believe a 20M grid should be placed over the proposed development area to achieve the thoroughest outcomes of proving that there is nothing that will be impacted. If we are to give our culture the true respect that it deserves as the oldest living culture in the world. Allotments need to be made within the impacted development area to protect and preserve some of the sites indefinitely. What will the future show will it be allowed to show the truth in which archaeology is meant to do or will it contribute to colonisation by secondly assisting to remove the evidence?

## WORI WOILYWA

As aboriginal people we believe that everything is living and everything has place. It is a cultural value and respect to everything that nothing should be altered or removed from country as this may disrupt the balance. The need to remove or alter anything on site should be reduced and anything that is proposed to be removal or altered on this proposed development site should be consulted back to the community to achieve a culturally positive outcome.

Any works taken place need to be done in a manner that is culturally appropriate lead by aboriginal people.

The expectations of aboriginal people to provide everything about a site during a Surface survey with a minimal time is unrealistic. We have been forcefully removed from the land and are still not allowed to access these lands in the same ways as our past. It is our belief that everything is living and has spirit. I see it like a relationship say you and me for example. I know little about you and you me but given time and getting to know each other a relationship would start to develop and then we will more than likely start to know more about each other. I see this the same as us and the country. Given time spent respectfully being on country the country and spirit would start to show us what our past is.

To achieve thorough outcomes during the Test Excavation stage best practice should be carried out  
1. 1M x 1M pits 2. 3mm wet sieved 3. Machinery dug. We believe that these methods are the best practises that can be adopted at present.

We believe that at a minimum the following standards and suggestions should be adopted to achieve the best cultural outcomes during this project. Thanks you for your time and would be happy to discuss further with you if you feel the need.

*Kind Regards*

## Western Sydney Aerotropolis Core Precinct, NSW – Proposed Aboriginal Cultural Heritage Assessment Report Methodology

Dear Kaarina

Thank you for registering an interest in the Western Sydney Aerotropolis Project, which commenced earlier this year. Your interest in the project has been formally registered in accordance with the *Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010*.

The next stage of Aboriginal cultural heritage work is due to commence and we are contacting you regarding preparation of an Aboriginal Cultural Heritage Assessment Report (ACHAR) for the proposed Aerotropolis Core Precinct, situated in the Liverpool and Penrith Local Government Areas.

This letter provides information about the project and the proposed methodology for the Aboriginal Cultural Heritage Assessment Report, which includes an archaeological field survey. I would like to invite you to review the methodology and provide any comments you may have by **9 December 2020**.

If you have any questions, please do not hesitate to contact me on (02) 9555 4000, or by email at [rtaddeucci@extent.com.au](mailto:rtaddeucci@extent.com.au).

Kind Regards

**Ryan Taddeucci**

**Senior Heritage Advisor | Extent Heritage**

## Proponent Contact Details

This letter has been prepared by Extent Heritage Pty Ltd (Extent Heritage) on behalf of Western Parkland City Authority Trust (the proponent). The proponent's contact details are:

**Yolanda Gil** (Director, Planning)  
Western Parkland City Authority  
Level 2, 10 Valentine Avenue  
Parramatta NSW 2150  
[yolanda.gil@wcaa.sydney](mailto:yolanda.gil@wcaa.sydney)

## Background

### *Project Information*

Western Parkland City Authority propose to undertake development on approximately 160ha of land within the Aerotropolis Core Precinct (**Figure 1**) (hereafter, referred to as the study area). The proposed development would involve construction works associated with mixed use development, including bulk earthworks, ~~rezoning~~, construction of infrastructure (roads, footpaths, stormwater, etc.), buildings, environmental controls and landscaping.

As part of the development process, Western Parkland City Authority has engaged Extent Heritage to develop an ACHAR to ensure the Aboriginal objects and values within the study area are identified and appropriately managed. This assessment would inform Western Parkland City Authority of any heritage constraints, and the potential for harm to occur to Aboriginal objects. The ACHAR will provide a management strategy for avoiding, minimising and/or mitigating such impacts to any identified Aboriginal objects. The findings and recommendations of the ACHAR will be used to inform the development of a Master Plan for the site. As the ACHAR is being produced to inform a Master Plan, the ACHAR will not include a detailed impact assessment required for the approval of an Aboriginal Heritage Impact Permit (AHIP). Following the completion of detailed design, an addendum ACHAR may be developed to support an AHIP application.

### *Archaeological context*

No archaeological excavations are known to have taken place within or immediately adjacent to the study area, but eight sites have been previously recorded within the study area. A review of the Aboriginal Heritage Information Management System (AHIMS) indicates that the majority of these sites are low-density artefact scatters and/or isolated finds. A list of the Aboriginal sites in and immediately adjacent to the study area is presented in **Table 1**, and a map of the sites is shown in **Figure 2**.

These sites were recorded by Navin Officer Heritage Consultants (NOHC) in 1997 as part of fieldwork undertaken to evaluate areas around the Cumberland Plain for suitability of the site as a location for a second Sydney airport. The Aboriginal sites recorded by NOHC comprise surface artefact scatters and isolated artefacts, but currently little detail is known about the composition, size, or extent of these sites. Most of the AHIMS site cards indicate that detailed site information is contained within the final report, but the final report appears to lack this

information<sup>[1]</sup>. The limited information available on the AHIMS site cards suggest that most of these sites were low density scatters <10 stone artefacts – mostly flakes though some cores were identified. The majority of the artefact assemblage is comprised of silcrete, with lesser numbers of quartz and mudstone.

**Table 1. Archaeological sites within the development area.**

AHIMS Site ID.	Site Name	Recorder	Site Feature
45-5-2620	B 18	NOHC	Isolated artefact*
45-5-2621	B 19	NOHC	Artefact scatter*
45-5-2622	B 20	NOHC	Artefact scatter*
45-5-2628	B 38	NOHC	Isolated artefact*
45-5-2639	B 21	NOHC	Artefact scatter
45-5-2640	B 22	NOHC	Artefact scatter
45-5-2641	B 23	NOHC	Artefact scatter
45-5-2779	B17	NOHC	Artefact scatter

## Proposed Assessment Methodology

Extent Heritage proposes to develop the ACHAR in accordance with the following guidelines:

- ♦ *Guide to Investigating, Assessing and Reporting on Aboriginal Cultural Heritage in NSW* (OEH 2011).
- ♦ *Code of Practice for Archaeological Investigation of Aboriginal Objects in New South Wales* (DECCW 2010).
- ♦ *Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010* (DECCW 2010).

Development of the ACHAR will involve a cultural values assessment, archaeological survey, and subsequent reporting. We currently anticipate that the ACHAR should be completed by February 2020.

The ACHAR will include the following tasks:

- ♦ Aboriginal community consultation: The initial stages of this process have been completed, and a list of Registered Aboriginal Parties (RAPs) has been compiled. The present letter provides the RAPs with project information and the proposed assessment methodology for review. The next stage of the consultation process will include the opportunity for comment on the proposed works and the assessment.
- ♦ Review of background information. Including the physical environment of the study area, historic land use, previously complete archaeological assessments within the study area and surrounding region, and ethnographic information regarding Aboriginal land use. This information will be utilised to develop a predictive model and assessment of the archaeological character of the study area.
- ♦ Archaeological survey of the survey area to test the predictive model, reassess the status of previously identified Aboriginal sites and determine if any previously unrecorded Aboriginal sites and area of potential archaeological deposit (PAD) are present.
- ♦ If additional Aboriginal sites are identified, submissions of site recordings for registration on Heritage NSW's AHIMS database.
- ♦ Significance and impact assessment. The Aboriginal heritage significance of the study area will be assessed, based on comments received from the RAPs through the consultation program and identified archaeological character of the study area. The potential impact of the proposed development on this significance will be assessed, and management recommendations will be developed accordingly.

## Archaeological Survey Methodology

Extent Heritage proposes to undertake an archaeological survey in accordance with the requirements of the *Code of Practice for Archaeological Investigation of Aboriginal Objects in NSW* (DECCW 2010). This survey will target both Aboriginal and historical heritage. It will aim to identify any visible Aboriginal objects (material traces and evidence of Aboriginal land), to inspect any important or significant locations identified during the cultural values assessment, attempt to relocate previously registered Aboriginal sites to record their current condition and

integrity, and to assess the extent to which past land-use may have affected the sub-surface archaeological potential within areas of identified archaeological sensitivity.

This survey will likewise address specific areas of historical archaeological potential. These areas will be examined for any indication of sub-surface potential in the form of house platforms, benching, ruined remains, remnant fencing and/or garden/fruit trees. The investigation will also assess.

It is proposed that a desktop analysis of aerial photos and topographic maps is completed to inform the development of a survey strategy. Based on the results of the desktop study, the study area will be divided into survey units to facilitate the completion of a full coverage survey. Where a full coverage survey is not possible, due to access or safety constraints, a sample survey will be completed. Full coverage survey will involve the completion of parallel transects spaced 30 m apart, where possible. The survey team will carry a handheld Global Positioning System (GPS) to track coverage of the survey and cameras to document representative landform features. Any Aboriginal objects or identified areas of Potential Archaeological Deposit (PAD) would be documented in accordance with the requirements of the Code of Practice.

## Timeframes

Extent Heritage proposes the following indicative timeframes for the project:

- ◆ Distribution of this document to Registered Aboriginal Parties: **6 November 2020.**
- ◆ End of review period for the proposed methodology: **9 December 2020.**
- ◆ Field survey to be undertaken: **mid December 2020.**
- ◆ Cultural values workshops and site visits: **mid November 2020.**
- ◆ Distribution of draft ACHAR to Registered Aboriginal Parties for review: **mid to late December 2020.**

## Information Sought

Extent Heritage would appreciate your feedback on the methodology proposed above for the investigation and assessment of the study area.

In returning your answers, please include the following where appropriate:

- ◆ Any protocols that you would like adopted during the project.
- ◆ Identification of any Aboriginal objects of cultural significance and/or importance that you are aware of within the activity area, and how you wish them to be dealt with during the project.
- ◆ Identification of any places of cultural significance and/or importance that you are aware of within the activity area, and how you wish them to be dealt with during the project.
- ◆ Guidance on the protocols, sensitivity, use and/or distribution of any cultural information that you provide to Extent Heritage.
- ◆ Whether you require any further information prior to Extent Heritage proceeding with the project.

Extent Heritage would like to ask you to review the above information and provide any comments by **9 December 2020.**

Hi Tse,

Thank you for your invitation to participate in this survey for the proposed Aero Core precinct.

We are available on the identified dates that you have selected being Monday, 7 December 2020 to Wednesday, 9 December 2020.

Please find attached the relevant insurances for Waawaar Awaa Aboriginal Corporation.

regards

**Rodney Gunther**

Hi,

I have reviewed the document and support the Information and test Excavation Methodology.  
A1 would like to be involved in any future Meetings and field work.

I am a traditional custodian with over 20 years' experience in helping preserve Aboriginal cultural heritage on projects, I hold cultural knowledge relevant to determining the cultural significance of Aboriginal objects and values that exist in the project area.

A1 would like the proponent and Extent to consider including A1's, Kawalkan youth employees for all future field work.

The Kawalkan Youth Program is a designed program created to employ young indigenous youths between the ages of (18-29) years of age.

### **OUR MISSION**

**Building strength in aboriginal families, communities, and services.**

It is our mission to commit to an innovative approach to a better future for our indigenous youth.

Giving our youth the opportunity to be employed or gain work experience in a culturally sensitive work environment also giving our youth the opportunity to work on country and continue the tradition of passing down

**Cultural knowledge from one generation to the next – continuing the importance of keeping culture.**

INSURANCES ARE ATTACHED

Kind regards  
Carolyn Hickey

Dear Ryan,

RE; WESTERN PARKLAND AUTHORITY

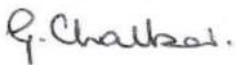

Thank you for the opportunity of commenting on this project . It is my opinion that 30 metre intervals is too far apart. I believe the minimum should be 20metres. Why is the western section of the ACF01 PAD not being investigated as part of the test excavations? If you are going to test the PAD then all of it should be tested unless this area is not to be impacted by the proposed development. I cannot see the topography on the flat map provided to understand the landscape adequately. As far as I am concerned we should be testing to prove lack of artefactual material presence in some places, just as much as trying to prove the presence of artefactual material..

All excavated material should be **WET** sieved using a 3mm sieve, despite what the Code of Practice. If you are seeking advice on the methodology, then this should be taken into that advice and not dismissed.

The test excavation report should be sent to all registered stakeholders after the excavations.

Looking forward to working with you on this project.

Yours faithfully,

**Subject:** Re: Elizabeth Street, Redfern – Draft Aboriginal Cultural Heritage Assessment Report - Review reminder email

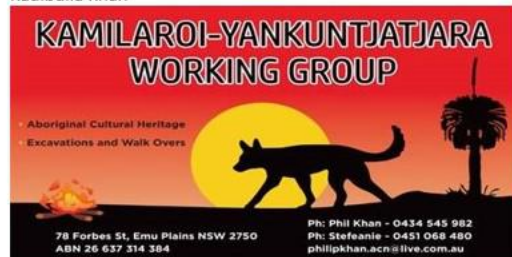

Hi Rebekah,

Thank you for your report for 600-660 Elizabeth Street, Redfern NSW (Lot 1 DP 1249145). Here at K.Y.W.G we hold over 50 years of cultural knowledge, our aspiration is to conserve our cultural heritage and our aim is to pass on cultural knowledge. Aboriginal people have walked this land for tens of thousands of years and continue to do so. We follow the water ways as they provide resource, we hold a deep connection with mother earth and we are guided by the skies. Aboriginal people would camp, hunt, gather, practice lore and followed customs all across mother earth, we protect our sacred sites such as men's and woman's sites.

The whole study area is highly significant to our people. Here at KYWG we have worked, lived in the area for over 50 years, we know the area and the stories that have been passed down. We have knowledge through consultation process and walking, working on the land. For this reason, we know and understand that the area is highly significant to our people as we occupied the land. There are water ways that hold significant to us and sky knowledge that is recognised to us. we would like to agree to your recommendations, we strongly push for salvage and we agree to your report. We look forward to working along side you on this project.

Kind Regards

Kadibulla Khan

**Subject:** ACH Test Excavation Methodology - Bradfield

Dear Ryan,

I refer to your email of Tuesday June 15 regarding the draft test excavation methodology for the Bradfield City Centre (proposed) in the Aerotropolis Core precinct.

The area lies wholly within the GLALC boundaries, and as we are a statutory body corporate responsible under the *Aboriginal Land Rights Act 1983* NSW for the protection and preservation of Aboriginal culture and heritage within our area, we expect to be both present and consulted with when the test work is expected to begin.

Given the high possibility of impact to sites at the sub-surface level, and the density of surface scatter already registered on the AHIMS for this Lot, we consider the approach to controlled excavation to be important.

Please also note that GLALC has been informed of the deposit of rare artefacts in the rural grasslands around Bringelly and Luddenham existent prior to the 2020 survey, which don't appear to be listed in the ACHAR or in the Summary here. We would appreciate meeting to speak about this at your convenience.

As a RAP and the LALC responsible for the protection of culture and heritage in the Aerotropolis core precinct we expect to be included in the test excavation from the beginning.

We look forward to hearing from you again,

Kind regards,

**Dr Ruth Sheridan**

golangayaelder@gmail.com

## How to Fix It

The address may be misspelled or may not exist. Try one or more of the following:

- Send the message again following these steps: In Outlook, open this non-delivery report (NDR) and choose **Send Again** from the Report ribbon. In Outlook on the web, select this NDR, then select the link "**To send this message again, click here.**" Then delete and retype the entire recipient address. If prompted with an Auto-Complete List suggestion don't select it. After typing the complete address, click **Send**.
- Contact the recipient (by phone, for example) to check that the address exists and is correct.
- The recipient may have set up email forwarding to an incorrect address. Ask them to check that any forwarding they've set up is working correctly.
- Clear the recipient Auto-Complete List in Outlook or Outlook on the web by following the steps in this article: [Fix email delivery issues for error code 5.1.1 in Office 365](#), and then send the message again. Retype the entire recipient address before selecting **Send**.

If the problem continues, forward this message to your email admin. If you're an email admin, refer to the **More Info for Email Admins** section below.

## More Info for Email Admins

Status code: 550 5.1.1

This error occurs because the sender sent a message to an email address outside of Office 365, but the address is incorrect or doesn't exist at the destination domain. The error is reported by the recipient domain's email server, but most often it must be fixed by the person who sent the message. If the steps in the **How to Fix It** section above don't fix the problem, and you're the email admin for the recipient, try one or more of the following:

**The email address exists and is correct** - Confirm that the recipient address exists, is correct, and is accepting messages.

**Synchronize your directories** - If you have a hybrid environment and are using directory synchronization make sure the recipient's email address is synced correctly in both Office 365 and in your on-premises directory.

**Errant forwarding rule** - Check for forwarding rules that aren't behaving as expected. Forwarding can be set up by an admin via mail flow rules or mailbox forwarding address settings, or by the recipient via the Inbox Rules feature.

**Mail flow settings and MX records are not correct** - Misconfigured mail flow or MX record settings can cause this error. Check your Office 365 mail flow settings to make sure your domain and any mail flow connectors are set up correctly. Also, work with your domain registrar to make sure the MX records for your domain are configured correctly.

For more information and additional tips to fix this issue, see [Fix email delivery issues for error code 550 5.1.1 in Office 365](#).

### Original Message Details

Created Date: 6/14/2021 11:47:22 PM  
Sender Address: rtaddeucci@extent.com.au  
Recipient Address: gullagunarelder@gmail.com, curwurmurreelder@gmail.com, . . .  
Subject: Western Sydney Aerotropolis Core Precinct, NSW – Draft  
Aboriginal Cultural Heritage Assessment Report

### Error Details

Reported error: 550-5.1.1 The email account that you tried to reach does not exist. Please try 550-5.1.1 double-checking the recipient's email address for typos or 550-5.1.1 unnecessary spaces. Learn more at 550 5.1.1 <https://support.google.com/mail/?p=NoSuchUserf8si12968636ejl.652> - gsmtp

Dear Ryan,

RE; WESTERN PARKLAND AUTHORITY

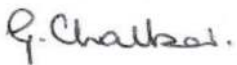

Thank you for the opportunity of commenting on this project . It is my opinion that 30 metre intervals is too far apart. I believe the minimum should be 20metres. Why is the western section of the ACF01 PAD not being investigated as part of the test excavations? If you are going to test the PAD then all of it should be tested unless this area is not to be impacted by the proposed development. I cannot see the topography on the flat map provided to understand the landscape adequately. As far as I am concerned we should be testing to prove lack of artefactual material presence in some places, just as much as trying to prove the presence of artefactual material..

All excavated material should be **WET** sieved using a 3mm sieve, despite what the Code of Practice. If you are seeking advice on the methodology, then this should be taken into that advice and not dismissed.

The test excavation report should be sent to all registered stakeholders after the excavations.

Looking forward to working with you on this project.

Yours faithfully,

Glenda Chalker

**Subject:** RE: ACH Test Excavation Methodology - Bradfield

Thanks Madeline,

The methodology itself appears to be sound.

We'd like to discuss the finding of rare ochre deposits in the area that were not captured in other reports. At this stage that is all I can say but I'd look forward to talking more when we can,

Kind regards

Ruth

**Subject:** Re: Elizabeth Street, Redfern – Draft Aboriginal Cultural Heritage Assessment Report - Review reminder email

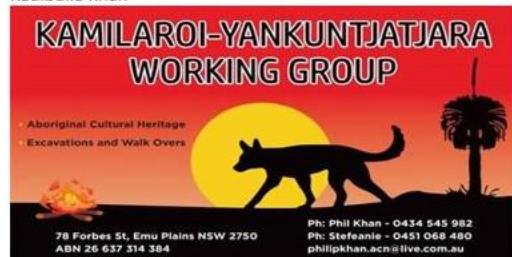

Hi Rebekah,

Thank you for your report for 600-660 Elizabeth Street, Redfern NSW (Lot 1 DP 1249145). Here at K.Y.W.G we hold over 50 years of cultural knowledge, our aspiration is to conserve our cultural heritage and our aim is to pass on cultural knowledge. Aboriginal people have walked this land for tens of thousands of years and continue to do so. We follow the water ways as they provide resource, we hold a deep connection with mother earth and we are guided by the skies. Aboriginal people would camp, hunt, gather, practice lore and followed customs all across mother earth, we protect our sacred sites such as men's and woman's sites.

The whole study area is highly significant to our people. Here at KYWG we have worked, lived in the area for over 50 years, we know the area and the stories that have been passed down. We have knowledge through consultation process and walking, working on the land. For this reason, we know and understand that the area is highly significant to our people as we occupied the land. There are water ways that hold significant to us and sky knowledge that is recognised to us. we would like to agree to your recommendations, we strongly push for salvage and we agree to your report. We look forward to working along side you on this project.

Kind Regards

Kadibulla Khan

**Subject:** ACH Test Excavation Methodology - Bradfield

Dear Ryan,

I refer to your email of Tuesday June 15 regarding the draft test excavation methodology for the Bradfield City Centre (proposed) in the Aerotropolis Core precinct.

The area lies wholly within the GLALC boundaries, and as we are a statutory body corporate responsible under the *Aboriginal Land Rights Act 1983* NSW for the protection and preservation of Aboriginal culture and heritage within our area, we expect to be both present and consulted with when the test work is expected to begin.

Given the high possibility of impact to sites at the sub-surface level, and the density of surface scatter already registered on the AHIMS for this Lot, we consider the approach to controlled excavation to be important.

Please also note that GLALC has been informed of the deposit of rare artefacts in the rural grasslands around Bringelly and Luddenham existent prior to the 2020 survey, which don't appear to be listed in the ACHAR or in the Summary here. We would appreciate meeting to speak about this at your convenience.

As a RAP and the LALC responsible for the protection of culture and heritage in the Aerotropolis core precinct we expect to be included in the test excavation from the beginning.

We look forward to hearing from you again,

Kind regards,

**Dr Ruth Sheridan**

Manager, Policy, Research & Communications

Your message couldn't be delivered to multiple recipients.

The recipients weren't found at [gmail.com](https://www.gmail.com).

rtaddeucci	Office 365	Recipients
Action Required		Recipients
Unknown To address		

Couldn't deliver to the following recipients:

gullagunarelder@gmail.com, curwurmurrelder@gmail.com, gadungelder@gmail.com, golangayaelder@gmail.com

## How to Fix It

The address may be misspelled or may not exist. Try one or more of the following:

- Send the message again following these steps: In Outlook, open this non-delivery report (NDR) and choose **Send Again** from the Report ribbon. In Outlook on the web, select this NDR, then select the link "**To send this message again, click here.**" Then delete and retype the entire recipient address. If prompted with an Auto-Complete List suggestion don't select it. After typing the complete address, click **Send**.
- Contact the recipient (by phone, for example) to check that the address exists and is correct.
- The recipient may have set up email forwarding to an incorrect address. Ask them to check that any forwarding they've set up is working correctly.
- Clear the recipient Auto-Complete List in Outlook or Outlook on the web by following the steps in this article: [Fix email delivery issues for error code 5.1.1 in Office 365](#), and then send the message again. Retype the entire recipient address before selecting **Send**.

If the problem continues, forward this message to your email admin. If you're an email admin, refer to the **More Info for Email Admins** section below.

Was this helpful? [Send feedback to Microsoft](#).

---

## More Info for Email Admins

Status code: 550 5.1.1

This error occurs because the sender sent a message to an email address outside of Office 365, but the address is incorrect or doesn't exist at the destination domain. The error is reported by the recipient domain's email server, but most often it must be fixed by the person who sent the message. If the steps in the **How to Fix It** section above don't fix the problem, and you're the email admin for the recipient, try one or more of the following:

**The email address exists and is correct** - Confirm that the recipient address exists, is correct, and is accepting messages.

**Synchronize your directories** - If you have a hybrid environment and are using directory synchronization make sure the recipient's email address is synced correctly in both Office 365 and in your on-premises directory.

**Errant forwarding rule** - Check for forwarding rules that aren't behaving as expected. Forwarding can be set up by an admin via mail flow rules or mailbox forwarding address settings, or by the recipient via the Inbox Rules feature.

**Mail flow settings and MX records are not correct** - Misconfigured mail flow or MX record settings can cause this error. Check your Office 365 mail flow settings to make sure your domain and any mail flow connectors are set up correctly. Also, work with your domain registrar to make sure the MX records for your domain are configured correctly.

For more information and additional tips to fix this issue, see [Fix email delivery issues for error code 550 5.1.1 in Office 365](#).

Fri 20/08/2021 1:23 PM

Dear Stakeholders,

Thank you for your continued participation in the Bradfield City Centre project (formerly known as the Western Sydney Aerotropolis Core Precinct, NSW). As you know, Extent sent a draft test excavation methodology on the 15 June 2021. Based on your feedback and additional information Extent has gained about historical disturbances at the site, we have significantly revised the methodology. As a result, we are sending it to you again for review.

Changes have been made to the location and spacing of test trenches. Additional trenches have been placed along Thompsons Creek, Moore Gully, and a transect in the north-western corner of the site. The revised methodology also clarifies areas of historical disturbance across the site.

If you would like to comment on the methodology, please provide feedback by **Friday 17 September**.

Kind regards,

Hannah

**Subject:** Review Draft Revised test Excavation And Methodology

Dear Hannah

Thank you for your recent email providing information to the revised Test Excavation and Methodology for Bradfield City Centre / Western Sydney Aeopolis Core Precinct.

Aragung Aboriginal Cultural Heritage Site Assessments has review the above information and agrees and supports all Test Excavation and Methodology method as stated in the above Draft Report that Extent has provided.

Aragung would like to be up dated to all future development of this project and would like to be considered for participation in archaeological test excavation .

Should Extent require Aragung Participation in Archaeological test excavation up to date insurances / pay rate /NSW Health compliance Vaccination certificates can be provided upon request . please do not hesitate to contact Aragung availability of our experience Aboriginal Site Officer (RAP)

Kind regards  
Aragung  
CO / Jamie Eastwood Leading Aboriginal Site Officer

Hi Hannah,

Thank you for your methodology for Bradfield City Centre/Western Sydney Aerotropolis Core Precinct. Here at Kamilaroi-Yankuntjatjara Working Group we aim to conserve, preserve and care for country, as we have a deep connection to country, the sky and water ways. For tens of thousands of years Aboriginal people have walked this land, Mother earth provides for us and in return we care for her.

The study area is highly significant to us Aboriginal people, especially since there are water ways within the study area and around. Aboriginal people would have and still do utilise these water ways, many daily activities would have taken place as the whole of the area, is of significance to us. Once flora fauna was thriving in this area, resource rich for the Aboriginal peoples.

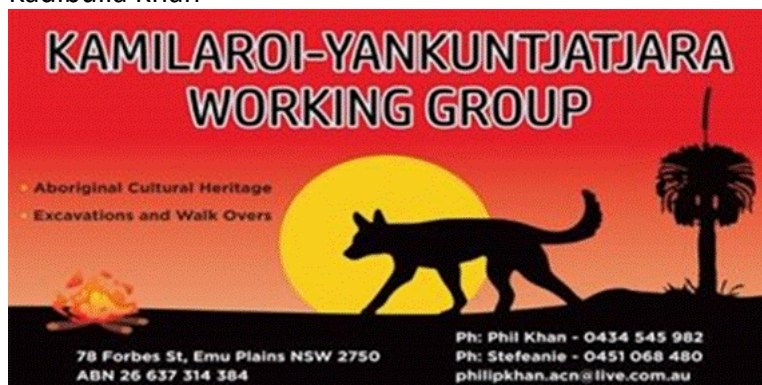

We would like to recommend further testing of the whole study area. It is important to also include an Interpretation plan for the project, this can be achieved through design, art, native gardens, apps, signage and many other ways. Interpretation is important as it is a way in which Aboriginal people are being recognised for being the one of the oldest live cultures in the world. A keeping place also should be sort for any artefacts found, to ensure they are kept on country rather than in an office on a shelf. Both keeping place and interpretation educates the wider community about Aboriginal culture and is a part of the connecting to country framework.

We would like to agree to your methodology, and we support your report, we look forward to working alongside you on this project.

We have also sent through an invoice for our review of your report.

Kind Regards

Kadibulla Khan

**Attachments:** Test Excavation Methodology 20210920.pdf

Dear Sir/Madam,

I am writing to inform you that Extent Heritage will be undertaking test excavations under the *Code of Practice* at the site of Bradfield City Centre, formerly known as Aerotropolis Core Precinct. The site is located at 215 Badgerys Creek Road, Bringelly (Lot 10, DEP 1235662).

A total of 202 test trenches (50mm by 50mm) will be placed in four locations within the study area (see attached test excavation methodology). Three of the four locations investigate PADs associated with waterways including Thompsons Creek and Moore Gully. The fourth location is an area predicted to be of low archaeological potential.

Extent Heritage will be undertaking the subsurface investigation. The excavation director will be:

**Hannah Morris**  
Senior Heritage Advisor  
Extent Heritage Pty Ltd  
02 9555 400  
0452 334 339  
[hmorris@extent.com.au](mailto:hmorris@extent.com.au)

The test excavation program is proposed to commence on **5 October 2021**. The works are expected to take four weeks, with works completed on the **5 November 2021**. However, the test excavation program may be delayed slightly or extended if there are issues with access, adverse weather, or team availability. In accordance with the test excavation methodology, all recovered Aboriginal objects will be stored in a locked cabinet at the Extent Sydney Office (3/73 Union Street, Pyrmont) until long term management can be arranged.

Kind regards,  
Hannah Morris

**Hannah Morris**

**Subject:** Bradfield City Centre Test Excavations

Dear Jamie,

Thank you for your ongoing contributions to the Bradfield City Centre project. Extent and WPCA would like to invite Arangung to participate in the test excavation program.

The test excavations will begin on Tuesday 5 October, and are anticipated to go for four weeks. This is going to be a tight timeframe for the 202 test pits proposed, but we believe it is possible!  
We would like to invite **one** member of your team to join us.

The project is located at 215 Badgerys Creek Road, Bringelly. It is in the Liverpool LGA, which is considered an **LGA of concern**.

### Requirements

- As we are considered construction workers, under the NSW list of authorised workers, your nominated worker is required to have:
  - Had 2 doses of a COVID-19 vaccine, or
  - Had one dose of a COVID-19 vaccine at least 21 days ago, or
  - Had one dose of a COVID-19 vaccine within the preceding 21 days and been tested for COVID-19 within the preceding 72 hours (3 days), or
  - A certified medical contraindication and have been tested for COVID-19 within the preceding 72 days (3 days).
- If the site is in a different government area to where you live, you must:
  - Registered your travel with Service NSW
- Workers permit:
  - Required in order to enter an LGA of concern

### Resources

- Register travel:
  - <https://www.service.nsw.gov.au/transaction/register-your-travel-within-nsw>
- Vaccination requirements:
  - <https://www.nsw.gov.au/covid-19/health-and-wellbeing/covid-19-vaccination-nsw/vaccination-for-workers>
- Authorised workers
  - <https://www.nsw.gov.au/covid-19/rules/authorised-workers>
- Face mask rule
  - <https://www.nsw.gov.au/covid-19/rules/changes/face-mask-rules>

We will send a comprehensive SWMS and Covid safety management plan over the coming fortnight.

Please let us know if you are available to be involved in the test excavation program. Please call or email if you have any concerns about how Extent will manage COVID during the fieldwork.

Kind regards,  
Hannah Morris

**Subject:** SSD-25452459 | YOUR FEEDBACK: Due diligence assessment, First Building, Bradfield City Centre

**Attachments:** WPCA\_First\_Building\_Aboriginal\_Due\_Dilligence\_Assessment\_Final.pdf

Dear Stakeholder,

We are writing to you as a registered Aboriginal party for the investigations being undertaken by Extent Heritage around the planning application for the First Building, located in the northwest corner of the Bradfield City Centre site.

The First Building will include a visitor centre as well as a dedicated space and equipment for research and industry to work together on technology projects. The first building will be sustainable and include green and open spaces. Construction of the first building should begin next year with completed on anticipated by the end of 2023, should planning consent be granted.

A due diligence assessment has been prepared for the First Building site, separate to the broader Bradfield City Centre project, as it is on a different development schedule. Please find a copy of the due diligence report attached to this email. We would welcome your feedback about the findings of the due diligence assessment by **5pm Wednesday 10 November 2021**.

Please contact me via email or phone with any enquiries.

Kind regards,  
Hannah Morris

PYRMONT. N.S.W.

Dear Hannah,

RE; FIRST BUILDING BRADFELD  
CITY CENTRE.

Thank you for the opportunity of commenting on the Due Diligence assessment for this project. The results of the test excavation that has been carried out in that area on the 5<sup>th</sup> and 6<sup>th</sup> October, 2021 have demonstrated that there is no further archaeological work required within this proposed area. The excavations within the greater area are continuing to be carried out as I write this response.

I have no further recommendations for this proposed project, that could impact on this project from not proceeding as planned.

Yours faithfully,

Glenda Chalker

Hi Hannah,

Waawaar Awaa Aboriginal Corporation supports the attached report for the archaeological assessment for the First Building of the Bradfield City Centre for the following reasons:

- There are no registered Aboriginal objects and/or places located within or in close proximity of the First Building subject area.
- The subject area is generally highly disturbed, with the removal of the upper part of natural soils leaving a thin layer of soil with low potential to contain Aboriginal objects.
- No Aboriginal objects were recovered from the test excavation.

regards

Rodney Gunther
