

## Rating details

What type of rating would you like to estimate?

Energy

Water

What type of building?

Office

Hotel

Shopping centre

Data centre

Residential aged care and retirement living

Apartment building

What is the postcode of the building?

2750

What is the scope of your rating?

Base building

Whole building

Tenancy

Enter the star rating you wish to achieve

5.5

Stars (Energy)

---

## Building details

What is the floor space of the building?

Enter the total net lettable area of office space within the building.

2689

m<sup>2</sup>

### How many hours per week is the building occupied?

Use the standard business hours of the building.

hours

---

### Energy use

#### What is the Percentage of Electricity in the total Energy Consumption?

Enter the percentage of office energy use that will be met through electricity.

%

#### What is the Percentage of Gas in the total Energy Consumption?

Enter the percentage of office energy use that will be met through gas.

%

#### What is the Percentage of Diesel in the total Energy Consumption?

Enter the percentage of office energy use that will be met through diesel.

%

## Results

Benchmarking factor at 5.5 stars NABERS Energy:	NaN
Maximum Benchmarking Emissions at 5.5 Stars NABERS Energy:	158,357.7 kgCO <sup>2</sup> -e/year
Benchmarking Emissions Intensity at 5.5 Stars NABERS Energy:	58.891 kgCO <sup>2</sup> -e/m <sup>2</sup> .year
Energy Intensity at 5.5 Stars NABERS Energy:	235 MJ/m <sup>2</sup> .year
Reporting Emissions for this office – Scope 1, 2 and 3:	139,002 kgCO <sup>2</sup> -e/year
Reporting Emissions for this office – Scope 1 and 2:	128,445 kgCO <sup>2</sup> -e/year
<b>Maximum Allowable Energy Consumption:</b>	
Target Max Electricity:	175,953 kWh per annum
Target Max Gas:	0 MJ per annum
Target Max Diesel:	0 L per annum
