Sally Brown brings to SCAPE Design over 20 years of experience working in Australia combined with earlier overseas experience in the UK & Asia. Sally has worked on a significant number of large scale projects in her career, including as lead consultant for two town parks over 10 hectares in size in Hong Kong, working as a resident landscape architect for one of these parks and a Malaysian resort, gaining valuable construction experience.

Sally has also worked on large scale infrastructure & residential projects in Australia, ranging from public domain, sub-division, residential communities and podium developments up to 7 towers. Working on a variety of projects, Sally has proven documentation skills and project delivery from masterplan & concept design through to detailed design and construction, particularly in residential, public domain and park projects.

With strong collaborative and management skills & attention to detail, combined with her work on large scale projects, Sally is a key member of the office.
