Hi

I forwarded this response to DoPE Senior Planner - Robert Byrne and received his out of office reply.

In Roberts absence please find below the NSW RFS response to recent consultation on the West Culburra SSD 3846 (previously MP 09\_0088) from the NSW DoPE.

I have also attached a copy of our previous recommended conditions provided to the DoPE for this project, letter attached dated 23 January 2014.

Please contact me if you wish to discuss further.

Regards  
Martha

Hi Robert

Apologies for the delay in getting back to you - I did try to ring you just earlier but I reached your message bank.

I believe the NSW RFS provided our recommended conditions to Kim Johnston for this project via email on the 20/2/2014 (I can re-send if required).

Nowhere in the attached response to submissions from John Toon could I locate reference to these recommended conditions from the NSW RFS.

As such, the NSW RFS provides comment to the DPE that subject to compliance with our previous recommended conditions of approval for this project, we have no further comment.

If the project will require, or seeks to amend the recommended conditions the NSW RFS previously provided, then I would request the applicant address what changes to the recommended conditions are being sought in an addendum bush fire assessment which clearly justifies why the changes are sought, and provide a copy of this to the NSW RFS to review.

Please feel free to contact me if you wish to discuss further.

Regards  
Martha
