St George Hospital Redevelopment Stage 3 (SSD-39170713)

Out-of-Hours Work (OOHW) Request, Condition C6

Dear Mr Wood

I refer to your OOHW request dated 28 October 2025 seeking the Planning Secretary's approval under condition C6(e) of SSD-39170713. I also acknowledge and thank you for your response to the Department's request for additional information.

I note the OOHW request:

- was reviewed by the Applicant, and no issues were raised to the Department;
- is for investigative works involving saw-cutting to locate existing conduit lines, testing the cable pathway design, and backfilling the excavated areas upon completion;
- is required to avoid daytime disruption to the intersection of Kensington and Belgrave Street and minimise impact on the community movement in the area;
- is only for 1 night from 8pm Sunday 16 November to 4am Monday 17 November 2025; and
- has been submitted to the Secretary before conducting the OOHW.

As nominee of the Planning Secretary, I approve the OOHW request under condition C6(e) of SSD-39170713, subject to the following:

1. OOHW may be carried out for investigative works involving saw-cutting to locate existing conduit lines, testing the cable pathway design, and backfilling the excavated areas upon completion, for only 1 night from 8pm Sunday 16 November to 4am Monday 17 November 2025 with back up contingency dates:
 - 8pm Sunday 23 November to 4am Monday 24 November 2025, or
 - 8pm Monday 24 November to 4am Tuesday 25 November 2025
2. Notifying the affected residents via emails / letter drops, about the upcoming works and changes to work hours, prior to the commencement of OOHW, as specified in Section 9 of the After-Hours Construction Noise and Vibration Management Plan (AHCNVMP), Revision 0 dated 14 October 2025, prepared by Acoustic Logic.
3. Providing affected residents, the contact details including phone number of the Site Manager so that safety and/or environmental concerns, if any, can be lodged and responded to promptly.
4. Must be implementing all noise control measures and processes including the relevant staff/employee induction and supervision as specified under Sections 9, 10, and 11 (if triggered) of the AHCNVMP, Revision 0 dated 14 October 2025, prepared by Acoustic Logic.

5. Managing any community complaints or concerns as specified in Section 12 of the AHCNVMP, Revision 0 dated 14 October 2025, prepared by Acoustic Logic.

The Department may review this or future OOHW requests, should there be noise, parking, pedestrian/cycling movement, or traffic complaints, or if the complaints are not addressed in a timely manner or the works are not implemented as per the approved OOHW request.

Please make the approved OOHW request with supporting documents available for public access on the project website at the earliest convenience.

Also, please note that if there are any inconsistencies between the approved OOHW request and the conditions of consent, the conditions will prevail.

If you have any questions, please contact Matt Wood at matthew.wood@dpie.nsw.gov.au.

Yours sincerely
