**St George Hospital Redevelopment Stage 3 (SSD-39170713)
Operational Noise Monitoring Report, Condition E4**

Dear Ms Saunders

I refer to the Post Completion Mechanical Plant Noise Compliance Testing (the report) submitted to the Planning Secretary in accordance with Condition E4 of SSD-39170713 (as modified). I acknowledge and thank you for your response to the Department's review comments, and request for additional information.

I note that the report:

- was reviewed by the Applicant, and no issues were raised to the Department;
- summarises the methodology for monitoring noise emissions; and
- assesses the results of the monitoring outcomes to determine compliance with operational noise criteria.

Accordingly, the Department has filed the Post Completion Mechanical Plant Noise Compliance Testing, Revision 1 dated 7 April 2026, prepared by Acoustic Logic Pty Ltd, for our information as per Condition E4 of SSD-39170713.

Please ensure you make the monitoring report available for public access on the project website at the earliest convenience.

If you wish to discuss the matter further, please contact Hala Fua at hala.fua@planning.nsw.gov.au.

Yours sincerely

Department of Planning, Housing and Infrastructure
