Subject: BlueScope Metal Coating Line 7 (SSD-45510464) - Out of Hours Construction Request

Dear Mr Vuckovic

I refer to your letter dated 5 September 2024, requesting out of hours construction in accordance with Condition B24 of Schedule 2 of SSD-45510464. I also acknowledge your response to the Department's review comments and request for additional information.

The Department has reviewed the request including the Out of Hours Works – Construction Noise and Vibration Assessment (OOHW – CNVA) prepared by SLR Consulting Australia, dated 3 September 2024. The Department also notes that the Construction Environmental Management Plan and relevant sub-management plans required under Condition C3 of Schedule 2 of the consent have been updated to account for out of hours construction works.

The Department has carefully reviewed the request and is satisfied that the proposed out of hours construction works will have a negligible impact on surrounding sensitive residential receivers and the local amenity.

Therefore, the out of hours construction works specified in your letter dated 5 September 2024 and the OOHW – CNVA prepared by SLR Consulting Australia, dated 3 September 2024 are approved accordingly:

- For a total of 15 Saturdays prior to end of December 2024, from 1 pm to 3 pm; and
- For a total of 15 Sundays prior to end of December 2024, from 8 am to 3 pm.

The Department reminds you that the construction works and activities to be undertaken during the out of hours period, are limited to the works and activities identified in the request and supporting OOHW – CNVA.

Please ensure you make all documents publicly available on the project website at the earliest convenience.

If you wish to discuss the matter further, please contact Shaun Williams on (02) 8275 1345 or shaun.williams@planning.nsw.gov.au.

Yours sincerely
