Subject: The Cutaway Cultural Facility, Barangaroo - Notification of Unexpected Finds - Contamination

Dear Mr Henry

Reference is made to your post approval matter, SSD-47498458-PA-6, Notification of Unexpected Finds - Contamination, submitted as required by Condition C42 and C44 of SSD-47498458 as modified (the consent) to the NSW Department of Planning, Housing and Infrastructure (the Department) on 6 June 2024.

The Department has carefully reviewed the Notification of Unexpected Finds and supporting documents and is satisfied that:

- the Unexpected Finds Protocol, as outlined in the approved CEMP, has been implemented.
- in accordance with Condition D43, the identified asbestos has been removed safely, following the relevant legislation.
- given that the contamination was isolated and most of the work involves internal alterations, the previous conclusions about site contamination remain valid, and the recent findings do not alter the conclusions in the EIS.

Accordingly, the Planning Secretary is satisfied that works can recommence on the site.

Should you wish to discuss the matter further, please contact Annika Hather (Senior Planning Officer) on 02 9995 6662 or email at annika.hather@planning.nsw.gov.au.

Yours sincerely
